Think Bayes Allen B. Downey, 2021-05-18 If you know how to program, you're ready to tackle Bayesian statistics. With this book, you'll learn how to solve statistical problems with Python code instead of mathematical formulas, using discrete probability distributions rather than continuous mathematics. Once you get the math out of the way, the Bayesian fundamentals will become clearer and you'll begin to apply these techniques to real-world problems. Bayesian statistical methods are becoming more common and more important, but there aren't many resources available to help beginners. Based on undergraduate classes taught by author Allen B. Downey, this book's computational approach helps you get a solid start. Use your programming skills to learn and understand Bayesian statistics Work with problems involving estimation, prediction, decision analysis, evidence, and Bayesian hypothesis testing Get started with simple examples, using coins, dice, and a bowl of cookies Learn computational methods for solving real-world problems

Factories in the Field Carey McWilliams, 2000-04-15 This book was the first broad exposé of the social and environmental damage inflicted by the growth of corporate agriculture in California. *Factories in the Field*—together with the work of Dorothea Lange, Paul Taylor, and John Steinbeck—dramatizes the misery of the dust bowl migrants hoping to find work in California agriculture. McWilliams starts with the scandals of the Spanish land grant purchases, and continues on to examine the experience of the various ethnic groups that have provided labor for California's agricultural industry—Chinese, Japanese, Mexicans, Filipinos, Armenians—the strikes, and the efforts to organize labor unions

American Exodus James Noble Gregory, 1991 Gregory reaches into the migrants' lives to reveal both their economic trials and their impact on California's culture and society. He traces the development of an 'Okie subculture' which is now an essential element of California's cultural landscape.

Rural Racism Neil Chakraborti, Jon Garland, 2013-05-13 Rural issues are currently attracting unprecedented levels of interest, with the debates surrounding the future of 'traditional' rural customs and practice becoming a significant political concern. However, the problem of racism in rural areas has been largely overlooked by academics, practitioners and researchers who have sought almost exclusively to develop an understanding of racism in urban contexts. This book aims to address this oversight by examining notions of ethnic identity, 'otherness' and racist victimisation that have tended to be marginalised from traditional rural discourse.

Power Over Pornography Brian Brandenburg,2015-10-02 Jason, like many people, is an addict. His addiction doesn't center on any drug or alcohol. He's a pornography and masturbation addict, and the insidious nature of his addiction erodes his self-worth, his relationships, and his career. Jason meets David at a twelve-step meeting, where David offers him a new approach to treating pornography addiction. Through a series of meetings, David guides Jason as he successfully overcomes his addiction, a process supported by glimpses into Jason's family and how his relationships improve as pornography loses its hold on his life. Jason's story is fictional. The treatment plan he follows is very real. Designed by author and pornography addiction treatment expert Brian Brandenburg, the strategies found in *Power over Pornography* are praised by those who, having taken part in Brandenburg's program, now pursue lives free of pornographic viewing. Brandenburg's innovative treatment plan comes at a crucial moment in the fight against pornography and masturbation addiction. A generation of Internet-savvy children has grown up with access to pornography, quite literally, at their keyboard-typing fingertips. The images and videos they view online are far more graphic than their parents can imagine. Now the children of this generation have become young adults, with many addicted to the instant gratification of pornography. Like Jason, most pornography and masturbation addicts are male, but women are also afflicted. Maintaining normal, healthy relationships becomes almost impossible while in the grip of pornography. Anxiety and guilt over your actions worsen into clinical depression and self-loathing. Work productivity suffers, and an addict with on-the-job access to the Internet is always a few mouse clicks away from job termination and scandal. Jason and others in his situation are discovering traditional twelve-step programs don't address key aspects of pornography and masturbation addiction. Brandenburg's radical treatment takes a new, often counterintuitive approach to overcoming pornography addiction. His advice sometimes contradicts traditional strategies, but his system works. A comprehensive, easy-to-understand approach to pornography addiction treatment, *Power over Pornography* appeals to all readers. You can overcome your addiction. Let Brian Brandenburg and Jason be your guides.

