Human Security in Southeast Asia Yukiko Nishikawa, 2010-09-13 There is a growing interest in human security in Southeast Asia. This book firstly explores the theoretical and conceptual basis of human security, before focusing on the region itself. It shows how human security has been taken up as a central part of security policy in individual states in Southeast Asia, as well as in the regional security policy within the Association of Southeast Asian Nations (ASEAN). The book discusses domestic challenges for human security including the insurgencies in southern Thailand, the Philippines and Indonesia. Transnational security issues such as terrorism, drugs, human trafficking and the situation in Burma are explored by the author, and the 'ASEAN' way of contrasting the values and approaches of Southeast Asian countries with those in the West is assessed. By focusing on the ongoing changes and efforts to achieve human security in Southeast Asia, this book contributes to theoretical debates on human security as well as regional studies on Southeast Asia.

Terror on the High Seas Yonah Alexander, Tyler Richardson, 2009-09-03 A provocative new look at an important security topic examines terrorist threats and attacks on shipping and ports—and provides strategies for safety. *Terror on the High Seas: From Piracy to Strategic Challenge* is a provocative look at maritime security and the steps that must be taken if terrorist threats are to be nullified. From the Achille Lauro hijacking to the bombing of the USS Cole to attacks on shipping channels, terrorists have employed a variety of tactics, both successful and unsuccessful. These have included the smuggling of arms and plots to bomb shipyards, as well as attacks on Merchant Marine ships, maritime offices, fuel storage facilities, and Navy personnel, ships, and facilities, on shore and in port. This book constitutes the first research effort after the unprecedented attacks of September 11, 2001, to provide government, industry, and the academic and policy communities with a major resource on potential threats to the maritime environment. Assuming that past tactics, as well as a variety of other unconventional attacks, will be utilized by both domestic and international groups well into the 21st century, the book sagely outlines the response needed from government and industry to meet the coming challenges.

Political Islam and Violence in Indonesia Zachary Abuza, 2006-09-25 *Political Islam and Violence in Indonesia* presents a penetrating new investigation of religious radicalism in the largest Muslim country in the world. Indonesia is a country long known for its diversity and tolerant brand of Islam. However, since the fall of Suharto, a more intolerant form of Islam has been growing, one whose adherents have carried out terrorist attacks, waged sectarian war, and voiced strident anti-Western rhetoric. Zachary Abuza's unique analysis of radical Islam draws upon primary documents such as Jemaah Islamiyah's operations manual, interviews, and recorded testimonies of politicians, religious figures, and known militants, as well as personal interviews with numerous security and intelligence experts in Indonesia and elsewhere, to paint a picture at once guardedly optimistic about the future of Indonesian democracy and concerned about the increasing role of conservative and radical Islam in Indonesian society. This book will be of great interest to students of Indonesian politics, Asian studies, political violence and security studies in general.

International Relations in Southeast Asia Donald E. Weatherbee, 2009 This

balanced, comprehensive guide to Southeast Asian politics offers a sensible but nondogmatic realist approach to the region's international relations. In this revised, second edition, Donald E. Weatherbee lucidly explains the dynamics of the Southeast Asian subsystem as a struggle for autonomy in pursuit of national interests. He explores three important questions, the answers to which will shape the future Southeast Asia. Will democratic regimes transform international relations in Southeast Asia? Will national leaders succeed in reinventing ASEAN as a more effective collaborative mechanism? Finally, how will the evolving Chinese position, balancing and perhaps displacing the United States as Asia's great power, affect Southeast Asia's struggle for autonomy?

Transnational Crime and Human Rights Susan Kneebone, Julie Debeljak, 2012-08-06 Transnational Crime and Human Rights offers an evaluation of the responses to the transnational crime of human trafficking and governance of the issue through a case study of the Greater Mekong Subregion (GMS), which comprises Cambodia, the People's Republic of China, Lao People's Democratic Republic, Myanmar, Thailand, and Viet Nam. The book analyses the international and national legal policy frameworks and the role of governments, international and national non-governmental institutions, and regional processes in responding to trafficking issues in the GMS. The book is based on the findings of a three year study conducted in the region, involving interviews with more than 60 individuals from relevant organizations and agencies, and examines the social, political and historical factors, including gender and age, labour exploitation and migration which form the background to human trafficking in the GMS. The authors consider issues of competing mandates, and gaps in strategies for protection and conclude with a discussion of broader lessons to be learned from the GMS situation and suggestions for future governance strategies in the fight against trafficking.

