Matthew C. MacWilliams

**Authoritarianism Goes Global** Larry Diamond, Marc F. Plattner, Christopher Walker, 2016-04-15 With democracy in decline, authoritarian governments are staging a comeback around the world. Over the past decade, illiberal powers have become emboldened and gained influence within the global arena. Leading authoritarian countries—including China, Iran, Russia, Saudi Arabia, and Venezuela—have developed new tools and strategies to contain the spread of democracy and challenge the liberal international political order. Meanwhile, the advanced democracies have retreated, failing to respond to the threat posed by the authoritarians. As undemocratic regimes become more assertive, they are working together to repress civil society while tightening their grip on cyberspace and expanding their reach in international media. These political changes have fostered the emergence of new counternorms—such as the authoritarian subversion of credible election monitoring—that threaten to further erode the global standing of liberal democracy. In *Authoritarianism Goes Global*, a distinguished group of contributors present fresh insights on the complicated issues surrounding the authoritarian resurgence and the implications of these systemic shifts for the international order. This collection of essays is critical for advancing our understanding of the emerging challenges to democratic development. Contributors: Anne Applebaum, Anne-Marie Brady, Alexander Cooley, Javier Corrales, Ron Deibert, Larry Diamond, Patrick Merloe, Abbas Milani, Andrew Nathan, Marc F. Plattner, Peter Pomerantsev, Douglas Rutzen, Lilia Shevtsova, Alex Vatanka, Christopher Walker, and Frederic Wehrey

**Authoritarianism** Erica Frantz, 2018-08-01 Despite the spread of democratization following the Cold War's end, all signs indicate that we are living through an era of resurgent authoritarianism. Around 40 percent of the world's people live under some form of authoritarian rule, and authoritarian regimes govern about a third of the world's countries. In *Authoritarianism: What Everyone Needs to Know®*, Erica Frantz guides us through today's authoritarian wave, explaining how it came to be and what its features are. She also looks at authoritarians themselves, focusing in particular on the techniques they use to take power, the strategies they use to survive, and how they fall. Understanding how politics works in authoritarian regimes and recognizing the factors that either give rise to them or trigger their downfall is ever-more important given current global trends, and this book paves the ways for such an understanding. An essential primer on the topic, *Authoritarianism* provides a clear and penetrating overview of one of the most important-and worrying-developments in contemporary world politics.

**Competitive Authoritarianism** Steven Levitsky, Lucan A. Way, 2010-08-16 Based on a detailed study of 35 cases in Africa, Asia, Latin America, and post-communist Eurasia, this book explores the fate of competitive authoritarian regimes between 1990 and 2008. It finds that where social, economic, and technocratic ties to the West were extensive, as in Eastern Europe and the Americas, the external cost of abuse led incumbents to cede power rather than crack down, which led to democratization. Where ties to the West were limited, external democratizing pressure was weaker and countries rarely democratized. In these cases, regime outcomes hinged on the character of state and ruling party organizations. Where incumbents possessed developed and cohesive coercive party structures, they could thwart opposition challenges, and competitive authoritarian regimes survived; where incumbents lacked such organizational tools, regimes were unstable but rarely democratized.

**The New Authoritarianism in Latin America** David Collier, Fernando Henrique Cardoso, Joint Committee on Latin American Studies, 1979 While one of the most important attempts to explain the rise of authoritarian regimes and their relationship to problems of economic development has been the bureaucratic-authoritarian model, there has been growing dissatisfaction with various elements of this model. In light of this dissatisfaction, a group of leading economists, political scientists, and sociologists was brought together to assess the adequacy of the model and suggest directions for its reformulation. This volume is the product of their discussions over a period of three years and represents an important advance in the critique and refinement of ideas about political development. Part One provides an overview of the issues of social science analysis raised by the recent emergence of authoritarianism in Latin America and contains chapters by David Collier and Fernando Henrique Cardoso. The chapters in Part Two address the problem of explaining the rise of bureaucratic authoritarianism and are written by Albert Hirschman, Jose Serra, Robert Kaufman, and Julio Coder. In Part Three Guillermo O'Donnell, James Kurth, and David Collier discuss the likely future patterns of change in bureaucratic authoritarianism, opportunities for extending the analysis to Europe, and priorities for future research. The book includes a glossary and an extensive bibliography.

