Becoming Citizens of a Plural Europe François Becker, Groupe international interculturel et interconvictionnel, Conférence des OING., 2016

Canada and Ireland Philip J. Currie, 2020-04-15 Canadians have been involved in, intrigued by, and frustrated with Irish politics, from the Fenian Raids of the 1860s to the present day. Yet scholars have largely neglected Canadian-Irish relations since the consolidation of the Irish Free State in the 1920s. In *Canada and Ireland*, Philip J. Currie addresses this lacuna and examines political relations between the two countries, from partition to the Good Friday Agreement of 1998. This intriguing study sheds light on Ottawa's responses to key developments such as Ireland's neutrality in the Second World War, its unsettled relationship with the Commonwealth, and the always contentious issue of Irish unification.

Catechism of the Catholic Church U.S. Catholic Church, 2003-03-04 Over 3 million copies sold! Essential reading for Catholics of all walks of life. Here it is - the first new Catechism of the Catholic Church in more than 400 years, a complete summary of what Catholics around the world commonly believe. The Catechism draws on the Bible, the Mass, the Sacraments, Church tradition and teaching, and the lives of saints. It comes with a complete index, footnotes and cross-references for a fuller understanding of every subject. The word catechism means instruction - this book will serve as the standard for all future catechisms. Using the tradition of explaining what the Church believes (the Creed), what she celebrates (the Sacraments), what she lives (the Commandments), and what she prays (the Lord's Prayer), the Catechism of the Catholic Church offers challenges for believers and answers for all those interested in learning about the mystery of the Catholic faith. The Catechism of the Catholic Church is a positive, coherent and contemporary map for our spiritual journey toward transformation.

Governance and Regionalism in Asia Nicholas Thomas, 2009-01-13 In the decade since the Asian financial crisis the ten states of Southeast Asia that form ASEAN, together with China, Japan and South Korea have formed the basis of a community intended to support the well-being of its member states, markets and peoples. This highly successful regionalisation was not anticipated by the region's leaders, however, and as a result, policy makers are increasingly talking about 'meeting fatigue' and the need to find a better way to govern regional affairs. Among the reforms being considered is a shift towards a more rules-based culture as well as the more explicit incorporation of both private sector and civil society organisations into the policy processes. In short, ASEAN+3 is seeking to develop new norms and processes for its networks and institutions. This book explores the pressures currently influencing East Asian regionalist policy debates, analysing the trend towards deeper integration and the emergence of a governance model for managing regional processes. Combining state and subnational perspectives in conjunction with an examination of the role of the business community and civil society organisations, this book highlights the policy challenges confronting regionalism and governance in East Asia, including key issues such as the rule of law, financial cooperation and a case study on disaster management.

Religion and Education in Europe Robert Jackson,

China's Integration Into the World Economy John Whalley, 2011 This book discusses China's integration into the world economy, drawing on papers previously written by the editor. It focuses on strong trade growth, FDI inflows, innovation policy (including transfer of technology and intellectual property), the role of saving, and the accumulation of human capital. It also analyzes the quantitative significance of openness in driving China's growth. While other books on China do not focus much on China's integration into the world economy, this book provides technically strong analyses of key contributing factors to China's growth performance. It also highlights innovation and education policy and their significance for the 11th five-year plan which aims to quadruple real income per capita between 2000 and 2020.

Islam and Muslims in Germany Ala Al-Hamarneh, Jörn Thielmann, 2008-01-01 In the European discourse of post 9/11 reality, concepts such as a *oeMulticulturalisma*, a *oeIntegrationa* and a *oeEuropean Islama* are becoming more and more topical. The empirically- based contributions in this volume aim to reflect the variety of current Muslim social practices and life-worlds in Germany. The volume goes beyond the fragmented methods of minority case studies and the monolithic view of Muslims as portrayed by mass media to present fresh theoretical approaches and in-depth analyses of a rich mosaic of communities, cultures and social practices. Issues of politics, religion, society, economics, media, art, literature, law and gender are addressed. The result is a vibrant state-of-the-art publication of studies of real-life communities and individuals.

Foreign Aid and Landmine Clearance Matthew Breay Bolton, 2010-01-30 In the decade since the signing of the Ottawa Treaty, which banned the production and use of anti-personnel mines, governments have spent over \$3 billion on clearing up and mitigating the security threat of mines, cluster munitions and other unexploded ordnance in the world's current and former war zones. However, this flow of cash into regions dominated by violent social structures raises numerous political issues. Through detailed archival and field research, this book explores the politics behind the allocation and implementation of foreign aid by the US and Norway for demining in Afghanistan, Bosnia and Sudan. It is an essential resource for practitioners and policymakers working in the field of landmine clearance and for students and researchers of Development Studies and post-war reconstruction.

