On Baptism Against the Donatists Saint Augustine of Hippo, Aeterna Press, 1872 This treatise was written about 400 A.D. Concerning it Aug. in *Retract.* Book II. c. xviii., says: I have written seven books on Baptism against the Donatists, who strive to defend themselves by the authority of the most blessed bishop and martyr Cyprian; in which I show that nothing is so effectual for the refutation of the Donatists, and for shutting their mouths directly from upholding their schism against the Catholic Church, as the letters and act of Cyprian. The Seed of the Woman and the Power of Darkness Donbor Syiemlieh, There are so many questions in our life that we could not get the satisfactory answers – Why do fossils occurred; why are human beings superior to other creatures; why do human beings speak different languages; what is the origin of idol worship; how giants existed in this world in the ancient times; who built huge structures like the Egyptian's pyramids; how did people go and live in secluded islands in the midst of vast oceans since ancient times; why didn't people invent modern machines and equipments since ancient times when human beings have no different brain structures; why did powerful empires - Egyptian, Babylonian, Persian, Grecian, Roman sequentially exist in this earth; why are Christmas traditions celebrated fervently both in the Christian world and non-Christian world. When God saved me, He gradually revealed the answers to the above questions directly and indirectly. He then inspired me to write down the answers in the form of a Book which reflected God's love story to save fallen human beings. In doing this, the war broke out between God and the power of darkness (Satan) who tried to prevent the Seed of the Woman (Jesus) from being born into this earth. In short, Satan tried to enslave human beings and keep the world under his control forever. But God's plan is superior to Satan's deceptive devices. God's plan to bring back saved human beings to a perfect life as in the days of the Garden of Eden would soon be manifested any time now

Pensées Blaise Pascal, 1995-12 Blaise Pascal, the precociously brilliant contemporary of Descartes, was a gifted mathematician and physicist, but it is his unfinished apologia for the Christian religion upon which his reputation now rests. The *Pensées* is a collection of philosophical fragments, notes and essays in which Pascal explores the contradictions of human nature in psychological, social, metaphysical and - above all - theological terms. Mankind emerges from Pascal's analysis as a wretched and desolate creature within an impersonal universe, but who can be transformed through faith in God's grace. Spirit of Liberality George Newlands, 2017-03-31 Written between 2005 and 2014, George Newlands's essays span a wide array of subjects, from Christology and the doctrine of God to human rights and Christian spirituality. Coming from within the liberal tradition of theology, these essays were written and delivered in a variety of contexts, from colleges to churches, on both sides of the Atlantic. In *Spirit of Liberality*, Newlands displays his own brand of theology, marked by its kindness and erudition, in his approach to the vastness of human experience.

Ulysses James Joyce, 2016-08-30 *Ulysses* chronicles the peripatetic appointments and encounters of Leopold Bloom in Dublin in the course of an ordinary day, 16 June 1904. *Ulysses* is the Latinised name of Odysseus, the hero of Homer's epic poem *Odyssey*, and the novel establishes a series of parallels between the poem and the novel, with structural correspondences between the characters and experiences of Leopold Bloom and Odysseus, Molly Bloom and Penelope, and Stephen Dedalus and Telemachus, in addition to events and themes of the early twentieth century context of modernism, Dublin, and Ireland's relationship to Britain. The novel imitates registers of centuries of English literature and is highly allusive. *Ulysses'* stream-of-consciousness technique, careful structuring, and experimental prose – full of puns, parodies, and allusions – as well as its rich characterisation and broad humour, made the book a highly regarded novel in the modernist pantheon. Joyce fans worldwide now celebrate 16 June as Bloomsday.

Dynamics of Faith Paul Tillich, 2001-10-16 One of the greatest books ever written on the subject, *Dynamics of Faith* is a primer in the philosophy of religion. Paul Tillich, a leading theologian of the twentieth century, explores the idea of faith in all its dimensions, while defining the concept in the process. This graceful and accessible volume contains a new introduction by Marion Pauck, Tillich's biographer.

9 and 11 Kim H. Veltman, 2015-02-23 This is an unlikely story of true events. The Day that changed the World in the United States (bombing of the Twin Towers), the Day of Fate in Germany and the Day of Destiny in Israel are all connected with the 11th day of the 9th month. These 9/11 dates entail much more than three events in three countries. In the Hebrew tradition, they include all the calamities that have befallen the Jews from the time of the Destruction of the First Temple and Second Temple, the Expulsion of the Jews from England, France, Spain through to the Holocaust in World War II. These events are, in turn, part of a larger history, which linked the same date with cosmic events such as a day of Cosmic Battle and the Birth of Venus and gave special significance to the numbers 9 and 11. Part one explores this tradition and surveys a range of sources from a former German officer involved in the plot against Hitler, to various conspiracy theories. These events are also related to swastikas and hexagrams. Since World War II there has been a trend to associate swastikas with an evil, German Aryan tradition and hexagrams (e.g. six-

pointed Star of David) with a good, Jewish Semitic tradition. Historically, a Jewish connection with the Star of David is late Mediaeval rather than Biblical. Swastikas and hexagrams are found in both the Aryan and the Semitic tradition. Hence, the new trend distorts a complex history. More disturbingly, in the guise of tolerance and political correctness, one version of stories is highlighted, others are being suppressed and truth is endangered.

