Segurança Pública nas Fronteiras Evandro Nabi Bezerra de Alcântara, Danilo Bezerra Alcântara, 2021-01-21 0 presente estudo tem como objetivo analisar a questão da segurança pública na fronteira a partir de uma análise nacional, bem como local, com recorte na fronteira do Brasil com a Bolívia, na região de Corumbá/Ladário - MS e Puerto Suarez/Puerto Quijarro na Bolívia. Diante de tal realidade, voltou-se a pesquisa em termos metodológicos para o desenvolvido com base em pesquisas bibliográficas, análise de diversos documentos oficiais e legislações. A pesquisa aborda a criminalidade e complexidade na fronteira sob o enfoque dos três arcos fronteiriços, arco norte, central e sul; Crimes fronteiriços Brasil/ Bolívia; e Atuação dos órgãos de segurança pública em fronteira. Fora possível verificar que é real em nossas fronteiras a constante ausência de política públicas eficazes voltadas segurança das fronteiras. Nesta realidade, a criminalidade acaba por aproveitar de tal fragilidade na área fronteiriça, e acabam por ingressar em território nacional com armas, drogas e todo tipo de ilícitos, trazendo consigo o agravamento do crime e consequente aumento da violência nos centros urbanos. Fica evidente que não se tem realmente uma presença efetiva por parte dos órgãos de segurança pública que ali atuam, principalmente por não contarem com meios necessários para possibilitar a segurança pública nas fronteiras. Diante disto, a presença do Exército na fronteira brasileira é permanente, como fator de defesa da soberania nacional, recebendo com base em legislação complementar o poder de polícia, podendo assim atuar com atribuições policiais na fronteira no combate aos crimes transfronteiriços.

Financing for Gender Equality Zohra Khan,Nalini Burn,2017-03-06 This collection of essays addresses the glaring gap between policy commitments and actual investments in gender equality, ranging across sectors and focusing on development aid, peace-building and climate funds. Casting a spotlight on the application of gender-responsive budgeting in public budgetary policies, systems and processes, the contributions to this volume explore the chequered trajectories of these efforts in Africa, the Asia-Pacific, Latin America and Andalucía. Critiquing systems of finance, from adherence to neo-liberal macroeconomic fundamentals which prioritise fiscal austerity, the book makes a compelling case for reframing and re-prioritizing budgets to comply with human rights standards, with a particular view to realizing women's rights. The authors highlight the paltry funding for women's rights organizations and movements and examine the prospects for making financing gender responsive. The specific policy, strategy and technical recommendations and the connections across silos which articulate the authors' suggested operational levers will appeal to researchers, practitioners, students, policymakers, gender equality and human rights activists alike.

<u>Fanon's Dialectic of Experience</u> Ato Sekyi-Otu,2009-06-30 With the flowering of postcolonialism, we return to Frantz Fanon, a leading theorist of the struggle against colonialism. In this thorough reinterpretation of Fanon's

texts, Ato Sekyi-Otu ensures that we return to him fully aware of the unsuspected formal complexity and substantive richness of his work. A Caribbean psychiatrist trained in France after World War II and an eloquent observer of the effects of French colonialism on its subjects from Algeria to Indochina, Fanon was a controversial figure--advocating national liberation and resistance to colonial power in his bestsellers, Black Skin, White Masks and The Wretched of the Earth. But the controversies attending his life--and death, which some ascribed to the CIA--are small in comparison to those surrounding his work. Where admirers and detractors alike have seen his ideas as an incoherent mixture of Existentialism, Marxism, and psychoanalysis, Sekyi-Otu restores order to Fanon's oeuvre by reading it as one dramatic dialectical narrative. Fanon's Dialectic of Experience invites us to see Fanon as a dramatist enacting a movement of experience--the drama of social agents in the colonial context and its aftermath--in a manner idiosyncratically patterned on the narrative structure of Hegel's Phenomenology of Spirit. By recognizing the centrality of experience to Fanon's work, Sekyi-Otu allows us to comprehend this much misunderstood figure within the tradition of political philosophy from Aristotle to Arendt. Reviews of this book: The goal of this often brilliant and always engaging book is to 'read Fanon's texts as though they formed one dramatic dialectical narrative'; the principal subject of this dramatic narrative, according to Sekyi-Otu, is 'political experience'. It is his deployment of a dialectical analysis of Fanon's 'dramatic personae' that permits Sekyi-Otu's fresh and insightful readings to take place. DD--Anthony C. Alessandrini, Minnesota Review Ato Sekyi-Otu departs from the postmodernist paradigm and ushers in an alternative hermeneutic that primarily considers Fanon's texts as forming 'one dramatic dialectical narrative,' that is a narrative whose complexity is correlative of the intricate configurations of African social experience during the post-independent era...[His] book is an invaluable contribution that offers broader scope for a new appreciation of Fanon's political thinking. DD--Marc Mve Bekale, Revue AFRAM Review [UK] [I]mportant...The author succeeds in...revealing the complexity and nuanced character of Fanon's thought. DD--Choice Those who would dismiss or exult Fanon as the high priest of revolutionary violence will be chastened by this patient and completely convincing exposition of his work. Sekyi-Otu produces a reflexive, 'Gramscian' Fanon who, working as a 'detective of the politics of truth,' has produced insights that need to be taken over into the core of democratic political thought. DD--Paul Gilroy, University of London

