Unmasking the Devil John Ramirez,2015-10-20 Satanist-Turned-Evangelist Gives You the Inside Strategy to Defeat the Devils Plans! Many people, even Christians, deny the devils power. John Ramirez doesnt have that luxuryhe experienced the prince of darkness up close and personal. In the impoverished streets of the South Bronx, John Ramirez found acceptance from a family of witches and warlocks. These practitioners of dark arts trained him to be a high-ranking satanic priestess story told in his first book, *Out of the Devils Cauldron*. However, everything changed when he met the living Christ. In *Unmasking the Devil*, John Ramirez shares an insider view of how satan operates so you can avoid his traps and learn how to: discern between the voice of God that directs to victory and satans voice that leads to destruction. close the demonic doors satan uses to enter your life: entertainment, unhealthy relationships, greed, and false religion. activate the spiritual weapons of prayer, intercession, and Scripture to render hell powerless over your life. recognize how the spirits of Jezebel and Delilah attempt to infiltrate the church, create disunity, and render Gods people powerless. No army goes into battle without first knowing the tactics of their enemy. Receive behind-the-scene glimpses of satans strategies and equip yourself to live victoriously over the powers of darkness! Spiritual warfare is a must for every Christian if they are going to survive in the coming years, says John Ramirez. Its time to stop playing patty-cake with the devil and learn how to put hell on notice.

*Standing Up to Colonial Power* Renya K. Ramirez, 2018-12-01 Standing Up to Colonial Power focuses on the lives, activism, and intellectual contributions of Henry Cloud (1884–1950), a Ho-Chunk, and Elizabeth Bender Cloud (1887–1965), an Ojibwe, both of whom grew up amid settler colonialism that attempted to break their connection to Native land, treaty rights, and tribal identities. Mastering ways of behaving and speaking in different social settings and to divergent audiences, including other Natives, white missionaries, and Bureau of Indian Affairs officials, Elizabeth and Henry relied on flexible and fluid notions of gender, identity, culture, community, and belonging as they traveled Indian Country and within white environments to fight for Native rights. Elizabeth fought against termination as part of her role in the National Congress of American Indians and General Federation of Women's Clubs, while Henry was one of the most important Native policy makers of the early twentieth century. He documented the horrible abuse within the federal boarding schools and co-wrote the Meriam Report of 1928, which laid the foundation for the Indian Reorganization Act of 1934. Together they ran an early college preparatory Christian high school, the American Indian Institute. Standing Up to Colonial Power shows how the Clouds combined Native warrior and modern identities as a creative strategy to challenge settler colonialism, to become full members of the U.S. nation-state, and to fight for tribal sovereignty. Renya K. Ramirez uses her dual position as a scholar and as the granddaughter of Elizabeth and Henry Cloud to weave together this ethnography and family-tribal history.

**Not My Secret** Kara Ramirez, 2022-03-10 It's "not her secret to keep." **Out of the Devil's Cauldron** John Ramirez, 2012 Have you ever wondered if Satan is real? In his book Out of the Devil's Caldron: A Journey from Darkness to Light, John Ramirez tells the story of how he was trained to be the third-ranked high priest of a satanic cult in New York City—casting powerful witchcraft spells and controlling entire spiritual regions. But what started as a long spiral into the underworld ended in a miraculous encounter with Jesus Christ that changed the course of his life. Let John Ramirez walk you through the dark alleys of this world as he uncovers the hidden secrets of darkness through his powerful testimony. People from all ethnic backgrounds dabble in the occult and fall victim to this satanic underworld, never seeing the way out. John Ramirez is one in a million who made it out. John Ramirez's home church for the past nine years has been Times Square Church in New York, founded by David Wilkerson. John has been blessed with the opportunity not only to attend there and sit under the Word and mature spiritually, but the Lord opened the door through the security ministry to form a tight bond between him and Pastor Dave. For two and a half years John had the privilege and blessing to walk with Pastor Dave, and he became a spiritual father to John. He prayed with him, laid hands on him, and even read the manuscript of Out of the Devil's Cauldron before the book was published, giving his blessing. Pastor Dave was so touched by John's testimony that one night he brought him up on stage to have him share his story with the congregation. In the 1950s, Pastor Dave had a young Nicky Cruz in his life. When Nicky told Pastor Dave I will cut you into a thousand pieces, through the Holy Spirit Pastor Dave said, Nicky, if you cut me into a thousand pieces, all one thousand pieces would say 'Jesus loves you.' Many years later, David Wilkerson through the Holy Spirit said to John Ramirez, I see Jesus in you. And those words forever changed John's life, to go minister anywhere in the world. Today, John Ramirez says, Thank you, Pastor Dave, for seeing Jesus in me. John Ramirez is a sought-out speaker by many who want to hear of his involvement in the highest levels of the occult and how he got out. He speaks at churches, schools, rallies, and conferences--both secular and Christian--and has been a featured guest on TV and radio programs. He can be reached at JohnRamirez.org

