Jane Mead

**Make Mead Like a Viking** Jereme Zimmerman, 2015-10-15 A complete guide to using the best ingredients and minimal equipment to create fun and flavorful brews. Ancient societies brewed flavorful and healing meads, ales, and wines for millennia using only intuition, storytelling, and knowledge passed down through generations—no fancy, expensive equipment or degrees in chemistry needed. In *Make Mead Like a Viking*, homesteader, fermentation enthusiast, and self-described “Appalachian Yeti Viking” Jereme Zimmerman summons the bryggjemaður of the ancient Norse to demonstrate how homebrewing mead—arguably the world’s oldest fermented alcoholic beverage—can be not only uncomplicated but fun. Armed with wild-yeast-bearing totem sticks, readers will learn techniques for brewing sweet, semi-sweet, and dry meads, melomels (fruit meads), metheglins (spiced meads), Ethiopian t’ej, flower and herbal meads, braggots, honey beers, country wines, and even Viking grog, opening the Mead Hall doors to further experimentation in fermentation and flavor. In addition, aspiring Vikings will explore:

- The importance of local and unpasteurized honey for both flavor and health benefits;
- Why modern homebrewing practices, materials, and chemicals work but aren’t necessary;
- How to grow and harvest herbs and collect wild botanicals for use in healing, nutritious, and magical meads, beers, and wines;
- Hops’ recent monopoly as a primary brewing ingredient and how to use botanicals other than hops for flavoring and preserving mead, ancient ales, and gruits;
- The rituals, mysticism, and communion with nature that were integral components of ancient brewing and can be for modern homebrewers, as well;
- Recommendations for starting a mead circle to share your wild meads with other brewers as part of the growing mead-movement subculture; and more!

Whether you’ve been intimidated by modern homebrewing’s cost or seeming complexity in the past—and its focus on the use of unnatural chemicals—or are boldly looking to expand your current brewing and fermentation practices, Zimmerman’s welcoming style and spirit will usher you into exciting new territory. Grounded in history and mythology, but—like Odin’s ever-seeking eye—focusing continually on the future of self-sufficient food culture, *Make Mead Like a Viking* is a practical and entertaining guide for the ages.

**Mead** Fred Minnick, 2018-06-12 With fantastical narratives, home-brewing instructions, and original craft cocktail recipes, Mead is the ultimate exploration of the resurgent alcoholic beverage that is nearly as old as time itself. Beloved by figures as diverse as Queen Elizabeth and Thor, the Vikings and the Greek gods, mead is one of history's most storied beverages. But this mixture of fermented honey isn't just a relic of bygone eras -- it's

experiencing a cultural renaissance, taking pride of place in trendy cocktail bars and craft breweries across the country. Equal parts quirky historical narrative, DIY manual, and cocktail guide, Mead is a spirited look at the drink that's been with us even longer than wine. Mead gives readers a fascinating introduction to the rich story of this beloved beverage -- from its humble beginnings to its newfound popularity, along with its vital importance in seven historic kingdoms: Greece, Rome, the Vikings, Poland, Ethiopia, England, and Russia. Pairing a quirky, historical narrative with real practical advice, beverage expert Fred Minnick guides readers through making 25 different types of mead, as well as more than 50 cocktails, with recipes from some of the country's most sought-after mixologists.

**Brew Beer Like a Yeti** Jereme Zimmerman, 2018-09-13 Experimentation, mystery, resourcefulness, and above all, fun—these are the hallmarks of brewing beer like a Yeti. Since the craft beer and homebrewing boom of the late twentieth and early twenty-first centuries, beer lovers have enjoyed drinking and brewing a vast array of beer styles. However, most are brewed to accentuate a single ingredient—hops—and few contain the myriad herbs and spices that were standard in beer and gruit recipes from medieval times back to ancient people's discovery that grain could be malted and fermented into beer. Like his first book, *Make Mead Like a Viking*, Jereme Zimmerman's *Brew Beer Like a Yeti* returns to ancient practices and ingredients and brings storytelling, mysticism, and folklore back to the brewing process, including a broad range of ales, gruits, bragots, and other styles that have undeservingly taken a backseat to the IPA. Recipes inspired by traditions around the globe include sahti, gotlandsdricka, oak bark and mushroom ale, wassail, pawpaw wheat, chicha de muko, and even Neolithic “stone” beers. More importantly, under the guidance of “the world's only peace-loving, green-living Appalachian Yeti Viking,” readers will learn about the many ways to go beyond the pale ale, utilizing alternatives to standard grains, hops, and commercial yeasts to defy the strictures of style and design their own brews.

