The Very Last Leaf Stef Wade, 2023-08 Lance Cottonwood is the best and brightest of the leaves, but even the top students on the tree have worries. Can Lance conquer his fear of falling and just let go when the time comes for his final exam, or will he let his worries take over? In this funny and encouraging picture book, best-selling author Stef Wade (*A Place for Pluto*) tells an engaging story and deftly addresses social and emotional struggles many kids encounter each day...feeling anxious, wanting to be perfect, facing fears, etc. These themes combined with illustrator Jennifer Davison's delightful characters and rich autumnal colors make *The Very Last Leaf* a perfect book for the start of a new school year, the arrival of autumn, or any period of transition in life.

In My Dreams Stef Gemmill, 2021-03-02 A child's imagination takes him on a wild journey as he sleeps soundly at night. He meets lions in the jungle, swims alongside sea creatures, and soars through the sky on the back of a silvery dragon. This magical tale will delight all ages.

The Tenderness of Wolves Stef Penney, 2008-03-04 When her teenage son disappears in the aftermath of a brutal murder, a determined mother sets out from her snow-covered nineteenth-century settlement to find him, an effort that is hampered by vigilante groups and the harrowing forces of nature. A first novel. Winner of the 2006 Costa Book of the Year. Reprint. 100,000 first printing.

The Map Stef Tovar, 2021-10-15 *The MAP: An Actor's Guide to On-Camera Acting* teaches on-camera acting in a practical and technical way--helping new actors understand the rules of on-camera acting as if they are learning a foreign language and applying that language to their acting skill set. The book gives actors a step-by-step technique on how to audition for on-camera acting jobs and what to do on set after booking them. Many on-camera acting books are written by established movie stars and aren't geared toward actors in an undergraduate acting program or those who are just starting to audition for on-camera jobs for the first time. Stef Tovar teaches his proven on-camera acting technique, shows actors how to make the perfect self-tape, and prepares them for life on set--detailing the differences between working in the theater vs. working in television and film. The author peppers the text with his own stories from set as examples, including auditioning for Lee Daniels and working with Matt Damon, Steven Soderbergh, and many others. *The MAP* is a funny and encouraging perspective from a seasoned actor who shares with aspiring actors things no one tells you before booking your first on-camera acting job.

Flexible Imputation of Missing Data, Second Edition Stef van Buuren, 2018-07-17 Missing data pose challenges to real-life data analysis. Simple ad-hoc fixes, like deletion or mean imputation, only work under highly restrictive conditions, which are often not met in practice. Multiple imputation replaces each missing value by multiple plausible values. The variability between these replacements reflects our ignorance of the true (but missing) value. Each of the completed data set is then analyzed by standard methods, and the results are pooled to obtain unbiased estimates

with correct confidence intervals. Multiple imputation is a general approach that also inspires novel solutions to old problems by reformulating the task at hand as a missing-data problem. This is the second edition of a popular book on multiple imputation, focused on explaining the application of methods through detailed worked examples using the MICE package as developed by the author. This new edition incorporates the recent developments in this fast-moving field. This class-tested book avoids mathematical and technical details as much as possible: formulas are accompanied by verbal statements that explain the formula in accessible terms. The book sharpens the reader's intuition on how to think about missing data, and provides all the tools needed to execute a well-grounded quantitative analysis in the presence of missing data.

Trans Medicine stef m. shuster, 2021-06-15 **Finalist, PROSE Award in Clinical Medicine** A rich examination of the history of trans medicine and current day practice Surfacing in the mid-twentieth century, yet shrouded in social stigma, transgender medicine is now a rapidly growing medical field. In *Trans Medicine*, stef shuster makes an important intervention in how we understand the development of this field and how it is being used to "treat" gender identity today. Drawing on interviews with medical providers as well as ethnographic and archival research, shuster examines how health professionals approach patients who seek gender-affirming care. From genital reconstructions to hormone injections, the practice of trans medicine charts new medical ground, compelling medical professionals to plan treatments without widescale clinical trials to back them up. Relying on cultural norms and gut instincts to inform their treatment plans, shuster shows how medical providers' lack of clinical experience and scientific research undermines their ability to interact with patients, craft treatment plans, and make medical decisions. This situation defies how providers are trained to work with patients and creates uncertainty. As providers navigate the developing knowledge surrounding the medical care of trans folk, *Trans Medicine* offers a rare opportunity to understand how providers make decisions while facing challenges to their expertise and, in the process, have acquired authority not only over clinical outcomes, but over gender itself.

