Marvin Hamlisch, Neil Simon, Carole Bayer Sager

*They're Playing Our Song* Marvin Hamlisch, Neil Simon, Carole Bayer Sager, 1980 America's premier funny man and the Tony Award-winning composer of *A Chorus Line*; collaborated on this hit musical; a funny, romantic show about an established composer and his relationship with an aspiring young female lyricist, not unlike Carole Bayer Sager. Professionally, their relationship works beautifully, but ultimately leads to conflict on the home front. Of course, there's a happy ending.

**Networks of Outrage and Hope** Manuel Castells, 2015-06-04 *Networks of Outrage and Hope* is an exploration of the new forms of social movements and protests that are erupting in the world today, from the Arab uprisings to the indignadas movement in Spain, from the Occupy Wall Street movement to the social protests in Turkey, Brazil and elsewhere. While these and similar social movements differ in many important ways, there is one thing they share in common: they are all interwoven inextricably with the creation of autonomous communication networks supported by the Internet and wireless communication. In this new edition of his timely and important book, Manuel Castells examines the social, cultural and political roots of these new social movements, studies their innovative forms of self-organization, assesses the precise role of technology in the dynamics of the movements, suggests the reasons for the support they have found in large segments of society, and probes their capacity to induce political change by influencing people's minds. Two new chapters bring the analysis up-to-date and draw out the implications of these social movements and protests for understanding the new forms of social change and political democracy in the global network society.

*Derelict London: All New Edition* Paul Talling, 2019-07-11

\_\_\_\_\_ The huge word-of-mouth bestseller - completely updated for 2019 *THE LONDON THAT TOURISTS DON'T SEE* Look beyond Big Ben and past the skyscrapers of the Square Mile, and you will find another London. This is the land of long-forgotten tube stations, burnt-out mansions and gently decaying factories. Welcome to *DERELICT LONDON*: a realm whose secrets are all around us, visible to anyone who cares to look . . . Paul Talling - our best-loved investigator of London's underbelly - has spent over fifteen years uncovering the stories of this hidden world. Now, he brings together 100 of his favourite abandoned places from across the capital: many of them more magnificent, more beautiful and more evocative than you can imagine. Covering everything from the overgrown stands of Leyton Stadium to the windswept alleys of the Aylesbury Estate, *DERELICT LONDON* reveals a side of the city you never knew existed. It will change the way you see London.

\_\_\_\_\_ PRAISE FOR THE *DERELICT LONDON* PROJECT

'Fascinating images showing some of London's eeriest derelict sites show another side to the busy, built-up capital.' Daily Mail 'Talling has managed to show another side to the capital, one of abandoned buildings that somehow retain a sense of beauty.' Metro 'Excellent . . . As much as it is an inadvertent vision of how London might look after a catastrophe, *DERELICT LONDON* is valuable as a document of the one going on right in front of us.' New Statesman 'From the iconic empty shell of Battersea Power Station to the buried 'ghost' stations of the London Underground, the city is peppered with decaying buildings. Paul Talling knows these places better than anyone in the

capital.' Daily Express '[London has an] unusual (and deplorable) number of abandoned buildings. Paul Talling's surprise bestseller, DERELICT LONDON, is their shabby Pevsner.' Daily Telegraph \_\_\_\_\_

**Enough** Roger Thurow, 2010 For more than thirty years, humankind has known how to grow enough food to end chronic hunger worldwide. Yet while the 'Green Revolution' succeeded in South America and Asia, it never got to Africa. More than 9 million people every year die of hunger, malnutrition, and related diseases every year - most of them in Africa and most of them children. More die of hunger in Africa than from AIDS and malaria combined. Now, an impending global food crisis threatens to make things worse. In the west we think of famine as a natural disaster, brought about by drought; or as the legacy of brutal dictators. But in this powerful investigative narrative, Thurow & Kilman show exactly how, in the past few decades, American, British, and European policies conspired to keep Africa hungry and unable to feed itself. As a new generation of activists work to keep famine from spreading, *Enough* is essential reading on a humanitarian issue of utmost urgency.

