Investing in Cultural Diversity and Intercultural Dialogue Unesco,2009-01-01 This report analyses all aspects of cultural diversity, which has emerged as a key concern of the international community in recent decades, and maps out new approaches to monitoring and shaping the changes that are taking place. It highlights, in particular, the interrelated challenges of cultural diversity and intercultural dialogue and the way in which strong homogenizing forces are matched by persistent diversifying trends. The report proposes a series of ten policy-oriented recommendations, to the attention of States, intergovernmental and non-governmental organizations, international and regional bodies, national institutions and the private sector on how to invest in cultural diversity. Emphasizing the importance of cultural diversity in different areas (languages, education, communication and new media development, and creativity and the marketplace) based on data and examples collected from around the world, the report is also intended for the general public. It proposes a coherent vision of cultural diversity and clarifies how, far from being a threat, it can become beneficial to the action of the international community.

The Element Sir Ken Robinson, PhD, Lou Aronica, 2009-01-08 A New York Times-bestselling breakthrough book about talent, passion, and achievement from the one of the world's leading thinkers on creativity and self-fulfillment. The Element is the point at which natural talent meets personal passion. When people arrive at the Element, they feel most themselves and most inspired and achieve at their highest levels. With a wry sense of humor, Ken Robinson looks at the conditions that enable us to find ourselves in the Element and those that stifle that possibility. Drawing on the stories of a wide range of people, including Paul McCartney, Matt Groening, Richard Branson, Arianna Huffington, and Bart Conner, he shows that age and occupation are no barrier and that this is the essential strategy for transforming education, business, and communities in the twenty-first century. Also available from Ken Robinson is *Imagine If*, a call to action that challenges and empowers us to reimagine our world and our systems for the better, through a compilation of Sir Ken's key messages and philosophies.

Sustainable Consumer Services Minna Halme, 2012-05-16 The goal for consumer oriented business should be to make a profit and to do it without costing the Earth. Yet exactly how to satisfy the needs and wants of consumers without contributing to environmental degradation is proving to be the essential, but elusive goal for businesses in the 21st century. The leading solution is to substitute material consumption with the consumption of services that offer consumers convenience and value but eliminate much of the inefficiency and waste associated with our throw-away society. Sustainable consumer services for households - services that are delivered to consumers at the premises such as home delivery of organic food, appliance leasing, mobile laundry services, internet marketing of homeservices or car pool schemes - provide a key part of the answer of how to reduce material consumption and waste while still turning a profit. Yet until now there has been little information to guide the development of such business models and practices, and to develop ways to make service-based consumption more attractive to consumers than object-ownership-based models. This book, equally a practical business handbook and business course text, provides the missing link in sustainable household service competitiveness by examining the issues, looking at business models, providing dozens of real-life best-practice examples and presenting data from the first large-scale consumer survey that explains consumer behaviour and what they want from home service provision. The book is an essential resource for businesses and public or nonprofit organizations and housing organizations entering the growing consumer services market. It provides a wealth of business know-how on what works and what doesn't, how to avoid potential pitfalls, and how to provide consumer services at the household level that are profitable, environmentally sustainable and that add to consumers quality of life.

Multilingualism and Education in Africa Ruth W. Ndung'u, Martin C. Njoroge, Daniel O. Orwenjo, 2014-10-16 This book is a must-read for every language teaching professional and researcher working in a multilingual context. Multilingualism and Education in Africa: The State of the State of the Art is an up-to-date exploration and wide-ranging review of the symbiotic relationship between multilingualism and education in Africa. The African continent is rich in languages. Most of her inhabitants are multilingual and many of the nations have embraced multilingual education. This book examines multilingualism in education from three broad perspectives: multilingualism and language in education policy in Africa; multilingualism as an educational resource in Africa; and attitudes and challenges of multilingualism and education in Africa. The book's nineteen chapters discuss these three perspectives from East, West, Central and South Africa. All the contributors are leading authorities in multilingualism and education. The chapters combine a wide range of viewpoints based on theoretical, empirical and personal experiences. The reader is left with a deeper understanding of the unique features of multilingualism and education in Africa that have seldom been addressed by those who experience them first-hand. The book demonstrates successful practices in multilingualism and education; showing how African nations have determined what works for them without ignoring challenges such as policies on paper, attitudes towards African languages and limited resources. The benefits of multilingual education override the challenges. The book's extensive coverage makes it an important resource for scholars and policy makers in the field of multilingualism and education. Overall, this book represents an important contribution to an important subject in education globally. The editors have provided an introductory overview to the book and commentaries on the three sections.