**Right-Wing Authoritarianism** Bob Altemeyer, 1981-01-01 Altemeyer begins by closely examining the scientific literature on right-wing authoritarianism. This timely volume surveys the history of social psychological research on right-wing authoritarianism and describes a more fruitful direction for future work. It concludes with a disturbing comment on the pervasiveness of authoritarian behaviour in our society.

**Authoritarianism and the Elite Origins of Democracy** Michael Albertus, Victor Menaldo, 2018-02 Provides an innovative theory of regime transitions and outcomes, and tests it using extensive evidence between 1800 and today.

**Twilight of Democracy** Anne Applebaum, 2020-07-21 NATIONAL BESTSELLER • How did our democracy go wrong? This extraordinary document ... is Applebaum's answer. —Timothy Snyder, author of *On Tyranny* The Pulitzer Prize-winning historian explains, with electrifying clarity, why elites in democracies around the world are turning toward nationalism and authoritarianism. From the United States and Britain to continental Europe and beyond, liberal democracy is under siege, while authoritarianism is on the rise. In *Twilight of Democracy*, Anne Applebaum, an award-winning historian of Soviet atrocities who was one of the first American journalists to raise an alarm about antidemocratic trends in the West, explains the lure of nationalism and autocracy. In this captivating essay, she contends that political systems with radically simple beliefs are inherently appealing, especially when they benefit the loyal to the exclusion of everyone else. Elegantly written and urgently argued, *Twilight of Democracy* is a brilliant dissection of a world-shaking shift and a stirring glimpse of the road back to democratic values.

**Authoritarianism** Günter Frankenberg, 2020-11-27 In this thought-provoking book, Günter Frankenberg explores why authoritarian leaders create new constitutions, or revise old ones. Through a profound analysis of authoritarian constitutions as phenomena in their own right, Frankenberg reveals their purposes, the audiences they seek to address and investigates the ways in which they fit into the broader context of autocracies.

**Authoritarianism in an Age of Democratization** Jason Brownlee, 2007-07-23 Far from sweeping the globe uniformly, the 'third wave of democratization' left burgeoning republics and resilient dictatorships in its wake. Applying more than a year of original fieldwork in Egypt, Iran, Malaysia, and the Philippines, in this book Jason Brownlee shows that the mixed record of recent democratization is best deciphered through a historical and institutional

approach to authoritarian rule. Exposing the internal organizations that structure elite conflict, Brownlee demonstrates why the critical soft-liners needed for democratic transitions have been dormant in Egypt and Malaysia but outspoken in Iran and the Philippines. By establishing how ruling parties originated and why they impede change, Brownlee illuminates the problem of contemporary authoritarianism and informs the promotion of durable democracy.

**Political Leadership Between Democracy and Authoritarianism** Jerzy J. Wiatr, 2022-01-17 In diesem Buch wird die Theorie der politischen Führung, die ein noch wenig erforschtes Feld der Politikwissenschaft ist, beleuchtet. Sie ist verwandt mit dem philosophischen Streit um Determinismus versus Aktivismus und hilft den Grundkonflikt des 21. Jahrhunderts zwischen liberaler Demokratie und neuem Autoritarismus zu verstehen. Das Buch befasst sich mit Max Webers Typologie politischer Herrschaft und seinem Konzept der Verantwortungsethik, welche der Schlüssel zur Theorie der Führung sind. Der Autor zeigt auf, dass der unvollendete Wettstreit zwischen Demokratie und neuem Autoritarismus im 21. Jahrhundert die Bedeutung von Führung in alten und neuen Demokratien sowie in den neoautoritären Regimen bestätigt und einen neuen Typus politischer Führungskräfte fordert.

*Boundary Control* Edward L. Gibson, 2013-01-07 The democratization of a national government is only a first step in diffusing democracy throughout a country's territory. Even after a national government is democratized, subnational authoritarian 'enclaves' often continue to deny rights to citizens of local jurisdictions. Gibson offers new theoretical perspectives for the study of democratization in his exploration of this phenomenon. His theory of 'boundary control' captures the conflict pattern between incumbents and oppositions when a national democratic government exists alongside authoritarian provinces (or 'states'). He also reveals how federalism and the territorial organization of countries shape how subnational authoritarian regimes are built and how they unravel. Through a novel comparison of the late nineteenth-century American 'Solid South' with contemporary experiences in Argentina and Mexico, Gibson reveals that the mechanisms of boundary control are reproduced across countries and historical periods. As long as subnational authoritarian governments coexist with national democratic governments, boundary control will be at play.

