ASCENT K.S. Ramachandran, 2019-01-17 In September 1948, K. S. Ramachandran was on a train to Madras, anxious about his uncertain future. After securing a BSc. Honours degree in Physics, he had obtained a first-class certificate in wireless technology in Mumbai with the intention of pursuing a science-based career. But when his instructor refused to give him a letter of recommendation, he knew he could not become an aircraft navigator. At his father's behest, Ramachandran wrote the competitive exam for the Indian Administrative Service. Which is how, just one year after his despondent return, Ramachandran found himself among 30 finalists chosen from an applicant pool of

over 7,000 – for one of the country’s most elite cadres. Ramachandran was assigned to Odisha, then among the most backward states in the country. In *Ascent*, Ramachandran chronicles not just his personal evolution in the IAS but unfolds the parallel transformation of the state over the course of his career. With his grasp of technical detail, a grandmaster’s instinct for stratagem, and his ability to find humor in difficult situations, Ramachandran tirelessly sought and often secured successful outcomes. Corruption and political meddling are an inescapable part of public administration. Ramachandran was framed in a conspiracy case which mired him in 10 years of litigation. He refused to yield a nanometer of his principles. Finally exonerated, he went on to establish and head NALCO, one of India’s pre-eminent public sector companies. *Ascent* is a triumphant affirmation of the timelessness of integrity and hard work. In a time of cynicism, this book inspires one to believe that values lend us the wings to rise to any occasion.

Cultivating Qi Jun Wang, Ph.D., C.M.D., 2011-01-25

While Chinese acupuncture and herbalism enjoy widespread popularity in the West, traditional Chinese exercise techniques—with the exception of qi gong—have rarely been taught outside China. This book is designed to change that. Written by Jun Wang, a doctor of Chinese medicine, *Cultivating Qi* draws on classic Chinese texts to introduce these body-mind healing exercises to Western readers. In simple, accessible language, Wang presents three specific qi exercises: the Yijin Jing, a popular form of calisthenics associated with both Chinese Buddhist and Daoist traditions; Taiji

Neigong, a series of 34 movements adapted from the Wu-Hao style of Taiji Quan; and the “Six Healing Breaths,” which combines spoken sounds with movements associated with the six major vital organs of Chinese medicine. Written for beginning students of Chinese medicine as well as laypersons, healthcare practitioners, and martial artists, Cultivating Qi includes clear explanations of Chinese medical terminology—and provides the original Chinese characters for more advanced students—as well as step-by-step instruction in the three exercises. Accompanied by 100 photographs, these exercises are suitable for all ages and activity levels, and most of them take no more than 10 to 15 minutes to complete.
