Securing the Belt and Road Initiative Alessandro Arduino,Xue Gong,2018-02-01 This collection explores the expansion of Chinese outbound investments, aimed to sustain the increased need for natural resources, and how they have amplified the magnitude of a possible international crisis that the People’s Republic of China may face in the near future by bringing together the views of a wide range of scholars. President Xi’s Belt and Road initiative (BRI), aimed to promote economic development and exchanges with China for over 60 countries, necessitates a wide range of security procedures. While the threats to Chinese enterprises and Chinese workers based on foreign soil are poised to increase, there is an urgent need to develop new guidelines for risk assessment, special insurance and crisis management. While the Chinese State Owned Enterprises are expanding their international reach capabilities, they still do not have the capacity to assure adequate security. In such a climate, this collection will be of profound value to policy makers, those working in the financial sector, and academics.

Good White Queers? Kai Linke,2021-03-31 How do white queer people portray our own whiteness? Can we, in the stories we tell about ourselves, face the uncomfortable fact that, while queer, we might still be racist? If we cannot, what does that say about us as potential allies in intersectional struggles? A careful analysis of Dykes To Watch Out For and Stuck Rubber Baby by queer comic icons Alison Bechdel and Howard Cruse traces the intersections of queerness and racism in the neglected medium of queer comics, while a close reading of Jaime Cortez's striking graphic novel Sexile/Sexilio offers glimpses of the complexities and difficult truths that lie beyond the limits of the white queer imaginary.

Lost Languages of the Peruvian North Coast Matthias Urban,2019 Dieses Buch behandelt die indigenen Sprachen der peruanischen Nordküste, die vor der Ankunft der Spanier gesprochen wurden. Sie gingen mit dem Untergang der präkolumbischen Gesellschaften der Küstenregion verloren: Sechura und Tallán in Piura, Mochica in Lambayeque und La Libertad, und weiter südlich Quingnam. Der Autor rekonstruiert die Verbreitung dieser Sprachen bis in die frühe Kolonialzeit anhand der spärlichen Quellen und diskutiert die Prozesse des Sprachverlustes zugunsten des Spanischen. Soweit möglich werden Lexikon, Grammatik und phonologisches System jeder Sprache dargestellt und mögliche Rückschlüsse auf Sprachkontakte und Sprachgrenzen gezogen. Eine grosse Bedeutung kommt der Diskussion zu, inwieweit die koloniale Sprachsituation an der Nordküste in die präkolumbianische Vergangenheit projiziert werden kann.--

The Cigarette Century Allan Brandt,2009-01-06 From agriculture to big business, from medicine to politics, The Cigarette Century is the definitive account of how smoking came to be so deeply implicated in our culture, science, policy, and law. No product has been so heavily promoted or has become so deeply entrenched in American consciousness. The Cigarette Century shows in striking detail how one ephemeral (and largely useless) product came to play such a dominant role in so many aspects of our lives—and deaths.

SMEs in an Era of Globalization Ilan Bijaoui,2016-11-24 This book identifies the driving forces behind globalization and proposes innovative ways for small and medium-enterprises (SMEs) to confront them. More than ever, sustainable competitive advantage requires SMEs to continually adapt their strategy and confront new and current competition in the international market. SMEs working with multinational companies could also benefit from winning strategies based on a sensible analysis of rational and irrational phenomena at the micro- and macro-economic levels. This book uses different models developed and established through international business experiences to determine the relevant strategy in the global market. It illustrates each model through real, successful case studies of globalization of factor, efficiency, and innovation-driven SMEs. It will benefit scholars of entrepreneurship, international business, regional development as well as managers, governmental institutions, and regional development, and consultants to SMEs.

