*Carcass management guidelines* Miller, L.P., Miknis, R.A. and Flory, G.A.,2020-12-28 Animal disease outbreaks pose many challenges for response authorities that can impact livelihoods, food security, and the environment. Proper disposal of animal carcasses that die or are culled during the outbreak is a key component of a successful response to a disease outbreak because it helps prevent or mitigate the further spread of pathogens and in case of zoonotic disease, to further protect human health. The practical guidelines presented hereby provide carcass and related waste management considerations and recommended procedures for use by Veterinary Services and other official response authorities when developing animal disease outbreak containment and eradication plans. The guidelines apply to animal disease outbreaks of varying sizes, whether the outbreak is isolated to a single premise or spans a region to cover numerous premises. However, they are focused on small to medium-sized holdings in countries without access to engineered landfills, rendering plants or controlled incinerators. The guidelines are written in the spirit of “keep it simple and doable”, considering the limited human and financial resources that many countries are constrained with. Its presentation and practical approach ensure that countries will find it very useful for their emergency operation procedures toolbox. Further, the guidelines directly contribute to the one-health approach by protecting the health of animals, humans, and the environment.

*Progressive Nation* Jerome Pohlen,2008-06 A Selection of the Progressive Book Club From the sites of famous sit-ins, marches, and strikes to the locales of events that led to landmark Supreme Court decisions, this inspiring travel guide journeys to more than 400 of the places in the United States that are important to progressive politics. Organized by state, it includes the stories of hundreds of women and men of action who, through creativity and hard work, changed American society for the better. Visit the battlegrounds and celebrate the victories of civil libertarians, feminists, African Americans, gays, lesbians, environmentalists, labor organizers, and media activists. Make a stop at the home of abolitionists Levi and Catharine Coffin, Grand Central Station on the Underground Railroad. Check out Alice's Restaurant Church, the namesake of Arlo Guthrie's song protesting the draft. Learn about the first women's convention held by Elizabeth Cady Stanton in Seneca Falls at the Women's Hall of Fame. See the site of the Haymarket Riot in Chicago where laborers protested working conditions. Join the many people who pay homage at the grave site of Leonard Matlovich, the gay Vietnam War veteran who fought the U.S. military--and won--when he was wrongfully discharged for homosexuality. Each entry features a listing of books and websites for further information, making this an essential lefty resource. For liberal-minded adventurous travelers, educational family vacationers, and progressives who want to know their history, this book will inspire them to do more than just cast a vote.

*Security on IBM z/VSE* Helmut Hellner,Ingo Franzki,Antoinette Kaschner,Joerg Schmidbauer,Heiko Schnell,Klaus-Dieter Wacker,IBM Redbooks,2018-06-14 One of a firm's most valuable resources is its data: client lists, accounting data, employee information, and so on. This critical data must be securely managed and controlled, and simultaneously made available to those users authorized to see it. The IBM® z/VSE® system features extensive capabilities to simultaneously share the firm's data among multiple users and protect them. Threats to this data come from various sources. Insider threats and malicious hackers are not only difficult to detect and prevent, they might be using resources with the business being unaware. This IBM Redbooks® publication was written to assist z/VSE support and security personnel in providing the enterprise with a safe, secure and manageable environment. This book provides an overview of the security that is provided by z/VSE and the processes for the implementation and configuration of z/VSE security components, Basic Security Manager (BSM), IBM CICS® security, TCP/IP security, single sign-on using LDAP, and connector security.

**Microcontroller Basics** Burkhard Kainka,2005 Microcontrollers have become an indispensable part of modern electronics. They make things possible that vastly exceed what could be done previously. Innumerable applications show that almost nothing is impossible. There's thus every reason to learn more about them, but that raises the question of where to find a good introduction to this fascinating technology. The answer is easy: this Microcontroller Basics book, combined with the 89S8252 Flash Board project published by Elektor Electronics. However, this book offers more than just a basic introduction. It clearly explains the technology using various microcontroller circuits and programs written in several different programming languages. Three microcontrollers from the 8051 family are used in the sample applications, ranging from the simple 89C2051 to the AN2131, which is designed to support USB applications. The programming tools include assemblers, Basic-52 and BASCOM-51, and several C compilers. Every reader can thus find the programming environment most suitable to his or her needs. In the course of the book, the reader gradually develops increased competence in converting his or her ideas into microcontroller circuitry. All of the sample programs can be downloaded from the Elektor Electronics website. That has the added advantage that the latest versions are always available.