Fundamentals of Turbomachinery William W. Peng,2007-12-21 A comprehensive introduction to turbomachines and their applications With up-to-date coverage of all types of turbomachinery for students and practitioners, Fundamentals of Turbomachinery covers machines from gas, steam, wind, and hydraulic turbines to simple pumps, fans, blowers, and compressors used throughout industry. After reviewing the history of turbomachinery and the fluid mechanical principles involved in their design and operation, the book focuses on the application and selection of machines for various uses, teaching basic theory as well as how to select the right machine for a specific use. With a practical emphasis on engineering applications of turbomachines, this book discusses the full range of both turbines and pumping devices. For each type, the author explains: * Basic principles * Preliminary

design procedure * Ideal performance characteristics * Actual performance curves published by the manufacturers * Application and appropriate selection of the machine Throughout, worked sample problems illustrate the principles discussed and end-of-chapter problems, employing both SI and the English system of units, provide practice to help solidify the reader's grasp of the material.

The Moments We Stand Ashlee Birk, Kathy Campbell, 2014-07-30 My name is Ashlee. I am a victim of murder. Through a series of events and by two shots of a gun, I was made a widow at the age of 28, with my youngest child just six weeks old. I am a victim of infidelity. I have felt unlovable. I have felt rejected. I have had days in my life when I wasn't sure if I would ever take a breath again, let alone be able to raise my five children by myself. I have lived in fear. I have felt much heartache. I have felt truly broken to my core. I have carried some heavy burdens...not only of my own, but burdens put upon my shoulders by the death of my husband. I have felt alone. I have felt humiliated. I have been humbled to my knees. I have searched my soul to find my worth in this world, and in the life that was left for me. My world has been totally shattered. I have faced realities I never knew were possible, and found strength within myself to keep up the fight and live every day as if it was on purpose. I have been carried by Angels...both earthly beings and those unseen. I have found that being a victim doesn't mean we have an excuse to stop living. Being a victim means finding a reason for seeking a higher road. I have picked up the pieces left and carried on. I am a mother. We are survivors. In one way or another, we are all victims. There are times in our lives when we are forced to question who we are at our core. When we are presented with a path...we can go this way or we can choose that way. For some, this moment comes when the one person whom we love the most decides we are not enough. This person leave us-at a most vulnerable moment-alone to search within ourselves for who we really are. We are left trying to find who it is that was left behind. Sometimes the person we love dies. Sometimes it is merely an internal battle we are facing...all alone inside our minds. Whatever the situation and wherever you have been...you have been hurt. You have felt alone. You have been abandoned, either by your parents, your lover, your friends, complete strangers, or even yourself. We have all been at that crossroad where all we have left is ourselves. Sometimes these moments of lows have brought you to your knees and caused you to reflect and ponder your relationship with God...and other times they have made you question if He is even there, or if He knows you are alone. Whatever that moment has been for you, it is personal and real. It has defined and refined who you are, who you think you were, and who you want to become. This is my story...the defining moments that have truly brought me to my knees, the times when I've questioned to my core my very existence, and the experiences I've had that have shown me who I really am and who my Heavenly Father still needs me to become. The night of my husband's death was my darkest hour, but also the very moment when I saw firsthand that my Heavenly Father sent Angels on errands for me. He carried me. It was the hour when all my fears and all the pain of this world collided together and He was there...putting back together all the pieces, one step at a time.

