This Is New York Miroslav Sasek,2003-05-30 With the same wit and perception that distinguished his stylish books on Paris, London, and Rome, M. Sasek pictures fabulous, big-hearted New York City in *This Is New York*, first published in 1960 and now updated for the 21st century. The Dutchman who bought the island of Manhattan from the Native Americans in 1626 for twenty-four dollars' worth of handy housewares little knew that his was the biggest bargain in American history. For everything about New York is big -- the buildings, the traffic jams, the cars, the stories, the Sunday papers. Here is the Staten Island Ferry, the Statute of Liberty, MacDougal Alley in Greenwich Village, Times Square, Rockefeller Center, Harlem, Chinatown, Central Park. The brass, the beauty, the magic, *This Is New York*!

Becoming Duchess Goldblatt Anonymous,Duchess Goldblatt,2020 Part memoir and part joyful romp through the fields of imagination, the story behind a beloved pseudonymous Twitter personality reveals how a writer deep in grief rebuilt a life worth living.

Developing Successful Global Strategies for Marketing Luxury Brands Mosca, Fabrizio,Casalegno, Cecilia,Gallo, Rosalia,2021-03-26 In recent times, the advent of new technologies, the concerns about sustainability, and the new tastes of the youngest generations of luxury consumers have affected the traditional dynamics of the luxury goods markets. These emerging issues have caused significant changes in the marketing of luxury goods. Sustainable development is not a new practice in the luxury market but is of increasing importance. The real challenge is for luxury companies to overcome the residual corporate social responsibility perspective to embrace a real integration of environmental, ethical, and social concerns into the corporate strategy. Integrated output and sustainable processes, the introduction of non-financial reporting as operational practice, and a new orientation to circular economy practices are emerging issues that still today request for a deeper exploration both on the academic and managerial point of view. Digitalization is another relevant issue that is reshaping the business model of luxury companies. Big data, blockchain, omnichannel experience, and digital customer experience represent the main digital challenges that luxury brand companies are facing nowadays. Luxury brands must keep up with these digital demands and sustainability concerns to maintain their position in the global market. *Developing Successful Global Strategies for Marketing Luxury Brands* upgrades the most relevant theoretical frameworks and empirical research about the marketing of luxury goods. This book is focused on contemporary issues affecting luxury industries such as digital transformation (blockchain, big data, analytics, innovation processes), sustainable development, changes in luxury consumers' behavior, integration between physical and online channels, and the development of social media marketing strategies. Chapters will cover areas of marketing, management, buyer behavior, and international business, creating a multidisciplinary approach for this book. This book is ideal for scholars, local government agencies and public bodies, managers, luxury business owners, along with practitioners, stakeholders, researchers, academicians, and students who are interested in emerging issues affecting the luxury market, such as sustainability and digital transformation.

Palm Angels Francesco Ragazzi,2014-09-16 Featuring large-format photographs of skaters in Venice Beach and Manhattan Beach, *Palm Angels* is the definitive book on the L.A. skateboarding scene, capturing the style and street culture of the world's most elite communities of skaters. Photographed by Francesco Ragazzi, the Italian art director of Moncler, *Palm Angels* features a special focus on the look and fashions of skate culture. While it emphasizes dramatic movement through stunning images taken in various Los Angeles neighborhoods, it is less focused on describing tricks as it is about conveying the sensation of men and women engaged in an epic, all-consuming activity. Through art photography, this book hopes to do for skating what Bruce Weber and others did for surf culture, elevating it from what once was an exclusive and localized American pastime to a far-reaching cultural phenomenon. In the spirit of the photography taken of the legendary Z-boys of Dogtown, Ragazzi provides readers with a firsthand glimpse into skateboarding in its modern form, still very much infused with effortless style. *Palm Angels* includes an introduction by Pharrell Williams (known to the skate community as Skateboard P), who has been instrumental in popularizing the skate look and has propelled it all the way to the high streets of fashion capitals like Paris, New York, and Tokyo.

A Nasty Bit of Rough David Feherty,2003-02-25 Over the years, readers of *Golf* magazine have come to know and love Major General (Ret.) Sir Richard Gussett, the raucous imaginary uncle featured in David Feherty's column *Sidespin*. In this first volume of his misadventures, Gussett sets his sights on the most prestigious prize in golf, the petrified middle finger of St. Andrew, patron saint of Scotland. Presiding over the world's most cantankerous golf club, Gussett must motivate his members through battles with incontinence, single malt Scotch, and a litany of other unmentionable afflictions in a friendly competition with their ancient rivals, the notorious McGregor clan. Anyone who loves the game or knows someone who does will be unable to resist Feherty's hilarious storytelling and golfing gravitas.