**Home/Land** Rebecca Mead, 2023-07-11 A moving reflection on the complicated nature of home and homeland, and the heartache and adventure of leaving an adopted country in order to return to your native land—this is a “winsome memoir of departure and reversal . . . about the way a series of unknowns accrue into a life” (Jia Tolentino, author of *Trick Mirror*). When the New Yorker writer Rebecca Mead relocated to her birth city, London, with her family in the summer of 2018, she was both fleeing the political situation in America and seeking to expose her son to a wider world. With a keen sense of what she'd given up as she left New York, her home of thirty years, she tried to knit herself into the fabric of a changed London. The move

raised poignant questions about place: What does it mean to leave the place you have adopted as home and country? And what is the value and cost of uprooting yourself? In a deft mix of memoir and reportage, drawing on literature and art, recent and ancient history, and the experience of encounters with individuals, environments, and landscapes in New York City and in England, Mead artfully explores themes of identity, nationality, and inheritance. She recounts her time in the coastal town of Weymouth, where she grew up; her dizzying first years in New York where she broke into journalism; the rich process of establishing a new home for her dual-national son in London. Along the way, she gradually reckons with the complex legacy of her parents. *Home/Land* is a stirring inquiry into how to be present where we are, while never forgetting where we have been.

**My Life in Middlemarch** Rebecca Mead, 2014-01-28 A New Yorker writer revisits the seminal book of her youth—*Middlemarch*--and fashions a singular, involving story of how a passionate attachment to a great work of literature can shape our lives and help us to read our own histories. Rebecca Mead was a young woman in an English coastal town when she first read George Eliot's *Middlemarch*, regarded by many as the greatest English novel. After gaining admission to Oxford, and moving to the United States to become a journalist, through several love affairs, then marriage and family, Mead

read and reread *Middlemarch*. The novel, which Virginia Woolf famously described as one of the few English novels written for grown-up people, offered Mead something that modern life and literature did not. In this wise and revealing work of biography, reporting, and memoir, Rebecca Mead leads us into the life that the book made for her, as well as the many lives the novel has led since it was written. Employing a structure that deftly mirrors that of the novel, *My Life in Middlemarch* takes the themes of Eliot's masterpiece--the complexity of love, the meaning of marriage, the foundations of morality, and the drama of aspiration and failure--and brings them into our world. Offering both a fascinating reading of Eliot's biography and an exploration of the way aspects of Mead's life uncannily echo that of Eliot herself, *My Life in Middlemarch* is for every ardent lover of literature who cares about why we read books, and how they read us.

World of Made and Unmade Jane Mead, 2016-08-22 Mead's fifth collection candidly and openly explores the long process that is death. These resonant poems discover what it means to live, die, and come home again. We're drawn in by sorrow and grief, but also the joys of celebrating a long life and how simple it is to find laughter and light in the quietest and darkest of moments.

**Selected Writings** George Herbert Mead, 1981-05-15 The book shows ... how Mead's social psychology evolved gradually into a theory of self-consciousness and its social gestalt, an epistemology, and finally a philosophy of history and a realistic ontology of objective relativity.

*Margaret Mead* Paul Shankman,2021-07-16 This short volume is an ideal starting point for anyone wanting to learn about, arguably, the most famous anthropologist of the twentieth century. “Since her death, a steady drip of books about Mead, one of the most significant women in twentieth century social science and American society, has appeared, some interesting, many quite a bit less so. While Shankman’s biography makes use of them, it nevertheless stands out among the better ones, not only for its well-informed and balanced view of Mead, but also for its concision.”—Times Literary Supplement Tracing Mead’s career as an ethnographer, as the early voice of public anthropology, and as a public figure, this elegantly written biography links the professional and personal sides of her career. The book looks at Mead’s early career through the end of World War II, when she produced her most important anthropological works, as well as her role as a public figure in the post-war period, through the 1960s until her death in 1978. The criticisms of Mead are also discussed and analyzed. From the introduction: After her death, she was awarded the Presidential Medal of Freedom by President Jimmy Carter.... On the other side of the world, Mead’s passing was remembered in a very different context. On the island of Manus off the coast of New Guinea, the people of Pere village also mourned her death. Mead first studied the people of Pere in the late 1920s, returning in the 1950s with further visits thereafter. Over a span of five decades, she touched their lives, and they touched hers. Such was Mead’s stature that they commemorated her death with a ceremony befitting a great leader.