Theology and the Drama of History Ben Quash, 2005-08-11 How can theology think and talk about history? Building

on the work of the major twentieth-century theologian Hans Urs von Balthasar as well as entering into sharp critical debate with him, this book sets out to examine the value and the potential of a 'theodramatic' conception of history. By engaging in dialogue not only with theologians and philosophers like von Balthasar, Hegel and Barth, but with poets and dramatists such as the Greek tragedians, Shakespeare and Gerard Manley Hopkins, the book makes its theological principles open and indebted to literary forms, and seeks to show how such a theology might be applied to a world intrinsically and thoroughly historical. By contrast with theologies that stand back from the contingencies of history and so fight shy of the uncertainties and openness of Christian existence, this book's theology is committed to taking seriously the God who works in time.

Slavery Unseen Lamonte Aidoo, 2018-04-10 In Slavery Unseen, Lamonte Aidoo upends the narrative of Brazil as a racial democracy, showing how the myth of racial democracy elides the history of sexual violence, patriarchal terror, and exploitation of slaves. Drawing on sources ranging from inquisition trial documents to travel accounts and literature, Aidoo demonstrates how interracial and same-sex sexual violence operated as a key mechanism of the production and perpetuation of slavery as well as racial and gender inequality. The myth of racial democracy, Aidoo contends, does not stem from or reflect racial progress; rather, it is an antiblack apparatus that upholds and protects the heteronormative white patriarchy throughout Brazil's past and on into the present.

A Nation of Provincials Celia Applegate, 2023-11-10 At the center of this pioneering work in modern European history is the German word Heimat—the homeland, the local place. Translations barely penetrate the meaning of the word, which has provided the emotional and ideological common ground for a variety of associations and individuals devoted to the cause of local preservation. Celia Applegate examines at both the national and regional levels the cultural meaning of Heimat and why it may be pivotal to the troubled and very timely question of German identity. The ideas and activities clustered around Heimat shed new light particularly on problems of modernization. Instead of viewing the Germans as a dangerously anti-modern people, Applegate argues that they used the cultivation of Heimat to ground an abstract nationalism in their attachment to familiar places and to reconcile the modern industrial and urban world with the rural landscapes and customs they admired. Primarily a characteristic of the middle classes, love of Heimat constituted an alternative vision of German unity to the familiar aggressive, militaristic one. The Heimat vision of Germany emphasized cultural diversity and defined German identity by its internal members rather than its external enemies. Applegate asks that we re-examine the continuities of German history from the perspective of the local places that made up Germany, rather than from that of prominent intellectuals or national policymakers. The local patriotism of Heimat activists emerges as an element of German culture that persisted across the great divides of 1918, 1933, and 1945. She also suggests that this attachment to a particular place is a feature of Europeans in general and is deserving of further attention. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and

cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1990.

Adolescent Coping Erica Frydenberg,1997 Adolescence is a time when coping is very important, when many new experiences and responsabilities are thrust upon individuals. Young people need to cope in a variety of settings, including school, home, peer groups and the workplace, and with a range of life problems such as divorce and examinations. Frydenberg provides a clear account of current research and thinking on coping, illustrated by the voices of young people throughout the book. Adolescent Copingfocuses on how young people manage a range of life problems, and on the coping styles of particular groups, such as the gifted and those with illness. The author addresses the relationships between coping and age, gender and ethnicity, and between family functioning and coping. She also considers the measurements of coping, how we learn to cope, and such areas as social support and depression.

