🔗 **THE ‘MADE IN GERMANY’ CHAMPION BRANDS** Ugesh A. Joseph,2016-03-09 Germany’s economic miracle is a widely-known phenomenon, and the world-leading, innovative products and services associated with German companies are something that others seek to imitate. In The ‘Made in Germany’🔗 ’ Champion Brands, Ugesh A. Joseph provides an extensively researched, insightful look at over 200 of Germany’s best brands to see what they stand for, what has made them what they are today, and what might be transferable. The way Germany is branded as a nation carries across into the branding of its companies and services, particularly the global superstar brands – truly world-class in size, performance and reputation. Just as important are the medium-sized and small enterprises, known as the ‘Mittelstand’. These innovative and successful enterprises from a wide range of industries and product / service categories are amongst the world market leaders in their own niche and play a huge part in making Germany what it is today. The book also focuses on German industrial entrepreneurship and a selection of innovative and emergent stars. All these companies are supported and encouraged by a sophisticated infrastructure of facilitators, influencers and enhancers – the research, industry, trade and standards organizations, the fairs and exhibitions and all the social and cultural factors that influence, enhance and add positive value to the country’s image. Professionals or academics interested in business; entrepreneurship; branding and marketing; product or service development; international trade and business development policy, will find fascinating insights in this book; while those with an interest in Germany from emerging industrial economies will learn something of the secrets of German success.

🔗 **THE SUSTAINABLE WORLD** C. A. Brebbia,2011 This book contains a collection of papers presented at a series of meetings organised by the Wessex Institute of Technology (WIT) dealing with sustainability, the environment and ecological issues. The complexity of the modern world presents new challenges to scientists and engineers that requires finding interdisciplinary solutions. Any problem solving carried out in the isolation of a particular field of expertise may give rise to a series of damaging effects which can create new and unintentional environmental and ecological problems. Specialisation, while required in our culture, needs to be kept under control by the understanding of the whole, which leads to the need of relying on interdisciplinary teams. Nowadays this can be easily achieved thanks to the massive advances in information technology which ensure continuous and immediate contact between all partners. This collaboration needs to be effective and to produce results that will lead to a better world. For this to happen, it is necessary that different groups of scientists and engineers acquire the necessary skills to be able to talk to each other. Furthermore, they need to understand the social and economic aspects of a given problem, in addition to the scientific and engineering issues involved. The Wessex Institute of Technology (WIT) has a long and very successful record in organising interdisciplinary conferences. The papers in this book are a reflection of the proceedings of some of those meetings.

🔗 **POST-POP CINEMA** Jesse Fox Mayshark,2007-05-30 Starting in the early 1990s, artists such as Quentin Tarantino, David Foster Wallace, and Kurt Cobain contributed to a swelling cultural tide of pop postmodernism that swept through music, film, literature, and fashion. In cinema in particular, some of the arts most fundamental aspects—stories, characters, and genres, for instance—assumed such a trite and trivialized appearance that only rarely could they take their places on the screen without provoking an inward smirk or a wink from the audience. Out of this highly self-conscious and world-weary environment, however, a new group of filmmakers began to develop as the decade wore on, with a new set of styles and sensibilities to match. In Post-Pop Cinema author Jesse Fox Mayshark takes us on a film-by-film tour of the works of these filmmakers—including Wes and P. T. Anderson, Sofia Coppola, Richard Linklater, Alexander Payne, and David O. Russell—and seeks to reveal how a common pool of styles, collaborators, and personal connections helps them to confront the unifying problem of meaning in American film. Wes Anderson’s Bottle Rocket (1996) and Paul Thomas Anderson’s Boogie Nights (1997) were ultimately about their characters’ lives—even though their characters often dealt with highly contrived environments and situations. And soon after Wes Anderson scored his first success, others like David O. Russell (Flirting With Disaster, Three Kings), the screenwriter Charlie Kaufman (who collaborated with Spike Jonze on such projects as Being John Malkovich and Adaptation), Alexander Payne (Election, Sideways), Richard Kelly (Donnie Darko), and Sofia Coppola (Lost in Translation) began to tread their own paths over this same ground. Although these men and women represent a wide range of styles and subject matter, all their films revolve in different ways around the difficulty of establishing and maintaining connections. This theme of connection also runs deeper than the films made: the directors share actors (Mark Wahlberg, Bill Murray, Ben Stiller, Jason Schwartzman), collaborators (the musician Jon Brion) and sometimes even personal connections (Spike Jonze starred in Russell’s Three Kings, and was married to Coppola). Together these filmmakers form a loose and distinctly American school of filmmaking, one informed by postmodernism but not in thrall to it, and one that every year becomes more important to the world of cinema both within and beyond the United States.