**Dimensions of Authoritarianism** John P. Kirscht, Ronald C. Dillehay, 2021-10-21 The concept of authoritarianism, first defined in *The Authoritarian Personality* published in 1950, has since been treated in a bewildering array of studies that have explored both its narrow psychological meaning and its broader social implications. In this volume, authors John P. Kirscht and Ronald C. Dillehay have provided a much-needed review of this growing subject, summarizing and evaluating about 260 studies that have appeared to date. Kirscht and Dillehay differentiate between the psychological and the sociological approach to authoritarianism, tracing the historical development of both schools of thought. They also outline three major views of authoritarianism: as antecedent to certain types of behavior (for example, ethnic prejudice), as the consequence of other variables (such as child rearing practices), or as a correlate of yet other processes (e.g. alienation); these views, in turn, suggest a variety of theoretical and methodological issues. The authors review, in addition, the multitudes of beliefs and behaviors thought to vary with authoritarianism, examining the validity of these relationships in empirical research. While the authors do not attempt to reformulate or redefine authoritarianism, they point up avenues for future research and single out significant research findings which are likely to offer the firmest ground for development.

*Political Opposition in Authoritarianism* Rico Isaacs, 2022-08-13 How might political opposition shape regime outcomes over time in an authoritarian system? Most studies on political opposition in authoritarian contexts tend to focus on the agency of the regime over and above that of the political opposition. Using Albert Hirschman's framework of exit, voice and loyalty, this book examines the case of Kazakhstani opposition agency over 30 years to explore the extent to which political opposition in Kazakhstan has shaped the dynamics of authoritarian regime development in the country. What the analysis reveals is that in Kazakhstan the regime has tended to treat formal institutional political opposition as neither a credible nor non-credible threat. Consequently, the Kazakhstani regime has always responded to opposition exit and voice with sanctions and institutional adaption which strengthened the regime in the short to medium term, but left them exposed to spontaneous, grassroots non-institutional opposition in the longer term. This spontaneous grassroots opposition emerged in Kazakhstan as a series of 'shocks' crystallised in the 2011 events in Zhanaozen, the 2016 land protests, the 2019 election protests and the events of 'qandy qantar' (bloody January) in 2022. What this book illustrates is how authoritarian regimes which treat opposition threats ambiguously are likely to end up in a continuous state of instability because the feedback provided by opposition agency disappears leaving the regime susceptible to spontaneous opposition.

*Authoritarianism in the Middle East* J. Karakoç Bakis, Jülide Karakoç, 2015-03-17 Through a unique collection of essays drawn from rich case studies, *Authoritarianism in the Middle East* provides important insights into the ongoing instabilities of the Middle East, and the authoritarianism and democratisation processes that have led to dramatic socio-political transformations.

**Global Authoritarianism** International Research Group on Authoritarianism and Counter-Strategies, 2022-11-30 We are witnessing a worldwide resurgence of reactionary ideologies and movements, combined with an escalating assault on democratic institutions and structures. Nevertheless, most studies of these phenomena remain anchored in a methodological nationalism, while comparative research is almost entirely limited to the Global North. Yet, authoritarian transformations in the South – and the struggles against them – have not only been just as dramatic as those in the North but also preceded them, and consequently have been studied by Southern scholars for many years. This volume brings together the work of more than 15 scholar-activists from across the Global South, combining in-depth studies of regional processes of authoritarian transformation with a global perspective on authoritarian capitalism. With a foreword by Verónica Gago.

*Authoritarianism in Latin America Since Independence* Will Fowler, 1996-04-30 This edited collection explores how different dictators and authoritarian parties and factions have frequently succeeded in rising to power in modern Latin America, often retaining political and/or military control for long periods of time. The volume examines whether there are common factors within the Latin American sociopolitical, cultural, and historical context that have allowed authoritarianism to play such a fundamental and recurrent role in the continent's development. Including chapters on Mexico, Chile, Cuba, Paraguay, and Honduras, the work will be of interest to scholars and students alike in comparative politics, Latin American history, and Latin American studies.

**The Rise of Trump** Matthew C. MacWilliams, 2016 Is the rise of Trump an anomaly-or is it merely a new expression of an old tendency in American politics? Matthew MacWilliams offers a succinct review of American political history, the theoretical literature on authoritarianism, and surveys of political attitudes surrounding the 2016 elections to explore the Trump phenomenon-and its portents.

