*Indigenous Life Projects and Extractivism* Cecilie Vindal Ødegaard,Juan Javier Rivera Andía,2019-01-01 Exploring indigenous life projects in encounters with extractivism, the present open access volume discusses how current turbulences actualise questions of indigeneity, difference and ontological dynamics in the Andes and Amazonia. While studies of extractivism in South America often focus on wider national and international politics, this contribution instead provides ethnographic explorations of indigenous politics, perspectives and worlds, revealing loss and suffering as well as creative strategies to mediate the extralocal. Seeking to avoid conceptual imperialism or the imposition of exogenous categories, the chapters are grounded in the respective authors' long-standing field research. The authors examine the reactions (from resistance to accommodation), consequences (from anticipation to rubble) and materials (from fossil fuel to water) diversely related to extractivism in rural and urban settings. How can Amerindian strategies to preserve localised communities in extractivist contexts contribute to ways of thinking otherwise?

Socializing Art Museums Alejandra Alonso Tak,Ángel Pazos-López,2020-08-24 Art museums today face the challenge of opening themselves up as institutions to a changing society. This publication offers new perspectives on museological trends that are developing in various countries and cultures. Through increasingly flexible, inclusive and unexpected museum typologies, institutions aim to give their visitors greater access to art. The essays define the role of the museum as a medium of social change, as a protagonist in an education process and as a technologically innovative platform. Art historians, but also practitioners from the museum world – including curators, architects and psychologists – examine what is expected of art museums

using case studies and against the background of the humanities and social sciences.

***The CDC Field Epidemiology Manual*** Centers for Disease Control and Prevention (CDC),2018-11-20 A NEW AND ESSENTIAL RESOURCE FOR THE PRACTICE OF EPIDEMIOLOGY AND PUBLIC HEALTH The CDC Field Epidemiology Manual is a definitive guide to investigating acute public health events on the ground and in real time. Assembled and written by experts from the Centers for Disease Control and Prevention as well as other leading public health agencies, it offers current and field-tested guidance for every stage of an outbreak investigation -- from identification to intervention and other core considerations along the way. Modeled after Michael Gregg's seminal book *Field Epidemiology*, this CDC manual ushers investigators through the core elements of field work, including many of the challenges inherent to outbreaks: working with multiple state and federal agencies or multinational organizations; legal considerations; and effective utilization of an incident-management approach. Additional coverage includes: · Updated guidance for new tools in field investigations, including the latest technologies for data collection and incorporating data from geographic information systems (GIS) · Tips for investigations in unique settings, including healthcare and community-congregate sites · Advice for responding to different types of outbreaks, including acute enteric disease; suspected biologic or toxic agents; and outbreaks of violence, suicide, and other forms of injury For the ever-changing public health landscape, The CDC Field Epidemiology Manual offers a new, authoritative resource for effective outbreak response to acute and emerging threats. \*\*\* Oxford University Press will donate a portion of the proceeds from this book to the CDC Foundation, an independent nonprofit and the sole entity created by Congress to mobilize philanthropic and private-sector resources to support the Centers for Disease Control and Prevention's critical health protection work. To learn more about the CDC Foundation, visit [www.cdcfoundation.org](http://www.cdcfoundation.org).

***Culture of Class*** Matthew Benjamin Karush,2012-05-15 Following the mass arrival of European immigrants to Argentina in the early years of the twentieth century new forms of entertainment emerged including tango, films, radio and theater. While these forms of culture promoted ethnic integration they also produced a new kind of polarization that helped Juan Peron to build the mass movement that propelled him to power.

