Socio-environmental Impacts of Sprawl on the Coastline Of Douala: Options for Integrated Coastal Management Suinyuy Derrick

Ngoran, 2014-04-01 This book addresses the socioeconomic and environmental implications of urban sprawl on the coastline of Douala-Cameroon by making use of qualitative and quantitative research methodology. The findings of the work portray that sprawl in Cameroon is orchestrated by inadequate policy implementation, archaic master plan, inadequate information dissemination to the public, inequality in the distribution of resources among the different regions of the State and above all, the gaps elucidated by the traditional form of management. The work upholds that livelihood strategies and environmental protection are intricately linked, and therefore, there is a need for ICM as the management approach blends the two adequately. Based on the experience drawn from Xiamen ICM, the study concludes that Douala needs an autonomous coastal interagency to address the gaps punctuated by sectoral management, and thus, enhance the sustainable management of its coastal milieu.

City in Transition Frank Akpadock, 2012-03 In a climate of scarce financial resources, where federal and state fiscal assistance to cities has dwindled quantitatively, all civic leaders must somehow find a way to provide long-term vision, a good business climate, and diverse economic development planning strategies to grow their cities' economies. Such plans should be strategically flexible and adaptable to change, yet strong enough to withstand the whirlwinds and vicissitudes of the constantly changing national and global economies. Youngstown, Ohio, achieved its success through the visionary leadership of its city mayors, who partnered with local University leadership, tapping into their

invaluable assets of knowledge capital and technology transfer capacities, while at the same time mobilizing public support from labor, businesses, foundations, and other entrepreneurial stakeholders to provide assistance with the city's economic recovery. *City in Transition* is a landmark testimonial assessment of tried and true economic development strategies of Youngstown mayors' visionary leaderships to revive and grow the city's declining economy following its steel mill closings in the late 1970s. Economic development strategies together with city-size reclassification into a smaller post-industrial city, created a classic leadership story of foresight that transcended the city's economic regeneration per se, to garner both national recognition and international attention.

Contemporary Hispanic Biography Ashyia N. Henderson, 2002 Collection of biographical profiles of Hispanic Americans who have made an impact on society.

One Giant Leap Charles Fishman, 2019-06-11 The remarkable story of the trailblazers and the ordinary Americans on the front lines of the epic mission to reach the moon. President John F. Kennedy astonished the world on May 25, 1961, when he announced to Congress that the United States should land a man on the Moon by 1970. No group was more surprised than the scientists and engineers at NASA, who suddenly had less than a decade to invent space travel. When Kennedy announced that goal, no one knew how to navigate to the Moon. No one knew how to build a rocket big enough to reach the Moon, or how to build a computer small enough (and powerful enough) to fly a spaceship there. No one knew what the surface of the Moon was like, or what astronauts could eat as they flew there. On the day of Kennedy's historic speech, America had a total of fifteen minutes of spaceflight experience—with just five of those

minutes outside the atmosphere. Russian dogs had more time in space than U.S. astronauts. Over the next decade, more than 400,000 scientists, engineers, and factory workers would send 24 astronauts to the Moon. Each hour of space flight would require one million hours of work back on Earth to get America to the Moon on July 20, 1969. Fifty years later, *One Giant Leap* is the sweeping, definitive behind-the-scenes account of the furious race to complete one of mankind's greatest achievements. It's a story filled with surprises—from the item the astronauts almost forgot to take with them (the American flag), to the extraordinary impact Apollo would have back on Earth, and on the way we live today. Charles Fishman introduces readers to the men and women who had to solve 10,000 problems before astronauts could reach the Moon. From the research labs of MIT, where the eccentric and legendary pioneer Charles Draper created the tools to fly the Apollo spaceships, to the factories where dozens of women sewed spacesuits, parachutes, and even computer hardware by hand, Fishman captures the exceptional feats of these ordinary Americans. *One Giant Leap* is the captivating story of men and women charged with changing the world as we knew it—their leaders, their triumphs, their near disasters, all of which led to arguably the greatest success story, and the greatest adventure story, of the twentieth century.

Dead Voice Jesus R. Velasco, 2020-01-24 An exploration of the thirteenth-century law code known as *Siete Partidas* Conceived and promulgated by Alfonso X, King of Castile and León (r. 1252-1282), and created by a workshop of lawyers, legal scholars, and others, the set of books known as the *Siete Partidas* is both a work of legal theory and a legislative document designed to offer practical guidelines for the rendering of legal decisions and the management of good

governance. Yet for all its practical reach, which extended over centuries and as far as the Spanish New World, it is an unusual text, argues Jesús R. Velasco, one that introduces canon and ecclesiastical law in the vernacular for explicitly secular purposes, that embraces intellectual disciplines and fictional techniques that normally lie outside legal science, and that cultivates rather than shuns perplexity. In *Dead Voice*, Velasco analyzes the process of the *Siete Partidas*'s codification and the ways in which different cultural, religious, and legal traditions that existed on the Iberian Peninsula during the Middle Ages were combined in its innovative construction. In particular, he pays special attention to the concept of dead voice, the art of writing the law in the vernacular of its clients as well as in the language of legal professionals. He offers an integrated reading of the *Siete Partidas*, exploring such matters as the production, transmission, and control of the material text; the collaboration between sovereignty and jurisdiction to define the environment where law applies; a rare legislation of friendship; and the use of legislation to characterize the people as the soul of the kingdom, endowed with the responsibility of judging the stability of the political space. Presenting case studies beyond the *Siete Partidas* that demonstrate the incorporation of philosophical and fictional elements in the construction of law, Velasco reveals the legal processes that configured novel definitions of a subject and a people.

