Simple Attacking Plans Fred Wilson,2012 I had a fantastic position, but I couldn't figure out what to do next! Sound familiar? If so, then Fred Wilson's Simple Attacking Plans was written for you. The author distills the complexities of mounting an offensive against your opponent's king down to four principles that lie at the root of most successful chess attacks. Novice players and amateurs of intermediate strength will benefit from the explanations of ideas and tips for practical play, all presented in an easy, conversational style. More experienced competitors will appreciate this book as a game collection featuring masterpieces of enterprising play - some of them never before published.

Attacking Chess for Club Players Herman Grooten,2016-07-31 Every chess player loves to attack the enemy King. Your goal is clear, your thinking is concrete, your creativity is flowing and direct victory is just around the corner. Few things in life are better than successfully conducting a blistering attack on your opponent's King! But how good are you actually at attacking? Have you ever analysed your efforts? Looked at calculation errors, missed opportunities and derailed efforts? After the immense success of his award-winning classic Chess Strategy for Club Players, Herman Grooten has now written an equally accessible follow-up primer on attacking chess. He teaches you how to spot opportunities, exploit weaknesses, bringing your forces to the frontline and striking at the right moment. Grooten concentrates on training the most valuable skills for this process: visualizing, structuring, anticipating, calculating, memorizing and other mental aspects. This is not just another collection of useful thematic moves and motifs but a complete and highly structured course of attacking techniques. And with fantastic new examples, clear explanations and many instructive exercises. Giri won the Dutch Championship four times. Other tournament wins include the Wijk aan Zee B-Group in 2010, a shared first place in Malmö 2011 and a victory in Reggio Emilia 2011/12. In 2014 Giri shared second place in Wijk aan Zee. He won the individual bronze medal for his first-board performance for the Dutch team at the 41st Chess Olympiad in Tromsø in Norway. He finished second at the strong Qatar Masters Open. In 2016 he qualified for the Candidates Tournament in Moscow, where he ended on 50%, with fourteen draws. Giri has an all-round playing style and a strong technique. He likes to fight until the end in seemingly harmless positions, trying to squeeze blood from a stone. But whenever he sees an opportunity, he can be a very sharp tactician as well. Try this training app and play the same winning moves as Anish Giri. This app offers you one hundred training exercises, in positions where Giri turned the game in his favour. The puzzles start at a moderate level and gradually get more difficult. Don't give up!

Revoked Allison Frankel,2020 [The report] finds that supervision -- probation and parole -- drives high numbers of people, disproportionately those who are Black and brown, right back to jail or prison, while in large part failing to help them get needed services and resources. In states examined in the report, people are often incarcerated for violating the rules of their supervision or for low-level crimes, and receive disproportionate punishment following proceedings that fail to adequately protect their fair trial rights.--Publisher website.

Blown to Bits Harold Abelson,Ken Ledeen,Harry R. Lewis,2008 'Blown to Bits' is about how the digital explosion is changing everything. The text explains the technology, why it creates so many surprises and why things often don't work the way we expect them to. It is also about things the information explosion is destroying: old assumptions about who is really in control of our lives.

Writing and Literature Tanya Long Bennett,2018-01-10 In the age of Buzzfeeds, hashtags, and Tweets, students are increasingly favoring conversational writing and regarding academic writing as less pertinent in their personal lives, education, and future careers. Writing and Literature: Composition as Inquiry, Learning, Thinking and Communication connects students with works and exercises and promotes student learning that is kairotic and constructive. Dr. Tanya Long Bennett, professor of English at the University of North Georgia, poses questions that encourage active rather than passive learning. Furthering ideas presented in Contribute a Verse: A Guide to First-Year Composition as a complimentary companion, Writing and Literature builds a new conversation covering various genres of literature and writing. Students learn the various writing styles appropriate for analyzing, addressing, and critiquing these genres including poetry, novels, dramas, and research writing. The text and its pairing of helpful visual aids throughout emphasizes the importance of critical reading and analysis in producing a successful composition. Writing and Literature is a refreshing textbook that links learning, literature, and life.

Mating the Castled King Danny Gormally,2014 Every chess player loves to win with a devastating attack. But even beginners know the importance of early castling, so the most significant attacking strategies are those against a castled king. Danny Gormally sheds light on this vital area of the game, arguing that pattern recognition is key to improvement. This book strips away the mystique surrounding successful attacking play, and identifies several recurring motifs which can be applied to specific pawn structures and scenarios. Well-chosen model examples and test positions are complemented by the author's lively writing style and original terminology. Clobber your opponents with motifs such as the Shotgun and the Tower of Terror!

The authors find that what is urgently needed is a high-level commitment to an integrated, coordinated, and comprehensive policy that is set in the framework of the energy law currently being prepared.

Transitions to Sustainability François Mancebo,Ignacy Sachs,2014-11-17 This book calls for the conditions of transition to sustainability: How to take into consideration new global phenomena such as and of the dimension of climate change, the depletion of natural resources, financial crises, demographic dynamics, global urbanization, migrations and mobility, while bearing in mind short-term or local place-based issues, such as social justice or quality of life? Meeting this challenge requires an inclusive approach of sustainability. It is a matter of designing a new social contract: Sustainability requires more than developing the right markets, institutions and metrics, it requires social momentum. To do so, many issues need a clear and complete answer: How to link social justice with sustainability policies? What governance tools to do so? What linkage between one decision-making level and the other? These are major issues to design sound transitions to sustainability.
