A Philosophical Exploration of the Humanities and Social Sciences Giorgio

Baruchello, Ársæll Már Arnarsson, 2022-11-07 Humor has been praised by philosophers and poets as a balm to soothe the sorrows that outrageous fortune's slings and arrows cause inevitably, if not incessantly, to each and every one of us. In mundane life, having a sense of humor is seen not only as a positive trait of character, but as a social prerequisite, without which a person's career and mating prospects are severely diminished, if not annihilated. However, humor is much more than this, and so much else. In particular, humor can accompany cruelty, inform it, sustain it, and exemplify it. Therefore, in this book, we provide a comprehensive, reasoned exploration of the vast literature on the concepts of humor and cruelty, as these have been tackled in Western philosophy, humanities, and social sciences, especially psychology. Also, the apparent cacophony of extant interpretations of these two concepts is explained as the inevitable and even useful result of the polysemy inherent to all common-sense concepts, in line with the understanding of concepts developed by M. Polanyi in the 20th century. Thus, a thorough, nuanced grasp of their complex mutual relationship is established, and many platitudes affecting today's received views, and scholarship, are cast aside.

Fruitful Discipleship Sherry A. Weddell, 2017-06-20

As faith-filled Catholics, we are called to go out and spread the good news of the Gospel, build up the Church, and fuel its mission. We are supernaturally empowered by God to do this through the charisms we receive at Baptism. Learn about each charism, what they are, and how discipleship unleashes these powerful gifts to produce fruit that lasts.

China on Video Paola Voci, 2010-06-10

China On Video is the first in-depth study that examines smaller-screen realities and the important role they play not only in the fast-changing Chinese mediascape, but also more broadly in the practice of experimental and non-mainstream cinema. At the crossroads of several disciplines—film, media, new media, media anthropology, visual arts, contemporary China area studies, and cultural studies--this book reveals the existence of a creative, humorous, but also socially and politically critical China on video, which locates itself outside of the intellectual discourse surrounding both auteur cinema and digital art. By describing smaller-screen movies, moviemaking and viewing as light realities, Voci points to their insignificant weight in terms of production costs, distribution size, profit gains, intellectual or artistic ambitions, but also their deep meaning in defining an alternative way of seeing and understanding the world. The author proposes that lightness is a concept that can usefully be deployed to describe the moving image, beyond the specificity of recent new media developments and which can, in fact, help us rethink previous cinematic practices in broad terms both spatially and temporally.

Plato's Dreams Realized Aleksandr Vladimirovich Avakov, 2006

In this study of the philosophical and political nature of law, morality, rights and security, a Russian dissident shares his experience with the KGB and then with the US national security state and details the history of political surveillance in the US.

Metafolklore Alexander V. Avakov, 2012-12

The book is organized in Folklore Units. Each Folklore Unit has Context and may have one or more Metacontexts with citations of works of great philosophers or writers; hence, the title of the book is Metafolklore. The book covers the life of immigrants from the USSR in the U.S., remembers life in Russia, and gradually concentrates on the modus operandi of the KGB, FBI, CIA, NYPD, NSA, ECHELON, Foreign Intelligence Surveillance Court, AI, and ISI. It covers frontiers of legal theory of surveillance. What distinguishes this book is the intensely personal account of the events and issues.

Títulos da dívida pública Marcelo Zrolanek Regis,2021-03-01 O presente trabalho trata das apólices da dívida pública emitidas no início do século XX, do seu processo de resgate e das recusas ao pagamento pelo Estado sob diversos argumentos, dentre eles a prescrição. Com este trabalho, faz-se uma interpretação dos elementos que levam o Estado à recusa no resgate das apólices e os fundamentos que propõem os proprietários dos referidos títulos, cuja relevância monetária e repercussão no orçamento público conduz a máquina legislativa aos interesses próprios do Estado, em prejuízo aos outros direitos então preservados, como o direito de propriedade, segurança jurídica e à tutela do ato jurídico perfeito e acabado. Propõe, com o presente estudo, uma reflexão quanto às interferências da Lei em equilíbrio com a repercussão econômica dos atos praticados pelo Estado e com as repercussões que dela originam à sua imagem, seja no pagamento de débitos do Estado frente a particulares que tiveram seus bens apropriados pelo Estado para financiamento de obras públicas, seja na indenização pelos atos praticados pelo Estado a danos sofridos por manifestantes no período da ditadura militar na década de 70.

The Department of Labor's ... Findings on the Worst Forms of Child Labor ,2003

Intelligence Activities and the Rights of Americans Committee Church Committee,United States. Congress. Senate. Select Committee to Study Governmental Operations with Respect to Intelligence Activities,United States,2008 When it was first revealed that the Bush Administration had implemented a secret program of warrantless wiretaps and domestic spying on US citizens, few Americans knew that all of this had happened before. In the early 1970's, it was revealed that US government agencies, including the FBI, CIA, NSA and IRS, were being used as part of a deliberate plan to infiltrate and disrupt political opponents, and this plan had continued for 20 years under four different Presidents, both Democratic and Republican. This report by the Senate Select Committee (the Church Committee) details the elaborate efforts by the FBI, CIA and NSA to spy on Americans by tapping their telephones, by intercepting and copying their mail, and even by burglarizing their homes (known as black bag jobs). In response to this report, Congress established the FISA courts that Bush bypassed when he directed the NSA to once again spy on Americans without court approval or oversight.

Changing Minds Howard Gardner,2006-09-01 Think about the last time you tried to change someone's mind about something important: a voter's political beliefs; a customer's favorite brand; a spouse's decorating taste. Chances are you weren't successful in shifting that person's beliefs in any way. In his book, *Changing Minds*, Harvard psychologist Howard Gardner explains what happens during the course of changing a mind – and offers ways to influence that process. Remember that we don't change our minds overnight, it happens in gradual stages that can be powerfully influenced along the way. This book provides insights that can broaden our horizons and shape our lives.

We Shall Fight on the Beaches Jacob F. Field,2013-10-02 Prefaced by brief historical and biographical introductions, the examples in this book show how words can be used to inspire, to comfort, to move, or to enthuse even the most seemingly hard-bitten of listeners. From rallying cries such as Garibaldi's 'To arms, then, all of you!' and Chou En-lai's 'We must hold aloft the great red banner' to sombre statements such as Sheikh Mujibur Rahman's 'This time the struggle is for our freedom', each extract gives us an insight into the hardships of war and the fight for courage. Spanning over two millennia and with speeches from across the globe, *We Shall Fight on the Beaches*

is a book to inspire and inflame the reader.
