The Gita: For Children Roopa Pai,2022-10-27 'The truth is, Partha,' Krishna said, 'that there is no better path. Both paths – the path of knowledge and the path of action – work just as well. It is up to you to pick the one that you are suited to.' The Bhagavad Gita is a profound book from India that people have cherished for over 2500 years. It emphasises kindness and understanding when we make mistakes, and tells a compelling story about Prince Arjuna and his friend Krishna. They engage in a crucial conversation about the war against the most powerful and dangerous enemy of all – the one that lives within our minds. Roopa Pai's spirited, one-of-a-kind retelling is engaging, easy to grasp, and leaves a lasting impact. After you finish reading, you'll find yourself contemplating its wisdom and feeling a sense of inner strength.

Bridgital Nation N. Chandrasekaran,Roopa Purushothaman,2021-03-30 Can technology and human beings coexist in a mutually beneficial way?In this ground-breaking book, N. Chandrasekaran, chairman of Tata Sons, the holding company and promoter of more than 100 Tata operating companies, presents a radical reimagining of the future of technology and reveals how it has the potential to solve the world's biggest challenges.He imagines 2030- India is among the world's top three economies, with all Indians using advanced technology to do their job or get their job done, and having access to quality jobs, better healthcare and skill-based education. And he says- this reality is possible. It is within reach. With Bridgital.To the coming disruption of artificial intelligence, he proposes an ingenious solution- to use it as an aid. Instead of taking jobs away, AI can generate them. Instead of replacing workers, AI will assist them. Chandrasekaran and his co-author, Roopa Purushothaman, chief economist of the Tata Group, show how the Bridgital model can address our divide between rich and poor, skilled and unskilled, and can provide better service delivery in health, transport, law and education. It could create and impact millions of jobs around the world.One of the country's foremost industry leaders and pioneers, N. Chandrasekaran brings his expertise of over thirty years with the Tata Group to offer India as a blueprint for building a prosperous planet where digital and physical worlds work together and everyone is included in the growth story. It's a powerful vision for the future.Foreword by Ratan N. Tata

The Vedas and Upanishads for Children Roopa Pai,2023-05-25 Three thousand years ago, deep inside the forests of India, a great 'thought revolution' was brewing. In those forest labs, the brightest thinker–philosophers contemplated the universe, reflected on ancient texts called the Vedas and came up with startling insights into questions we still don't have final answers to, like: • What is the universe made of? • How do I know I'm looking at a tree when I see one? • Who am I? And where did they put those explosive findings? In a sprawling body of goosebumpy and fascinating oral literature called the Upanishads! Intimidated? Don't be! For this joyful, fun guide to some of India's longest-lasting secular wisdoms, reinterpreted for first-time explorers by Roopa Pai, is guaranteed to keep you turning the pages.

He discovers, hidden in the forest, a curious storefront: The Exchange Your Parents Shop. Enrolling in their Happily Ever After Program, Chandu has the opportunity to become the child of math geniuses, movie superstars, or sports icons. Or he could choose obedient parents that bow to his every wish! Which set of parents will be his perfect fit? Traveling by elephant, peacock, hot air balloon, and even on the back of a tiger, Chandu keeps company with a talking parrot and Mustache Muthu in what becomes the adventure of a lifetime. Chandu and the Super Set of Parents is a fantastical tale of a boy's quest for love, confidence, and acceptance, set against a rich tapestry of Indian food, culture, and customs.

