Nelson's New Testament Survey Mark Bailey,Tom Constable,2009-08-31 Each book of the New Testament is introduced and investigated with scholarship and biblical faithfulness. Includes all the information usually found in a Bible handbook - author, date, historical background, purpose, outline - but it goes much further. The authors provide an exposition of every passage in the New Testament, written in contemporary, understandable language. Sidebars and inserts offer other valuable reference material such as lists of the parables of Jesus, the miracles of Jesus, and key theological principles.

My Island in Flowers DUKE R SILVA,2023-12-27 This is a crying rhythmic and sentimental narrating of a poetic soul. Hypnotic Poetic oration and inspirational discourse encompassed and performed in heartfelt notes, inspired by Ancient Bards and prose logicians. This book in poetry is arranged to please the writing style of the Author and his method of thought, without disregard to the reader's interests and palate. It so ranges in its content from poetic written styles of Abstract, Ballad, Dramatic, Free Verse, Elegy, Lyric, Epigram and Narrative. Its content formation draws inspiration from Life's experiences and hardships, romance and matters of the heart, human bond and shared values, culture and customs, social justice and equity, socio-political critique, all mildly blended within metaphysics, existentialism and moralism philosophical principles in quite a tasteful irony and emotive appeal as fictional juxtaposition of portrayal vis-à-vis realism.

Rhetorical Bodies Jack Selzer,Sharon Crowley,1999 What significance does the physical, material body still have in a world of virtual reality and genetic cloning? How do technology and postmodern rhetoric influence our understanding of the body? And how can our discussion of the body affect the way we handle crises in public policy--the politics of race and ethnicity; issues of family values that revolve around sexual and gender

identities; the choices revolving around reproduction and genome projects, and the spread of disease? Leading scholars in rhetoric and communication, as well as literary and cultural studies, address some of the most important topics currently being discussed in the human sciences. The essays collected here suggest the wide range of public arenas in which rhetoric is operative--from abortion clinics and the World Wide Web to the media's depiction of illiteracy and the Donner Party. These studies demonstrate how the discourse of AIDS prevention or Demi Moore's beautiful pregnancy call to mind the physical nature of being human and the ways in which language and other symbols reflect and create the physical world.

Annabel's Dance Diane Jackson Hill, 2021 Hazy mazy oops a daisy, wriggle your ears but don't go crazy! Annabel is no ordinary sheep. She is wiggly and jiggly. Loud noises hurt her ears and no matter how hard she tries, she just can't fit in with the mob. Until one day her super-sensitive style brings her unexpected attention. How will the rest of the mob deal with Annabel now? Poignant and humorous, this story of a mud-puddle coloured sheep celebrates our uniqueness.

Understanding Scientific Prose Jack Selzer, 1993 Examining science as a rhetorical enterprise, this book seizes upon one scientific essay--*The Spandrels of San Marco and the Panglossian Paradigm: A Critique of the Adaptationist Programme*--and probes it from many angles. Written by prominent evolutionary theorists Stephen Jay Gould and Richard C. Lewontin and first published in the *Proceedings of the Royal Society of London* in 1979, the *Spandrels* article is both serious science and vivid prose. Applying methods inspired by Louis Althusser, Michel Foucault, Jacques Derrida, Ferdinand de Saussure, and others, the contributors employ a range of interpretive strategies. Stephen Jay Gould adds his own comments, and the full text of the essay *Spandrels* is reproduced as an appendix. Landmark Essays on Rhetorical Criticism Thomas W. Benson, 2020-08-18 This book is an anthology of landmark essays in rhetorical criticism. In historical usage, a landmark marks a path or a boundary; as a metaphor in social and intellectual history, landmark signifies some act or event that marks a significant achievement or turning point in the progress or decline of human effort. In the history of an academic discipline, the historically established senses of landmark are mixed together, jostling to set out and protect the turfmarkers of academic specialization; aligning footnotes to signify the beacons that have guided thought and, against these conservative tendencies, attempting to contribute fresh insights that tempt others along new trails. The editor has chosen essays for this collection that give some sense of the history of rhetorical criticism in this century, especially as it has been practiced in the discipline of speech communication. He also emphasizes materials that may illustrate where the discipline conceives itself to be going -- how it has marked its boundaries; how it has established beacons to invite safety or warn us from the rocks; and how it has sought to preserve a tradition by subjecting it to constant revision and struggle. In the hope of providing some coherence, the scope of this collection is limited to rhetorical criticism as it has been practiced and understood within the discipline of speech communication in North America in this century.