Revolution and Dictatorship Steven Levitsky, Lucan Way, 2022-09-13 Why the world’s most resilient dictatorships are products of violent revolution Revolution and Dictatorship explores why dictatorships born of social revolution—such as those in China, Cuba, Iran, the Soviet Union, and Vietnam—are extraordinarily durable, even in the face of economic crisis, large-scale policy failure, mass discontent, and intense external pressure. Few other modern autocracies have survived in the face of such extreme challenges. Drawing on comparative historical analysis, Steven Levitsky and Lucan Way argue that radical efforts to transform the social and geopolitical order trigger intense counterrevolutionary conflict, which initially threatens regime survival, but ultimately fosters the unity and state-building that supports authoritarianism. Although most revolutionary governments begin weak, they challenge powerful domestic and foreign actors, often bringing about civil or external wars. These counterrevolutionary wars pose a threat that can destroy new regimes, as in the cases of Afghanistan and Cambodia. Among regimes that survive, however, prolonged conflicts give rise to a cohesive ruling elite and a powerful and loyal coercive apparatus. This leads to the downfall of rival organizations and alternative centers of power, such as armies, churches, monarchies, and landowners, and helps to inoculate revolutionary regimes against elite defection, military coups, and mass protest—three principal sources of authoritarian breakdown. Looking at a range of revolutionary and nonrevolutionary regimes from across the globe, Revolution and Dictatorship shows why governments that emerge from violent conflict endure.

Authoritarianism and Polarization in American Politics Marc J. Hetherington, Jonathan D. Weiler, 2009-08-24 The left and right in America are now divided by politically irreconcilable worldviews, and the root of that divide is authoritarianism.

**Darwinism, Dominance, and Democracy** Albert Somit, Steven Peterson, 1997-03-25 Somit and Peterson seek to explain two apparently contradictory yet well-established political phenomena: First, throughout human history, the vast majority of political societies have been authoritarian. Second, notwithstanding this pattern, from time to time, democracies do emerge and some even have considerable stability. A neo-Darwinian approach can help make sense of these observations. Humans—social primates—have an inborn bias toward authoritarian life, based on their tendency to engage in dominance behavior and the formation of dominance hierarchies. Reinforcing this bias is an impulse toward obedience. These factors are associated with the propensity of humans to accept authoritarian systems. Nonetheless, the authors argue, conditions of material abundance combined with another human characteristic—indoctrinability—can foster the emergence and maintenance of democracies. Somit and Peterson assert that an understanding of human nature from an evolutionary perspective can help to explain how and why political systems have developed. They conclude by pointing to policy implications that might enhance the odds of formation and continuation of democratic forms of government. Students and scholars of political science and philosophy, sociology, and human biology will find this an intriguing study.

This is likewise one of the factors by obtaining the soft documents of this **Authoruairnixcjjrmax** by online. You might not require more grow old to spend to go to the books creation as skillfully as search for them. In some cases, you likewise get not discover the proclamation Authoruairnixcjjrmax that you are looking for. It will completely squander the time.

However below, once you visit this web page, it will be therefore completely simple to acquire as skillfully as download lead Authoruairnixcjjrmax

It will not give a positive response many grow old as we run by before. You can realize it even though proceed something else at house and even in your workplace. for that reason easy! So, are you question? Just exercise just what we have enough money below as well as evaluation **Authoruairnixcjjrmax** what you subsequently to read!

**Authoruairnixcjjrmax Introduction**

In todays digital age, the availability of Authoruairnixcjjrmax books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Authoruairnixcjjrmax books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Authoruairnixcjjrmax books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Authoruairnixcjjrmax versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Authoruairnixcjjrmax books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether youre a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Authoruairnixcjjrmax books

and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Authoruairnixcjjrmax books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Authoruairnixcjjrmax books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Authoruairnixcjjrmax books and manuals for download and embark on your journey of knowledge?

**FAQs About Authoruairnixcjjrmax Books**

**What is a Authoruairnixcjjrmax PDF?**  
A PDF (Portable Document Format) is

a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Authoruairnixcjjrmax PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a Authoruairnixcjjrmax PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Authoruairnixcjjrmax PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Authoruairnixcjjrmax PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. **How do I compress a PDF file?** You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. **Can I fill out forms in a PDF file?** Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might

require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
