**Spell and Spindle** Michelle Schusterman, 2018-07-31 Doll Bones meets Splendors and Glooms as a boy who trades bodies with a wooden marionette. . . . The Museum of Peculiar Arts holds many oddities--a mechanical heart, a diary bound in its owner's skin . . . and Penny, a child-size marionette who almost looks alive. Fog clouds Penny's memories from before the museum, but she catches glimpses here and there: a stage, deep red curtains, long-fingered hands gripping her strings. One day, a boy named Chance touches Penny's strings and hears her voice in his head. Penny can listen, and watch, and think? Now someone else is watching Penny and Chance--a man with a sharp face, a puppeteer who has the tools to change things. A string through a needle. A twist of a spindle. And suddenly Chance is trapped in Penny's marionette body, while Penny is free to run and dance. She knows that finding a way to switch back is the right thing to do. But this body feels so wonderful, so full of life! How can Penny ever return to her puppet shell?

**Life in the Loop** Matt Bieber, 2015-03-27 *Life in the Loop* is a collection of nineteen essays on life with obsessive-compulsive disorder (OCD). The pieces are deeply personal, but they range in style - from traditional biographical narrative to quasi-poetry to brief, Nietzsche-style essays and aphorisms. OCD isn't just an isolated set of tics and fears; it's a pervasive way of being in the world, an orientation that colors everything. In the book, I seek to show how OCD plays out across a range of topics and concerns - self and other, sex and relationships, politics and religion, even space and time. I write about OCD as I experience it: in dips and phases and quarter-turns of the kaleidoscope. I wrote these essays to help me survive. But as I began publishing them on my blog ([mattbieber.net](http://mattbieber.net)) and later in magazines, it became clear that they were helpful to others, too. Those of us with OCD need to hear what it's like for others, to know that we aren't the only ones with broken brains. We need the ecstasy of recognition to interrupt the tedium of our isolation. Our friends and families need these

stories, too. One of the hardest things about being close to someone with OCD is realizing how little you can relate to what they're going through. It doesn't make sense because it doesn't make sense, and it's enormously painful to feel the normal tools of communication - reason, logic, linearity - breaking down. (My parents would have mortgaged their house to know what a day in my teenage life felt like.) In the absence of rational explanations, a view from where your loved one sits is the next best thing. Out of that empathy, understanding can begin to grow.