The Possessed Elif Batuman, 2010-02-16 One of The Economist's 2011 Books of the Year THE TRUE BUT UNLIKELY STORIES OF LIVES DEVOTED—ABSURDLY! MELANCHOLICALLY! BEAUTIFULLY!—TO THE RUSSIAN CLASSICS No one who read Elif Batuman's first article (in the journal n+1) will ever forget it. Babel in California told the true story of various human destinies intersecting at Stanford University during a conference

about the enigmatic writer Isaac Babel. Over the course of several pages, Batuman managed to misplace Babel's last living relatives at the San Francisco airport, uncover Babel's secret influence on the making of King Kong, and introduce her readers to a new voice that was unpredictable, comic, humane, ironic, charming, poignant, and completely, unpretentiously full of love for literature. Batuman's subsequent pieces—for The New Yorker, Harper's Magazine, and the London Review of Books— have made her one of the most sought-after and admired writers of her generation, and its best traveling companion. In *The Possessed* we watch her investigate a possible murder at Tolstoy's ancestral estate. We go with her to Stanford, Switzerland, and St. Petersburg; retrace Pushkin's wanderings in the Caucasus; learn why Old Uzbek has one hundred different words for crying; and see an eighteenth-century ice palace reconstructed on the Neva. Love and the novel, the individual in history, the existential plight of the graduate student: all find their place in *The Possessed*. Literally and metaphorically following the footsteps of her favorite authors, Batuman searches for the answers to the big questions in the details of lived experience, combining fresh readings of the great Russians, from Pushkin to Platonov, with the sad and funny stories of the lives they continue to influence—including her own.

The Compleat Meadmaker Ken Schramm, 2003-06-09 Since *The Compleat Meadmaker* was first published, mead has continued to grow in popularity as crafted beverages have become an established part of the beverage market in America. In 2003 there were roughly 60 commercial meaderies in the US, but by 2020 this number stood at 450. Naturally, many hobbyists are also discovering the delights of making this “nectar of the gods” themselves. Thanks to the global distribution of bees and, therefore, honey, you will find mead-like drinks in virtually every corner of the world. No wonder historians recognize it as one of humankind's oldest fermented beverages. Mead production never really ceased in Europe and Africa, but its star was eclipsed with the increasing production and distribution of wine, beer, and distilled spirits from the 1600s onward. With the rebirth of brewing and the establishment of world-class wine producing regions in the US, it is time for mead in the twenty-first century to be brought back into the limelight. Mead needs to establish a vocabulary of its own and find a place in the hearts of homebrewers and home winemakers. In *The Compleat Meadmaker*, veteran meadmaker Ken Schramm—one of the founders of the Mazer Cup Mead Competition, North America's oldest mead-only competition—introduces the novice to the wonders of mead. With easy-to-follow procedures and simple recipes, he shows how you can quickly and painlessly make your own mead at home. In later chapters, Schramm introduces flavorful variations on the basic theme that lead to meads flavored with spice, fruits, grapes, and malt.

The author covers the many aspects of meadmaking in a comprehensive but easy-to-read fashion, with something for novices and experienced brewers and vintners alike from basic equipment for meadmaking, creating your first must, and on through the basics of fermentation, racking, and bottling. Once the first steps have been taken Schramm goes into more detail, involving balancing for taste using acid, priming for sparkling mead, corking practices, and strategies for clarifying. He also covers aspects of fermentation, such as selecting the right yeast strain, aerating and managing the pH of your must during the critical early phase of fermentation, and adjusting nutrient levels to suit mead fermentation. The author also troubleshoots common problems and processes, such as stuck fermentations, fermentations that will not start, slow or prolonged fermentations, measuring total acidity via acid titrations, and on balancing residual sugars through sweetening, malo-lactic fermentation, increasing acidity, and drying out the mead further. The fine-tuning process does not stop after fermentation is finished. Perhaps the finest characteristic of mead is that it seems to improve with age almost indefinitely. As well as advice on how long to store it, Schramm also offers up his experience with the many different approaches to conditioning and maturing mead, focusing on the use of oak chips, blocks, and barrels to age mead on wood. As one of the oldest fermented drinks and using the oldest sweetener known to humankind, mead and honey are inextricable. Schramm delves into a brief natural history of honey production and the bees that make it possible, with fascinating insights into the profession of beekeepers. He explores sources of nectar and pollen and the benefits of honey varieties explored, with a section devoted entirely to varietal honey based on floral variety. Along the way Schramm delves into the concept of honey “vintage”, grades of honey, sugar, moisture, organic acids, mineral content, color terminology, and how you should not judge a honey’s flavor by its color. There is also a discussion of aroma compounds, absolutely essential if wishing to understand the organoleptic qualities of honey. While mead can be a charmingly simple drink to make, home meadmakers can easily indulge in a host of different flavors to make unique and delicious meads. The author provides you with an understanding of the role quality ingredients play in creating a really pleasing mead. There are several ingredients-focused chapters that look at making sack mead, melomel, cyser, pyment, hippocras, metheglin, and braggot. At the end, Schramm puts it all together in a section devoted entirely to recipes. As one of the most ancient of human beverages, mead arose in part because it was easy to make. Despite this, mead is a surprisingly complex, diverse, and romantic drink that can range from bone dry to profoundly sweet, and can be crafted to complement any type of food. With *The Compleat Meadmaker*, you can see just how simple, fun, and rewarding meadmaking is.
