

Aleksey Lukyanov.htm

Rajen Harshé,Dhananjay Tripathi

The Eastern Question Daniel Sheldon Hamilton, Stefan Meister, 2016 The future of Europe's east is open. Can the societies of this vast region become more democratic and secure and integrate into the European mainstream? Or are they destined to become failed, fractured lands of grey mired in the stagnation and turbulence historically characteristic of Europe's borderlands? How and why is Russia seeking to influence these developments, and what is the future of Russia itself? How should the West engage?

Russian Foreign Policy Nikolas K. Gvosdev, Christopher Marsh, 2013-08-22 In a truly contemporary analysis of Moscow's relations with its neighbors and other strategic international actors, Nikolas K. Gvosdev and Christopher Marsh use a comprehensive vectors approach, dividing the world into eight geographic zones. Each vector chapter looks at the dynamics of key bilateral relationships while highlighting major topical issues—oil and energy, defense policy, economic policy, the role of international institutions, and the impact of major interest groups or influencers—demonstrating that Russia formulates multiple, sometimes contrasting, foreign policies. Providing rich historical context as well as exposure to the scholarly literature, *Russian Foreign Policy: Interests, Vectors, and Sectors* offers an incisive look at how and why Russia partners with some states while it counter-balances others.

Military Review, 2002

Black Wind, White Snow Charles Clover, 2016-04-26 Charles Clover, award-winning journalist and former Moscow bureau chief for the Financial Times, here analyses the idea of Eurasianism, a theory of Russian national identity based on ethnicity and geography. Clover traces Eurasianism's origins in the writings of White Russian exiles in 1920s Europe, through Siberia's Gulag archipelago in the 1950s, the dissolution of the Soviet Union in the early 1990s, and up to its steady infiltration of the governing elite around Vladimir Putin. This eye-opening analysis pieces together the evidence for Eurasianism's place at the heart of Kremlin thinking today and explores its impact on recent events, the annexation of Crimea, the rise in Russia of anti-Western paranoia and imperialist rhetoric, as well as Putin's sometimes perplexing political actions and ambitions. Based on extensive research and dozens of interviews with Putin's close advisers, this quietly explosive story will be essential reading for anyone concerned with Russia's past century, and its future.

RUSSIA AND THE EUROPEAN UNION: THE SOURCES AND LIMITS OF "SPECIAL RELATIONSHIPS". Cynthia A. Roberts, 2022

The Turning Point for Russian Foreign Policy Keir Giles, 2017-05-28 This Letort Paper analyzes the drivers of assertive military action by Russia, as exemplified by interventions in Ukraine and Syria. It identifies key turning points in Russia's perception of external threat, and the roots of Russian responses to this threat making use of a capacity for military, political, and diplomatic leverage that has been greatly enhanced in the current decade. Color revolutions, the Arab Spring, and Western intervention in Libya are all highlighted as key influencers leading to a Russian assessment that the developments in Ukraine and Syria presented direct security challenges to Russia, which needed to be addressed through direct action. This Letort Paper concludes with a range of policy recommendations intended to mitigate the risk of confrontation with Russia through an imperfect understanding of Russian security perspectives.

Russia's Road to Corruption United States. Congress. House. Speaker's Advisory Group on Russia, 2000

Russia in Decline S. Enders Wimbush, Elizabeth M. Portale, 2017-03 Russia is in precipitous decline, which is unlikely to be reversed. This conclusion, based on the research of Russian and American experts, constitutes the bottom line of The Jamestown Foundation's project, *Russia in Decline*. Moreover, the tempo of Russia's decay is accelerating across virtually every fragment of its politics, economy, society and military, which renders Russia a poor candidate to survive globalization, let alone claim the mantle of a Great Power. This small volume details why Russia's spiraling into decline and disarray should keep strategists awake at night. It should also alert foreign policy, security and military planners, for whom Russia's decline will necessarily become the leitmotif of informed

planning.

