Internet Architecture and Innovation Barbara Van Schewick,2012-08-24 A detailed examination of how the underlying technical structure of the Internet affects the economic environment for innovation and the implications for public policy. Today—following housing bubbles, bank collapses, and high unemployment—the Internet remains the most reliable mechanism for fostering innovation and creating new wealth. The Internet's remarkable growth has been fueled by innovation. In this pathbreaking book, Barbara van Schewick argues that this explosion of innovation is not an accident, but a consequence of the Internet's architecture—a consequence of technical choices regarding the Internet's inner structure that were made early in its history. The Internet's original architecture was based on four design principles: modularity, layering, and two versions of the celebrated but often misunderstood end-to-end arguments. But today, the Internet's architecture is changing in ways that deviate from the Internet's original design principles, removing the features that have fostered innovation and threatening the Internet's ability to spur economic growth, to improve democratic discourse, and to provide a decentralized environment for social and cultural interaction in which anyone can participate. If no one intervenes, network providers' interests will drive networks further away from the original design principles. If the Internet's value for society is to be preserved, van Schewick argues, policymakers will have to intervene and protect the features that were at the core of the Internet's success.

Moon-face and Other Stories Jack London,1906 JACK LONDON (1876-1916), American novelist, born in San Francisco, the son of an itinerant astrologer and a spiritualist mother. He grew up in poverty, scratching a living in various legal and illegal ways -robbing the oyster beds, working in a canning factory and a jute mill, serving aged 17 as a common sailor, and taking part in the Klondike gold rush of 1897. This various experience provided the material for his works, and made him a socialist. The son of the Wolf (1900), the first of his collections of tales, is based upon life in the Far North, as is the book that brought him recognition, The Call of the Wild (1903), which tells the story of the dog Buck, who, after his master's death, is lured back to the primitive world to lead a wolf pack. Many other tales of struggle, travel, and adventure followed, including The Sea-Wolf (1904), White Fang (1906), South Sea Tales (1911), and Jerry of the South Seas (1917). One of London's most interesting novels is the semi-autobiographical Martin Eden (1909). He also wrote socialist treatises, autobiographical essays, and a good deal of journalism.

Digital Trade in the U. S. and Global Economies James Stamps,2014-10-22 Report of a government investigation to better understand the role of digital trade -- domestic commerce and international trade conducted via the Internet -- in the U.S. and global economies, as well as the effects of barriers and impediments to digital trade that impede U.S. access to global markets. The analysis provides findings at three levels: at the firm level, through 10 case studies; at the industry level, through a survey of U.S. businesses; and at the economy-wide level, using computable general equilibrium and econometric models. This analysis shows that digital trade contributes to economic output by improving productivity and reducing trade costs. Digital trade's combined effects of increased productivity and lower trade costs are estimated to have increased U.S. real GDP by \$517.1-\$710.7 billion (3.4-4.8%). Figures and tables. This is a print on demand report.

101 Life Skills Games for Children Bernie Badegruber,2011-01-01 How do you teach tolerance, self-awareness, and responsibility? How can you help children deal with fear, mistrust, or aggression? Play a game with them! Games are an ideal way to help children develop social and emotional skills; they are exciting, relaxing, and fun. 101 LIFE SKILLS GAMES FOR CHILDREN: LEARNING, GROWING, GETTING ALONG (Ages 6-12) is a resource that can help children understand and deal with problems that arise in daily interactions with other children and adults. These games help children develop social and emotional skills and enhance self-awareness. The games address the following issues: dependence, aggression, fear, resentment, disability, accusations, boasting, honesty, flexibility, patience, secrets, conscience, inhibitions, stereotypes, noise, lying, performance, closeness, weaknesses, self confidence, fun, reassurance, love, respect, integrating a new classmate, group conflict. Organized in three main chapters: (I-Games, You-Games and We-Games), the book is well structured and easily accessible. It specifies an objective for every game, gives step-by-step instructions, and offers questions for reflection. It provides possible variations for each game, examples, tips, and ideas for role plays. Each game contains references to appropriate follow-up games and is illustrated with charming drawings.

The Rise of the Creative Class Richard Florida,2019 World-renowned urbanist Richard Florida's bestselling classic on the transformation of our cities in the twenty-

first century-now updated with a new preface In his modern classic *The Rise of the Creative Class*, urbanist Richard Florida identifies the emergence of a new social class reshaping the twenty-first century's economy, geography, and workplace. This Creative Class is made up of engineers and managers, academics and musicians, researchers, designers, entrepreneurs and lawyers, poets and programmer, whose work turns on the creation of new forms. Increasingly, Florida observes, this Creative Class determines how workplaces are organized, which companies prosper or go bankrupt, and which cities thrive, stagnate or decline. Florida offers a detailed occupational, demographic, psychological, and economic profile of the Creative Class, examines its global impact, and explores the factors that shape quality of place in our changing cities and suburbs. Now updated with a new preface that considers the latest developments in our changing cities, *The Rise of the Creative Class* is the definitive edition of this foundational book on our contemporary economy.

Transitions to parenthood in Europe Ann Nilsen, Julia Brannen, Suzan Lewis, 2013 *Transitions to Parenthood in Europe* analyzes and compares the biographies of mothers and fathers in seven European countries. Focusing on how working people negotiate the transition into parenthood—and the work-life balances it requires—the contributors provide an in-depth understanding of working parents' real lives within a diverse set of national, workplace, and family contexts. With rich insights into how institutional policy and practices affect individuals and families, it highlights pertinent and sometimes challenging issues regarding the sustainability of contemporary lifestyles as people try to create a healthy, supportive home.

European Competitiveness Kirsty S. Hughes, 1993-05-06 This book analyses the key factors determining European competitiveness. It focuses in particular on the issues of internationalization of firms and markets, the role of technology and innovation, and of continuing European integration, and deals with these issues on the level of firms, industries and countries. The competitiveness of the EC as a whole, relative to the USA and Japan, is also examined. Part I deals with internationalization, the organization of firms, and the activities of multinationals in Europe. Part II focuses on trends in technological competitiveness, and its importance in growth and trade performance. Part III is concerned with structural change, the integration of the European market, competition and mergers, the role of the public sector, and the role of cultural differences. The book ends by addressing the role of industrial policy in the future of the Eastern European economies.

The Magic Drum and Other Favourite Stories Sudhā Mūr̥ti, 2006 A princess thinks she was a bird, a coconut that cost a thousand rupees, and a shepherd with a bag of words...Kings and misers, princes and paupers, wise men and foolish boys, the funniest and oddest men and women come alive in this sparkling new collection of stories. The clever princess will only marry the man who can ask her a question she cannot answer; the orphan boy outwits his greedy uncles with a bag of ash; and an old couple in distress is saved by a magic drum. Sudha Murty's grandparents told her some of these stories when she was a child; others she heard from her friends from around the world. These delightful and timeless folktales have been her favourites for years, and she has recounted them many times over to the young people in her life. With this collection, they will be enjoyed by many more readers, of all ages. Age group of target audience is 8+.