*Diagnosing Corruption in Ethiopia* Janelle Plummer,2012-07-06 This is a study of the nature of corruption in Ethiopia. It maps eight key sectors. The diagnostics strongly suggest that, in Ethiopia, corrupt practice in the delivery of basic services is potentially much lower than other low-income countries, but that there are emerging patterns in sector level corruption.

**Youth Transforming Conflict** Nadine Lyamouri-Bajja,Yael Ohana,Ruben Markosyan,Osama Abukatta,Ditta Dolejšiová,Aleksandra Vidanovic,2013-01-01 In 1998, the Council of Europe and the European Commission decided to take common action in the field of youth. Both institutions initiated a partnership agreement with the aim to promote active European citizenship and civil society by giving impetus to the training of youth leaders and youth workers working within a European dimension. In 2003, additional agreements were signed in the fields of youth research and Euro-Mediterranean youth co-operation. Since 2005, the partnership between the European Commission and the Council of Europe in the field of youth activities has focused on the following topics: European citizenship, human rights education and intercultural dialogue, quality and recognition of youth work and training, better understanding and knowledge of youth and youth policy development. The partnership between the European Commission and the Council of Europe in the field of youth brings together the two institutions' experience in non-formal education, youth policy, youth research and youth work practice. Activities organised within its framework gather representatives of those areas who share their knowledge and experience for the benefit of enhancing evidence-based policy, practice, quality and recognition of youth work and training. Results and other material are made available on the partnership website (<http://youth-partnership-eu.coe.int>) and in various publications, including the Training Kits (T-Kits). T-Kits are thematic publications written by experienced youth trainers and experts and constitute easy-to-use handbooks for educational activities. All activities and publications enhance the exchange of experience and good practice between the actors involved and contribute to the implementation of the political objectives of both partner institutions.

**Enhanced Networking on IBM z/VSE** Joerg Schmidbauer,Jeffrey Barnard,Ingo Franzki,Karsten Graul,Don Stoeve, Rene Trumpp,IBM Redbooks,2014-12-31 The importance of modern computer networks is steadily growing as increasing amounts of data are exchanged over company intranets and the Internet. Understanding current networking technologies and communication protocols that are available for the IBM® mainframe and System z® operating systems is essential for setting up your network infrastructure with IBM z/VSE®. This IBM Redbooks® publication helps you install, tailor, and configure new networking options for z/VSE that are available with TCP/IP for VSE/ESA, IPv6/VSE, and Fast Path to Linux on System z (Linux Fast Path). We put a strong focus on network security and describe how the new OpenSSL-based SSL runtime component can be used to enhance the security of your business. This IBM Redbooks publication extends the information that is provided in Security on IBM z/VSE, SG24-7691.

**Intercultural Dialogue on Campus** Sjur Bergan,Jean-Philippe Restoueix,Council of Europe,2009-01-01 Modern societies are inconceivable as isolated and mono-cultural entities. The interaction of various cultures is not only a fact of life for most Europeans, it also enriches our societies. However, we also witness tensions between cultures. Intercultural dialogue is therefore one of the political priorities of the Council of Europe, as shown most prominently by the adoption of the White Paper Living Together as Equals in Dignity in May 2008. Higher education, by its history and contemporary practice, is a natural partner in and promoter of intercultural dialogue and understanding. Higher education institutions and campuses

are themselves multicultural societies, and as such are the focus of the present volume. A second volume will examine the role of higher education in furthering intercultural dialogue and understanding in broader society.

**Assessing the Costs of Climate Change and Adaptation in South Asia** Asian Development Bank,2014-06-01 This report synthesizes the results of country and sector studies on the economic costs and benefits of unilateral and regional actions on climate change in the Asian Development Bank's six South Asia developing members, namely Bangladesh, Bhutan, India, the Maldives, Nepal, and Sri Lanka. The study takes into account the different scenarios and impacts projected across vulnerable sectors and estimates the total economic loss throughout the 21st century and amount of funding required for adaptation measures to avert such potential losses. It is envisioned to strengthen decision-making capacities and improve understanding of the economics of climate change for the countries in South Asia.