Putin's Syrian Gambit :. John W. Parker,2017

Afghanistan Post-2014 Rajen Harshé,Dhananjay Tripathi,2015-11-19 Owing to its geo-strategic location and mineral wealth, Afghanistan has acquired significance in the inter-state politics of Asia as well as world politics during the past decades. This book outlines Afghanistan's efforts to build a stable and peaceful democratic polity, with external military support from the United States and its NATO allies. It also analyses the nation's development initiatives with major powers such as India, the United States, Russia and Germany. The volume: • brings to the fore ongoing tensions within the Afghan polity and its continued impact on Asian/world politics; • discusses topical themes such as withdrawal of US troops and non-traditional security; and • presents perspectives from scholars and experts from around the world, including Afghans. This work will be useful to scholars and researchers in political science, international relations, sociology, area studies, and the interested general reader.

Between Russia and Iran John W. Parker,2019-01-08 Russian acquiescence to U.S. and Israeli strikes against Iranian-associated and other forces in Syria reinforces the conclusion that backing a dominant Iran is not one of President Vladimir Putin's priorities. However, while he will not forcefully oppose the United States and Israel constraining Tehran, Putin will resist pressure to break totally with Iran and with the proxies Iran bankrolls and trains to fight in Syria. In addition, Russia's leverage on Iranian military and political activities in Syria is limited. Moscow dilutes Iranian influence by working with other powers, including those most antithetical to Iran. To attain the conditions that will make possible the withdrawal of U.S. troops from Syria, the United States needs to maintain a properly resourced military presence on the ground and in Syrian airspace. Only if it does so will Russia regard the United States as the most important counterweight to Iran with which Moscow will want and will need to deal. Even after the April 13-14, 2018, U.S.-UK-French strikes on Syrian chemical weapons facilities, President Putin remained eager for talks with President Trump and addressed Syria at their summit in Helsinki. The Trump administration should therefore continue judiciously to engage Russia as the United States works toward the goals of assuring the defeat of the so-called Islamic State (IS), constraining Iran's malign activities, bolstering Israel's security, and deterring Syrian government use of chemical weapons, without conceding anything in advance on Asad's future or Iran's place in the region.

Russia's New Authoritarianism Lewis David G. Lewis,2020-03-27 David G. Lewis explores Russia's political system under Putin by unpacking the ideological paradigm that underpins it. He investigates the Russian understanding of key concepts such as sovereignty, democracy and political community. Through the dissection of a series of case studies - including Russia's legal system, the annexation of Crimea, and Russian policy in Syria - Lewis explains why these ideas matter in Russian domestic and foreign policy.

Russian Politics and Society Richard Sakwa,2002-09-11 First published in 2002. Routledge is an imprint of Taylor & Francis, an informa company.

Gazprom A. Vavilov,David Nicholls,2016-04-30 This detailed case study of Gazprom explores motivation behind the company's foreign policies, it's strategies and tactics. It examines the challenges Gazprom faces in the European market and emphasizes the role of politics in Russia's gas trade.

Multipolarity Peter W. Schulze,2018-08-16 Wir leben in einer Übergangszeit: Die unipolare Weltordnung unter hegemonialer Durchsetzungskraft der USA weicht einer multipolaren Ordnung. Diese neue Ordnung verfügt weder über einen umfassenden gesellschaftspolitischen Konsens noch basiert sie auf gefestigten Institutionen. Sie ist weitestgehend durch partikuläre Interessen bestimmt. Deshalb müssen wir annehmen, dass sie kaum in der Lage sein wird, territoriale Sicherheit und friedliche Entwicklungsmöglichkeiten zu gewährleisten. In diesem Prozess scheint die Europäische Union, aber - mit Einschränkungen - auch Russland, zwischen China und die USA zu geraten.

Laying the BRICS of a New Global Order Kornegay, Francis A.,Bohler-Muller, Narnia,2013-10-20 The contributions in this compilation on the emergence of a new global order through BRICS serve to illustrate the complexities inherent in the creation of such a coalition -

alternatively referred to as a 'grouping', 'association' or 'forum' - with each country differently situated geo-politically as well as ideologically and culturally, and in some instances even in conflict with one another in matters of regional peace and security. The fact that there are important commonalities of converging interests, amongst others, the status of emerging economic powers and the furtherance of South-South cooperation as well as reforming global governance, cannot and should not hide complexities and contradictions. These are clearly apparent both within and between the BRICS countries. These diversities are also clear from the varied perspectives of the chapter authors in this compilation, which is why we have assembled this collection relatively loosely as a means of expressing our intellectual and analytic convergences and divergences within and across BRICS. Each chapter contributor writes from a different discipline, country and regional perspective, and it is this diversity that enriches the debate and conversation. As such, there remains enormous room for debate on the subject matter of this book and the diverse contributions open up the parameters of the debate even further. The aim is to ensure that scholars, commentators and practitioners continue to engage critically with theory and practice related to global multilateralism, and BRICS in particular.

