The Kalam Cosmological Argument, Volume 2 Paul Copan,William Lane Craig,2017-11-16 The ancient kalam cosmological argument maintains that the series of past events is finite and that therefore the universe began to exist. Two recent scientific discoveries have yielded plausible prima facie

physical evidence for the beginning of the universe. The expansion of the universe points to its beginning-to a Big Bang-as one retraces the universe's expansion in time. And the second law of thermodynamics, which implies that the universe's energy is progressively degrading, suggests that the universe began with an initial low entropy condition. The kalam cosmological argument-perhaps the most discussed philosophical argument for God's existence in recent decades-maintains that whatever begins to exist must have a cause. And since the universe began to exist, there must be a transcendent cause of its beginning, a conclusion which is confirmatory of theism. So this medieval argument for the finitude of the past has received fresh wind in its sails from recent scientific discoveries. This collection reviews and assesses the merits of the latest scientific evidences for the universe's beginning. It ends with the kalam argument's conclusion that the universe has a cause-a personal cause with properties of theological significance.

Who Made American Schools Marxist Training Centers? Diana L. Anderson,Gary L. Clark,2022-10-27 Nine Philosopher kings were commissioned to under gird the articles of Marxist faith while expunging dogma and religious doctrine. Their seeds of a pre-ordained organic philosophy were planted to upbringing young sprouts to destroy the America republic and rebuild from that rubble the next Marxist country. The unrelenting pressures to indoctrinate children with the Marxist family of totalitarian ideologies that promises to 'free the child' comes to communities under various guises. The allure of promises made in the name of fairness, equity, tolerance and more recent of social justice has drawn a large percentage of millennials to socialism. Behind the race baited mantras, metro regional government is working for the eventual transformation of schools as learning centers staffed with soviet councils to transform neighborhoods into self-sustaining eco-villages. Children will be socialized as activists for their community to install Fascist green agendas, paired with Marxist social justice.
