**The NexStar User's Guide II** Michael

Swanson, 2017-10-31 Michael Swanson's online discussions with literally thousands of NexStar owners made it clear that there was a desperate need for a book such as this – one that provides a complete, detailed guide to buying, using and maintaining NexStar telescopes. Although this book is highly comprehensive, it is suitable for beginners – there is a chapter on Astronomy Basics – and experts alike. Celestron's NexStar telescopes were introduced in 1999, beginning with their first computer controlled go to model, a 5-inch. More models appeared in quick succession, and Celestron's new range made it one of the two dominant manufacturers of affordable go to telescopes.

## **Library Edition: Installation and Configuration Guide**

Larry Coyne, Khanh Ngo, Illarion

Borisevich, IBM Redbooks, 2018-03-22 The IBM® Linear Tape File System™ (LTFS) is the first file system that works along with Linear Tape-Open (LTO) tape technology to set a new standard for ease of use and portability for open systems tape storage. In 2011, LTFS won an Engineering Emmy Award for Innovation from the Academy of Television Arts & Sciences. This IBM Redbooks® publication helps you install, tailor, and configure the IBM Spectrum™ Archive Single Drive Edition (SDE) and the IBM Spectrum Archive™ Library Edition (LE) products. LTFS is a file system that was originally implemented on dual-partition linear tape (IBM LTO Ultrium 5 tape drives (LTO-5) and IBM TS1140 tape drives). Now IBM Spectrum Archive SDE and LE support IBM LTO Ultrium 8, 7, 6, or 5 tape drives, and IBM TS1155, IBM TS1150, and IBM TS1140 tape drives. IBM Spectrum Archive LE supports the IBM TS4500 tape library, IBM TS3500 tape library, IBM TS3310 tape library, IBM TS3200 tape library express, IBM TS3100 tape library express, and IBM TS2900 tape autoloader express. IBM Spectrum Archive makes tape look and work like any removable media, such as a USB drive. Files and directories appear on the desktop as a directory listing. It is now simple to drag files to and from tape. Any application that is written to use disk files works with the same files on tape. IBM Spectrum Archive SDE supports stand-alone drives only. IBM Spectrum Archive LE supports tape libraries. IBM Spectrum Archive LE presents each cartridge in the library as a subdirectory in the

LTFs file system. With IBM Spectrum Archive LE, you can list the contents and search all of the volumes in the library without mounting the volumes by using an in-memory index. This publication is intended for anyone who wants to understand more about IBM Linear Tape System products and their implementation. This book is suitable for IBM clients, IBM Business Partners, IBM specialist sales representatives, and technical specialists.

### **Cybersecurity Framework Manufacturing Profile**

National Institute of Standards, 2017-05-31 March  
2017 If you like this book (or the Kindle  
version), please leave positive review. This  
document provides the Cybersecurity Framework  
implementation details developed for the  
manufacturing environment. The Manufacturing  
Profile of the Cybersecurity Framework can be used  
as a roadmap for reducing cybersecurity risk for  
manufacturers that is aligned with manufacturing  
sector goals and industry best practices. The  
Profile gives manufacturers: \* A method to identify  
opportunities for improving the current  
cybersecurity posture of the manufacturing system \*  
An evaluation of their ability to operate the  
control environment at their acceptable risk  
level \* A standardized approach to preparing the

cybersecurity plan for ongoing assurance of the manufacturing system's security Why buy a book you can download for free? First you gotta find it and make sure it's the latest version (not always easy). Then you gotta print it using a network printer you share with 100 other people - and its outta paper - and the toner is low (take out the toner cartridge, shake it, then put it back). If it's just 10 pages, no problem, but if it's a 250-page book, you will need to punch 3 holes in all those pages and put it in a 3-ring binder. Takes at least an hour. An engineer that's paid \$75 an hour has to do this himself (who has assistant's anymore?). If you are paid more than \$10 an hour and use an ink jet printer, buying this book will save you money. It's much more cost-effective to just order the latest version from Amazon.com This book is published by 4th Watch Books and includes copyright material. *From Where We Stand* Cynthia Cockburn, 2013-07-04  
This original study examines women's activism  
against war in areas as far apart as Sierra Leone,  
India, Colombia and Palestine. It shows women on  
different sides of conflicts in the former  
Yugoslavia and Israel addressing racism and  
refusing enmity and describes international  
networks of women opposing US and Western European  
militarism and the so-called 'war on terror'.  
These movements, though diverse, are generating an  
antimilitarist feminism that challenges how war  
and militarism are understood, both in academic  
studies and the mainstream anti-war movement.  
Gender, particularly the form taken by masculinity  
in a violent sex/gender system, is inseparably

linked to economic and ethno-national factors in the perpetuation of war.

*The Future of the Bamiyan Buddha Statues*

Masanori Nagaoka, 2020-12-07 This Open Access book explores heritage conservation ethics of post conflict and provides an important historical record of the possible reconstruction of the Bamiyan Buddha statues, which was inscribed in the UNESCO World Heritage List in Danger in 2003 as "Cultural Landscape and Archaeological Remains of the Bamiyan Valley". With the condition that most surface of the original fragments of the Buddha statues were lost due to acts of deliberate destruction, this publication explores a reference point for conservation practitioners and policy makers around the world as they consider how to respond to on-going acts of destruction of cultural heritage. Whilst there has been an emerging debate to the ethics and nature of heritage reconstruction, this volume provides a plethora of ideas and approaches concerning the future treatment of the Bamiyan Buddha statues. It also addresses a number of fundamental questions on potential heritage reconstruction: how it will be done; who will decide; and what it should be done for. Moreover when it comes to the inscribed World Heritage properties, how can reconstructed heritage using non-original materials be considered to retain authenticity? With a view to serving as a precedent for potential decisions taken elsewhere in the world for cultural properties impacted by acts of violence and destruction, this volume introduces academic researches, experiences and observations of

heritage conservation theory and practice of heritage reconstruction. It also addresses the issue not merely from the point of a material conservation philosophy but within the context of holistic strategies for the protection of human rights and promotion of peace building.

saving the  
people  
demonstrates  
how the recent  
populist  
conversion to  
religion is  
nothing of the  
kind but rather  
a cynical  
appropriation  
of christian  
identity for  
narrowly  
political and  
usually morally  
ugly purposes

the authors  
contend that  
religion is  
more about  
belonging than  
belief for  
populists with  
religious  
identities and  
traditions  
being deployed  
to define who  
can and cannot  
be part of the  
people this in  
turn helps many  
populists to  
claim that  
native  
christian  
communities are  
being  
threatened by a  
creeping and  
highly  
aggressive  
process
