Thad Edward Hall

Authorizing Policy Thad E. Hall,2004 This book examines how short-term authorizations create periods of policy stability, when implementation can occur, by allowing policies to be reconsidered only when an authorization expires. This simple procedural mechanism allows Congress to state when certain aspects of a law - such as authorizations of appropriations - will expire. By doing this, Congress creates a schedule for when a given policy will be considered and systematically steers the management of public programs by changing the resources and tools available to policy implementers.--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. All Rights Reserved

Authorizing Words Martin Elsky,2019-05-15 Martin Elsky here illuminates the complex interplay of linguistic theory and textual representation in English Renaissance writing. Drawing on a wide range of materials, both literary and nonliterary, Elsky focuses on the impact of speech-oriented and writing-dominated theories of language on textual practice. Among the texts Elsky discusses are Herbert's *The Temple*, Bacon's *Magna Instauratio*, Burton's *Anatomy of Melancholy*, Jonson 's lyrics, and works by Lily, Colet, Ascham, and Elyot. In showing how speech, writing, and print suggest contrasting foundations for the authority of language, Elsky considers such topics as the competing concepts of textuality in humanist literature and in hieroglyphic poetry; the authenticity of writing and the distortions of speech in scientific prose works; the social context of printing scientific prose; and the use of print to create the infinitely expandable text of philosophical skepticism. A provocative application of contemporary literary theory to the historical analysis of texts, *Authorizing Words* will interest readers in such disciplines as Renaissance studies, theory of language, historical linguistics, history of science, and the history of communication.

Authorizing Policy Thad Edward Hall,2004 This book examines how short-term authorizations create periods of policy stability, when implementation can occur, by allowing policies to be reconsidered only when an authorization expires.