The Invisible Ones Stef Penney, 2012-01-05 In a hospital bed, small-time private detective Ray Lovell veers between paralysis and delirium. But before the accident that landed him there, he'd been hired to find Rose Janko, the estranged daughter of a traveling Gypsy family, who went missing seven years earlier. Half Romany himself, Ray is well aware that he's been chosen more for his blood than for his investigative skills. Still, he's surprised by the intense hostility he encounters from the Jankos, who haven't had an easy past. Touched by tragedy, they're either cursed or hiding a terrible secret—the discovery of which Ray can't help suspecting is connected to Rose's disappearance... Seamlessly toggling between Ray's past and present, and the perspective of the missing woman's young nephew JJ, Stef Penney builds a gripping page-turner that doesn't let go until its shocking end.

Toy Mountain Stef Gemmill, 2021-10-06 Sam is tired of his toys. Why would he want his Grandma's old trainset and teddy when there's a toy factory high up in the clouds that makes rumbly red toys, grumbly green toys and so much more? In this important story about reducing waste and taking responsibility for the environment, Sam is about to find out. *Toy Mountain* is a quirky story about 5-year-old Sam's chance to become a toy tester for the Tiny Hands Toy factory. After Sam signs up for his exciting new task, he quickly accumulates a pile of plastic, clunky toys, discarding the well-loved toys handed down to him from his Grandma. But one by one and plonk! by plonk!, his shiny new toys start to break. Soon enough, Sam has a mountain of broken toys that just won't stop growing! This colourful and whimsically illustrated story highlights the waste that results from 'consumer culture', and the value of looking after our belongings. Inspired by the author's childhood of hand-me-down toys, it empowers children to take sustainability into their own hands

through their toy purchases. This is a vitally important message in a world where we generate 6.3 billion tonnes of plastic each year, 79% of which goes into landfill. Children and adults alike will find themselves cheering Sam along as he rescues his treasured old toys from being lost under a growing mound of broken plastic, and realises why they're so special after all.

I'm Just a Person Tig Notaro, 2016-06-14 Star of HBO Max's Tig Notaro: Drawn, Army of the Dead, One Mississippi and Instant Family. As well as the host of the podcasts Don't Ask Tig and Tig and Cheryl: True Story with Cheryl Hines. One of America's most original comedic voices delivers a darkly funny, wryly observed, and emotionally raw account of her year of death, cancer, and epiphany. In the span of four months in 2012, Tig Notaro was hospitalized for a debilitating intestinal disease called C. diff, her mother unexpectedly died, she went through a breakup, and then she was diagnosed with bilateral breast cancer. Hit with this devastating barrage, Tig took her grief onstage. Days after receiving her cancer diagnosis, she broke new comedic ground, opening an unvarnished set with the words: "Good evening. Hello. I have cancer. How are you? Hi, how are you? Is everybody having a good time? I have cancer." The set went viral instantly and was ultimately released as Tig's sophomore album, Live, which sold one hundred thousand units in just six weeks and was later nominated for a Grammy. Now, the wildly popular star takes stock of that no good, very bad year—a difficult yet astonishing period in which tragedy turned into absurdity and despair transformed into joy. An inspired combination of the deadpan silliness of her comedy and the open-hearted vulnerability that has emerged in the wake of that dire time, I'm Just a Person is a moving and often hilarious look at this very brave, very funny woman's journey into the darkness and her thrilling return from it.