A European Public Investment Outlook Floriana Cerniglia,Francesco Saraceno,2020-06-12 This outlook provides a focused assessment of the state of public capital in the major European countries and identifies areas where public investment could contribute more to stable and sustainable growth. A European Public Investment Outlook brings together contributions from a range of international authors from diverse intellectual and professional backgrounds, providing a valuable resource for the policy-making community in Europe to feed their discussion on public investment. The volume both offers sector-specific advice and highlights larger areas which should be

prioritized in the policy debate (from transport to social capital, R&D and the environment). The Outlook is structured into two parts: the chapters of Part I respectively explore public investment trends in France, Germany, Italy, Spain and Europe as a whole, and illuminate how the legacy of the 2008 Global Financial Crisis is one of insufficient public investment. Part II investigates some areas into which resources could be channelled to reverse the recent trend and provide European economies with an adequate public capital stock. The essays in this outlook collectively foster a broad approach to and definition of public investment, that is today more relevant than ever. Offering up a timely and clear case for the elimination of bias against investment in European fiscal rules, this outlook is a welcome contribution to the European debate, aimed both at policy makers and general readers.

Computational and Statistical Methods in Intelligent Systems Radek Silhavy, Petr Silhavy, Zdenka Prokopova, 2018-08-29 This book presents real-world problems and pioneering research in computational statistics, mathematical modeling, artificial intelligence and software engineering in the context of intelligent systems. It gathers the peer-reviewed proceedings of the 2nd Computational Methods in Systems and Software 2018 (CoMeSySo 2018), a conference that broke down traditional barriers by being held online. The goal of the event was to provide an international forum for discussing the latest high-quality research results.

The Political Economy of Human Rights Enforcement I. Manokha, 2008-05-30 This book examines humanitarian interventions in the post-Cold War era in the context of the development of global capitalism. It argues that it is often our duty to use force to uphold human rights, but that attempts to promote and protect these rights can unintentionally contribute to the perpetuation of poverty and poverty-related problems.

Micro and Nanomanufacturing Volume II Mark J. Jackson, Waqar Ahmed, 2017-10-28 This book is a comprehensive treatment of micro and nanofabrication techniques, and applies established and research laboratory manufacturing techniques to a wide variety of materials. It is a companion volume to "Micro and Nanomanufacturing" (2007) and covers new topics such as aligned nanowire growth, molecular dynamics simulation of nanomaterials, atomic force microscopy for microbial cell surfaces, 3D printing of pharmaceuticals, microvascular coaptation methods, and more. The chapters also cover a wide variety of applications in areas such as surgery, auto components, living cell detection, dentistry, nanoparticles in medicine, and aerospace components. This is an ideal text for professionals working in the field, and for graduate students in micro and nanomanufacturing courses.

Ending the Fossil Fuel Era Thomas Princen, Jack P. Manno, Pamela L. Martin, 2015-05-15 A provocative call for delegitimizing fossil fuels rather than accommodating them, accompanied by case studies from Ecuador to Appalachia and from Germany to Norway. Not so long ago, people North and South had little reason to believe that wealth from oil, gas, and coal brought anything but great prosperity. But the presumption of net benefits from fossil fuels is eroding as widening circles of people rich and poor experience the downside. A positive transition to a post-fossil fuel era cannot wait for global agreement, a swap-in of renewables, a miracle technology, a carbon market, or lifestyle change. This book shows that it is now possible to take the first step toward the post-fossil fuel era,

by resisting the slow violence of extreme extraction and combustion, exiting the industry, and imagining a good life after fossil fuels. It shows how an environmental politics of transition might occur, arguing for going to the source rather than managing byproducts, for delegitimizing fossil fuels rather than accommodating them, for engaging a politics of deliberately choosing a post-fossil fuel world. Six case studies reveal how individuals, groups, communities, and an entire country have taken first steps out of the fossil fuel era, with experiments that range from leaving oil under the Amazon to ending mountaintop removal in Appalachia.

