Images of Contemporary Iceland Gisli Palsson,E. Paul Durrenberger,1996-01-01 The Anthropology of Iceland presents the first perspectives on Icelandic anthropology from both Icelandic and foreign anthropologists. The thirteen essays in this volume are divided into four themes: ideology and action; kinship and gender; culture, class, and ethnicity; and the Commonwealth period of circa 930 to 1220, which saw the flowering of sagas. Insider and outsider viewpoints on such topics as the Icelandic women's movement, the transformation of the fishing industry, the

idea of mystical power in modern Iceland, and archaeological research in Iceland merge to form an international, comparative discourse. Individually and collectively, by bringing the insights of anthropology to bear on Iceland, the native and foreign authors of this volume carry Iceland into the realm of modern anthropology, advancing our understanding of the island's people and the practice of anthropology.

Folklore and Nationalism in Europe During the Long Nineteenth Century Timothy Baycroft, David Hopkin, 2012-07-25 Using an interdisciplinary approach, this book brings together work in the fields of history, literary studies, music, and architecture to examine the place of folklore and representations of 'the people' in the development of nations across Europe during the 19th century.

Undisciplined Women Pauline Greenhill, Diane Tye, 1997 Redressing a neglect of women's traditions and feminist perspectives in Canadian folklore studies, 20 contributions discuss female experiences of traditional culture from feminist viewpoints. The authors look at the effect of gender on the collecting and interpreting of women's folklore, negative and positive images of women in traditional and popular culture, and women's use of creativity in their everyday lives. Some contributors are nonacademics. Annotation copyrighted by Book News, Inc., Portland, OR

Learning and Understanding in the Old Norse World Judy Quinn, Kate Heslop, Tarrin Wills, 2007 This volume presents twenty essays by leading scholars of Old Norse which bring into focus the nature of learned traditions - both oral and written - in medieval Scandinavia and the interpretation and re-interpretation of them over time. Theoretical frameworks for understanding

Old Norse literature is the initial topic of the collection, which then moves on to present recent work on Old Norse myth and society; current perspectives on oral traditions in performance and text; and reflections on medieval ideas about language, both vernacular and Latin. The collection is rounded off by a section on prolonged traditions – the transformation of local and imported traditions into new literary forms. Individual essays in the volume offer significant primary research as well as reconsiderations of key issues in scholarship, their subjects ranging widely, both conceptually and chronologically, around the twin themes of learning and understanding. Like the research of the volume's honorand, Margaret Clunies Ross, *Learning and Understanding in the Old Norse World* exemplifies the diversity and vigour of current research in the field of Old Norse and draws together philological, literary, historical and anthropological perspectives on the subject.

Another Philosophy of History and Selected Political Writings Johann Gottfried Herder, 2004-03-15 Historians of ideas, and students of nationalism in particular, have traced the origins of much of our current vocabulary and ways of thinking about the nation back to Johann Gottfried Herder. This volume provides a clear, readable, and reliable translation of *Auch eine Philosophie der Geschichte zur Bildung der Menschheit*, supplemented by some of Herder's other important writings on politics and history. The editors' insightful Introduction traces the role of Herder's thought in the evolution of nationalism and highlights its influence on fields such as history, anthropology, and politics. The volume is designed to give English-speaking readers more ready access to the thinker whom Isaiah Berlin called the father of the related notions of nationalism, historicism, and *Volksgeist*.

The Complete Sagas of Icelanders, Including 49 Tales ,1997 The set contains the first complete, coordinated English translation of The sagas of Icelanders, forty in all, together with forty-nine of the shorter Tales of Icelanders.--Preface.

Reconstructing the House of Culture Brian Donahoe, Joachim Otto Habeck, 2011-11-30 Notions of culture, rituals and their meanings, the workings of ideology in everyday life, public representations of tradition and ethnicity, and the social consequences of economic transition- these are critical issues in the social anthropology of Russia and other postsocialist countries. Engaged in the negotiation of all these is the House of Culture, which was the key institution for cultural activities and implementation of state cultural policies in all socialist states. The House of Culture was officially responsible for cultural enlightenment, moral edification, and personal cultivation-in short, for implementing the socialist state's program of bringing culture to the masses. Surprisingly, little is known about its past and present condition. This collection of ethnographically rich accounts examines the social significance and everyday performance of Houses of Culture and how they have changed in recent decades. In the years immediately following the end of the Soviet Union, they underwent a deep economic and symbolic crisis, and many closed. Recently, however, there have been signs of a revitalization of the Houses of Culture and a re-orientation of their missions and programs. The contributions to this volume investigate the changing functions and meanings of these vital institutions for the communities that they serve.