🔗 **DUB** Michael Veal,2013-08-15 Winner of the ARSC’s Award for Best Research (History) in Folk, Ethnic, or World Music (2008) When Jamaican recording engineers Osbourne “King Tubby” Ruddock, Errol Thompson, and Lee “Scratch” Perry began crafting “dub” music in the early 1970s, they were initiating a musical revolution that continues to have worldwide influence. Dub is a sub-genre of Jamaican reggae that flourished during reggae’s “golden age” of the late 1960s through the early 1980s. Dub involves remixing existing recordings—electronically improvising sound effects and altering vocal tracks—to create its unique sound. Just as hip-hop turned phonograph turntables into musical instruments, dub turned the mixing and sound processing technologies of the recording studio into instruments of composition and real-time improvisation. In addition to chronicling dub’s development and offering the first thorough analysis of the music itself, author Michael Veal examines dub’s social significance in Jamaican culture. He further explores the “dub revolution” that has crossed musical and cultural boundaries for over thirty years, influencing a wide variety of musical genres around the globe. Ebook Edition Note: Seven of the 25 illustrations have been redacted.

🔗 **EMBEDDED** Danny Schechter,2013-07-02 There were two wars going on in Iraq--one fought with armies of soldiers, bombs, and fearsome military force. The other was fought alongside it with cameras, satellites, armies of journalists, and propaganda techniques. One war was rationalized as an effort to find and disarm WMDs--Weapons of Mass Destruction; the other was carried out by even more powerful WMDs, Weapons of Mass Deception. Veteran journalist and media watcher Danny Schechter, a former ABC and CNN producer, monitored and now analyzes the cheerleading for a war in which reporting was sanitized, staged, and suppressed. The author of Media Wars: News at a Time of Terror, The More You Watch the Less You Know, and News Dissector, brings an insider’s knowledge based on thirty years in journalism with an outsider’s perspective to critiquing media coverage. Throughout the war he was self-embedded at Mediachannel.org, the world’s largest online media issues network. Schechter’s insightful, wide-ranging critique of the American media’s war coverage targets the way in which a virtual merger between the Pentagon and the media produced a war spectacle that the American public was primed to see, media collusion in the campaign to discredit the UN, rightwing liberation theology as war propaganda, the cozy relationship between news anchors and retired officers hired as military analysts, the

CONTROVERSIES OVER PETER ARNETT AND GERALDO RIVERA, THE LOOTING OF BAGHDAD, THE LACK OF MEDIA FOCUS ON CIVILIAN CASUALTIES, THE DISPARITIES IN COVERAGE BETWEEN U.S. AND FOREIGN MEDIA, AND MORE. SCHECHTER’S DISTURBING INDICTMENT OF THE MAJOR MEDIA AS PURVEYORS OF INFOTAINMENT INSTEAD OF NEWS WILL SERVE AS A WAKE-UP CALL TO JOURNALISTS, MEDIA CRITICS, AND EVERYONE WHO CARES ABOUT A WELL-INFORMED CITIZENRY AS THE BASIS OF DEMOCRACY.

☞ **TENEMENTS, TOWERS & TRASH** JULIA WERTZ, 2017-10-03 A New York Times Notable Book of 2017! Here is New York, as you’ve never seen it before. A perfectly charming, sidesplittingly funny, intellectually entertaining illustrated history of the blocks, the buildings, and the guts of New York City, based on Julia Wertz’s popular illustrated columns in The New Yorker and Harper’s. In Tenements, Towers & Trash, Julia Wertz takes us behind the New York that you think you know. Not the tourist’s New York-the Statue of Liberty makes a brief appearance and the Empire State Building not at all-but the guts, the underbelly, of this city that never sleeps. With drawings and comics in her signature style, Wertz regales us with streetscapes then and now and little-known tales, such as the lost history of Kim’s Video, the complicated and unresolved business of Ray’s Pizza, the vintage trash and horse bones that litter the shore of Brooklyn’s Bottle Beach, the ludicrous pinball prohibition, Staten Island’s secret abandoned boatyard, and the hair-raising legend of the infamous abortionist of Fifth Avenue, Madame Restell. From bars, bakeries, and bookstores to food carts, street cleaners, and apartments both cramped and grand, Tenements, Towers & Trash is a wild ride in a time machine taxi from the present day city to bygone days of yore.

Traditionally, for healthy individuals or athletes it focused on strength, flexibility, or cardiovascular training. Such training would normally be supervised by a personal fitness trainer or strength and conditioning (S&C) coach. This book promotes a different approach in that the aim of training is to promote athletic development (1,2). From the perspective of sustainable athletic development, training is not limited to strength, flexibility or cardiovascular domains, but also focuses on the fundamental A,B,Cs of agility, balance, and coordination as a foundation for enhanced movement literacy (3)--

☞ **ACHTUNG-PANZER!** Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian’s book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian’s classic book – used as a textbook by Panzer officers in the war – has an introduction and extensive background notes by the modern English historian Paul Harris.