Dogmatic Constitution on Divine Revelation Pope Paul VI.,1965 This document's purpose is to spell out the Church's understanding of the nature of revelation--the process whereby God communicates with human beings. It touches upon questions about Scripture, tradition, and the teaching authority of the Church. The major concern of the document is to proclaim a Catholic understanding of the Bible as the word of God. Key elements include: Trinitarian structure, roles of apostles and bishops, and biblical reading in a historical context.

Spiritual Digest for Each Day of the Year Adebayo Afolaranmi,2012-11-04 A collection of 366 quotes for each day of the year with corresponding Bible verses, hymns and suggested weblinks for the hymns as used in various aspects of the Internet ministry of Pastor Bayo Afolaranmi. There is an index each for the themes, authors, hymns and Bible verses used at the end of the collection.

Historical and Philosophical Foundations of European Legal Culture Dawid Bunikowski,2017-01-06 This ambitious book examines the historical, theoretical, and axiological foundations of European legal culture, and explores their practical impacts on current European law and legal ways of thinking in Europe. Including considerations about the history of law as well contemporary legal issues, the book consists of seven chapters authored by scholars from across the globe, from Italy to Taiwan. This volume shows that it is possible to speak of one European legal culture in terms of various countries' common legal origins (Roman law, Greek philosophy, and medieval jurisprudence as the *ius commune*), while also discussing distinct national legal cultures and traditions in Europe. However, to understand the present day law and legal profession, it is necessary to go back to the values, theories, and thinkers which were influential in the progress of European law from ancient times to the 19th century. The book not only presents the theoretical and historical issues of European legal culture, but also acquaints the audience with the true axiological foundations of our contemporary legal institutions, and the methods of legal thinking in Europe. It is clear that many of our current legal concepts and institutions come from theorists such as Aristotle, Ulpian, Aquinas, Hobbes and Savigny. The book will be of particular interest to scholars and students of legal history, jurisprudence, and European law, especially in the context of the origins of European legal culture. Moreover, it will also appeal to all lawyers working in both the common law and the civil law traditions wishing to gain a greater understanding of European legal heritage.

Challenges of the Muslim World William W. Cooper,Piyu Yue,2008-02-15 This book provides a data-based approach to present and future developments in the Muslim world. It focuses on the economics of the Muslim world, including hot topics such as terrorism and oil-prices and also suggests an approach that deals with the high illiteracy rates and inadequate education facilities in many Muslim countries.

Born of Water and the Spirit John Williamson Nevin,Philip Schaff,Emanuel Gerhart,2016-03-29 Born of Water and the Spirit presents essays on the sacraments by the three major representatives of Mercersburg Theology, John Nevin, Philip Schaff, and Emanuel Gerhart. It focuses on Mercersburg's doctrine of baptism and Christian nurture, attempts to correct putative deficiencies of the major Reformed trajectories (e.g., New England and Princeton), and vigorously critiques the anti-sacramental animus of revivalistic evangelicalism. Mercersburg understood baptism as initiating a person (adult or infant) into the sacramental life of the church. Baptism and Eucharist were objective, spiritually real actions that made (what Nevin called) the mystical presence of Jesus Christ present to Christians, bringing transformative power into their lives. The present critical edition carefully preserves the original texts, while providing extensive introductions, annotations, and bibliography to orient the modern reader and facilitate further scholarship. The Mercersburg Theology Study Series is an attempt to make available for the first time, in attractive, readable, and scholarly modern editions, the key writings of the nineteenth-century movement known as the Mercersburg Theology. An ambitious multiyear project, it aims to make an important contribution to the scholarly community and to the broader reading public, who can at last be properly introduced to this unique blend of American and European, Reformed and Catholic theology.

Prophetic Women of Bold Love Shawn Madigan, PhD, CSJ,2010-03-15 This book introduces women from various parts of the world who have experienced violence in some form and used that experience to actively foster peace. Some of the women may be better known than others, for they are Nobel Peace Laureates. Yet each woman is equally prophetic in the bold love that creates a better world. The women represent a variety of countries and religious traditions. Yet there is a unity in the underlying spirituality of non violence that grounds each prophetic life and the loving work for human dignity, reconciliation and peace. The women are models for living in ways that transform the world.

Political Secularism, Religion, and the State Jonathan Fox,2015-04-27 This book examines how the competition between religious and secular forces influenced state religion policy between 1990 and 2008. While both sides were active, the religious side had considerably more success. The book examines how states supported religion as well as how they restricted it.