The new politics of Russia Andrew Monaghan, 2024-03-19 This illuminating book explains how and why Russia's relations with the west have deteriorated to the point of initiating a new era of 'great power competition'. An updated version of the bestselling 2016 edition, it explores the decline in relations since the early 2000s, taking in the war in Syria and the 2022 escalation in Russia's invasion of Ukraine. Beyond geopolitical considerations, the book delves into the nature of power in Russia itself, providing an in-depth examination of the networks of influence that define the country's political landscape. In doing so it moves beyond the simplistic, Putin-centric narratives often found in western accounts, offering readers a fresh perspective on Russian politics. Understanding Russia is crucial for western leaders seeking to establish stable and constructive relations in the future. The new politics of Russia serves as a key resource, challenging conventional wisdom and unpicking the complex dynamics at play in the relationship between Russia and the west.

A Difficult Neighbourhood John Besemeres, 2016-10-14 Through a series of essays on key events in recent years in Russia, the western ex-republics of the USSR and the countries of the one-time Warsaw Pact, John Besemeres seeks to illuminate the domestic politics of the most important states, as well as Moscow's relations with all of them. At the outset, he takes some backward glances at the violent suppression of national life in the 'bloodlands' of Europe during World War II by the Stalinist and Nazi regimes, which helps to explain much about the region's dynamics since. His concern throughout is that a large area of Europe with a combined population well in excess of Russia's could again be consigned by the West to Moscow's care, not this time by more and less malign forms of collusion, but by distracted negligence or incomprehension. 'This is a wonderful collection of essays from a leading Eastern Europe specialist. John Besemeres brings a lifetime of experience, profound insights, and an incisive style to subjects ranging from wartime and post-war Poland through contemporary Ukraine to Putin's Russia. At a time when doublespeak has become the new normal, his refreshing honesty has never been in greater need.' — Bobo Lo This publication was awarded a Centre for European Studies Publication Prize in 2015. The prize covers the cost of professional copyediting.

Russia and its Near Neighbours M. Freire, R. Kanet, 2012-05-15 Russia has recently re-emerged as the dominant political, economic and military actor in former Soviet nations. Kanet and Freire bring together a stellar cast of contributors to consider Russia's recent return as a major regional and international actor and its likely future policy toward its neighbours.

Tactical Nuclear Weapons and NATO Douglas T. Stuart, 2012 is understudied, both inside and outside of government. Tactical weapons, although less awesome than their strategic siblings, carry significant security and political risks, and they have not received the attention that is commensurate to their importance. Second, it is clear that whatever the future of these arms, the status quo is unacceptable. It is past the time for NATO to make more resolute decisions, find a coherent strategy, and formulate more definite plans about its nuclear status. Consequently, decisions about the role of

nuclear weapons within the Alliance and the associated supporting analysis are fundamental to the future identity of NATO. At the Lisbon Summit in Portugal in November 2010, the Alliance agreed to conduct the Deterrence and Defense Posture Review (DDPR). This effort is designed to answer these difficult questions prior to the upcoming NATO Summit in May 2012.

Thank you definitely much for downloading **Aleksey Lukyanov.htm**. Most likely you have knowledge that, people have seen numerous periods for their favorite books like this Aleksey Lukyanov.htm, but stop going on in harmful downloads.

Rather than enjoying a good PDF considering a cup of coffee in the afternoon, on the other hand they juggled like some harmful virus inside their computer. **Aleksey Lukyanov.htm** is manageable in our digital library; an online admission to it is set as public appropriately you can download it instantly. Our digital library saves in combined countries, allowing you to get the most less latency era to download any of our books later than this one. Merely said, the Aleksey Lukyanov.htm is universally compatible in the same way as any devices to read.