Globalisation and the New Terror David Martin Jones, 2004-01-28 Examines trends in new terror, understood here to be the capacity of sub-state actors to secure religious or politically motivated objectives by violent means. Argues that while the use of violence to achieve political ends is scarcely original, what distinguishes new terror is its potential for lethality. Australian author.

Piracy and International Maritime Crimes in ASEAN Robert C. Beckman, J. Ashley Roach, 2012-01-01 This book makes an important contribution to the legal literature not only for the ASEAN region but also for the world at large. Both editors, Robert Beckman and J. Ashley Roach, are highly knowledgeable and experienced in the international law pertaining to piracy and international crimes. The chapters they write combined with perspectives by authors from Greece, Sweden, Singapore, Philippines and elsewhere provide a broad but detailed review of the current law and policy as well as remaining challenges. ð Myron H. Nordquist, University of Virginia School of Law, US This book is an outstanding analysis of piracy and maritime crimes in the ASEAN region edited by two world-class law of the sea experts. It is must reading for anyone seriously interested in ending the scourge of piracy. ð John Norton Moore, University of Virginia and former United States

Law of the Sea Ambassador ÔI can confidently say that this is the best book on the legal dimension of the problem of piracy in general, and of piracy in Southeast Asia and off the coast of Somalia in particular, and what we can do about it. Robert Beckman and Ashley Roach are two of the finest minds working in international law today. They have brought their knowledge and sharp analytical skills to edit a book of great relevance to the world's shipping industry, IMO, ASEAN and international lawyers and law enforcement agencies.Õ

Ð Tommy Koh, United Nations Convention on the Law of the Sea Southeast Asian waters are critical for international trade and the global economy. Combating maritime crimes has always been a priority as well as a challenge for ASEAN member states. While much emphasis has been placed on enhancing operational cooperation against maritime crimes, the need for an effective legal framework to combat such maritime crimes has not been sufficiently examined. This book demonstrates that ASEAN member states can establish a legal framework to combat maritime crimes by ratifying and effectively implementing relevant global and regional conventions. It also explores the issues that ASEAN member states, and ASEAN as an organization, face in establishing such a framework and suggests suitable steps that can be taken to address such issues. This informative and detailed study will inform research and policy, and will appeal to government, treaty and policy officials, academics, researchers and students, as well as international and regional organizations concerned with piracy and other related maritime crimes, ocean affairs and the law of the sea.

Piracy, Maritime Terrorism and Securing the Malacca Straits Graham Gerard Ong-Webb,2006-11-07 Maritime piracy continues to persist as a significant phenomenon manifesting a range of social, historical, geo-political, security and economic issues. Today, the waters of Southeast Asia serve as the dominant region for the occurrence of piracy and the challenges it poses to regional security and Malacca Straits security. As a second installment within the Series on Maritime Issues and Piracy in Asia by the International Institute of Asian Studies, Leiden University, and the Institute of Southeast Asian Studies, the authors of this volume add fresh perspectives to the ongoing debate about piracy, the threat of maritime terrorism, and the challenge of securing the Malacca Straits today.

Fighting Fraud Gerald L. Kovacich,2007-08-27 This practical reference provides the basics for instituting a corporate anti-fraud program that helps prepare corporate security professionals and other corporate managers for fighting corporate fraud from inside the company. Fighting Fraud provides an exceptional foundation for security professionals or business executives involved in developing and implementing a corporate anti-fraud program as part of a corporate assets protection program. The author's intent is to provide the reader with a practitioner's guide (a "how-to book"), augmented by some background information to put it all in perspective. The approach used should enable the readers to immediately put in place a useful anti-fraud program under the leadership of the corporate security officer (CSO), or other corporate professional. Shows professionals how to save their companies money Provides a roadmap for developing an anti-fraud program Allows security professionals to tailor their anti-fraud program to their own corporate environment Explains how fraud is costing corporations a competitive edge in the global marketplace

Trafficking and Human Rights Leslie Holmes,2010-01-01 Human trafficking is

widely considered to be the fastest growing branch of trafficking. As this important book reveals, it has moved rapidly up the agenda of states and international organisations since the early-1990s, not only because of this growth, but also as its implications for security and human rights have become clearer. This fascinating study by international experts provides original research findings on human trafficking, with particular reference to Europe, South- East Asia and Australia. A major focus is on why and how many states and organisations act in ways that undermine trafficked victims' rights, as part of 'quadruple victimisation'. It compares and contrasts policies and suggests which seem to work best and why. The contributors also advocate radical new approaches that most states and other formal organisations appear loath to introduce, for reasons that are explored in this unique book.

