Queer Inclusion in the United Methodist Church Amanda

Udis-Kessler, 2012-02-27 The United Methodist Church has been in conflict over lesbian/gay/bisexual/transgender inclusion issues since 1972. That year, in response to the gay liberation and gay rights movements, wording was added to the UMC Book of Discipline (the compilation of denominational policies and doctrines) characterizing homosexuality as incompatible with Christian teaching. Since then, United Methodist ministers have been forbidden to perform same-sex commitment ceremonies (and United Methodist churches forbidden to host them), a rule has been passed that non-heterosexual United Methodist ministers must be celibate, and the UMC has forbidden the funding of any program or organization supporting homosexuality. These policies have been met with significant resistance by those fighting for GLBT inclusion. In this groundbreaking book, Udis-Kessler examines this struggle, analyzing both sides of this divisive debate among one of the most prominent religious organizations in the United States.

Indian Americans (Part-I) Pradeep Thakur, 2009 Anand G. Mahindra, one of the most successful business men of India Inc., recently added another feather to his cap--Satyam Computer Services Ltd, which was counted as the fourth largest Information Technology (IT) services firm of India until the revelation of a financial fraud by its founder chairman. It was a risk that even the top three Indian IT companies of India avoided, but Anand Mahindra went ahead with the calculated risk of bidding for Satyam that turned out to be--historical and game changer-- in his own words. Venturbay Consultants Pvt Ltd, a subsidiary of Tech Mahindra Ltd., India's sixth largest software exporter outbid the diversified conglomerate Larsen & Toubro Ltd, U.S. based Cognizant Technology Solutions and American investor Wilbur Ross to acquire a controlling stake in Satyam Computer. Anand Mahindra was among those business heads at the helm of family

owned businesses who acknowledged that ownership should be separate from management. The professionalism has paid off well and his flagship firm Mahindra & Mahindra Ltd, one of India's leading automotive manufacturers known for its tractors, has carved out a niche space in the passenger vehicles space also with successful sports utility vehicle (SUV) models such as Scorpio and Xylo. The Scorpio, developed from scratch for just \$120 million, became a case study at the Harvard Business School. Another group company Mahindra Holidays and Resorts has just ended a four-month long drought at India's initial public offering (IPO) market. When Anand Mahindra joined the family business in early 1980s, he had to struggle to change the work culture at the grass root level. Then he focused on diversifying the business and the Group has now significant presence in sectors such as automobiles, financial services, trade and logistics, hospitality, automotive components, information technology and infrastructure development. Mahindra, India's top multi-utility vehicle maker and the world's fourth-largest tractor maker, has about 30% of the Indian tractor's market share, the world's largest by volume. Mahindra also has strong presence in urban and foreign markets like Russia, Brazil, Columbia and Africa. Mahindra was a co-founder of Kotak Mahindra Finance Ltd., which in 2003 was converted into a bank.

The Politics of Community-making in New Urban India Ritanjan Das, Nilotpall Kumar, 2023-04-17 This book explores the relationship between the production of new urban spaces and illiberal community-making in contemporary India. It is based on an ethnographic study in Noida, a city at the eastern fringe of the state of Uttar Pradesh, bordering national capital Delhi. The book demonstrates a flexible planning approach being central to the entrepreneurial turn in India's post-liberalisation urbanisation, whereby a small-scale industrial township is transformed into a real-estate driven modern city. Its real point of departure, however, is in the argument that this turn can enable a form of illiberal community-making in new cities that are quite different from older metropolises. Exclusivist forms of solidarity and symbolic boundary construction - stemming from the differences across communities as well as their internal heterogeneities - form the crux of this process, which is examined in three distinct but often interspersed socio-spatial forms: planned middle-class residential quarters, 'urban villages' and migrant squatter colonies. The book combines radical geographical conceptualisations of social production of space and neoliberal

urbanism with sociological and anthropological approaches to urban community-making. It will be of interest to researchers in development studies, sociology, urban studies, as well as readers interested in society and politics of contemporary India/South Asia.

