Discovering Black America Linda Tarrant-Reid,2018-03-15 From the first African explorers to the first black president, this illustrated history is an excellent resource and “an epic work” (School Library Journal). Discovering Black America is an unprecedented account of more than 400 years of African American history set against a background of American and global events. It begins with a black sailor aboard the Niña with Christopher Columbus and continues through the colonial period, slavery, the Civil War, Jim Crow, and civil rights to the first African American president in the White House. With first-person narratives from diaries and journals, interviews, and archival images, Discovering Black America provides an intimate understanding of this extensive history. “Engaging . . . brings to light many intriguing and tragically underreported stories.” –Kirkus Reviews (starred review) “Reproductions of historical documents, photographs, and artwork provide a sense of immediacy to this immersive tapestry, which reaches well beyond the milestones typically outlined in history books.” –Publishers Weekly (starred review) “Absolutely gorgeous in design, with a harmonious marriage of text and colorful archival images, this is the kind of book that invites browsing, and its extensive reach will make this a go-to title for report writers.” –School Library Journal “Begins with the first African explorers and seamen arriving in the New World in the fifteenth century, and . . . ends with the presidential election of Barack Obama . . . meticulous footnotes and a bibliography of recommended books...An excellent title for classroom support.” –Booklist “Thoroughly researched and documented...an outstanding resource for students. The primary source documents, photographs, and archival maps that complement this compelling account will engage readers.” –Library Media Connection (highly recommended) An NCSS/CBC Notable Social Studies Trade Book for Young People

Germany on the Road to Normalcy W. Reutter,2004-04-02 Many thought that the 'German question', that had shaped European history so catastrophically in the last century, had been solved for good in 1990. And the last elections seemed to confirm that Germany was on the road to 'normalcy'. However, at the beginning of the new century, many see Germany as a problem case in Europe. This raises the question about the future of Germany and the performance of the incumbent government. The book addresses these issues by examining the policies and politics of the Red-Green government and by putting recent changes and developments in this country in a long-term perspective.

How Do Hurricane Katrina's Winds Blow? Liza Treadwell,2014-03-26 The disproportionate effect of Hurricane Katrina on African Americans was an outcome created by law and societal construct, not chance. This book takes a hard look at racial stratification in American today and debunks the myth that segregation is a thing of the past. An outstanding resource for students of African American history, government policy, sociology, and human rights, as well as readers interested in socioeconomics in the United States today, this book examines why the divisions between the areas heavily damaged by Hurricane Katrina and those left unscathed largely coincided with the color lines in New Orleans neighborhoods; and establishes how African Americans have suffered for 400 years under an oppressive system that has created a permanent underclass of second-class citizenship. Rather than focusing on the Katrina disaster itself, the author presents significant evidence of how government policy and structure, as well as societal mores, permitted and sanctioned the dehumanization of African Americans, purposefully placing them in disaster-prone areas-particularly, those in New Orleans. The historical context is framed within the construct of Hurricane Katrina and other hurricane catastrophes in New Orleans, demonstrating that Katrina was not an anomaly. For readers unfamiliar with the ugly existence of segregation in modern-day America, this book will likely shock and outrage as it sounds a call to both citizens and government to undertake the challenges we still face as a nation.

For-Profit Universities Tressie McMillan Cottom,William A. Darity, Jr.,2017-04-03 This edited volume proposes that the phenomenon of private sector, financialized higher education expansion in the United States benefits from a range of theoretical and methodological treatments. Social scientists, policy analysts, researchers, and for-profit sector leaders discuss how and to what ends for-profit colleges are a functional social good. The chapters include discussions of inequality, stratification, and legitimacy, differing greatly from other work on for-profit colleges in three ways: First, this volume moves beyond rational choice explanations of for-profit expansion to include critical theoretical work. Second, it deals with the nuances of race, class, and gender in ways absent from other research. Finally, the book's interdisciplinary focus is uniquely equipped to deal with the complexity of high-cost, low-status, for-profit credentialism at a scale never before seen.

A Brighter Future Richard P. F. Holt,Daphne Greenwood,2014-12-18 As the United States continues its slow climb out of the Great Recession, it is important to focus on new directions to improve the standard of living in America. This book explores what is behind a faltering standard of living in the United States since the early 1980s and what can be done to restore it. The book is uniquely valuable in going beyond mainstream thinking about how to restore prosperity. Economics has

traditionally equated economic growth (increases in per capita income) with improvements in quality of life and the standard of living. This book questions that assumption. The different chapters in the book show the standard of living as being more than income, to include many non-market aspects such as access to public goods (roads, clean air and water, schools, parks, and museums), intangible aspects of quality of life such as equity and a sense of community, and broadly based economic opportunities. This means that improving the standard of living is a multi-dimensional challenge rather than one of solely increasing aggregate demand, productivity, or GDP. This book embodies a pluralistic approach and draws on the expertise of a wide array of thinkers. The intended audience is for various courses offered in economics, sociology, political science, public policy programs, and in environmental and ecological studies.