Putting Poor People to Work Kathleen M. Shaw, Sara Goldrick-Rab, Christopher Mazzeo, Jerry A. Jacobs, 2006-08-17 Today, a college education is increasingly viewed as the gateway to the American Dream—a necessary prerequisite for social mobility. Yet recent policy reforms in the United States effectively steer former welfare recipients away from an education that could further their career prospects, forcing them directly into the workforce where they often find only low-paying jobs with

little opportunity for growth. In *Putting Poor People to Work*, Kathleen Shaw, Sara Goldrick-Rab, Christopher Mazzeo, and Jerry A. Jacobs explore this troubling disconnect between the principles of work-first and college for all. Using comprehensive interviews with government officials and sophisticated data from six states over a four year period, *Putting Poor People to Work* shows how recent changes in public policy have reduced the quantity and quality of education and training available to adults with low incomes. The authors analyze how two policies encouraging work—the federal welfare reform law of 1996 and the Workforce Investment Act of 1998—have made moving people off of public assistance as soon as possible, with little regard to their long-term career prospects, a government priority. *Putting Poor People to Work* shows that since the passage of these work-first laws, not only are fewer low-income individuals pursuing postsecondary education, but when they do, they are increasingly directed towards the most ineffective, short-term forms of training, rather than higher-quality college-level education. Moreover, the schools most able and ready to serve poor adults—the community colleges—are deterred by these policies from doing so. Having a competitive, agile workforce that can compete with any in the world is a national priority. In a global economy where skills are paramount, that goal requires broad popular access to education and training. *Putting Poor People to Work* shows how current U.S. policy discourages poor Americans from seeking out a college education, stranding them in jobs with little potential for growth. This important new book makes a powerful argument for a shift in national priorities that would encourage the poor to embrace both work and education, rather than having to choose between the two. Our Lady of Sorrow Israel Shamir, 2005-06 Story of Our Lady statue in Bethlehem destroyed by the Jewish Army and its universal meaning. Ideas are not less important than material things; oil does not provide the whole explanation of the war in the Middle East, faith is not dead and can't die as long as mankind exists. Even the belief in the Market forces is just another faith, an old established cult of Mammon. Faith is not only a personal affair; religion still matters, probably more than we think.

Development with a Body Andrea Cornwall, Sonia Correa, Susie Jolly, 2013-07-04 'We used to talk about development with a human face. We should be talking about development with a body' Arit Oku-Egbas, African Regional Sexuality Resource Centre, Nigeria Sex and sexuality have always had a place at the heart of the development agenda - from concerns regarding population and environment, to practices in education and efforts for protecting reproductive health and rights. Yet this agenda has largely focused on negative dimensions of sexuality - disease, risk, violation - rather than positive aspects, including rights to sexual fulfillment, wellbeing and pleasure. The shift towards a rights-based approach to development has brought the human rights dimensions of sexuality into clearer view, and consequently the need to address discriminatory laws and violations of the human rights of those whose sexual identity and practices diverge from dominant sexual orders/norms. This book offers compelling insights into contemporary challenges and transformative possibilities of the struggle for sexual rights. It combines the conceptual with the political, and offering inspiring examples of practical interventions and campaigns that emphasize the positive dimensions of sexuality. It brings together reflections and experiences of researchers, activists and practitioners from Brazil, India, Nigeria, Peru, Serbia, South Africa, Turkey, the UK and Zambia. From political discourse on sex and masculinity to sex work and trafficking, from HIV and sexuality to struggles for legal reform and citizenship, the authors explore the gains of creating stronger linkages between sexuality, human rights and development.

Minority Language Protection in Europe Council of Europe, 2010-01-01 This volume contains a selection of papers based on presentations given at the international conference entitled *The European Charter for Regional or Minority Languages: Achievements and Challenges*, co-organised by the Council of Europe, The Government of Spain, The Government of the Basque Country And The University of the Basque Country, which was held in Bilbao (Spain) on 20 and 21 April 2009. This work looks at the future prospects of the charter in the light of the experience gained over the first decade of the charter's existence. It is evident that governments bear the primary responsibility in preparing for ratification and in applying the charter, and this is illustrated by case studies for some states parties To The charter. However, regional and local authorities also play a very important role in relation To The charter as they are confronted on a daily basis with the use and protection of minority languages