***Economic Survey of Latin America and the Caribbean 2020*** United Nations Publications,2021-05-05 This publication outlines the region's economic performance in 2019 and analyses trends in the early months of 2020, as well as the outlook for the rest of the year. It examines the external and domestic factors that have influenced the region's economic performance, analyses the characteristics of growth, prices and the labour market, and

draws attention to some of the macroeconomic policy challenges of the prevailing external conditions, amid mounting uncertainty stemming mainly from political factors. It analyses the dynamics of investment and its determinants, with a view to identifying the different variables on which public policy can act to influence the trajectory of investment. This edition also analyses the effects and challenges of the coronavirus disease (COVID-19) pandemic for the region during 2020 and the outlook that is taking shape for the years to come.

**Advances in Artificial Intelligence, Software and Systems Engineering** Tareq Ahram, 2019-06-10 This book addresses emerging issues resulting from the integration of artificial intelligence systems in our daily lives. It focuses on the cognitive, visual, social and analytical aspects of computing and intelligent technologies, highlighting ways to improve the acceptance, effectiveness, and efficiency of said technologies. Topics such as responsibility, integration and training are discussed throughout. The book also reports on the latest advances in systems engineering, with a focus on societal challenges and next-generation systems and applications for meeting them. The book is based on two AHFE 2019 Affiliated Conferences – on Artificial Intelligence and Social Computing, and on Service, Software, and Systems Engineering –, which were jointly held on July 24–28, 2019, in Washington, DC, USA.

Pore-forming Peptides and Protein Toxins Gianfranco Menestrina, M. Dalla Sera, 2003-01-30 Pore-forming proteins and peptides play a central role in bacterial pathogenesis, the immune response, defense from venomous attack, and innate immunity. These proteins attack and eliminate other organisms by punching an aqueous channel through their membranes, which disrupts appropriate cell function. The discovery of this cellular interaction has

**Applied Probability and Statistics** Mario Lefebvre, 2007-04-03 This book moves systematically through the topic of applied probability from an introductory chapter to such topics as random variables and vectors, stochastic processes, estimation, testing and regression. The topics are well chosen and the presentation is enriched by many examples from real life. Each chapter concludes with many original, solved and unsolved problems and hundreds of multiple choice questions, enabling those unfamiliar with the topics to master them. Additionally appealing are historical notes on the mathematicians mentioned throughout, and a useful bibliography. A distinguishing character of the book is its thorough and succinct handling of the varied topics.

*Good beekeeping practices for sustainable apiculture* Food and Agriculture Organization of the United Nations, Apimondia, Chinese Academy of Agricultural Sciences, Istituto Zooprofilattico Sperimentale Lazio e Toscana, 2021-09-21 Bees provide a critical link in the maintenance of ecosystems, pollination. They play a major role in maintaining biodiversity, ensuring the survival of many plants, enhancing forest regeneration, providing sustainability and adaptation to climate change and improving the quality and quantity of agricultural production systems. In fact, close to 75 percent of the world's crops that produce fruits and seeds for human consumption depend, at least in part, on pollinators for sustained production, yield and quality. Beekeeping, also called apiculture, refers to all activities concerned with the practical management of social bee species. These guidelines aim to provide useful information and suggestions for a sustainable management of bees around the world, which can then be applied to project development and implementation.

**A History of Spanish Literature** James Fitzmaurice-Kelly, 1898

Democracy in Chile Silvia Nagy-Zekmi, Fernando Leiva, 2013-03-01 In the 1990s, Latin America emerged from the horror of massive human rights violations as it returned to civilian-elected regimes. This volume aims to explore the lasting legacy of the transformations brought about by the oppressive regimes of the '70s and '80s as they are experienced in the cultural, social and intellectual life of the region.