Arab Revolutions and World Transformations Anna M

Agathangelou, Nevzat Soguk, 2013-09-13 Stories about institutions and regimes that have failed us are echoing worldwide. This book critically engages the multiple uprisings in the Middle East and North Africa (MENA) following the self-immolation of Tunisian street vendor Mohamed Bouazizi in December 2010. It brings together authors who critically analyse the unstoppable force unleashed in the streets of Tunisia, Egypt, Bahrain, Syria, Libya and Yemen. This book analyses the roots and trajectory of the recent revolts in the context of the global transformations that have redefined the politics of movement and revolution. For example, some authors engage extensively with the strategies embraced by the younger generation of activists. Others argue that the power of these revolutions lies in the people's creative orientations including their collaborations. While much of the mobilization efforts in these different parts of the world happen through word of mouth, radio, cartoons, placards, and SMS services; sites such as Facebook helped people meet each other with a click, carrying their claims through stories, songs, poetry and art of protest across international borders quickly enabling them to rapidly bring authoritarian regimes to the brink of collapse and make a qualitatively different expression of uprisings. All authors in this volume address the question of the stakes in these revolts, as through them, spectacular and everyday violence can be challenged, and alternative social projects can emerge. Neither a footnote to the West's history, nor an appendix to neoliberal capitalist global projects, people are actively drawing on their power to disrupt domination and oppression, creatively responding to global problems and calling for democratic institutions with viable ecologies. This book was published as a special issue of

Globalizations.

Sonia Gandhi Rani Singh,2011-09-13 Sonia Gandhi's story represents the greatest transformational journey made by any world leader in the last four decades. Circumstance and tragedy, rather than ambition, paved her path to power. Born into a traditional, middle-class Italian family, Sonia met and fell in love with Rajiv Gandhi, son of future Indian prime minister Indira Gandhi and grandson of Jawaharlal Nehru, while studying English in Cambridge. Cruelly tested by the assassinations of her mother-in-law and of her husband, Sonia grew into a strong, authoritative but always private figure, now president of a coalition ruling over a billion people in the world's largest democracy. Through exclusive interviews with members of Sonia's party, political opponents and family friends, Rani Singh casts new light on Sonia. In the first mainstream biography of this inspirational figure, the author's compelling narrative retraces the path of the brave and beautiful Sonia Gandhi, examining what her life and legacy mean for India.

Constitution for a Free People, for City, County, Provincial, State and National Governments Douglas Robinson Buck,2017-01-31 Constitution for a Free People presents all the principles and tools needed to create a charter for freedom for any government: city, county, state, nation, or colony on the Moon or Mars. It is based on the inspired original Constitution for the United States, with worthy safeguards to secure liberty for the people and curb the growth of power by any person or special group. It assumes that men and women are born free and that most, when they arrive at the years of majority, are able to come together, deliberate on their common needs, and solve problems. It hails the U.S. Constitution as a charter of liberty and shows how the ideas behind its creation can become the basis for any

government. Many statements from the Founders of the United States are given in support. This is not a history book, although some history is included. It is not a political science tome, although may be used as a handbook for students and statesmen. It is not a political tract, although conservative by nature. And it is not a novel or fiction. It is a plan for a government of the people, by the people and for the people, a plan to keep most political decision making close to home, a plan to secure for all people their best hope for liberty, prosperity and happiness.

World Myth or History? J.G. Cheock, 2017-10-02 World myth deciphered and organized into a coherent story of our past. It is almost impossible to read world mythology without noticing common threads and patterns that seem to paint a bigger picture. A story told by our ancient ancestors for future generations to remember and learn. What if the eyewitnesses to past events were taken seriously? What if we listen to their stories with unbiased ears, free of assumptions? What if their stories were backed up by scientific discoveries? What if the myths can explain the mysteries?