When the Crisis Becomes an Opportunity Paola Paoloni,Rosa Lombardi,2023-03-16 This edited volume analyzes how the COVID-19 crisis could be transformed into opportunities for those organizations that correctly interpret the change, adapt their strategies accordingly, and increase their chances of success in a post-pandemic scenario. Through this lens, the female role and contribution to recovery are analyzed and discussed in the economic, financial and social context. Even if many aspects set the COVID-19 crisis apart from the latest global financial crises – such as the unusual shutdown of businesses in specific sectors, social distancing regulations, and general uncertainty sparked by the pandemic – the challenges facing all organizations in the current recovery phase can present an opportunity for extraordinary growth and development in Europe. The focus of the contributions gathered here is not on “counting” the damages and losses but rather on monitoring the recovery and on emerging instruments to support national and global economic recovery, while paying special attention to women's role in it.

Fictional Alignment Mike French,2018-02-02 Our culture is generated by machines. It's ten years after Android Writer PD121928 from *An Android Awakes* was fed into a sink grinder by its replacement

PD121929. The human prostitute Sapphira, believing PD121929 to be PD121928 for all that time, has tried and failed to save PD121929 from being destroyed for selling less than a hundred copies of its novel. Sapphira herself has written the bestselling novel Humans (An Arrangement of Minor Defects) based on the stories PD121928 told her on the night they first met. It has been marketed by Altostratus as the first work of fiction by a human for over a hundred years. Unhappy, a handful of zealot androids massacre the senate and a new regime is formed fuelled with a passion to eradicate the evil of fiction from android society.

The Right Sensory Mix Diana Derval,2022-04-08 Many companies fail to acknowledge and analyze disparities observed among customers and simply put them down to culture or emotion. New neuroendocrinological research proves that people are rational: They just have a different biological perception of the same stimulus. Their preferences, behavior, and decisions are strongly influenced by the hundreds of millions of sensors monitoring their body and brain. People with more taste buds are, for example, sensitive to bitterness and are more likely to drink their coffee with sugar or milk, or to drink tea. This book helps product managers, marketers, and corporate decision-makers understand and predict customers' behavior and preferences. It provides the tools to design the right sensory mix (color, shape, depth, taste, smell, texture, and sound) for each product, and fine-tune their positioning and range for every local market. Using cases from different sectors, the author shows that this approach delivers planet and people-friendly innovations which have a higher chance of success in the market.

The Fashion Business Dario Golizia,2021-07-18 This book provides a clear understanding of the different business strategies and models across all markets of the fashion industry. Providing a holistic and practical approach to strategic fashion management and marketing, the book covers brand image, supply chain, communication, price point and social media. Based on examples from international organisations - including Off-White, Nike and Zara, as well as leading luxury brands - the author identifies 13 core market sectors and explores the strategies applied in each: from creativity to their supply chain and sustainability, from segmentation strategy to brand policies and from pricing to distribution. Each chapter includes features to aid student learning, including interviews with a wide range of experts from across the industry as well as student activities and reflection points. Theoretically grounded yet practical in its approach, this is important reading for advanced undergraduate and postgraduate students of Strategic Fashion Management, Fashion Marketing and Communications, Fashion Merchandising and Luxury Fashion.

Pharrell: A Fish Doesn't Know It's Wet Pharrell Williams,2018-10-31 Following Rizzoli's best-selling Pharrell: Places and Spaces I've Been, this volume documents the continuing adventures in art and design of one of the most influential figures in contemporary music and popular culture. Lavishly illustrated with 250 photographs and illustrations, this book features Pharrell Williams's prolific and ever-expanding body of work in a graphic language all his own. Straddling art, design, and hip-hop, Pharrell's creative output is without peer or precedent. By playing off different disciplines—music, fashion, and contemporary art—Pharrell has redefined the role of the contemporary artist, blazing a trail for other musicians and cultural figures. Expanding on themes covered in Places and Spaces I've Been, this book gathers a new group of collaborators. Engaging Pharrell in conversation, talents as diverse as Karl Lagerfeld and Takashi Murakami position Pharrell's work within contemporary visual and material culture. The worldwide success of the song "Happy" to his soundtrack and production credit for the Oscar-nominated film Hidden Figures bookend a volume devoted to Pharrell's mastery of artistic collaboration. Featuring work with artists as diverse as JR, Alex Katz, Mr., and Daniel Arsham, the book highlights recent projects and designs for Chanel, Moncler, Moynat, and Adidas. But at the heart is the visual language that Pharrell has built around his Ice Cream/Billionaire Boys Club clothing line, which integrates streetwear into the design of apparel, accessories, limited-edition toys, and skate graphics. This alone makes the book a must-have collectible.