*What it Means to be a Man* Rafael L. Ramírez, 1999 What It Means to Be a Man begins with a discussion of machismo set in the context of the social construction of masculinity. Ramírez presents his interpretation of what it means to be a Puerto Rican man, discussing the attributes and demands of masculinity, and pointing out the ways in which strength, competition, and sexuality are joined with power and pleasure. He examines the erotic relationships between men as part of the expressions of masculinity, and analyzes how the homosexual experience reproduces the dominant masculine ideology.

*The Alchemy of Us* Ainissa Ramirez, 2021-04-06 A "timely, informative, and fascinating" study of 8 inventions—and how they shaped our world—with "totally compelling" insights on little-known inventors throughout history (Elizabeth Kolbert, Pulitzer Prize-winning author of *The Sixth Extinction*) In *The Alchemy of Us*, scientist and science writer Ainissa Ramirez examines 8 inventions and reveals how they shaped the human experience: • Clocks • Steel rails • Copper communication cables • Photographic film • Light bulbs • Hard disks • Scientific labware • Silicon chips Ramirez tells the stories of the woman who sold time, the inventor who inspired Edison, and the hotheaded undertaker whose invention pointed the way to the computer. She describes how our pursuit of precision in timepieces changed how we sleep; how the railroad helped commercialize Christmas; how the necessary brevity of the telegram influenced Hemingway's writing style; and how a young chemist exposed the use of Polaroid's cameras to create passbooks to track black citizens in apartheid South Africa. These fascinating and inspiring stories offer new perspectives on our relationships with technologies. Ramirez shows not only how materials were shaped by inventors but also how those materials shaped culture, chronicling each invention and its consequences—intended and unintended. Filling in the gaps left by other books about technology, Ramirez showcases little-known inventors—particularly people of color and women—who had a significant impact but whose accomplishments have been

hidden by mythmaking, bias, and convention. Doing so, she shows us the power of telling inclusive stories about technology. She also shows that innovation is universal—whether it's splicing beats with two turntables and a microphone or splicing genes with two test tubes and CRISPR.

**Bound by Blood** Edmundo Ramirez, Ken Wade, 2015-05-12 Edmundo Ramirez became a made man by putting in work for his masters in the gang-controlled neighborhoods of northeast Los Angeles and the jails and prisons of California, shooting and stabbing his way to the top. His street name Bala-Spanish for Bullet-reflected his willingness to use powder and lead in his climb up the corporate crime ladder. For 30 years he served a higher power that did not care about him. He became a made man for that higher power, but what he really needed was to be remade by the true Higher Power, God. *Bound by Blood* tells the amazing story of how a man who didn't believe in the power of God, but did believe in the power of bullets, became a missionary and anger-management counselor, helping others escape a life of crime.

