Quarks, Elephants and Pierogi, 2021-01-14 An eye-catching new book introducing Polish culture to English-language readers. Can you distill the essence of a country into just 100 words? We think so. Written by Mikolaj Gliński, Matthew Davies and Adam Żulawski, and illustrated by award-winning

graphic designer Magda Burdzynska, *Quarks, Elephants & Pierogi: Poland in 100 Words* is made up of a series of 100 full-colour illustrations and articles that each discuss all sorts of Polish words, such as *miłość* (love), *imieniny* (name day), *ojczyzna* (fatherland), *wolność* (freedom), and even *filiżanka* (tea cup). Often via etymology, each word is an entry point to the multi-layered world of Polish culture and history. Winner of Most Beautiful Books in Poland 2018 in the Guide category.

The Way To Happiness L. Ron Hubbard, 2010 SYNOPSIS The choice of actions and decisions requires skill and wisdom, not just self-interest or just group interest. Containing 21 precepts, *The Way to Happiness* helps guide one in those choices encountered in life. This might be the first nonreligious moral code based wholly on common sense. FULL DESCRIPTION True joy and happiness are valuable. If one does not survive, no joy and no happiness are obtainable. Trying to survive in a chaotic, dishonest and generally immoral society is difficult. Any individual or group seeks to obtain from life what pleasure and freedom from pain that they can. Your own survival can be threatened by the bad actions of others around you. Your own happiness can be turned to tragedy and sorrow by the dishonesty and misconduct of others. I am sure you can think of instances of this actually happening. Such wrongs reduce one's survival and impair one's happiness. You are important to other people. You are listened to. You can influence others. The happiness or unhappiness of others you could name is important to you. Without too much trouble, using this book, you can help them survive and lead happier lives. While no one can guarantee that anyone else can be happy, their chances of survival and happiness can be improved. And with theirs, yours will be. It is in your power to point the way to a less dangerous and happier life.

Neuropsychological Assessment Muriel Deutsch Lezak, 1995-03-02 The 12 chapters in the second section contain nearly all of the tests and assessment techniques covered in the previous editions plus many additional ones, including newly developed neuropsychological tests, tests from other branches of psychology, research techniques that have only recently been introduced into clinical neuropsychology, tests originating in Europe and elsewhere, and a few measures - as yet untried by neuropsychology - that appear to be potentially useful for neuropsychological purposes. Thus, the third edition of Neuropsychological Assessment maintains its multipurpose functions as an authoritative textbook, reference work, and practitioner's manual.

Dianetics L. Ron Hubbard, 2007 Albert Einstein said: We are using only 10%

of our mental potential. Dianetics tells you how you can free a significantly larger part of your potential. Self confidence, harmonic relationships and a positive attitude towards life can absolutely be achieved. It makes Positive Thinking a reality. You can achieve your goals with more certainty if you are able to find the cause of upsets, unwanted reactions or emotions. The human mind is not a mysterious puzzle - impossible to resolve. Read and work with Dianetics, see how it works for you and make up your own mind. The book gives a clear description of what is happening in the mind and explains a practical method, enabling you to explore your own subconscious, and rid yourself of what holds you down, resulting in increased IQ and well-being. Watching the DVD called 'How to Use Dianetics' along with the book is recommended to have a visual illustration of the concepts and the practical application.

The Forgotten Rohingya: Their Struggle for Human Rights in Burma Habib Siddiqui, 2019 Imagine that you are living in a country that does not recognize you as a citizen in spite of the fact that your people have maintained a continuous existence there for several centuries. If that was not enough of a traumatic experience, consider that because of your racial, ethnic and religious identity other ethnic groups that are fighting the brutal military regime in your country for their self-determination and human rights consider you as settlers from a neighboring country. It must be your worst nightmare when you realize that half of your people (almost 2 million) have been forced to take asylum or refuge outside, and you may be the next in

line to seek a way out of this living hell of xenophobia, discrimination, intolerance, racism and bigotry. The victims are the Rohingya people of Burma (Myanmar). Because of their religion, race, ethnicity, color and language they are the most discriminated and persecuted people in our planet. Some argue that they are also one of the most forgotten. The Myanmar military regime has denied their citizenship rights, claiming that they are illegal settlers from nearby Bangladesh who have moved into Arakan during the British occupation of Burma in the 19th century. Is there any truth to such allegations? Does the military junta apply the same litmus test against all ethnic and religious groups in matters of citizenship? What is the basis for a nation's claim to self-determination? Must a people wander in the wilderness for two millennia and suffer repeated persecution, humiliation and genocide to qualify? How about the rights of a minority community to survive with their culture and traditions intact? Do they need to be 'children' of a 'higher' God to qualify? What makes the children of a 'lesser' God to be forgotten and denied the same treatment and privilege that was granted hitherto to other nations? For much of its history, Burma has been ruled by military. As has once again been demonstrated recently they are brutal, savage and tyrannical. They have ignored people's verdict in the election and imprisoned leaders and workers of the democracy movement. They cannot be guarantors or protectors of human rights of anyone, let alone religious and ethnic minorities. Do you know that the Rohingyas - face cruel restriction on marriage and those married without government authorization are paraded naked on the streets? - Are restricted from traveling outside their villages? - Have no legal right to own land or property? - Are restricted from getting education, finding work, getting medical and health care? - Are subjected to

land confiscation, forced eviction and destruction of homes, offices, schools, mosques, shops, etc., and face religious persecution on a daily basis? - Are victims of staged riots, forced starvation, arbitrary taxation, extortion, arrest, torture and extra-judicial killings?- Are forced to do slave labor for establishment of government infrastructure, new Buddhist settlements, pagodas and monasteries on evicted lands with the government intent of changing the landscape and demography of Arakan?- Are forced to convert to Buddhism &/or worship Buddha? Do you know that when it comes to the Rohingya people, the Burmese government doesn't uphold any of the Articles of the Universal Declaration of Human Rights? Nothing can excuse us from the criminal silence that we practice in not voicing our concern about the plight of the Rohingya people. The Forgotten Rohingya makes a strong case for mobilizing concerned citizens of our globe to ease their sufferings. The author analyzes origin of the Rohingya people and offers ideas to solve their problem. The author also discusses problems of xenophobia and racism, which are so rampant in this country of many races, ethnicities and religions. He also analyzes the role of Daw Suu Kyi and failure of Burma's orange revolution.
