Hułas, Niemiecki instytut historyczny (Varsovie)

Authoritarianism Erica Frantz, 2018-08-01 Despite the spread of democratization following the Cold War's end, all signs indicate that we are living through an era of resurgent authoritarianism. Around 40 percent of the world's people live under some form of authoritarian rule, and authoritarian regimes govern about a third of the world's countries. In *Authoritarianism: What Everyone Needs to Know®*, Erica Frantz guides us through today's authoritarian wave, explaining how it came to be and what its features are. She also looks at authoritarians themselves, focusing in particular on the techniques they use to take power, the strategies they use to survive, and how they fall. Understanding how politics works in authoritarian regimes and recognizing the factors that either give rise to them or trigger their downfall is ever-more important given current global trends, and this book paves the ways for such an understanding. An essential primer on the topic, *Authoritarianism* provides a clear and penetrating overview of one of the most important-and worrying-developments in contemporary world politics.

Authoritarianism Goes Global Larry Diamond, Marc F. Plattner, Christopher Walker, 2016-04-15 With democracy in decline, authoritarian governments are staging a comeback around the world. Over the past decade, illiberal powers have become emboldened and gained influence within the global arena. Leading authoritarian countries—including China, Iran, Russia, Saudi Arabia, and Venezuela—have developed new tools and strategies to contain the spread of democracy and challenge the liberal international political order. Meanwhile, the advanced democracies have retreated, failing to respond to the threat posed by the authoritarians. As undemocratic regimes become more assertive, they are working together to repress

civil society while tightening their grip on cyberspace and expanding their reach in international media. These political changes have fostered the emergence of new counternorms—such as the authoritarian subversion of credible election monitoring—that threaten to further erode the global standing of liberal democracy. In *Authoritarianism Goes Global*, a distinguished group of contributors present fresh insights on the complicated issues surrounding the authoritarian resurgence and the implications of these systemic shifts for the international order. This collection of essays is critical for advancing our understanding of the emerging challenges to democratic development. Contributors: Anne Applebaum, Anne-Marie Brady, Alexander Cooley, Javier Corrales, Ron Deibert, Larry Diamond, Patrick Merloe, Abbas Milani, Andrew Nathan, Marc F. Plattner, Peter Pomerantsev, Douglas Rutzen, Lilia Shevtsova, Alex Vatanka, Christopher Walker, and Frederic Wehrey

The Authoritarian Personality Theodor Adorno,Else Frenkel-Brenswik,Daniel J. Levinson,R. Nevitt Sanford,2019-08-27 This hugely influential study on the psychology of authoritarianism was written in answer to Hitler's Germany—and now rings more relevant than ever as fascism and anti-Semitism sweep across America. What makes a fascist? Are there character traits that make someone more likely to vote for the far right? *The Authoritarian Personality* is not only one of the most significant works of social psychology ever written, it also marks a milestone in the development of Adorno's thought, showing him grappling with the problem of fascism and the reasons for Europe's turn to reaction. Over half a century later, and with the rise of right-wing populism and the reemergence of the far-right in recent years, this hugely influential study remains as insightful and relevant as ever. This new edition includes an

introduction by Frankfurt School scholar Peter E. Gordon and contains the first-ever publication of Adorno's subsequent critical notes on the project. "Adorno and his colleagues could easily have been describing Alex Jones's paranoid InfoWars rants or the racist views expressed by many Trump supporters." —Molly Worthen, New York Times

Transitions from Authoritarian Rule Guillermo

O'Donnell,Philippe C. Schmitter,Laurence Whitehead,1986-10 An array of internationally noted scholars examines the process of democratization in Southern Europe and Latin America. The authors provide new interpretations of both current and historical efforts of nations to end periods of authoritarian rule and to initiate transition to democracy, efforts that have met with widely varying degrees of success and failure. Extensive case studies of individual countries, a comparative overview, and a synthesis conclusions offer important insights for political scientists, students, and all concerned with the prospects for democracy. In Volume 3, despite the unique contexts of transitions in individual countries, significant points of comparison emerge — such as the influence of foreign nations and the role of agents outside the government. These analyses explore both intra- and interregional similarities and differences.

Transitions from Authoritarian Rule Guillermo A.

