The Reception of Byzantium in European Culture since 1500 Przemyslaw Marciniak, Dion C. Smythe, 2017-05-15 Studies on the reception of the classical tradition are an indispensable part of classical studies. Understanding the importance of ancient civilization means also studying how it was used subsequently. This kind of approach is still relatively rare in the field of Byzantine Studies. This volume, which is the result of the range of interests in (mostly) non-English-speaking research communities, takes an important step to filling this gap by investigating the place and dimensions of 'Byzantium after Byzantium'. This collection of essays uses the idea of 'reception-theory' and expands it to show how European societies after Byzantium have responded to both the reality, and the idea of Byzantine Civilisation. The authors discuss various forms of Byzantine influence in the post-Byzantine world from architecture to literature to music to the place of Byzantium in modern political debates (e.g. in Russia). The intentional focus of the present volume is on those aspects of Byzantine reception less well-known to English-reading audiences, which accounts for the inclusion of Bulgarian, Czech, Polish and Russian perspectives. As a result this book shows that although so-called 'Byzantinism' is a pan-European phenomenon, it is made manifest in local/national versions. The volume brings together specialists from various countries, mainly Byzantinists, whose works focus not only on Byzantine Studies (that is history, literature and culture of the Byzantine Empire), but also on the influence of Byzantine culture on the world after the Fall of Constantinople.

A New Look at Place-based Philanthropy Jean-Marc Fontan et al., 2023-11-09 In this edited volume, the authors present rich case studies of place-based philanthropy in the United States and Canada that make a strong conceptual and empirical argument for the importance, and growing imperative, of place-based philanthropy in 2023 and beyond. Offering a multidisciplinary theoretical grounding in the connection between philanthropy and place, the case studies range from foundations engaged in disaster recovery, a First Nations UNESCO site, to a funder collaborative engaging seven philanthropies targeting 30 neighborhoods in Montreal, and a private foundation developing a model for holistic change that is being replicated in underserved communities throughout the U.S, among others. Collectively, the case studies bring into the conversation the meaning that individuals bring to their spaces as members of diverse communities, as public and private actors seeking to effect change in underserved communities, and the tension that may result as place is redefined through philanthropic work. The themes and lessons learned that emerge from the case studies offer insights for practitioners, scholars and students of philanthropy.

The Book: A Cover-to-Cover Exploration of the Most Powerful Object of Our Time Keith Houston, 2016-08-22

"Everybody who has ever read a book will benefit from the way Keith Houston explores the most powerful object of our time. And everybody who has read it will agree that reports of the book's death have been greatly exaggerated."—Erik Spiekermann, typographer We may love books, but do we know what lies behind them? In *The Book*, Keith Houston reveals that the paper, ink, thread, glue, and board from which a book is made tell as rich a story as the words on its pages—of civilizations, empires, human ingenuity, and madness. In an invitingly tactile history of this 2,000-year-old medium, Houston follows the development of writing, printing, the art of illustrations, and binding to show how we have moved from cuneiform tablets and papyrus scrolls to the hardcovers and paperbacks of today. Sure to delight book lovers of all stripes with its lush, full-color illustrations, *The Book* gives us the momentous and surprising history behind humanity's most important—and universal—information technology.
