Modern Mysteries Katie Normington, 2007 A lively account of the modern staging of the medieval mystery plays, richly illustrated with stills and other photographs. The turn of the last millennium saw a sudden flourishing in the revival of the medieval mystery plays, with a number of different productions being staged across the country and further afield. But why were they staged? What features of the plays attracted the modern-day director? What can the mystery plays offer today's producers, directors, participants and audiences? This book seeks to answer these questions. Beginning with an exploration of the original staging conditions, the study goes on to examine the reasons why the plays are produced today, and through a series of case studies looks at how notions of community, identity and space are articulated within contemporary stagings: it considers productions at Chester, Chichester, Leeds, Lichfield, Lincoln, Toronto, Worsbrough, and York, as well as productions by the Royal National Theatre, Royal Shakespeare Company, and the Belgrade Theatre, Coventry. Importantly, the author uses evidence gleaned from interviews with directors and producers, and observation of rehearsals, and performances, to bring a fresh and modern perspective to bear. Richly illustrated. KATIENORMINGTON is Professor of Drama at Royal Holloway, University of London.

Holocaust Education Stuart Foster, Andy Pearce, Alice Pettigrew, 2020-07-06 Teaching and learning about the Holocaust is central to school curriculums in many parts of the world. As a field for discourse and a body of practice, it is rich, multidimensional and innovative. But the history of the Holocaust is complex and challenging, and can render teaching it a complex and daunting area of work. Drawing on landmark research into teaching practices and students' knowledge in English secondary schools, *Holocaust Education: Contemporary challenges and controversies* provides important knowledge about and insights into classroom teaching and learning. It sheds light on key challenges in Holocaust education, including the impact of misconceptions and misinformation, the dilemmas of using atrocity images in the classroom, and teaching in ethnically diverse environments. Overviews of the most significant debates in Holocaust education provide wider context for the classroom evidence, and contribute to a book that will act as a guide through some of the most vexed areas of Holocaust pedagogy for teachers, teacher educators, researchers and policymakers.

Confessions of a Wall Street Analyst Dan Reingold, Jennifer Reingold, 2009-10-13 Here is the true story of a top Wall Street player's transformation from a straight-arrow believer to a jaded cynic, who reveals how Wall Street's insider game is really played. Dan Reingold was a top Wall Street analyst for

fourteen years and Salomon Smith Barney analyst Jack Grubman's chief competitor in the red-hot sector of telecom. Reingold was part of the Street and believed in it. But in this action-packed, highly personal memoir written with accomplished Fast Company senior writer Jennifer Reingold the author describes how his enthusiasm gave way to disgust as he learned how deeply corrupted Wall Street and much of corporate America had become during the roaring stock market bubble of the 1990s. *Confessions of a Wall Street Analyst* provides a front-row seat at one of the most dramatic -- and ultimately tragic -- periods in financial history. Reingold recounts his introduction to the world of Wall Street leaks and secret deal-making; his experiences with corporate fraud; and Wall Street's alarming penchant for lavish spending and multimillion-dollar pay packages. Reingold spars with arch rival Grubman; fends off intense pressures from Wall Street bankers and corporate CEOs; and is wooed by Morgan Stanley's CEO, John Mack, and CSFB's über-banker Frank Quattrone. Reingold describes instances in which confidential deals are whispered days before their official announcement. He recalls the moment he learns that Bernie Ebbers's WorldCom was massively cooking its books. And he is shocked to have been an unwitting catalyst for a series of sexually explicit e-mails that would rock Wall Street; bring Jack Grubman to his knees; and contribute to the stepping aside of Grubman's boss, Citigroup CEO Sandy Weill. Some of Reingold's stories are outrageous, others hilarious, and many are simply absurd. But, together, they provide a sobering exposé of Wall Street: a jungle of greed and ego, a place brimming with conflicts and inside information, and a business absurdly out of touch with the Main Street it claims to serve. He shows how government investigators, headlines notwithstanding, never got to the heart of the ethical and legal transgressions of the era. And how they completely overlooked Wall Street's pervasive use of inside information, leaving investors -- even sophisticated professionals -- cheated. The book ends with a series of important policy

recommendations to clean up the investing business. In the tradition of Liar's Poker and Den of Thieves, Confessions of a Wall Street Analyst is a no-holds-barred insider's account that will open the eyes of every investor.

Gone Fishing Chris Clark, Adam Lloyd, 2021-09-21 Angus Robertson Sinclair, one of the worst killers the UK has ever seen, was convicted of four murders. His first took place in his home city of Glasgow in 1961, when he raped and murdered his seven-year-old neighbour Catherine Reehill when he was just sixteen. But after spending a mere six years in prison, he was released in his early twenties to kill again. Teenagers Helen Scott and Christine Eadie were last seen at the World's End pub on Edinburgh's Royal Mile in October 1977. The next morning both were found murdered; not together, but a few miles apart on the East Lothian coast. They had both been raped before they were killed.

The largest investigation in Scottish police history didn't find their killer. Several years later, in 1982, Sinclair was jailed for life after he was charged with and admitted eleven charges of rape and indecent assault. However, twenty years after this, as Sinclair was beginning to be hopeful about being released on parole, a cold case review showed that Sinclair's DNA had been found on the body of 17-year-old Mary Gallagher, a 1978 Glasgow murder that had been previously unsolved. These discoveries lead detectives to examine the link between Sinclair and several other unsolved cases. Scientific advances put Sinclair and his brother-in law Gordon Hamilton who died in 1996 firmly in the frame for the World's End pub murders of Helen Scott and Christine Eadie. In 2007 Sinclair stood trial for these murders, but a lack of evidence saw the case collapse. But following the change in Scotland's double jeopardy law, Sinclair again faced trial for the World's End murders in 2014, and this time was found guilty. The judge said the words 'evil' and 'monster' were not enough to describe Sinclair, as he sentenced him to a minimum of 37 years in prison for the murders of the two teenagers. This is the longest sentence issued to anyone in a Scottish court, and ensured that Sinclair would die in jail. But there were more victims. Many more. Sinclair was convicted of four murders, but we believe he murdered at least twelve people, maybe fourteen. And in this book, we tell their stories.