O'Donnell,1986-09 An array of internationally noted scholars examines the process of democratization in southern Europe and Latin America. They provide new interpretations of both current and historical efforts of nations to end periods of authoritarian rule and to initiate transition to democracy, efforts that have met with widely varying degrees of success and failure. Extensive case studies of individual countries, a comparative overview, and a synthesis conclusions offer important insights for political scientists, students, and all concerned

with the prospects for democracy. The historical example of Italy after Mussolini as well as the more recent cases of Greece, Portugal, Spain, and Turkey suggest factors that may make a transition relatively secure.

The Politics of Repression Under Authoritarian Rule Dag

Tanneberg, 2020-01-03 Does authoritarian rule benefit from political repression? This book claims that it does, if restrictions and violence, two fundamentally different forms of repression, complement each other. Based on an in-depth quantitative analysis of the post-Second World War period, the author draws three central conclusions. Firstly, restrictions and violence offer different advantages, suffer from different drawbacks, and matter differently for identical problems of authoritarian rule. Secondly, empirical data supports complementarity only as long as political repression preempts political opposition. Lastly, despite its conceptual centrality, political repression has little influence on the outcomes of authoritarian politics. The book also offers new insights into questions such as whether repression hinders successful political campaigns or whether it is more likely to trigger coups d'état.

The Authoritarian Moment Ben Shapiro, 2021-07-27 New York

Times Bestseller How far are Americans willing to go to force each other to fall in line? According to the establishment media, the intelligentsia, and our political chattering class, the greatest threat to American freedom lies in right-wing authoritarianism. We've heard that some 75 million Americans who voted for Donald Trump represent the rise of American fascism; that conservatives have allowed authoritarianism to bloom in their midst, creating a grave danger for the republic. But what if the true authoritarian threat to America doesn't come from the political right, but from the

supposedly anti-fascist left? There are certainly totalitarians on the political right. But statistically, they represent a fringe movement with little institutional clout. The authoritarian left, meanwhile, is ascendant in nearly every area of American life. A small number of leftists—college-educated, coastal, and uncompromising—have not just taken over the Democratic Party but our corporations, our universities, our scientific establishment, our cultural institutions. And they have used their newfound power to silence their opposition. The authoritarian Left is aggressively insistent that everyone must conform to its values, demanding submission and conformity. The dogmatic Left is obsessed with putting people in categories and changing human nature. Everyone who opposes it must be destroyed. Ben Shapiro looks at everything from pop culture to the Frankfurt school, social media to the Founding Fathers, to explain the origins of our turn to tyranny, and why so many seem blind to it. More than a catalog of bad actors and intemperate acts, *The Authoritarian Moment* lays bare the intolerance and rigidity creeping into all American ideology – and prescribes the solution to ending the authoritarianism that threatens our future.

Totalitarian and Authoritarian Regimes in Europe Jerzy W.

Borejsza, Klaus Ziemer, Magdalena Hułas, Niemiecki instytut historyczny (Varsovie), 2006 Based on a conference organized by the Institute of History of the Polish Academy of Sciences and the German Historical Institute, Warsaw, held in Sept. 2000.

Negotiating Democracy Gretchen Casper, Michelle M.

Taylor, 1996-07-15 This book explains why some countries succeed in installing democracy after authoritarian rule, and why some of these new democracies make progress toward consolidation. Casper and Taylor show that a democratic government can be installed when

elite bargaining during the transition process is relatively smooth. They view elite bargaining in twenty-four transitions cases, some where continued authoritarianism was the result, others where a democratic government was the result, and a third outcome where progress towards consolidation was the end product.

The Rise of Trump Matthew C. MacWilliams, 2016 Is the rise of Trump an anomaly-or is it merely a new expression of an old tendency in American politics? Matthew MacWilliams offers a succinct review of American political history, the theoretical literature on authoritarianism, and surveys of political attitudes surrounding the 2016 elections to explore the Trump phenomenon-and its portents.