Marketing in the Public Sector Nancy R. Lee, Philip T. Kotler, 2006-10-16 Marketing in the Public Sector is a groundbreaking book written exclusively for governmental agencies. It offers dozens of marketing success stories from agencies of all types—from around the world—so that you can make a difference in your organization. World-renowned marketing expert Dr. Philip Kotler and social marketing consultant Nancy Lee show that marketing is far more than communications and has at its core a citizen-oriented mindset. You'll become familiar with the marketing toolbox and come to understand how these tools can be used to engender citizen support for your agency, increase utilization of your products and services, influence positive public behaviors—even increase revenues and decrease operating costs. This book offers no-nonsense roadmaps on how to create a strong brand identity, gather citizen input, and evaluate your efforts. It presents a step-by-step model for developing a marketing plan, pulling the lessons of the entire book together into one, high-impact action plan. Simply put, this book empowers you to build the "high-tech, high-touch" agency of the future—and deliver more value for every penny you spend.

Transformations Sarah Ahmed, Jane Kilby, Celia Lury, Maureen McNeil, Maureen Mcneil, Beverley Skeggs, 2005-07-19 With contributions from some of the most important current feminist thinkers, Transformations traces both the shifts in thinking that have allowed feminism to arrive at its present point, and the way that feminist agendas have progressed in line with wider social developments. A thorough reassessment of feminism's place in contemporary life, the authors engage in current debates as diverse as globalization, technoscience, embodiment and performativity, taking feminism in fresh directions, mapping new territory and suggesting alternative possibilities.

Thinking Through the Skin Sara Ahmed, Jackie Stacey, 2003-09-02 This exciting collection of work from leading feminist scholars including Elspeth Probyn, Penelope Deutscher and Chantal Nadeau engages with and extends the growing feminist literature on lived and imagined embodiment and argues for consideration of the skin as a site where bodies take form - already written upon but open to endless re-inscription. Individual chapters consider

such issues as the significance of piercing, tattooing and tanning, the assault of self harm upon the skin, the relation between body painting and the land among the indigenous people of Australia and the cultural economy of fur in Canada. Pierced, mutilated and marked, mortified and glorified, scarred by disease and stretched and enveloping the skin of another in pregnancy, skin is seen here as both a boundary and a point of connection - the place where one touches and is touched by others; both the most private of experiences and the most public marker of a raced, sexed and national history.

Decolonizing Law Sujith Xavier, Beverley Jacobs, Valarie Waboose, Jeffery G. Hewitt, Amar Bhatia, 2021-05-24 This book brings together Indigenous, Third World and Settler perspectives on the theory and practice of decolonizing law. Colonialism, imperialism, and settler colonialism continue to affect the lives of racialized communities and Indigenous Peoples around the world. Law, in its many iterations, has played an active role in the dispossession and disenfranchisement of colonized peoples. Law and its various institutions are the means by which colonial, imperial, and settler colonial programs and policies continue to be reinforced and sustained. There are, however, recent and historical examples in which law has played a significant role in dismantling colonial and imperial structures set up during the process of colonization. This book combines usually distinct Indigenous, Third World and Settler perspectives in order to take up the effort of decolonizing law: both in practice and in the concern to distance and to liberate the foundational theories of legal knowledge and academic engagement from the manifestations of colonialism, imperialism and settler colonialism. Including work by scholars from the Global South and North, this book will be of interest to academics, students and others interested in the legacy of colonial and settler law, and its overcoming.

Transitional Justice and Reconciliation Martina Fischer,Olivera Simic,2015-11-06 Scholars and practitioners alike agree that somehow the past needs to be addressed in order to enable individuals and collectives to rebuild trust and relationships. However, they also continue to struggle with critical questions. When is the right moment to address the legacies of the past after violent conflict? How can societies address the past without deepening the pain that arises from memories related to the violence and crimes committed in war? How can cultures of remembrance be established that would include and acknowledges the victims of all sides involved in violent conflict? How can various actors deal constructively with different interpretations of facts and history? Two decades after the wars, societies in Bosnia, Serbia and Croatia — albeit to different degrees — are still facing the legacies of the wars of the 1990s on a daily basis. Reconciliation between and within these societies remains a formidable challenge, given that all three countries are still facing unresolved disputes either at a cross-border level or amongst parallel societies that persist at a local community level. This book engages scholars and practitioners from the regions of former Yugoslavia, as well as international experts, to reflect on the

achievements and obstacles that characterise efforts to deal with the past. Drawing variously on empirical studies, theoretical discussions, and practical experience, their contributions offer invaluable insights into the complex relationship between transitional justice and conflict transformation.