In Sensorium Tanaïs,2022-02-22 The 2022 Kirkus Prize Winner for Nonfiction Fragrance has long been used to mark who is civilized and who is barbaric, who is pure and who is polluted, who is free and who is damned— Focusing their gaze on our most primordial sense, writer and perfumer Tanaïs weaves a brilliant and expansive memoir, a reckoning that offers a critical, alternate history of South Asia from an American Bangladeshi Muslim femme perspective. From stories of their childhood in the South, Midwest, and New York; to transcendent experiences with lovers, psychedelics, and fragrances; to trips home to their motherland, Tanaïs builds a universe of memories and scent: a sensorium. Alongside their personal history, and at the very heart of this work, is an interrogation of the ancient violence of caste, rape culture, patriarchy, war, and the inherited ancestral trauma of being from a lush land constantly denuded, a land still threatened and disappearing because of colonization, capitalism, and climate change. Structured like a perfume—moving from base to heart to head notes—IN SENSORIUM interlaces eons of South Asian perfume history, erotic and religious texts, survivor testimonies, and material culture with memoir. In Sensorium is archive and art, illuminating the great crises of our time with the language of Liberation.

Good Intentions Kasim Ali,2022-03-08 Absorbing, compelling, and beautifully written. Its ending brought me close to tears. —Beth O'Leary, bestselling author of The Flatshare For fans of The Big Sick and Nick Hornby—a magnetic debut novel about a young man who has hidden a romance from his parents, unable to choose between familial obligation and the future he truly wants. If love really is a choice, how do you decide where your loyalties lie? It's the countdown to the New Year, and Nur is steeling himself to tell his parents that he's seeing someone. A young British Pakistani man, Nur has spent years omitting details about his personal life to maintain his image as the golden child. And it's come at a cost. Once, Nur was a restless college student, struggling to fit in. At a party, he meets Yasmina, a beautiful and self-possessed aspiring journalist. They start a conversation—first awkward, then absorbing. And as their relationship develops, so too does Nur's self-destruction. He falls deeper into traps of his own making, attempting to please both Yasmina and his family until he must finally reveal the truth: Yasmina is Black, and he loves her. Deftly transporting readers between that first night and the years beyond, Kasim Ali's Good Intentions exposes with unblinking authenticity the complexities of immigrant families and racial prejudice. It is a crackling, wryly clever depiction of standing on the precipice of adulthood, piecing together who it is you're meant to be.

Consumption, Production, and Entrepreneurship in the Time of Coronavirus Elena Gallitto,Marta Massi,Paul Harrison,2022-04-22 This book examines the impact of the continuing COVID-19 crisis on consumers and businesses. With stay-at-home orders and social distancing measures mandated by governments worldwide, businesses have made significant adjustments to adapt to the sudden changes caused by the pandemic. The book aims to understand what settling and thriving in the "new normal" have meant for businesses around the world. This book is divided into sections on production, consumption, and entrepreneurship and explores how consumer psychology has changed while also evaluating new digital business opportunities afforded by the pandemic. By bringing together psychology and marketing scholars, this interdisciplinary book will inform research on how businesses adapt to crises.

The Adventure Gap James Edward Mills,2014-09-24 • Chronicles the first all-African American summit attempt on Denali, the highest point in North America • Part adventure story, part history, and part argument for the importance of inspiring future generations to value nature The nation's wild places—from national and state parks to national forests, preserves, and wilderness areas—belong to all Americans. But not all of us use these resources equally. Minority populations are much less likely to seek recreation, adventure, and solace in our wilderness spaces. It's a difference that African American author James Mills addresses in his new book, The Adventure Gap: Changing the Face of the Outdoors. Bridging the so-called "adventure gap" requires role models who can inspire the uninitiated to experience and enjoy wild places. Once new visitors are

there, a love affair often follows. This is important because as our country grows increasingly multicultural, our natural legacy will need the devotion of people of all races and ethnicities to steward its care. In 2013, the first all-African American team of climbers, sponsored by the National Outdoor Leadership School (NOLS), challenged themselves on North America’s highest point, the dangerous and forbidding Denali, in Alaska. Mills uses Expedition Denali and its team members’ adventures as a jumping-off point to explore how minority populations view their place in wild environments and to share the stories of those who have already achieved significant accomplishments in outdoor adventures—from Mathew Henson, a Black explorer who stood with Peary at the North Pole, to Kai Lightner, a teenage sport climber currently winning national competitions. The goal of the expedition, and now the book, is to inspire minority communities to look outdoors for experiences that will enrich their lives, and to encourage them toward greater environmental stewardship.