Making the World Safe for Dictatorship Alexander Dukalskis, 2021 Making the World Safe for Dictatorship is about how authoritarian states manage their image abroad using both promotional tactics of persuasion and obstructive tactics of repression. All states attempt to manage their global image to some degree, but authoritarian states in the post-Cold War era have special incentives to do so given the predominance of democracy as an international norm. Alexander Dukalskis looks at the tactics that authoritarian states use for image management and the ways in which their strategies vary from one state to another. Moreover, Dukalskis looks at the degree to which some authoritarian states succeed in using image management to enhance their internal and external security, and, in turn, to make their world safe for dictatorship.

Authoritarianism and the Elite Origins of Democracy Michael Albertus, Victor Menaldo, 2018-01-25 This book argues that - in terms of institutional design, the allocation of power and privilege, and the lived experiences of citizens - democracy often does not restart the

political game after displacing authoritarianism. Democratic institutions are frequently designed by the outgoing authoritarian regime to shield incumbent elites from the rule of law and give them an unfair advantage over politics and the economy after democratization. *Authoritarianism and the Elite Origins of Democracy* systematically documents and analyzes the constitutional tools that outgoing authoritarian elites use to accomplish these ends, such as electoral system design, legislative appointments, federalism, legal immunities, constitutional tribunal design, and supermajority thresholds for change. The study provides wide-ranging evidence for these claims using data that spans the globe and dates from 1800 to the present. Albertus and Menaldo also conduct detailed case studies of Chile and Sweden. In doing so, they explain why some democracies successfully overhaul their elite-biased constitutions for more egalitarian social contracts.

Dictators and Dictatorships Natasha M. Ezrow, Erica Frantz, 2011-02-24 *Dictators and Dictatorships* is a qualitative enquiry into the politics of authoritarian regimes. It argues that political outcomes in dictatorships are largely a product of leader-elite relations. Differences in the internal structure of dictatorships affect the dynamics of this relationship. This book shows how dictatorships differ from one another and the implications of these differences for political outcomes. In particular, it examines political processes in personalist, military, single-party, monarchic, and hybrid regimes. The aim of the book is to provide a clear definition of what dictatorship means, how authoritarian politics works, and what the political consequences of dictatorship are. It discusses how authoritarianism influences a range of political outcomes, such as economic performance, international conflict, and leader and regime durability. Numerous case studies from

around the world support the theory and research presented to foster a better understanding of the inner workings of authoritarian regimes. By combining theory with concrete political situations, the book will appeal to undergraduate students in comparative politics, international relations, authoritarian politics, and democratization.

The New Authoritarianism in Latin America David

Collier, Fernando Henrique Cardoso, Joint Committee on Latin American Studies, 1979 While one of the most important attempts to explain the rise of authoritarian regimes and their relationship to problems of economic development has been the bureaucratic-authoritarian model, there has been growing dissatisfaction with various elements of this model. In light of this dissatisfaction, a group of leading economists, political scientists, and sociologists was brought together to assess the adequacy of the model and suggest directions for its reformulation. This volume is the product of their discussions over a period of three years and represents an important advance in the critique and refinement of ideas about political development. Part One provides an overview of the issues of social science analysis raised by the recent emergence of authoritarianism in Latin America and contains chapters by David Collier and Fernando Henrique Cardoso. The chapters in Part Two address the problem of explaining the rise of bureaucratic authoritarianism and are written by Albert Hirschman, Jose Serra, Robert Kaufman, and Julio Coder. In Part Three Guillermo O'Donnell, James Kurth, and David Collier discuss the likely future patterns of change in bureaucratic authoritarianism, opportunities for extending the analysis to Europe, and priorities for future research. The book includes a glossary and an extensive bibliography.

Authoritarian Nightmare John W. Dean, Bob

Altemeyer, 2020-08-25 How did America end up with a leader who

acts so crudely and despotically, and counter to our democratic principles? Why do his followers stick with him, even when he acts against their own interests? To fully understand, John Dean, a man with a history of standing up to autocratic presidents, joined with Bob Altemeyer, a professor of psychology with a unique area of expertise: Authoritarianism. Relying on social science findings and psychological diagnostic tools (such as the Power Mad Scale and the Con Man Scale), as well as research and analysis from the Monmouth University Polling Institute (one of America's most respected public opinion research foundations), the authors provide us with an eye-opening understanding of the Trump phenomenon — and how we may be able to stop it.

