World Economic Outlook, October 2013 International Monetary Fund. Research Dept.,2013-10-08 Global growth is in low gear, and the drivers of activity are changing. These dynamics raise new policy challenges. Advanced economies are growing again but must continue financial sector repair, pursue fiscal consolidation, and spur job growth. Emerging market economies face the dual challenges of slowing growth and tighter global financial conditions. This issue of the World Economic Outlook examines the potential spillovers from these transitions and the appropriate policy responses. Chapter 3 explores how output comovements are influenced by policy and financial shocks, growth surprises, and other linkages. Chapter 4 assesses why certain emerging market economies were able to avoid the classical boom-and-bust cycle in the face of volatile capital flows during the global financial crisis.

Project 1704 Douglas Mastriano,2016-09-09 The strategic calculus changed in Europe with the 2014 Russian seizure of Crimea and its ongoing war against Ukraine. Compounding the dilemma of an aggressive Russia, is the application of ambiguity to create a clock of uncertainty that prevents a decisive response to counter its destabilizing activities. However, this application of ambiguity is easily defeated, if nations are willing to take concerted efforts now to preempt and deter further Russian aggression. Project 1704 provides an honest assessment of the tenuous strategic environment that now envelopes Eastern Europe and offers specific recommendations on how to continue the 70 years of unparalleled peace that most of Europe has enjoyed. Historians, and international relations professionals will find this work riveting as it recounts Russia's strategic influence under President Vladimir Putin's leadership. It covers the seizures of Crimea, Ukraine, Georgia, and some historical reforms and movements from Putin's predecessors, such as Mikhail Gorbachev, and Boris Yeltsin. This resource could also be an essential text in a Security Policies Studies program, International Affairs, Historical Analysis of U.S. Foreign Policy, and International and Comparative Politics courses at the undergraduate or graduate education levels.