*Energy Storage Systems and Power Conversion Electronics for E-Transportation and Smart Grid* Sergio Saponara, Lucian Mihet-Popa, 2020-12-02 This is a reprint in book form of the *Energies* MDPI Journal Special Issue, entitled "Energy Storage Systems and Power Conversion Electronics for E-Transportation and Smart Grid". The Special Issue was managed by two Guest Editors from Italy and Norway: Professor Sergio Saponara from the University of Pisa and Professor Lucian MIHET-POPA from Østfold University College, in close cooperation with the Editors from *Energies*. The papers published in this SI are related to the emerging trends in energy storage and power conversion electronic circuits and systems, with a specific focus on transportation electrification, and on the evolution from the electric grid to a smart grid. An extensive exploitation of renewable energy sources is foreseen for the smart grid, as well as a close integration with the energy storage and recharging systems of the electrified transportation era. Innovations at the levels of both algorithmic and hardware (i.e., power converters, electric drives, electronic control units (ECU), energy storage modules and charging stations) are proposed. Research and technology transfer activities in energy storage systems, such as batteries and super/ultra-capacitors, are essential for the success of electric transportation, and to foster the use of renewable energy sources. Energy storage systems are the key technology to solve these issues, and to increase the adoption of renewable energy sources in the smart grid.

*The Resurrection of Fulgencio Ramirez* Rudy Ruiz, 2020-09-22 In the 1950s, tensions remain high in the border town of La Frontera. Penny loafers and sneakers clash with boots and huaraches. Bowling shirts and leather jackets compete with guayaberas. Convertibles fend with motorcycles. Yet amidst the discord, young love blooms at first sight between Fulgencio Ramirez, the son of impoverished immigrants, and Carolina Mendelssohn, the local pharmacist's daughter. But as they'll soon find out, their bonds will be undone by a force more powerful than they could have known. Thirty years after their first fateful encounter, Fulgencio Ramirez, RPh, is conducting his daily ritual of reading the local obituaries in his cramped pharmacy office. After nearly a quarter of a century of waiting, Fulgencio sees the news he's been hoping for: his nemesis, the husband of Carolina Mendelssohn, has died. A work of magical realism, *The Resurrection of Fulgencio Ramirez* weaves together the past and present as Fulgencio strives to succeed in America, break a mystical family curse, and win back Carolina's love after their doomed youthful romance. Through enchanting language and meditations about the porous nature of borders—cultural, geographic, and otherworldly—*The Resurrection of Fulgencio Ramirez* offers a vision of how the past has divided us, and how the future could unite us.

*When You Had Power (Nothing is Promised 1)* Susan Kaye Quinn, 2020-11-24 For better, for worse. In sickness and in health. It's a legal vow of care for families in 2050, a world beset by waves of climate-driven plagues. Power engineer Lucía Ramirez long ago lost her family to one—she'd give anything to take that vow. The Power Islands give humanity a fighting chance, but tending kelp farms and solar lilies is a lonely job. The housing AI found her a family match, saying she should fit right in with the Senegalese retraining expert who's a force of nature, the ex-Pandemic Corps cook with his own cozy channel, and even the writer who insists everything is stories, all the way down. This family of literal and metaphorical refugees could be the shelter she's seeking from her own personal storm. She needs this one to work. Then an unscheduled power outage and a missing turtle-bot crack open a mystery. Something isn't right on Power Island One, but every step she takes to solve it, someone else gets there first—and they're determined to make her unsee what she's seen. Lucía is an engineer, not a detective, but fixing this problem might cost her the one thing she truly needs: a home. *When You Had Power* is the first of four tightly-connected hopepunk novels in a near-future climate-fiction series. It's about our future, how society will shift and flex like a solar lily in the storms of our own making, and how breaks in the social fabric have to be expected, tended to, and healed. Because we're in this together, now more than ever before. If you enjoyed the optimistic climate solutions in Kim Stanley Robinson's *Ministry for the Future* or the cozy cooperative future in Becky Chambers' *Monk and Robot* series, you will enjoy *Nothing is Promised*. Keywords: hopepunk, climate fiction, Puerto Rico, Puerto Rican, Latino, Hispanic, solarpunk, climate change, climate crisis, solar energy, green energy, clean energy, global warming, pandemic, plague, underwater adventure, kelp farming, fusion engineering, wind energy, literary science fiction, mystery, suspense, hard science fiction, dystopian, heroine's journey