**Food Colour and Appearance** Hutchings, 2012-12-06 Much of man's behaviour is controlled by appearance, but the appearance of his food is of paramount importance to his health and well-being. In day-to-day survival and marketing situations, we can or not most foods are fit to eat from their optical tell whether properties. Although vision and colour perception are the means by which we appreciate our surroundings, visual acceptance depends on more than just colour. It depends on total appearance. In the recent past the food technologist has been under pressure to increase his/her understanding of first, the behaviour of raw materials under processing, and second, the behaviour and motivation of his/her customers in a growing, more discriminating, and worldwide market. The chapters which follow describe the philosophy of total appearance, the factors comprising it, and its application to the food industry. Included are: considerations of the evolutionary, historical, and cultural aspects of food appearance; the physics and food chemistry of colour and appearance; the principles of sensory appearance assessment and appearance profile analysis, as well as instrumental measurement; the interaction of product appearance, control, and acceptance in the varied environments of the laboratory, production line, supermarket,

home and restaurant. A broad examination has been made in an attempt to get into perspective the importance of appearance to all sectors of the industry.

**Sustainable Bioresource Management** Ratikanta Maiti,Humberto González Rodríguez,Ch. Aruna Kumari,Debashis Mandal,2020-04-21 This new volume emphasizes the drastic quantitative and qualitative transformation of our surrounding environment and looks at bioresource management and the tools needed to manage environmental stresses. This unique compilation and interpretation of concrete scientific ventures undertaken by environmental specialists at the global level explores research dedicated to the management of natural resources by controlling biotic and abiotic factors that make the earth vulnerable to these stresses. The chapter authors look at all types of bioresources on earth and their management at times of stress/crisis, focusing on the need for documentation, validation, and recovery of ethnic indigenous knowledge and practices that could have great impact in stress management. The book looks at topics in nature and changing climate management, adaptation, and mitigation, such as the effects of climate change on agriculture and horticulture, on timber harvesting, and on forest resources. Also specifically discussed are crop resources management, seed crops, tree seedlings, soil management, and conservation practices. The volume also includes chapters on animal resources management.

Política de drogas con enfoque de derechos humanos: María Alejandra Osorio Alvis,2019-01-01 El presente libro aborda la relación entre los derechos humanos de la población rural cultivadora de plantaciones de uso ilícito, las estrategias para el control de drogas ilícitas y el enfoque de derechos humanos en las políticas internacionales. Para esto, la autora realizó una investigación de la afectación y reivindicación de los derechos humanos de la población rural cultivadora de plantaciones de uso ilícito y su rol en la apertura del debate sobre el cambio de paradigma de la política de control de drogas, así como el análisis de las principales implicaciones que trae el enfoque de derecho humanos, como parámetros transversales de guía y control en las estrategias de reducción del cultivo, y su aplicación en el Programa Nacional de Sustitución de Cultivos de Uso Ilícito, creado a partir del Acuerdo de Paz entre el Gobierno Nacional de Colombia y las FARC-EP.

*Knowledge of the Pragmatici* ,2020-03-31 Knowledge of the pragmatici sheds new light on pragmatic normative literature (mainly from the religious sphere), a genre crucial for the formation of normative orders in early modern Ibero-America. Long underrated by legal historical scholarship, these media – manuals for confessors, catechisms, and moral theological literature – selected and localised normative knowledge for the colonial worlds and

thus shaped the language of normativity. The eleven chapters of this book explore the circulation and the uses of pragmatic normative texts in the Iberian peninsula, in New Spain, Peru, New Granada and Brazil. The book reveals the functions and intellectual achievements of pragmatic literature, which condensed normative knowledge, drawing on medieval scholarly practices of 'epitomisation', and links the genre with early modern legal culture. Contributors are: Manuela Bragagnolo, Agustín Casagrande, Otto Danwerth, Thomas Duve, José Luis Egío, Renzo Honores, Gustavo César Machado Cabral, Pilar Mejía, Christoph H. F. Meyer, Osvaldo Moutin, and David Rex Galindo.