*The Photo Ark* Joel Sartore, 2017 This book of photography represents National Geographic's Photo Ark, a major cross-platform initiative and lifelong project by photographer Joel Sartore to make portraits of the world's animals -- especially those that are endangered. His message: to know these animals is to save them. Sartore intends to photograph every animal in captivity in the world. He is circling the globe, visiting zoos and wildlife rescue centers to create studio portraits of 12,000 species, with an emphasis on those facing extinction. He has photographed more than 6,000 already and now, thanks to a multi-year partnership with National Geographic, he may reach his goal. This book showcases his animal portraits: from tiny to mammoth, from the Florida grasshopper sparrow to the greater one-horned rhinoceros. Paired with the prose of veteran wildlife writer Douglas Chadwick, this book presents an argument for saving all the species of our planet.

*Your Money, Your Goals* Consumer Financial Consumer Financial Protection Bureau, 2015-03-18 Welcome to the Consumer Financial Protection Bureau's *Your Money, Your Goals: A financial empowerment toolkit for social services programs!* If you're reading this, you are probably a case manager, or you work with case managers. Finances affect nearly every aspect of life in the United States. But many people feel overwhelmed by their financial situations, and they don't know where to go for help. As a case manager,

you're in a unique position to provide that help. Clients already know you and trust you, and in many cases, they're already sharing financial and other personal information with you. The financial stresses your clients face may interfere with their progress toward other goals, and providing financial empowerment information and tools is a natural extension of what you are already doing. What is financial empowerment and how is it different from financial education or financial literacy? Financial education is a strategy that provides people with financial knowledge, skills, and resources so they can get, manage, and use their money to achieve their goals. Financial education is about building an individual's knowledge, skills, and capacity to use resources and tools, including financial products and services. Financial education leads to financial literacy. Financial empowerment includes financial education and financial literacy, but it is focused both on building the ability of individuals to manage money and use financial services and on providing access to products that work for them. Financially empowered individuals are informed and skilled; they know where to get help with their financial challenges. This sense of empowerment can build confidence that they can effectively use their financial knowledge, skills, and resources to reach their goals. We designed this toolkit to help you help your clients become financially empowered consumers. This financial empowerment toolkit is different from a financial education curriculum. With a curriculum, you are generally expected to work through most or all of the material in the order presented to achieve a specific set of objectives. This toolkit is a collection of important financial empowerment information and tools you can access as needed based on the client's goals. In other words, the aim is not to cover all of the information and tools in the toolkit - it is to identify and use the information and tools that are best suited to help your clients reach their goals.

**The New Testament Code** Robert H. Eisenman, 2006 In this follow-up to his blockbuster biblical studies, world-renowned scholar Eisenman not only gives a full examination of James' relationship to the Dead Sea Scrolls, he also reveals the true history of Palestine in the first century and the real Jesus of that time. It's a work of intriguing speculative history, complete with a conspiracy theory as compelling as any thriller.

**Sultanic Saviors and Tolerant Turks** Marc D. Baer, 2020-03-10 What compels Jews in the Ottoman Empire, Turkey, and abroad to promote a positive image of Ottomans and Turks while they deny the Armenian genocide and the existence of antisemitism in Turkey? Based on historical narrative, the Jews expelled from Spain in 1492 were embraced by the Ottoman Empire and then, later, protected from the Nazis during WWII. If we believe that Turks and Jews have lived in harmony for so long, then how can we believe that the Turks could have committed genocide against the Armenians? Marc David Baer confronts these convictions and circumstances to reflect on what moral responsibility the descendants of the victims of one genocide have to the descendants of victims of another. Baer delves into the history of Muslim-Jewish relations in the Ottoman Empire and Turkey to find the origin of these many tangled truths. He aims to bring about reconciliation between Jews, Muslims, and Christians, not only to face inconvenient historical facts but to confront it and come to terms. By looking at the complexities of interreligious relations, Holocaust denial, genocide and ethnic cleansing, and confronting some long-standing historical stereotypes, Baer sets out to tell a new history that goes against Turkish antisemitism and admits to the Armenian genocide.

