Development of the Global Film Industry Qiao Li,Yanqiu Guan,Hong Lu,2020-09-01

The global film industry has witnessed significant transformations in the past few years. Regions outside the USA have begun to prosper while non-traditional production companies such as Netflix have assumed a larger market share and online movies adapted from literature have continued to gain in popularity. How have these trends shaped the global film industry? This book answers this question by analyzing an increasingly globalized business through a global lens. *Development of the Global Film Industry* examines the recent history and current state of the business in all parts of the world. While many existing studies focus on the internal workings of the industry, such as production, distribution and screening, this study takes a big picture view, encompassing the transnational integration of the cultural and entertainment industry as a whole, and pays more attention to the coordinated development of the film industry in the light of influence from literature, television, animation, games and other sectors. This volume is a critical reference for students, scholars and the public to help them understand the major trends facing the global film industry in today's world.

Opening Up Education Toru Iiyoshi,M. S. Vijay Kumar,2008 Online version of MIT Press book has brief overview of book's content and provides links to open access PDF version of ebook, as well as an iPaper version and a link to the MIT Press store for buying the print version. In this collection of essays the authors who are leaders in open education, explore the potential of open education to transform the economics and ecology of education. The

authors argue that we must develop not only the technical capability but also the intellectual capacity for transforming tacit pedagogical knowledge into commonly usable and visible knowledge by providing incentives for faculty to use (and contribute to) open education goods, and by looking beyond institutional boundaries to connect a variety of settings and open source entrepreneurs.

Global Political Ecology Richard Peet, Paul Robbins, Michael Watts, 2010-12-17 The world is caught in the mesh of a series of environmental crises. So far attempts at resolving the deep basis of these have been superficial and disorganized. Global Political Ecology links the political economy of global capitalism with the political ecology of a series of environmental disasters and failed attempts at environmental policies. This critical volume draws together contributions from twenty-five leading intellectuals in the field. It begins with an introductory chapter that introduces the readers to political ecology and summarizes the book's main findings. The following seven sections cover topics on the political ecology of war and the disaster state; fuelling capitalism: energy scarcity and abundance; global governance of health, bodies, and genomics; the contradictions of global food; capital's marginal product: effluents, waste, and garbage; water as a commodity, a human right, and power; the functions and dysfunctions of the global green economy; political ecology of the global climate, and carbon emissions. This book contains accounts of the main currents of thought in each area that bring the topics completely up-to-date. The individual chapters contain a theoretical introduction linking in with the main themes of political ecology, as well as empirical information and case material. Global Political Ecology serves as a valuable reference for students interested in political ecology, environmental

justice, and geography.

Trans Studies Yolanda Martínez-San Miguel, Sarah Tobias, 2016-03-22 Winner of the 2017 Sylvia Rivera Award in Transgender Studies from the Center for LGBTQ Studies (CLAGS) From Caitlyn Jenner to Laverne Cox, transgender people have rapidly gained public visibility, contesting many basic assumptions about what gender and embodiment mean.

The vibrant discipline of Trans Studies explores such challenges in depth, building on the insights of queer and feminist theory to raise provocative questions about the relationships among gender, sexuality, and accepted social norms. Trans Studies is an interdisciplinary essay collection, bringing together leading experts in this burgeoning field and offering insights about how transgender activism and scholarship might transform scholarship and public policy. Taking an intersectional approach, this theoretically sophisticated book deeply grounded in real-world concerns bridges the gaps between activism and academia by offering examples of cutting-edge activism, research, and pedagogy.

Refugee Roulette Jaya Ramji-Nogales, Andrew I. Schoenholtz, Philip G.

Schrag, 2011-04-29 Through the Refugee Act of 1980, the United States offers the prospect of safety to people who flee to America to escape rape, torture, and even death in their native countries. In order to be granted asylum, however, an applicant must prove to an asylum officer or immigration judge that she has a well-founded fear of persecution in her homeland. The chance of winning asylum should have little if anything to do with the personality of the official to whom a case is randomly assigned, but in a ground-breaking and shocking study, Jaya Ramji-Nogales, Andrew I. Schoenholtz, and Philip G. Schrag learned that life-or-death asylum decisions are too frequently influenced by random factors relating to the decision makers. In many cases, the most important moment in an asylum case is the instant in which a clerk randomly assigns the application to an adjudicator. The system, in its current state, is like a game of chance. *Refugee Roulette* is the first analysis of decisions at all four levels of the asylum adjudication process: the Department of Homeland Security, the immigration courts, the Board of Immigration Appeals, and the

United States Courts of Appeals. The data reveal tremendous disparities in asylum approval rates, even when different adjudicators in the same office each considered large numbers of applications from nationals of the same country. After providing a thorough empirical analysis, the authors make recommendations for future reform. Original essays by eight scholars and policy makers then discuss the authors' research and recommendations. Contributors: Bruce Einhorn, Steven Legomsky, Audrey Macklin, M. Margaret McKeown, Allegra McLeod, Carrie Menkel-Meadow, Margaret Taylor, and Robert Thomas.

The Films of Edgar G. Ulmer Bernd Herzogenrath, 2009-05-20 Considered the 'King of Poverty Row,' Edgar G. Ulmer (1904-1972) was an auteur of B productions. A filmmaker with an individual voice, Ulmer made independent movies before that category even existed. From his early productions like *The Black Cat* (1934) and Yiddish cinema of the late 1930s to his final films of the late 1950s and early 1960s, Ulmer created enduring works within the confines of economic constraints. Almost forgotten, Ulmer was rediscovered first in the 1950s by the French critics of the *Cahiers du Cinema* and then in the early 1970s by young American directors, notably Peter Bogdanovich. But who was Edgar G. Ulmer? The essays in this anthology attempt to shed some light on the director and the films he created_films that are great possibly because of, rather than despite, the many restrictions Ulmer endured to make them. In *The Films of Edgar G. Ulmer*, Bernd Herzogenrath has assembled a collection of essays that pay tribute to Ulmer's work and focus not only on his well-known films, including *Detour*, but also on rare gems such as *From Nine to Nine* and *Strange Illusion*. In addition to in-depth analyses of Ulmer's work, this volume also features an interview with Ulmer's wife and an interview Ulmer gave in 1965, in which he comments on actors Bela Lugosi and Boris Karloff, as well as fellow directors Tod Browning and James

Whale.