*Aggression and Violence* Brad J. Bushman, 2016-10-14 This book provides a broad and contemporary overview of aggression and violence by some of the most internationally renowned researchers in the field. It begins with an integrative theoretical understanding of aggression and shows how animal models shed light on human aggression and violence. Individual risk factors for aggression and violence from different research perspectives are then examined. First, there is a cognitive neuroscientific, neuropsychological, and psychophysiological study of the brain. It then explores the developmental psychological factors in aggressive behavior, incorporating work on gender and the family. Other perspectives include the role of testosterone, individual differences, and whether humans are innately wired for violence. The following sections moves from the individual to the contextual risk factors for aggression, including work on the effects of adverse events and ostracism, guns and other aggressive cues including violent media, and drugs and alcohol. Targets of aggression and violence are covered in the next section, including violence against women and loved ones; aggression between social groups; and the two very contemporary issues of cyberbullying and terrorism. The book concludes with work showing how we may make the world a more peaceful place by preventing and reducing aggression and violence. The volume is essential reading for upper-level students and researchers of psychology and related disciplines interested in a rigorous and multi-perspective overview of work on aggression and violence.

*Skin in Psychoanalysis* Jorge Ulnik, 2018-02-10 Skin in Psychoanalysis is an important theoretical contribution, revising several authors starting with Freud in whose writing we can now discover multiple direct or indirect references to the skin. It adopts a decidedly complex point of view regarding the skin here: the skin as source, the skin as object, the skin as protection and as a way of entrance, as contact and as contagion, the skin 'for two' within the relationship with the mother, the skin as envelope and as support, as a shell presented as 'second skin', as demarcation of individuality, as a place of inscription of non-verbal memories, toxic envelopes and so on. Also, being the result of more than fifteen years of work with dermatologists and

patients with skin diseases, psoriasis in particular, the book can be seen as a serious proposal for interdisciplinary work between dermatologists and psychoanalysts.'The hospital is a place where both tragedies and miracles occur, where many people go to heal but many others go in search for punishment.

**Leading through Conflict** Dejun Tony Kong, Donelson R. Forsyth, 2016-04-08 Effective leadership requires many skills, but foremost among them is the capacity to successfully deal with conflict. Any disruption that creates a lack of alignment can trigger the conflict cycle, such as differences of opinion, competition for scarce resources and interpersonal enmity. Leading through Conflict brings together recent theory and research on interpersonal conflict and its resolution by examining the causes and consequence of conflict in groups, organizations and communities, and identifying ways that conflict can be managed and resolved. It analyzes conflict in a multi-disciplinary way, from clashes within communities to interpersonal and professional encounters. Written in an accessible way by top scholars in the field, Leading through Conflict is a must-read for academics, graduate students, undergraduates and MBA students across leadership, organizational behavior, psychology and sociology.

**Ecosystem Services in Patagonia** Pablo L. Peri, Guillermo Martínez Pastur, Laura Nahuelhual, 2022-04-30 This book aims to quantify and discuss how societies have directly and indirectly benefited from ecosystem services in Patagonia; not only in terms of provisioning and cultural services, but also regulating and supporting services. Patagonia, a region that stretches across two countries (ca. 10% in Chile and 90% in Argentina), is home to some of the most extensive wilderness areas on our planet. Natural grasslands comprise almost 30% of the Americas, including the Patagonian steppe, while Patagonian southern temperate forests are important for carbon sequestration and storage, play a pivotal role in water regulation, and have become widely recognized for their ecotourism value. However, profound changes are now underway that could affect key ecosystem functions and ultimately human well-being. In this context, one major challenge we face in Patagonia is that ecosystem services are often ignored in economic markets, government policies and land management practices. The book explores the synergies and trade-offs between conservation and economic development as natural landscapes and seascapes continue to degrade in Patagonia. Historically, economic markets have largely focused on the provisioning services (forest products, livestock) while neglecting the interdependent roles of regulating services (erosion and climate control), supporting services (nutrient cycling) and cultural services (recreation, local identity, tourism). Therefore, the present work focuses on ecosystem functions and ecosystem

services, as well as on trends in biodiversity and the interactions between natural environments and land-use activities throughout Patagonia.