India, that is Bharat J Sai Deepak,2021-08-15 India, That Is Bharat, the first book of a comprehensive trilogy, explores the influence of European 'colonial consciousness' (or 'coloniality'), in particular its religious and racial roots, on Bharat as the successor state to the Indic civilisation and the origins of the Indian Constitution. It lays the foundation for its sequels by covering the period between the Age of Discovery, marked by Christopher Columbus' expedition in 1492, and the reshaping of Bharat through a British-made constitution-the Government of India Act of 1919. This includes international developments leading to the founding of the League of Nations by Western powers that tangibly impacted this journey. Further, this work also traces the origins of seemingly universal constructs such as 'toleration', 'secularism' and 'humanism' to Christian political theology. Their subsequent role in subverting the indigenous Indic consciousness through a secularised and universalised Reformation, that is, constitutionalism, is examined. It also puts forth the concept of Middle Eastern coloniality, which preceded its European variant and allies with it in the context of Bharat to advance their shared antipathy towards the Indic worldview. In order to liberate Bharat's distinctive indigeneity, 'decoloniality' is presented as a civilisational imperative in the spheres of nature, religion, culture, history, education, language and, crucially, in the realm of constitutionalism.

Bitter Sweets Roopa Farooki, 2007-11-13 With this spellbinding first novel about the destructive lies three immigrant generations of a Pakistani/Bangladeshi family tell each other, Roopa Farooki adds a fresh new voice to the company of Zadie Smith, Jhumpa Lahiri and Arundhati Roy. Henna Rub is a precocious teenager whose wheeler-dealer father never misses a business opportunity and whose sumptuous Calcutta marriage to wealthy romantic Ricky-Rashid Karim is achieved by an audacious network of lies. Ricky will learn the truth about his seductive bride, but the way is already paved for a future of double lives and deception--family traits that will filter naturally through the generations, forming an instinctive and unspoken tradition. Even as a child, their daughter Shona, herself conceived on a lie and born in a liar's house, finds telling fibs as easy as ABC. But years later, living above a sweatshop in South London's Tooting Bec, it is Shona who is forced to discover unspeakable truths about her loved ones and come to terms with what superficially holds her family together--and also keeps them apart--across geographical, emotional and cultural distance. Roopa Farooki has crafted an intelligent, engrossing and emotionally powerful Indian family saga that will stay with you long after you've read the last page.

Outward and Upward Mobilities Ann Kim, Min-Jung Kwak, 2019-02-07 People move out to move up. As in the case with other migrant groups, the mobility experienced by international students is a form of social mobility, and one that requires access from a host state. But there are multiple institutions with which students interact and that influence the processes of social mobility. *Outward and Upward Mobilities* investigates the connection between student and institution. This edited collection features work by key scholars in the field and considers international students across Canada regardless of legal status. Exploring how international students and their families fare in local ethnic communities, educational and professional institutions, and the labour market, this volume demonstrates the need to ask more critical questions about the short- and long-term effects of temporary legal status; how student and family experiences differ by education level and region of settlement, the barriers to and facilitators of adaptation and integration, and ultimately, to what extent individual, familial, institutional, and state goals function in harmony and in discord.

Landscapes of Accumulation Llerena Guio Searle, 2016-09-20 India's cities have dramatically changed since the country's liberalization in the 1990s. Alongside open-air markets and crumbling apartment blocks, spacious air-conditioned malls now sell Louis Vuitton luggage and Swarovski crystal, new gated communities offer residents pools and indoor gyms, and towering office buildings house international firms. *Landscapes of Accumulation* is about this violent, sudden, and spectacular urban transformation. Anthropologist Llerena Searle gives an ethnographic account of how land is becoming an international financial resource rather than a site for agricultural or industrial production. Investors, consultants, and government officials are creating a system of clear land titles, well developed and securitized mortgage markets, and practices for financing, constructing, leasing, and maintaining buildings. But Searle shows that there is also considerable semiotic work involved. Drawing on fieldwork with investors, developers, real estate agents and others, she documents how stories about growth—the growth of consumer demand, the Indian workforce, the Indian Gross Domestic Product, incomes, foreign investments, and real estate itself—become self-fulfilling prophecies. These imaginative statements, rather than specific state and city mandates, are shaping India's built environment, which has become increasingly difficult to navigate for all but a tiny urban elite. This book will be essential reading for anyone interested in the consequences of turning land into an international financial engine and, more broadly, the material ramifications of late capitalism's global reach.
