Darwin the Writer George Levine, 2011-06-30 Charles Darwin's *On the Origin of Species*, arguably the most important book written in English in the nineteenth century, transformed the way we looked at the world. It is usually assumed that this is because the idea of evolution was so staggeringly powerful. Prize-winning author George Levine suggests that much of its influence was due, in fact, to its artistry; to the way it was written. Alive with metaphor, vivid descriptions, twists, hesitations, personal exclamations, and humour, the prose is imbued with the sorts of tensions, ambivalences, and feelings characteristic of great literature. Although it is certainly a work of science, the *Origin* is equally a work of literature, at home in the company of celebrated Victorian novels such as *Middlemarch* and *Bleak House*, books that give us a unique yet recognisable sense of what the world is really like, while not being literally 'true'. Darwin's enormous cultural success, Levine contends, depended as much on the construction of his argument and the nature of his language, as it did on the power of his ideas and his evidence. By challenging the dominant reading of his work, this impassioned and energetic book gives us a Darwin who is comic rather than tragic, ebullient rather than austere, and who takes delight in the wild and fluid entanglement of things.

Treasured Grace (Heart of the Frontier Book #1) Tracie Peterson, 2017-02-28 Tracie Peterson Begins Compelling New Series Set on the 1840s Frontier Grace Martindale has known more than her share of hardship. After her parents died, raising her two younger sisters became her responsibility. A hasty marriage to a minister who is heading to the untamed West seemed like an opportunity for a fresh start, but a cholera outbreak along the wagon trail has left Grace a widow in a very precarious position. Having learned natural remedies and midwifery from her mother, Grace seeks an opportunity to use her skills for the benefit of others. So when she and her sisters arrive at the Whitman mission in Oregon Country, she decides to stay rather than push on. With the help of Alex Armistead, a French-American fur trapper, Grace begins to provide care for her neighbors, including some of the native populace. But not everyone welcomes her skills--or her presence--and soon Grace finds herself and those she loves in more danger than she imagined possible.

The Northwest Caucasus Walter Richmond,2008-06-11 This is the first book to present a comprehensive history of the Northwest Caucasus. Based on extensive research, it describes the peoples of the Northwest Caucasus, which have a significantly different ethnic makeup and history than the Northeast (Chechnya and Daghestan). The book examines their struggles for survival against repeated invasions and their ultimate defeat at the hands of the Russians. It explores interethnic relations and demographic changes that have occurred in the region over time with a particular focus on the 19th, 20th and 21st Centuries, incorporating recently published archival materials concerning the deportation of the Abazas, Circassians and Ubykhs to the Ottoman Empire by the Russians, which is treated as the first act of ethnic cleansing in modern history. The book also closely examines the struggles the Northwest Caucasus peoples continue to undergo in the post-Soviet era, facing pressures from organized crime, religious extremism, and a federal government that is unresponsive to their needs. It emphasizes the strategic importance of the region, lying on the northeastern shore of the Black Sea directly on the border between the Christian and Muslim worlds. Overall, it will be of interest to scholars of Russian history and politics, Caucasus and Central Asian Studies, genocide studies, international relations and conflict studies.