The Political Economy of Coal Michael Jakob,Jan C. Steckel,2022-02-01 This volume provides an overview of the political economy of coal in diverse country contexts. Coal is the largest source of greenhouse gas emissions globally, accounting for about 40 percent of energy-related CO2 emissions. Continued construction of coal-fired power plants could make the climate targets of the Paris Agreement infeasible to achieve. In spite of sharply declining costs for renewable energy sources, many countries still heavily rely on coal to meet their energy demand. The predominance of coal can only be adequately understood in light of the political factors that determine energy policy formulation. To this end, this edited volume assembles a wide variety of case studies exploring the political economy of coal for across the globe. These includes industrial and developing nations, coal importers and exporters as well as countries that are either substantial coal users, are just beginning to ramp up their capacities, or have already initiated a coal phase-out. Importantly, all case studies are structured along a unifying framework that focuses on the central actors driving energy policy formulation, their main objectives as well as the context that determines to what extent they can influence policy making. This large set of comparable studies will permit drawing conclusions regarding key similarities as well as differences driving coal use in different countries. This book will be of great interest to students and scholars of energy, climate change, resource management, and sustainable development. It will also appeal to practitioners and policymakers involved in sustainable development. Hazard Mitigation Grant Program Desk Reference (FEMA 345) Federal Emergency Management Agency,2013-02-01 FEMA's Hazard Mitigation Grant Program is a powerful resource in the combined effort by Federal, State, and local government, as well as private industry and homeowners, to end the cycle of repetitive disaster damage. The Robert T. Stafford Disaster Relief and Emergency Assistance Act was passed on November 23, 1988, amending Public Law 93-288, the Disaster Relief Act of 1974. The Stafford Act included Section 404, which established the Hazard Mitigation Grant Program. In 1993, the Hazard Mitigation and Relocation Act amended Section 404 to increase the amount of HMGP funds available and the cost-share to 75 percent Federal. This amendment also encouraged the use of property acquisition and other non-structural flood mitigation measures. In an effort to streamline HMGP delivery, FEMA encourages States to develop their mitigation programs before disaster strikes. States are adopting a more active HMGP management role. Increased capabilities may include: Conducting comprehensive all-hazard mitigation planning prior to disaster events; Providing applicants technical assistance on sound mitigation techniques and hazard mitigation policy and procedures; Coordinating mitigation programs through interagency teams or councils. Conducting benefit-cost analyses; and Preparing National Environmental Policy Act reviews for FEMA approval. States that integrate the HMGP with their frequently updated State Administrative and Hazard Mitigation Plans will create cohesive and effective approaches to loss reduction. This type of coordinated approach minimizes the distinction between “predisaster” and “post-disaster” time periods, and instead produces an ongoing mitigation effort. Hazard mitigation is any sustained action taken to reduce or eliminate long-term risk to people and property from natural hazards and their effects. A key purpose of the HMGP is to ensure that the opportunity to take critical mitigation measures to protect life and property from future disasters is not lost during the recovery and reconstruction process following a disaster. Program grant funds available under Section 404 of the Stafford Act provide States with the incentive and capability to implement mitigation measures that previously may have been infeasible. The purpose of this Desk Reference is to: Provide comprehensive information about FEMA's Hazard Mitigation Grant Program (HMGP); Increase awareness of the HMGP as an integral part of statewide hazard mitigation efforts; and Encourage deeper commitments and increased responsibilities on the part of all States and communities to reduce damage and losses from natural disasters. This Desk Reference is organized to simplify program information and assist the reader with practical guidance for successful participation in the program. Lists of program-related acronyms and definitions are included, along with appendices that amplify selected aspects of the HMGP. This Desk Reference is organized into 14 sections, each of which presents a major HMGP subject area. In each section, information is presented on the right side of the page. In several sections, job aids containing supplemental material are provided. The job aids for each section can be found at the end of the section. At the front of each section, there is a detailed table of contents to help you locate specific information.

Building Early Social and Emotional Relationships with Infants and Toddlers Amanda Sheffield Morris,Amy C. Williamson,2019-02-09 This book provides a comprehensive overview of the process of building healthy early social

and emotional relationships with infants from a developmental perspective. The book synthesizes current research on the contextual influences of attachment, family relationships, and caregiving practices on social-emotional development. Chapters examine the processes of socioemotional development—particularly in relationships with parents, other family members, and peers—and identify areas for promoting healthy attachments and resilience, improving caregiving skills, and intervening in traumatic and stressful situations. Chapters also present empirically-supported intervention and prevention programs focused on building early relationships from birth through three years of age. The book concludes with future directions for supporting infant mental health and its vital importance as a component of research, clinical and educational practice, and child and family policy. Topics featured in this book include: The effect of prenatal and neonatal attachment on social and emotional development. The impact of primary relationships and early experiences in toddlerhood. Toddler autonomy and peer awareness in the context of families and child care. Supporting early social and emotional relationships through The Legacy for Children™ Intervention. How to build early relationship programming across various cultures. Building Early Social and Emotional Relationships with Infants and Toddlers is a must-have reference for researchers, clinicians and professionals, and graduate students in the fields of infant mental health, developmental psychology, pediatrics, public health, family studies, and early childhood education.
