*Conversations with Dorothy Allison* Dorothy Allison, 2012-05-09 Since the publication of her groundbreaking novel, *Bastard Out of Carolina* (1992), Dorothy Allison (b. 1949) has been known--as with Larry Brown and Lee Smith--as a purveyor of the gritty contemporary South that, in many ways, is worlds away from prevailing Southern Gothic representations of the region. Allison has frequently used her position, through passionate lectures and enthusiastic interviews, to give voice to issues dear to her: poverty, working-class life, domestic violence, feminism and women's relationships, the contemporary South, and gay/lesbian life. Often called a writer-rock star and a cult icon, Allison is a true performer of the written word. At the same time, Allison also takes the craft of writing very seriously. In this collection, spanning almost two decades, Allison the performer and Allison the careful craftsperson both emerge, creating a portrait of a complex woman. The interviews detail Allison's working-class background in Greenville, South Carolina, as the daughter of a waitress. Allison discusses--with candor and quick wit--her upbringing, her work in a variety of modes (novels, short stories, essays, poetry), and her active participation in the women's movement of the 1970s. In the absence of a biography of Allison's life, *Conversations with Dorothy Allison* presents Allison's perspectives on her life, literature, and her confessions over her role as a public figure. Linking her work with African American writers such as Zora Neale Hurston and Toni Morrison, Allison pioneered the genre of working-class literature, writing a world that is often overlooked and understudied.

**A Convenient Villain** Jonathan D. Reich MD M Sc, 2024-01-09 This book re-evaluates the life and legacy of one of the most enigmatic and important political figures of the 20th Century: Charles Lindbergh. Much of Lindbergh's contribution to American preparatory air power prior to World War II and medicine of the 1930s is unknown. Using his aerospace engineering background, Dr. Reich combed through various archives to document these achievements. He also reviewed Lindbergh's record opposing American entry into another European War to provide a new Jewish generational perspective on his advocacy and his conflict with American Jews.

American Dreams Ricardo Miguez, 2009-03-26 The scholars included in this collection sought to indicate more contemporary working definitions for the expression American Dream, or rather Dreams. The multidisciplinary selections come from many countries and represent scholars from different backgrounds. They reflect the current developments and approaches in the field of US Studies and we hope to help broaden the scope of programs in higher education institutions. The chapters are thematically organized in two sections: "Initial Dialogues" and "Comparative Dialogues." The first one comprises essays that set the foundations for our discussions and intends to familiarize newcomers with the theme. The second section extends the possibilities of working comparatively with the American Dreams and a number of other interdisciplinary fields of interest for US Studies programs.

**Encyclopedia of the Lewis and Clark Expedition** Elin Woodger, Brandon Toropov, 2014-05-14 Provides facts and information about the travels of Meriwether Lewis and William Clark and their Corps of Discovery and its importance in relation to Native Americans and the westward expansion in the United States.

**Intellectual Property and Information Wealth [4 volumes]** Peter K. Yu, 2006-12-30 Until recently, issues of intellectual property were relegated to the experts--attorneys, legal scholars, rightsholders, and technology developers who wrangled over interpretations and enforcement of copyright, patent, and trademark protections. But in today's knowledge-based economy, intellectual property protection has taken on fundamentally new proportions, as a subject of urgency for businesses (whose survival depends on protection of their intangible assets) and as a subject of cultural importance that grabs front-page headlines (as the controversy over Napster and high-profile

revelations of plagiarism, for example, have illustrated). This landmark set of essays brings new clarity to the issues, as societies around the world grapple with the intricacies and complexities of intellectual property, and its impact on business, law, policy, and culture. Featuring insights from leading scholars and practitioners, Intellectual Property and Information Wealth provides rigorous analysis, historical context, and emerging practical applications from the public, private, and non-profit sectors. Volume 1 focuses on protections to novels, films, sound recordings, computer programs, and other creative products, and covers such issues as authorship, duration of copyright, fair use of copyrighted materials, and the implications of the Internet and peer-to-peer file sharing. Volume 2 explains the fundamental protections to inventors of devices, mechanical processes, chemical compounds, and other inventions, and examines such issues as the scope and limits of patent protection, research exemptions and infringement, IP in the software and biotech industries, and trade secrets. Volume 3 looks at the protections to distinctive symbols and signs, including brand names and unique product designs, and features chapters on consumer protection, trademark and the first amendment, brand licensing, publicity and cultural images, and domain names. Volume 4 takes the discussion to the global level, addressing a wide range of issues, including not only enforcement of IP protections across borders, but also their implications for international trade and investment, economic development, human rights, and public health.

**Together as One** Jeremy P. Amick, 2021-03-23 James Shipley came of age in the once segregated, rural community of Tipton, Missouri. When just a young man working for a local mechanic, a chance meeting at his local post office in the early 1940s inspired his enlistment in the 301st Fighter Squadron of the 332nd Fighter Group—an all-black organization that would go on to earn the famed moniker of both “Redtails” and “Tuskegee Airmen” during the Second World War. As a mechanic with the 332nd, this book highlights Shipley’s time in training in the United States, follows him through his service at airfields in Italy and his return home after the end of the war. Previous works on the Tuskegee Airmen have often focused on the experience of the pilots and officers who served in the 332nd, but rarely provides insight into the integral contributions of the enlisted mechanics such as Shipley. Together as One shares of the story of Shipley and the unspoken heroes, recording their dedication to the aviation success of the Tuskegee Airmen even when they had to live and work within a military framework that once denied them some of the very freedoms for which they fought.