**Federal Fumbles** James Lankford, 2017-02-27 Many of the photos were removed due to copyright restrictions. Welcome to the first annual release of the Federal Fumbles report! Our national debt is careening toward \$19 trillion (yes, that is a 19 followed by 12 zeros), and federal regulations are expanding at a record pace. Meanwhile families struggle to get home loans, and small businesses struggle to make ends meet. States are constantly handed unfunded mandates and executive fiats that they are forced to implement with

minimal direction and no way to pay for them. I present this report as a demonstration of ways we can cut back on wasteful federal spending and burdensome regulations to help families, small businesses, and our economy begin to get out from under the weight of federal stagnation. Cited here are not only prime examples of wasteful spending, but also federal departments or agencies that regulate outside the scope of the federal government's constitutional role. I firmly believe my staff and I have the obligation to solve the troubles of our nation, not just complain, which is why for every problem identified, you will also find a recommended solution. There is a way to eliminate wasteful, ineffective, or duplicative program spending; develop oversight methods to prevent future waste; and find ways to get us back on track.

**Irreducibility and Computational Equivalence** Hector Zenil, 2012-12-25 It is clear that computation is playing an increasingly prominent role in the development of mathematics, as well as in the natural and social sciences. The work of Stephen Wolfram over the last several decades has been a salient part in this phenomenon helping founding the field of Complex Systems, with many of his constructs and ideas incorporated in his book *A New Kind of Science* (ANKS) becoming part of the scientific discourse and general academic knowledge--from the now established Elementary Cellular Automata to the unconventional concept of mining the Computational Universe, from today's widespread Wolfram's Behavioural Classification to his principles of Irreducibility and Computational Equivalence. This volume, with a Foreword by Gregory Chaitin and an Afterword by Cris Calude, covers these and other topics related to or motivated by Wolfram's seminal ideas, reporting on research undertaken in the decade following the publication of Wolfram's NKS book. Featuring 39 authors, its 23 contributions are organized into seven parts: Mechanisms in Programs & Nature Systems Based on Numbers & Simple Programs Social and Biological Systems & Technology Fundamental Physics The Behavior of Systems & the Notion of Computation Irreducibility & Computational Equivalence Reflections and Philosophical Implications.

E-Cigarette Use Among Youth and Young Adults: a Report of the Surgeon General Centers for Disease Control and Prevention, National Center National Center for Chronic Disease Prevention and Health Promotion, U.S. Department of Health and Human Services, 2019-07-26 Tobacco use among youth and young adults in any form, including e-cigarettes, is not safe. In recent years, e-cigarette use by youth and young adults has increased at an alarming rate. E-cigarettes are now the most commonly used tobacco product among youth in the United States. This timely report highlights the rapidly changing patterns of e-cigarette use among youth and young adults, assesses what we know about the health effects of using these products, and describes strategies that tobacco companies use to recruit our nation's youth and young adults to try and continue using e-cigarettes. The report also outlines interventions that can be adopted to minimize the harm these products cause to our nation's youth. E-cigarettes are tobacco products that deliver nicotine. Nicotine is a highly addictive substance, and many of today's youth who are using e-cigarettes could become tomorrow's cigarette smokers. Nicotine exposure can also harm brain development in ways that may affect the health and mental health of our kids. E-cigarette use among youth and young adults is associated with the use of other tobacco products, including conventional cigarettes. Because most tobacco use is established during adolescence, actions to prevent our nation's young people from the potential of a lifetime of nicotine addiction are critical. E-cigarette companies appear to be using many of the advertising tactics the tobacco industry used to persuade a new generation of young people to use their products. Companies are promoting their products through television and radio advertisements that use celebrities, sexual content, and claims of independence to glamorize these addictive products and make them appealing to young people.