AIDS and Business Saskia Faulk, Jean-Claude Usunier, 2009-05-02 The spread of HIV/AIDS affects businesses in all sectors, all industries and all countries. For companies and organizations everywhere, the question is no longer whether to take action on HIV/AIDS but which actions to take. Complete with an impressive collection of complex background and research on HIV/AIDS and a foreword by Dr. Peter Piot, former Executive Director of UNAIDS, this volume collects case studies of managers worldwide faced with challenging HIV/AIDS-related management decisions. AIDS and Business will fascinate the general reader seeking an understanding of the HIV/AIDS pandemic and to the advanced reader looking to develop a more sophisticated understanding of the impact of the disease. The case studies in this volume, set in nine countries, detail the issues facing businesses operating in areas where HIV/AIDS prevalence is growing. The topics discussed include understanding the role of social and cultural factors in the spread of HIV, the different organizations and institutions fighting the epidemic, designing an HIV communications campaign, HIV testing, ethical issues, marketing ethics and CSR, condoms marketing, and designing an HIV workplace program. Useful as a resource on HIV/AIDS and business, a set of case studies, or a training tool, this book contains a unique range of tools for learning to understand the epidemic, designed from a grounded and practical business perspective.

Non-Traditional Security in Asia Mely Caballero-Anthony, Alistair D.B. Cook, 2013 Non-Traditional Security in Asia examines the critical security challenges faced by states and societies in Asia including health, food, water, natural disasters, internal conflict, forced migration, energy, transnational crime, and cyber security. Through the development of a comprehensive analytical framework that establishes the key ingredients to policy evaluation, the editors draw on a wide variety of experts to collaborate in investigating these crucial issues. This inclusive framework ...

China in the Era of Xi Jinping Robert S. Ross, Jo Inge Bekkevold, 2016-05-12 Since becoming president of China and general secretary of the Chinese Communist Party, Xi Jinping has emerged as China's most powerful and popular leader since Deng Xiaoping. The breathtaking economic expansion and military modernization that Xi inherited has convinced him that China can transform into a twenty-first-century superpower. In this collection, leading scholars from the United States, Asia, and Europe examine both the prospects for China's continuing rise and the emergent and unintended consequences posed by China's internal instability and international assertiveness. Contributors

examine domestic challenges surrounding slowed economic growth, Xi's anti-corruption campaign, and government efforts to maintain social stability. Essays on foreign policy range from the impact of nationalist pressures on international relations to China's heavy-handed actions in the South China Sea that challenge regional stability and US-China cooperation. The result is a comprehensive analysis of current policy trends in Xi's China and the implications of these developments for his nation, the United States, and Asia-Pacific.

Let Us Put Our Money Together Tim Todd, Esther L. George, 2019-05-31
Generally, books addressing the early history of African American banks have done so either within the larger construct of African American business history and economic development, or as a starting point to explore current issues related to financial services. Focused considerations of these early institutions and their founders have been relatively rare and somewhat scattered. This publication seeks to address this issue.

Terrorismo: análise comparativa do tipo penal sob o viés do direito internacional e do direito brasileiro Ana Carolina Simão Fernandes de Miranda, 2022-06-07 Expõe o fenômeno terrorista ao longo da história, desenvolvendo um histórico do tema que atinge desde a antiguidade até os tempos atuais, caracterizando cada era do terrorismo. Apresenta dois conceitos jurídicos de terrorismo, um no Direito Internacional e outro no Direito Brasileiro. Constrói o primeiro através de análise dos principais tratados internacionais e resoluções de órgãos internacionais, somada à análise dos procedimentos aprovados no Conselho de Segurança das Nações Unidas após os ataques do onze de setembro. Demonstra que terrorismo no Direito Internacional assume duas categorias jurídicas distintas. Apresenta o conceito de terrorismo no Direito Brasileiro através de análise do histórico legislativo do país enquanto República, somada à análise da nova Lei Antiterrorismo, de nº 13.260 de 2016, em especial da tipificação por ela trazida. Demonstra as fragilidade da lei em efetividade e observância dos princípios norteadores do Direito Penal. Compara os dois conceitos construídos ao longo do trabalho: o terrorismo brasileiro e o internacional.