Being Black, Being Male on Campus Derrick R. Brooms, 2016-12-28 Explores how race and gender matter on campus and how Black males navigate college for academic and personal success. This work marks a radical shift away from the pervasive focus on the challenges that Black male students face and the deficit rhetoric that often limits perspectives about them. Instead, Derrick R. Brooms offers reflective counter-narratives of success. *Being Black, Being Male on Campus* uses in-depth interviews to investigate the collegiate experiences of Black male students at historically White institutions. Framed through Critical Race Theory and Blackmaleness, the study provides new analysis on the utility and importance of Black Male Initiatives (BMIs). This work explores Black men's perceptions, identity constructions, and ambitions, while it speaks meaningfully to how race and gender intersect as they influence students' experiences. Derrick R. Brooms is Assistant Professor of Sociology at the University of Louisville.

Beyond the University Michael S. Roth, 2014-05-06 In this provocative contribution to the disputes surrounding a liberal education, university president Michael S. Roth focuses on important moments and seminal thinkers in America's long-running argument over vocational vs. liberal education.

Geographies of Liberation Alex Lubin, 2014-02-01 In this absorbing transnational history, Alex Lubin reveals the vital connections between African American political thought and the people and nations of the Middle East. Spanning the 1850s through the present, and set against a backdrop of major political and cultural shifts around the world, the book demonstrates how international geopolitics, including the ascendancy of liberal internationalism, established the conditions within which blacks imagined their freedom and, conversely, the ways in which various Middle Eastern groups have understood and used the African American freedom struggle to shape their own political movements. Lubin extends the framework of the black freedom struggle beyond the familiar geographies of the Atlantic world and sheds new light on the linked political, social, and intellectual imaginings of African Americans, Palestinians, Arabs, and Israeli Jews. This history of intellectual exchange, Lubin argues, has forged political connections that extend beyond national and racial boundaries.

Writing/Righting History: Twenty-Five Years of Recovering the US Hispanic Literary Heritage Antonia Castañeda, Clara Lomas, 2019-04-30 The tenth volume in the Recovering the US Hispanic Literary Heritage Series, this collection of essays reflects on the twenty-fifth anniversary of the project's efforts to locate, identify, preserve and disseminate the literary contributions of US Latinos from the Spanish Colonial Period to contemporary times. Essays by scholars recalling the beginnings of the project cover a wide range of topics: origins, identity, archival research, institutional politics and pedagogy. From recollections about funding to personal reminiscences, the recovery of Jewish Hispanic heritage and the intellectual project of reframing American history and literature, these articles provide a fascinating look at twenty-five years of recovering the written legacy of the Hispanic population in what has become the United States. An additional nineteen scholarly essays speak to specific efforts to recover an extremely diverse Latino literary heritage. Historians and literary critics who research Spanish, English and Sephardic texts examine a broad array of subjects, including colonialism, historical populations, exile and immigration. This far-reaching book is required reading for those studying US Latino history and literature.

Calligraphy and Architecture in the Muslim World Gharipour Mohammad Gharipour, 2019-07-30 This major reference work covers all aspects of architectural inscriptions in the Muslim world: the artists and their patrons, what inscriptions add to architectural design, what materials were used, what their purpose was and how they infuse buildings with meaning. From Spain to China, and from the Middle Ages to our own lifetime, Islamic architecture and calligraphy are inexorably intertwined. Mosques, dervish lodges, mausolea, libraries, even baths and market places bear masterpieces of calligraphy that rival the most refined of books and scrolls.

The Concept and Application of Transdisciplinarity in Intellectual Discourse and Research Hester du Plessis, Jeffrey Sehume, Leonard Martin, 2014-02-01 In the past four decades, transdisciplinarity has gained conceptual and practical traction for its transformative value in accounting for the complex challenges besetting humankind, including social relations and natural ecosystems. The need to develop frameworks for joint problem-solving involving diverse stakeholders is unquestionable. Besides generating inclusivity, which embraces academia, civil society, and policymakers in the public and private sectors, transdisciplinarity allows for the appreciation of phenomena from a multiplicity of angles and affords societies creative ways of seeking solutions to challenges that may appear intractable. This book puts forward alternatives within this arena and attempts to directly respond to the multilayered challenges of diffuse disciplines, interlinked socioeconomic problems, impacts of globalization, technological advancements, environmental concerns, food security, and more.

Use of Windfall Gold Sale Profits—Further Considerations International Monetary Fund. Finance Dept., International Monetary Fund. Strategy, Policy, & Review Department, 2011-05-08 In April 2011, Executive Directors held a preliminary discussion on the use of the profits of SDR 6.85 billion from the Fund's limited gold sale. They noted their expectation that at least SDR 4.4 billion of the profits would be placed in an endowment within the Investment Account, and affirmed their support for the 2009 financing package for low-income countries (LICs), including the distribution to the Fund's membership of up to SDR 0.7 billion from the profits linked to gold sales, with the expectation that most members will return equivalent funds to the Poverty Reduction and Growth Trust (PRGT). There was a wide range of views among Directors on the three main options presented for the windfall of SDR 1.75 billion, but no consensus favoring a single option. The main options presented included use of resources linked to the windfall to boost the capacity of the PRGT, counting the windfall towards precautionary balances, or investing the windfall profits as part of the Investment Account's endowment. Many Directors indicated that they could support a combination of two or more of the main options.