Timing and Time Perception: Procedures, Measures, & Applications, 2018-04-10 Timing and Time Perception: Procedures, Measures, and Applications is a one-of-a-kind, collective effort to present the most utilized and known methods on timing and time perception. Specifically, it covers methods and analysis on circadian timing, synchrony perception, reaction/response time, time estimation, and alternative methods for clinical/developmental research. The book includes experimental protocols, programming code, and sample results and the content ranges from very introductory to more advanced so as to cover the needs of both junior and senior researchers. We hope that this will be the first step in future efforts to document experimental methods and analysis both in a theoretical and in a practical manner. Contributors are: Patricia V. Final Report of the Truth and Reconciliation Commission of Canada, Volume One: Summary Truth and Reconciliation Commission of Canada, 2015-07-22 This is the Final Report of Canada's Truth and Reconciliation Commission and its

six-year investigation of the residential school system for Aboriginal youth and the legacy of these schools. This report, the summary volume, includes the history of residential schools, the legacy of that school system, and the full text of the Commission's 94 recommendations for action to address that legacy. This report lays bare a part of Canada's history that until recently was little-known to most non-Aboriginal Canadians. The Commission discusses the logic of the colonization of Canada's territories, and why and how policy and practice developed to end the existence of distinct societies of Aboriginal peoples. Using brief excerpts from the powerful testimony heard from Survivors, this report documents the residential school system which forced children into institutions where they were forbidden to speak their language, required to discard their clothing in favour of institutional wear, given inadequate food, housed in inferior and fire-prone buildings, required to work when they should have been studying, and subjected to emotional, psychological and often physical abuse. In this setting, cruel punishments were all too common, as was sexual abuse. More than 30,000 Survivors have been compensated financially by the Government of Canada for their experiences in residential schools, but the legacy of this experience is ongoing today. This report explains the links to high rates of Aboriginal children being taken from their families, abuse of drugs and alcohol, and high rates of suicide. The report documents the drastic decline in the presence of Aboriginal languages, even as Survivors and others work to maintain their distinctive cultures, traditions, and governance. The report offers 94 calls to action on the part of governments, churches, public institutions and non-Aboriginal Canadians as a path to meaningful reconciliation of Canada today with Aboriginal citizens. Even though the historical experience of residential schools constituted an act of cultural genocide by Canadian government authorities, the United Nation's declaration of the rights of aboriginal peoples and the specific recommendations of the Commission offer a path to move from apology for these events to true reconciliation that can be embraced by all Canadians.

Palestine Betrayed Efraim Karsh, 2010-04-27 The 1947 UN resolution to partition Palestine irrevocably changed the political landscape of the Middle East, giving rise to six full-fledged wars between Arabs and Jews, countless armed clashes, blockades, and terrorism, as well as a profound shattering of Palestinian Arab society. Its origins, and that of the wider Arab-Israeli conflict, are deeplyrooted in Jewish-Arab confrontation and appropriation in Palestine. But the isolated occasions of violence during the British Mandate era (1920–48) suggest that the majority of Palestinian Arabs yearned to live and thrive under peaceful coexistence with the evolving Jewish national enterprise. So what was the real cause of the breakdown in relations between the two communities? In this brave and groundbreaking book, Efraim Karsh tells the story from both the Arab and Jewish perspectives. He argues that from the early 1920s onward, a corrupt and extremist leadership worked toward eliminating the Jewish national revival and protecting its own interests. Karsh has mined many of the Western, Soviet, UN, and Israeli documents declassified over the past decade, as well as unfamiliar Arab sources, to reveal what happened behind the scenes on both Palestinian and Jewish sides. It is an arresting story of delicate political and diplomatic maneuvering by leading figures—Ben Gurion, Hajj Amin Husseini, Abdel Rahman Azzam, King

Abdullah, Bevin, and Truman –over the years leading up to partition, through the slide to war and its enduring consequences. Palestine Betrayed is vital reading for understanding the origin of disputes that remain crucial today.