The International Politics of Authoritarian Rule Oisín Tansey, 2016

Autocrats must overcome a range of challenges as they seek to gain and maintain political power, including the threat that comes from both rival elites and discontented publics. *The International Politics of Authoritarian Rule* examines the ways in which international forces can encourage and assist autocratic actors in overcoming these challenges. Often, autocratic incumbents are strengthened in power by events on the international stage and by the active support of international allies. The book offers a typology of different international forms of influence on authoritarianism, and examines the ways in which external forces shape autocratic rule at the domestic level. The typology distinguishes between three broad forms of international influence: passive influences, unintended consequences, and active forms of external autocratic sponsorship. The book focuses in particular on the latter category, and examines intentional autocratic sponsorship in the post-Cold War period. A central contribution of the book is to address the question of how international

autocratic sponsorship can bolster authoritarian rule. It highlights the ways in which international sponsorship can contribute to authoritarian practices in three significant ways: by increasing the likelihood that authoritarian regimes will pursue 'authoritarian practices' (such as coups, repression or election fraud), by contributing to the implementation of those practices, and finally by shielding autocratic actors from international punishment after such practices are pursued. External sponsorship can thus lower the costs of authoritarian behaviour, and protect and shield authoritarian regimes from the negative consequences of their actions. Oxford Studies in Democratization is a series for scholars and students of comparative politics and related disciplines. Volumes concentrate on the comparative study of the democratization process that accompanied the decline and termination of the cold war. The geographical focus of the series is primarily Latin America, the Caribbean, Southern and Eastern Europe, and relevant experiences in Africa and Asia. The series editor is Laurence Whitehead, Senior Research Fellow, Nuffield College, University of Oxford.

Bridling Dictators Graeme Gill, 2021 This book offers a new perspective on authoritarian politics. Rather than the leadership of the authoritarian political systems being always characterized by arbitrariness, fear, and struggle for power, this book argues that politics of such regimes are structured by a series of rules which bring some consistency and predictability.

The Authoritarian State Eric Voegelin, 1999 Published in Vienna in 1936, *The Authoritarian State* by Eric Voegelin has remained virtually unknown to the public until now. Sales of the German edition were halted following the Nazi invasion of Austria in 1938, & the entire printing was later destroyed by wartime bombing. In this

volume, Voegelin offers a critical examination of the most prominent European theories of state & constitutional law of the period while providing a political & historical analysis of the Austrian situation. He discusses the dismissal of Parliament in 1933, the civil war, the murder of Federal Chancellor Dollfuss, the adoption of the Authoritarian Constitution of 1934, & the predicament of being sandwiched between Hitler & Mussolini. A radical critique of Hans Kelsen's pure theory of law lies at the heart of this work, marking Voegelin's definitive departure from Neo-Kantian epistemology. For the first time, Voegelin elaborates on the important distinction between theoretical concepts & political symbols as a basis for explaining the nontheoretical & speculative character of ideologies, both left & right. He shows that total & authoritarian are symbols of ideological self-interpretation that have no theoretical value, a distinction basic to his later work in *The New Science of Politics*. Available for the first time in English, *The Authoritarian State* is a valuable addition to the Voegelin canon & to the field of intellectual history in general.

Authoritarian Backlash Thomas Ambrosio, 2009 Authoritarian Russia has adopted five strategies to preserve the Kremlin's political power: insulate, bolster, subvert, redefine and coordinate. Presenting detailed case studies of each strategy, this book makes significant contributions to our understandings of Russian domestic and foreign policies, democratization theory and the policy challenges associated with democracy promotion.

The Authoritarian Specter Bob Altemeyer, 1996 The book presents the latest results from a prize-winning research program on the authoritarian personality. Many of America's biggest problems, Bob Altemeyer shows, have authoritarian roots.

The Engaging Realm of Kindle Books: A Thorough Guide Unveiling the Benefits of E-book Books: A World of Convenience and Flexibility

Kindle books, with their inherent mobility and simplicity of availability, have freed readers from the constraints of hardcopy books. Gone are the days of carrying cumbersome novels or meticulously searching for particular titles in shops. E-book devices, stylish and portable, seamlessly store an extensive library of books, allowing readers to immerse in their preferred reads anytime, anywhere. Whether traveling on a busy train, lounging on a sun-kissed beach, or simply cozying up in bed, Kindle books provide an unparalleled level of convenience.

