Invisible Bicycle Tiina Mannisto-Funk, Timo Myllyntaus, 2018 The Invisible Bicycle brings together different insights into the social, cultural and economic history of the bicycle and cycling in historical eras of ubiquitous bicycle use that have remained relatively invisible in bicycle history. It revisits the typical timeline of cycling's decline in the 1950s and 1960s and the renaissance beginning in the 1970s by bringing forth the large national and local variations, varying uses and images of the bicycle, and different bicycle cultures as well as their historical background and motivations. To understand the role, possibilities and challenges of the bicycle today, it is necessary to know the history that has formed them. Therefore The Invisible Bicycle is recommended also to present-day practitioners and planners of bicycle mobility. Contributors are: Peter Cox, Martin Emanuel, Tiina Männistö-Funk, Timo Myllyntaus, Nicholas Oddy, Harry Oosterhuis, William Steele, Manuel Stoffers, Sue-Yen Tjong Tjin Tai, Frank Veraart.

Managing Our Past Into the Future Corinne Lisette Hofman, Jay B. Haviser, 2015 Caribbean archaeological heritage is threatened by natural impacts but also increasingly by economic developments, often resulting from the tourist industry. The continuous construction of specific projects for tourists, accompanied by illegal practices such as looting and sand mining, have major impacts on the region's archaeological heritage. The geopolitical and cultural diversity of the Caribbean, the general lack of awareness of island histories and multiple stakeholders involved in the preservation process, have in many cases slowed down the effective enforcement of regulations and heritage legislation. The development of archaeological heritage management (AHM) in the Dutch Caribbean islands started slowly in the early years of their semi-autonomy within the Kingdom of the Netherlands from 1954 onwards. With the dissolution of the Netherlands Antilles on 10 October 2010, Curaçao and St. Martin obtained a more autonomous status within the Kingdom, similar to Aruba has since 1986. Simultaneously, Bonaire, Saba and St. Eustatius became special overseas municipalities of the Kingdom of the Netherlands. Consequently, these islands now fall under Dutch regulations for cultural resource management. Irrespective of these geopolitical changes, AHM has been developing on the six islands over the past 25 years, partly because of the active role of localized island-specific archaeological institutions. This volume provides a background to the history of archaeological research in the Dutch Caribbean and compiles a number of compliance archaeology projects that have been carried out under

and in the spirit of the Valetta Treaty. In addition, with its discussion of the successful creation of localized community-based archaeological heritage associations serving as an excellent model for other island communities in the Caribbean, this volume represents a unique contribution to AHM in a wider regional perspective. The Petrine Revolution in Russian Culture James Cracraft, 2009-07-01 The reforms initiated by Peter the Great transformed Russia not only into a European power, but into a European culture--a shift, argues James Cracraft, that was nothing less than revolutionary. The author of seminal works on visual culture in the Petrine era, Cracraft now turns his attention to the changes that occurred in Russian verbal culture. The forceful institutionalization of the tsar's reforms--the establishment of a navy, modernization of the army, restructuring of the government, introduction of new arts and sciences--had an enormous impact on language. Cracraft details the

transmission to Russia of contemporary European naval, military, bureaucratic, legal, scientific, and literary norms and their corresponding lexical and other linguistic effects. This crucial first stage in the development of a modern verbal culture in Russia saw the translation and publication of a wholly unprecedented number of textbooks and treatises; the establishment of new printing presses and the introduction of a new alphabet; the compilation, for the first time, of grammars and dictionaries of Russian; and the initial standardization, in consequence, of the modern Russian literary language. Peter's creation of the St. Petersburg Academy of Sciences, the chief agency advancing these reforms, is also highlighted. In the conclusion to his masterwork, Cracraft deftly pulls together the Petrine reforms in verbal and visual culture to portray a revolution that would have dramatic consequences for Russia, and for the world.

The Amateur and the Professional P. J. A. Levine, 2003-02-13 This book highlights the growing divide in nineteenth-century intellectual circles between amateur and professional interest, and explores the institutional means whereby professional ascendancy was achieved in the broad field of studies of the past. It is concerned with how antiquarian 'gentlemen of leisure', pursuing their interests through local archaeological societies, were, by the end of the century, relegated to the sidelines of the now university-based discipline of history. At the same time it explores the theological as well as technical barriers which arrested the development of archaeology in this period. This is a notable contribution to the intellectual history of Victorian England, attending not simply to the ideas perpetrated by these communities of scholarship but to their social status, relating such social consideration to a more traditional intellectual history to create a new social history of ideas.

Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

A Small Town Called Hibiscus Hua Gu, 1983 *A Small Town Called Hibiscus* is one of the best Chinese novels to have appeared in 1981. Its author Gu Hua was brought up in the Wuling Mountains of south Hunan. He presents the ups and downs of some families in a small mountain town there during the hard years in the early sixties, the cultural revolution, and after the downfall of the gang of four. He shows the horrifying impact on decent, hard-working people of the gang's ultra-Left line, and retains a sense of humor in describing the most harrowing incidents. In the end wrongs are righted, and readers are left with a deepened understanding of this abnormal period in Chinese history and the sterling qualities of the Chinese people.

Homer, Troy and the Turks Günay Uslu, 2017 Homer's stories of Troy are part of the foundations of Western culture. What's less well known is that they also inspired Ottoman-Turkish cultural traditions. Yet even with all the historical and archaeological research into Homer and Troy, most scholars today rely heavily on Western sources, giving Ottoman work in the field short shrift. This book helps right that balance, exploring Ottoman-Turkish involvement and interest in the subject between 1870, when Heinrich Schliemann began his excavations in search of Troy on Ottoman soil, and the battle of Gallipoli in 1915, which gave the Turks their own version of the heroic epic of Troy.