Who Owns America's Past? Robert C. Post, 2013-10-15 From an insider's perspective, Robert C. Post ... offers insight into the politics of display and the interpretation of history. Never before has a book about the Smithsonian detailed the recent and dramatic shift from collection-driven shows, with artifacts meant to speak for themselves, to concept-driven exhibitions, in which objects aim to tell a story, displayed like illustrations in a book--Dust jacket flap.

**Criminalising Cartels** Caron Beaton-Wells, Ariel Ezrachi, 2011-02-10 This book is inspired by the international movement towards the criminalisation of cartel conduct over the last decade. Led by US enforcers, criminalisation has been supported by a growing number of regulators and governments. It derives its support from the simple yet forceful proposition that criminal sanctions, particularly jail time, are the most effective deterrent to such

activity. However, criminalisation is much more complex than that basic proposition suggests. There is complexity both in terms of the various forces that are driving and shaping the movement (economic, political and social) and in the effects on the various actors involved in it (government, enforcement agencies, the business community, judiciary, legal profession and general public). Featuring contributions from authors who have been at the forefront of the debate around the world, this substantial 19-chapter volume captures the richness of the criminalisation phenomenon and considers its implications for building an effective criminal cartel regime, particularly outside of the US. It adopts a range of approaches, including general theoretical perspectives (from criminal theory, economics, political science, regulation and criminology) and case-studies of the experience with the design and enforcement of existing or contemplated criminal cartel regimes in various jurisdictions (including in Australia, Canada, EU, Germany, Ireland and the UK). The book also explores the international dimensions of criminalisation - its specific practical consequences (such as increased potential for extradition) as well as its more general implications for trends of harmonisation or convergence in competition law and enforcement.

**Conformity and Resistance in America** Jacek Gutorow, Tomasz Lebiecki, 2007 Conformity and Resistance in America, a collection of thirty six essays from various fields of the U.S. studies, addresses the American culture as a space of fruitful tensions between the generally acknowledged canons and the projects that have questioned and subverted its very foundations and archives. The book seeks to give justice to those areas of American culture that traditionally used to be treated as marginal and negligible but which in fact have added up to its uniqueness. This includes various areas of American cultural and literary studies, gender and minority studies, themes of diasporic communities, multi-ethnic and multicultural society, problems of global economy and of competing worldwide ideologies. The papers included in this book try to answer pressing questions of the American identity in the post-9/11 world, and do so by pointing to the recent â oehumanities crisisâ as well as revealing moments of heterogeneity and discontinuity in the making of any culture. Contrary to Samuel Huntingtonâ (TM)s dictum telling us of the inevitable â oeclash of civilizations, â the following essays concentrate on what Edward W. Said called â oehumanismâ (TM)s sphereâ â the sphere of antagonizing discourses and narratives which challenge rather than confirm the bases of their legitimacy. Wavering between conformity and resistance, the essays propose possible formulas for the new American identity as it strives to define and project itself into the new century.

*Chinas African Peacekeeping Decision-making in the Hu Jintao Era* Fanie Herman, 2015-11-01 China's role in international peacekeeping has greatly expanded during the leadership of Hu Jintao, and China has since become a significant contributor to peacekeeping operations (PKOs) in Africa. The importance of the book is expressed in the view that peacekeeping intervention is a tool that strengthens or fulfills policy goals in the United Nations Mission in Liberia (UNMIL), the UN Stabilization Mission in the Democratic Republic of the Congo (MONUSCO), and the UN Mission in Darfur (UNAMID). China has considerable interests at stake in Africa, in terms of promoting economic cooperation or gaining access to natural resources. In order to maintain these efforts, it is imperative that a secure and stable environment is created, not only to maintain diplomatic relations with its African partners, but also to express the harmonious worldview and peaceful development concepts, which rose to prominence under the presidency of Hu Jintao. The purpose of this book is therefore to examine the extent to which peacekeeping intervention contributes to China's relations with these countries. Two models are employed to shed light on this thesis. The rational actor model (RAM) developed by Graham Allison is used in the first instance to explain the goals for each country, the options considered to reach the goals, the consequences or outcomes of

choice that will ensure whether a particular option is chosen, and then selecting the option that has the consequences that rank the highest in the leadership's payoff function. However, the leadership in policy formulation does not always act in a unitary fashion and often needs the input of governmental actors to produce results in decision making. Therefore, the bureaucratic politics model (BPM) of Allison is used in the second instance to indicate the bargaining, influencing and compromising positions of the bureaucracy that has reinforced the rational decisions of the leadership. The main findings are that peacekeeping interventions serve as a mechanism to facilitate cooperation, is significant to China's goals in the mission countries, and influence and shape bargaining that occur between bureaucratic actors regarding peacekeeping.