A Literary Universe Unfolded: Discovering the Wide Array of Kindle Authoryaipnrawa Authoryaipnrawa The E-book Shop, a digital treasure trove of literary gems, boasts an extensive collection of books spanning diverse genres, catering to every readers preference and choice. From captivating fiction and thought-provoking non-fiction to timeless classics and contemporary bestsellers, the E-book Store offers an unparalleled variety of titles to discover.

Whether seeking escape through engrossing tales of fantasy and exploration, delving into the depths of past narratives, or expanding ones understanding with insightful works of scientific and philosophy, the E-book Store provides a gateway to a literary universe brimming with endless possibilities.

A Revolutionary Force in the Literary Scene: The Enduring Influence of Kindle Books Authoryaipnrawa

The advent of Kindle books has undoubtedly reshaped the literary scene, introducing a paradigm shift in the way books are released, disseminated, and read. Traditional publication houses have embraced the digital revolution, adapting their strategies to accommodate the growing need for e-books. This has led to a surge in the accessibility of E-book titles, ensuring that readers have access to a wide array of

literary works at their fingers. Moreover, E-book books have democratized entry to books, breaking down geographical barriers and offering readers worldwide with equal opportunities to engage with the written word. Regardless of their location or socioeconomic background, individuals can now engross themselves in the intriguing world of books, fostering a global community of readers.

Conclusion: Embracing the E-book Experience

Authoryaipnrawa E-book books Authoryaipnrawa, with their inherent ease, versatility, and vast array of titles, have certainly transformed the way we experience literature. They offer readers the freedom to discover the limitless realm of written expression, whenever, anywhere. As we continue to navigate the ever-evolving digital landscape, E-book books stand as testament to the lasting power of storytelling, ensuring that the joy of reading remains accessible to all.

Authoryaipnrawa Introduction

Authoryaipnrawa Offers over 60,000 free eBooks, including many classics that are in the public domain. Open Library: Provides access to over 1 million free eBooks, including classic literature and contemporary works. Authoryaipnrawa Offers a vast collection of books, some of which are available for free as PDF downloads, particularly older books in the public domain. Authoryaipnrawa : This website hosts a vast collection of scientific

articles, books, and textbooks.

While it operates in a legal gray area due to copyright issues, its a popular resource for finding various publications. Internet Archive for Authoryaipnrawa : Has an extensive collection of digital content, including books, articles, videos, and more. It has a massive library of free downloadable books. Free-eBooks Authoryaipnrawa Offers a diverse range of free eBooks across various genres.

Authoryaipnrawa Focuses mainly on educational books, textbooks, and business books. It offers free PDF downloads for educational purposes.

Authoryaipnrawa Provides a large selection of free eBooks in different genres, which are available for download in various formats, including PDF. Finding specific Authoryaipnrawa, especially related to Authoryaipnrawa, might be challenging as theyre often artistic creations rather than

practical blueprints. However, you can explore the following steps to search for or create your own Online Searches: Look for websites, forums, or blogs dedicated to Authoryaipnrawa, Sometimes enthusiasts share their designs or concepts in PDF format. Books and Magazines Some Authoryaipnrawa books or magazines might include. Look for these in online stores or libraries. Remember that while Authoryaipnrawa, sharing copyrighted material without permission is not legal. Always ensure youre either creating your own or obtaining them from legitimate sources that allow sharing and downloading. Library Check if your local library offers eBook lending services. Many libraries have digital catalogs where you can borrow Authoryaipnrawa eBooks for free, including popular titles. Online Retailers: Websites like Amazon, Google Books, or Apple Books often sell eBooks.

Sometimes, authors or publishers offer promotions or free periods for certain books. Authors Website Occasionally, authors provide excerpts or short stories for free on their websites. While this might not be the Authoryaipnrawa full book , it can give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of Authoryaipnrawa eBooks, including some popular titles.

FAQs About Authoryaipnrawa Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before

making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Authoryaipnrawa is one of the best book in our library for free

trial. We provide copy of Authoryaipnrawa in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Authoryaipnrawa. Where to download Authoryaipnrawa online for free? Are you looking for Authoryaipnrawa PDF? This is definitely going to save you time and cash in something you should think about.