New Insights in the History of Interpreting Kayoko Takeda, Jesús Baigorri-Jalón, 2016-03-10 Who mediated intercultural exchanges in 9th-century

East Asia or in early voyages to the Americas? Did the Soviets or the Americans invent simultaneous interpreting equipment? How did the US government train its first Chinese interpreters? Why is it that Taiwanese interpreters were executed for Japanese war crimes? Bringing together papers from an international symposium held at Rikkyo University in 2014 along with two select pieces, this volume pursues such questions in an eclectic exploration of the practice of interpreting, the recruitment of interpreters, and the challenges interpreters have faced in diplomacy, colonization, religion, war, and occupation. It also introduces innovative use of photography, artifacts, personal journals, and fiction as tools for the historical study of interpreters and interpreting. Targeted at practitioners, scholars, and students of interpreting, translation, and history, the new insights presented in the ten original articles aim to spark discussion and research on the vital roles interpreters have played in intercultural communication through history. Dialogar en la Red Ana Pano, Ana Pano Alamán, 2008
El objetivo de este estudio es contestar a las preguntas ¿qué actitudes lingüísticas se generan en el medio electrónico?, ¿cuáles son, si los hay, los rasgos característicos de la lengua española en Internet? En la primera parte se exploran críticamente las relaciones entre oralidad y escritura, sincronía y asincronía e identidad y comunidad en la Red, con el objeto de superar los

parámetros tradicionales de análisis y acercar las interacciones comunicativas en chats, e-mails, foros de debate y blogs a la interactividad y la intencionalidad propias del diálogo entendido como proceso. En la segunda parte se analizan, a través de numerosos ejemplos, los principales rasgos gráficos, ortográficos, fónicos, morfosintácticos y léxicos, que constituyen regularidades lingüísticas concretas a menudo descuidadas frente a los aspectos pragmáticos del lenguaje en Internet.

Towards an Atlas of the History of Interpreting Lucía Ruiz Rosendo, Jesús Baigorri-Jalón, 2023-02-22 The aspiration of an Atlas is to cover the whole world, by compiling cartographical material representing territories from across the five continents. This book intends to contribute to that ideally comprehensive, yet always unfinished, Atlas with pieces gathered from all of the Earth's regions. However, its focus is not so much of a geographical nature (although maps and geographical reflections are not absent in its pages), but of a historical-analytical one. As such, the Atlas engages in the historical analysis of interpreters (of both language and cultures) in multiple interpreting settings and places, including in zones which are less frequently studied in specialized literature, in different historical periods and at various scales. All the interpreters described in the book share the

ability to speak two or more languages and to use them as vehicles; otherwise, their individual socio-professional statuses vary so much that there is no similarity between a Venetian dragoman in Istanbul and a prisoner of war, or between a locally-recruited interpreter and a missionary. Each contributor has approached the specific spatial and temporal dimensions of their subject as perceived through their different methodological lenses. This multifaceted perspective, which is expected to provide fertile soil for future interdisciplinary research, has been possible thanks to a balanced combination of scholars from History and from Translation and Interpreting Studies.

Retos de la razón práctica José Manuel Bermudo Avila, Montse Lavado Fau, 2002

El sentimiento de culpa Laura Rojas-Marcos, 2010-12-10 ¿Por qué nos mortifica la culpa? Laura Rojas-Marcos nos ofrece en El sentimiento de

culpa una enseñanza positiva y constructiva sobre este sentimiento tan poderoso y universal. El sentimiento de culpa está determinado por factores sociales, culturales, religiosos, familiares y personales, y se puede producir por infinitas razones. La culpa surge cuando hacemos daño a otra persona, cuando nos avergonzamos de nuestras palabras o de nuestras conductas; o brota cuando sentimos ira y actuamos de forma perversa. A veces nos culpamos por ser manipuladores y otras por ser víctimas de manipulaciones. Nos sentimos culpables por no cumplir las expectativas de los demás o de nosotros mismos, cuando rompemos con la pareja, cuando fracasamos en nuestros proyectos o sencillamente cuando comemos mucho o poco. La culpa tiene el poder de deteriorar nuestra autoestima, nuestra paz interior y nuestra felicidad. Sin embargo, también tiene aspectos positivos. Es como un barómetro que nos ayuda a controlar nuestros impulsos, a diferenciar entre la buena y la mala conducta, a ser delicados con los demás y nos induce a subsanar los daños producidos a otros. En El sentimiento de culpa, Laura Rojas-Marcos nos habla de los aspectos negativos y positivos de este sentimiento tan común, así como de las diferencias entre la culpa real y la culpa falsa y de la importancia de superar este sentimiento tan dañino. Y nos explica de forma sencilla que para liberarnos de este peso debemos entender su origen y sus motivos, conocer nuestras habilidades para resolver conflictos, afrontar nuestra culpa, superar el resentimiento, saber pedir ayuda y aprender a perdonar a los demás o a perdonarnos.