*The Sound of Silence* Burkhard Vogel,2011-07-30 There is a wide field of tasks left that can only be satisfyingly attacked with the help of old-fashioned analogue technology, and one of the most important are amplifiers for analogue signals. The strongly expanded content of the second edition of the sound of silence leads to affordable amplifier design approaches which will end up in lowest-noise solutions not far away from the edge of physical boundaries set by room temperature and given cartridges - thus, fully compatible with very expensive so called high-end or state-of-the-art offers on today markets - and, from a noise point of view in most cases outperforming them! With easy to follow mathematical treatment it is demonstrated as well that theory is not far away from reality. Measured SNs will be found within 1dB off the calculated ones and deviations from the exact amplifier transfer won't cross the  $\pm 0.1\text{dB}$  tolerance lines. Additionally, the book presents measurement set-ups and results. Consequently, comparisons with measurement results of test magazine will soon become easier to perform. This new edition includes a new chapters about reference levels, Noise in Amp Input sections, Humming Problems, and much more.

**Popol Vuh** Dennis Tedlock,2013-02 Popol Vuh, the Quich'ꞌ Mayan book of creation is not only the most important text in the native language of the Americas, it is also an extraordinary document of the human imagination. It begins with the deeds of Mayan Gods in the darkness of a primeval sea and ends with the radiant splendor of the Mayan Lords who founded the Quich'ꞌ Kingdom in the Guatemalan highlands. Originally written in Mayan hieroglyphs, it was translated into the Roman alphabet in the 16th century. The new edition of Dennis Tedlock's unabridged, widely praised translation includes new notes and commentary, newly translated passages, newly deciphered hieroglyphs, and over 40 new illustrations.

*Six Unaccompanied Solos for Snare Drum* Michael Colgrass, Written to serve the high school student in contest or the professional in audition, Six Unaccompanied Solos for Snare Drum is a collection of solos written to help student percussionists prepare for the technical and musical demands of contemporary music composers.

**Web Accessibility** Yeliz Yesilada,Simon Harper,2019-06-03 Covering key areas of evaluation and methodology, client-side applications, specialist and novel technologies, along with initial appraisals of disabilities, this important book provides comprehensive coverage of web accessibility. Written by leading experts in the field, it provides an overview of existing research and also looks at future developments, providing a much deeper insight than can be obtained through existing research libraries, aggregations, or search engines.

[Experiential Learning](#) John P. Wilson,Colin Beard,2013-08-03 Experiential Learning enables educators, trainers, coaches and facilitators to unleash some of the more potent ingredients of learning through experience. It presents a simple model: the Learning Combination Lock, which illustrates the wide range of factors that can be altered to enhance the learning experience. The theory is brought to life with hundreds of examples from around the world and covers issues such as: experience and intelligence; facilitation, good practice and ethics; learning environments; experiential learning activities; and working with the senses and emotions. Experiential Learning offers the skills that can be successfully applied to a variety of settings including management education, corporate training, team-building, youth-development work, counselling and therapy, schools and higher education and special needs training. This fully updated third edition includes guidance for coaches, cutting edge new material on sensory intelligence and updated models, tools and case studies throughout. Online supporting resources include 'Introduction to Sensory Intelligence' audio files.

**Wavelets in Neuroscience** Alexander E. Hramov,Alexey A. Koronovskii,Valeri A. Makarov,Alexey N. Pavlov,Evgenia Sitnikova,2014-08-05 This book examines theoretical and applied aspects of wavelet analysis in neurophysics, describing in detail different practical applications of the wavelet theory in the areas of neurodynamics and neurophysiology and providing a review of fundamental work that has been carried out in these fields over the last decade. Chapters 1 and 2 introduce and review the relevant foundations of neurophysics and wavelet theory, respectively, pointing on one hand to the various current challenges in neuroscience and introducing on the other the mathematical techniques of the wavelet transform in its two variants (discrete and continuous) as a powerful and versatile tool for investigating the relevant neuronal dynamics. Chapter 3 then analyzes results from examining individual neuron dynamics and intracellular processes. The principles for recognizing neuronal spikes from extracellular recordings and the advantages of using wavelets to address these issues are described and combined with approaches based on wavelet neural networks (chapter 4). The features of time-frequency organization of EEG signals are then extensively discussed, from theory to practical applications (chapters 5 and 6). Lastly, the technical details of automatic diagnostics and processing of EEG signals using wavelets are examined (chapter 7). The book will be a useful resource for neurophysiologists and physicists familiar with nonlinear dynamical systems and data processing, as well as for graduate students specializing in the corresponding areas.
