Joseph R. Chaney, Ken S. McAllister, Judd Ethan Ruggill

The Computer Culture Reader Joseph R. Chaney, Ken S. McAllister, Judd Ethan Ruggill, 2009-03-26 The Computer Culture Reader brings together a multi-disciplinary group of scholars to probe the underlying structures and overarching implications of the ways in which people and computers collaborate in the production of meaning. The contributors navigate the heady and sometimes terrifying atmosphere surrounding the digital revolution in an attempt to take its measure through examinations of community and modes of communication, representation, information-production, learning, work, and play. The authors address questions of art, reality, literacy, history, heroism, commerce, crime, and death, as well as specific technologies ranging from corporate web portals and computer games to social networking applications and virtual museums. In all, the essayists work around and through the notion that the desire to communicate is at the heart of the digital age, and that the opportunity for private and public expression has taken a commanding hold on the modern imagination. The contributors argue, ultimately, that the reference field for the technological and cultural changes at the root of the digital revolution extends well beyond any specific locality, nationality, discourse, or discipline. Consequently, this volume advocates for an adaptable perspective that delivers new insights about the robust and fragile relationships between computers and people.

Under a Mushroom Cloud Emanuele Ottolenghi, 2009 Since Iran's illicit nuclear programme was exposed to a stunned world in 2002, Tehran has defied the international community and continued to pursue its nuclear goals. What drives this seemingly apocalyptic quest? Are Iran's aims rational or not? *Under a Mushroom Cloud* analyses this catastrophic and murky situation, and examines Iran's dual-track approach of accelerating its nuclear activities while weaving itself ever more tightly into the fabric of the European economy. Thriving trade between Europe and Iran, and heavy European involvement in Iran's energy industry, have weakened Europe's will to impose robust sanctions – but imposing them is the only practical way of protecting Europe's strategic interests and ensuring the stability of the region. *Under a Mushroom Cloud* offers a clear and compelling answer to this dilemma. Drawing on extensive research, including interviews with senior officials and security and intelligence personnel from many countries involved in the effort to stop Iran developing a nuclear bomb, it provides a comprehensive account of a serious strategic threat to Europe, and offers an original list of practical recommendations for European policymakers who must confront it. Book jacket.

Water Security and Sustainability Chandrashekhar Bhuiyan, Wolfgang-Albert Flügel, Sharad Kumar Jain, 2021-02-22 This book contains selected peer-reviewed papers presented in the International Conference Down To Earth 2019, and is focused on Water Security and Sustainability. The topics covered in this book include sustainability of water resources, geospatial modelling and hydro-informatics, extreme hydrology (drought and flood), adaptation to climate-change impacts, vulnerability-risk-reliability-resilience, and hydrological risks in north-east India. The book also discusses innovative techniques and technologies for water resources assessment and management. Enriched with numerous case studies covering diverse topics, the book can be valuable for students, researchers, as well as industry professionals interested in water resources assessment, management and sustainable development.