Understanding Toxicology Steven Mercurio, 2016-08-30 Understanding Toxicology is a comprehensive study of toxicants and their impact on all levels of biology--from cell, to complex organism, to ecosystem. Unlike other texts of its kind, this text is uniquely structured by biological system, making it easy for readers to understand the impact of toxins on each system. Common mechanisms are explored in the cellular and complex organ system chapters to approach a systems biology perspective that is more applicable to modern computational toxicology risk assessment. Understanding Toxicology begins with three research questions that challenge the reader to discover what information is needed to solve controversies at the level of the cell, the complex organism, and the ecosystem. The book continues with a cellular, complex organism, and ecosystem analysis of toxicology principles including risk assessment. The cellular section follows common mechanisms from the outside to the inside of cells and individual organelles. A forensic approach analyzes complex organisms from outside to inside. The ecosystem section starts with a dispersion approach to determine environmental concentration and addresses toxicants in divisions similar to how the EPA determines impacts. Key Features • Uses lively, engaging examples making the text fun and easy to read and understand • Allows the reader to approach the subject from a research perspective as well as a public policy perspective • Covers biological toxicants including venoms, poisons, as well as microbial and fungal toxins, and plant toxins • Thoroughly covers all organisms including fish, plants, and microbes • Includes outlines and review questions in each chapter

Global Power Shifts and Strategic Transition in Asia N. S. Sisodia, V. Krishnappa, 2009 Papers presented at the 10th Asian Security Conference, held at New Delhi on 4th February 2008.

Sugar Elizabeth Abbott, 2011-09-27 This dramatic history of an ingredient that changed the world "offers up a number of fascinating stories" (The New York Times Book Review). Sugar explores the history behind the sweetness, revealing, among other stories, how powerful American interests deposed Queen Lili'uokalani of Hawaii; how Hitler tried to ensure a steady supply of beet sugar when enemies threatened to cut off Germany's supply of overseas cane sugar; and how South Africa established a domestic ethanol industry in the wake of anti-apartheid sugar

embargos. The book follows the role of sugar in world events and in individual lives up to the present day, showing how it made eating on the run socially acceptable and played an integral role in today’s fast food culture and obesity epidemic. Impressively researched and commandingly written, Sugar will forever change perceptions of this tempting treat. “A highly readable and comprehensive study of a remarkable product.” —The Independent “Epic in ambition and briskly written.” —The Wall Street Journal “Readers will never again be able to casually sweeten tea or eat sweets without considering the long and fascinating history of sugar.” —Booklist

Transition and Development in China Mr Yun Chen,2012-11-28 China's transition from a planned economy to a market economy has succeeded in producing more than a decade of phenomenal growth. Whilst similar reforms in countries of Central and Eastern Europe and the former Soviet Union have seen an initial downturn in production, usually with a significant rise in unemployment, the success of the approach taken by China has been remarkable. However, China embarked upon the process, without a well-designed blueprint at the outset. The resulting piecemeal, partial, incremental, and often experimental approach has proved complicated to implement - requiring a complex melding of politics and economics, internal and foreign affairs, government and market. How the difficult task of balancing the diverse array of often competing concerns has been achieved is the subject of this book, which examines the dismantling of the centrally planned system and the mechanism of institutional change in Chinese transition.

Christendom and European Identity Mary Anne Perkins,2015-02-06 This book critically explores the idea of Europe since the French Revolution from the perspective of intellectual history. It traces the dominant and recurring theme of Europe-as-Christendom in discourse concerning the relationship of religion, politics and society, in historiography and hermeneutics, and in theories and constructions of identity and ‘otherness’. It examines the evolution of a grand narrative by which European elites have sought to define European and national identity. This narrative, the author argues, maintains the existence of common historical and intellectual roots, common values, culture and religion. The book explores its powerful legacy in the positive creation of a sense of European unity, the ways in which it has been exploited for ideological purposes, and its impact on non-Christian communities within Europe.

Devenir citoyens et citoyennes d'une Europe plurielle Sous la direction de François Becker,2014-04-03 Aussi difficile qu'urgente s'impose désormais l'instauration, au-delà d'un formalisme conventionnel peu signifiant, d'espaces de dialogue, d'organismes de concertation susceptibles de développer et de prendre en charge un vrai dialogue entre les convictions morales, sociales et politiques des citoyens européens qui se réclament d'une appartenance ecclésiale, religieuse ou associative. C'est avec vigueur que les citoyennes et les citoyens d'une Europe plurielle réclament aujourd'hui l'instauration de nouvelles pratiques de démocratie délibérative. L'interconvictionnel: un concept plus large que ceux de l'interreligieux et de l'interculturel, que les hommes et femmes qui prennent ici la parole placent au coeur de leurs réflexions sur la construction, le devenir et le fonctionnement de l'Union européenne. Entre théorie et pragmatique, les auteurs débattent et creusent un concept qui tend vers toujours plus de dialogue et de tolérance, de concertation et d'esprit de synthèse... Un concept qui ne veut encore exclure aucun pan des sociétés de notre mosaïque européenne, qui veut embrasser croyants, athées et agnostiques, et qui serait à la base d'une communauté toujours plus démocratique et forte de sa diversité. Aussi est-ce pour une véritable transformation politique que plaide cet ouvrage résolument porté par sa foi en l'Europe.
