The Cultural Gutter Carol Borden,Chris Szego,Ian Driscoll,2011 Science fiction, fantasy, comics, romance, genre movies, games all drain into the Cultural Gutter, a website dedicated to thoughtful articles about disreputable art-media and genres that are a little embarrassing. Irredeemable. Worthy of Note, but rolling like errant pennies back into the gutter. The Cultural Gutter is dangerous because we have a philosophy. We try to balance enthusiasm with clear-eyed, honest engagement with the material and with our readers. This book expands on our mission with 10 articles each from science fiction/fantasy editor James Schellenberg, comics editor and publisher Carol Borden, romance editor Chris Szego, screen editor Ian Driscoll and founding editor and former games editor Jim Munroe.

The Small Community Arthur E. Morgan,2017-07-28 In this age of large cities, mass culture, and ever more massive events, people must struggle against an overwhelming crowd of their own creations to maintain human integrity. In this manual for human survival, Arthur E. Morgan offers a solution: peaceful existence in the small, primary community where, more easily than anywhere else, people can find a way to live well. Ultimately striving to show that the small community is the lifeblood of civilization, this volume examines the political organization, membership, economics, health, and ethics characteristics of small communities.Like Rousseau before him, Morgan observes that we have less control over our affairs than in the past. In increasing our control of the natural environment, human beings have built a social environment so out of scale that it becomes nearly impossible for people to maintain balance. The struggle

now is less with the natural order than with the social order, and preserving human integrity against the plethora of our own creations is the core problem.The need to rediscover elementary forms of human existence has been accelerated by the efficiencies of centralized control and mass persuasion. In the face of this, small communities or intimate groups become the primary pattern in which human beings must live if the good life is to be a realistic goal. The timely nature of this volume has grown as the electronic displaces the mechanical as a moral rival to human community.

Arthur Morgan Aaron D. Purcell,2014-11-28 On May 19, 1933, President Franklin D. Roosevelt announced the appointment of Arthur Morgan (1879-1975), a water-control engineer and college president from Ohio as the chairman of the newly created Tennessee Valley Authority (TVA). With the eyes of the nation focused on the reform and recovery promised by the New Deal, Morgan remained in the national spotlight for much of the 1930s in this thoughtful biography Aaron D. Purcell re-assesses Morgan's long life and career and provides the first detailed account of his post-TVA activities. As Purcell demonstrates, Morgan embraced an alternative types of Progressive Era reform that was rooted in nineteenth-century socialism, an overlooked strain in American political thought. Purcell Pinpoints Morgan's reading of Edward Bellamy's Looking Backward while a teenager as a watershed moment in the development of his vision for building modern American society. He recounts Morgan's early successes as an engineer budding Progressive-leader, and educational reformer his presidency of Antioch College, and his revolutionary but contentious tenure at the TVA After his dismissal from the TVA Morgan eventually published over a dozen books, including a

biography of Bellamy, while supporting community-building efforts across the globe, Morgan retained many of his late-nineteenth century beliefs, including eugenics, as part of his societal vision. His authoritarian administrative style and moral rigidity limited his ability of attract large numbers to his community-based vision. By presenting Morgan's life and career within the context of the larger social and cultural events of his day, this revealing biographical study offers new insight into the achievements and motivations of an important but historically neglected American reformer. Agrarian Crossings Tore C. Olsson,2020-11-03 In the 1930s and 1940s, rural reformers in the United States and Mexico waged unprecedented campaigns to remake their countrysides in the name of agrarian justice and agricultural productivity. Agrarian Crossings tells the story of how these campaigns were conducted in dialogue with one another as reformers in each nation came to exchange models, plans, and strategies with their equivalents across the border. Dismantling the artificial boundaries that can divide American and Latin American history, Tore Olsson shows how the agrarian histories of both regions share far more than we realize. He traces the connections between the US South and the plantation zones of Mexico, places that suffered parallel problems of environmental decline,

rural poverty, and gross inequities in land tenure. Bringing this tumultuous era vividly to life, he describes how Roosevelt's New Deal drew on Mexican revolutionary agrarianism to shape its program for the rural South. Olsson also looks at how the US South served as the domestic laboratory for the Rockefeller Foundation's "green revolution" in Mexico—which would become the most important Third World development campaign of the twentieth century—and how the Mexican government attempted to replicate the hydraulic development of the Tennessee Valley Authority after World War II. Rather than a comparative history, Agrarian Crossings is an innovative history of comparisons and the ways they affected policy, moved people, and reshaped the landscape.

The Spycraft Merchant -Volume Five Arthur C. Morgan,2024-01-09 The Spycraft Merchant Volume Five is the final end to a twenty eight career to the unscrupulous efforts from a small group of zealous fanatical persecuting federal agents and prosecutor. The spycraft merchant was targeted because he misrepresented where his body armor and helmets were manufactured on a federal form, but the real motivation was the ideological premise that they couldn't tolerate an x- offender functioning as a security professional. The false narrative that was created motivated the author to write his autobiography to have some way to ensure that his story was told. He has been on house arrest for over three years while awaiting sentencing on a plea bargain agreement and in that time he completed a bachelor's degree in psychology and is currently working towards his masters. He also has written a number of criminal justice reform recommendations that are included in the appendix of the final volume.

The Ride Down Mt. Morgan Arthur Miller,1999-09-01 A car wreck on the slopes of Mt. Morgan puts poet and insurance tycoon Lyman Felt in the hospital. While Lyman recovers, two women meet in the hospital to discover that they are both married to him. With his secrets exposed, Lyman tries to justify himself to the two women--the prim, cultured Theo and the restless, ambitious Leah--at the

same time hoping to convince himself that he is blameless. Moving between broad farce and delicate tragedy, The Ride Down Mt. Morgan reveals the struggle between honesty with others and honesty with oneself. This new edition incorporates the revisions Miller wrote for the acclaimed 1998 Public Theatre production starring Patrick Stewart.
