*OECD Reviews of Regulatory Reform: Regulatory Reform in Greece 2001* OECD,2001-05-30 This review of regulatory reform in Greece presents an integrated assessment of areas such as the quality of the public sector, competition policy and enforcement, and market openness. It also contains chapters on sectors such as telecommunications, electricity, domestic ferries and trucking.

*European Spirit, Adaption to Market Economy and National Identity in Poland and Ukraine* Matthias Reichhard,2008-09 When at the turn of the 1980, the face of the political world was largely remodelled with the vanishment of classical East and West blocs, the economical wasteland created by the failed socialist planned economic system constituted a fascinating research pasture for economists of all disciplines - especially macroeconomists and specialists for economic politics. At universities, new faculties for transformation studies were created. Authors like Rodrick elucidated the reasons for the acute period of the COMECON alliance in form of the Soviet trade shock, de Melo, van den Mortel a.o. discussed reasons for discrepancy of initial conditions, Aghion & Blanchard about the speed of transition, just like Wyplosz, Fischer & Sahay established a balance sheet after a decade of transition. However, the preponderant part

authorship dedicated to the fate and future of Central and Eastern European countries left apart a force of influence which disciplines of business administration have discovered for disciplines like management and staff motivation: culture. The author of the present study did extended research for working papers a.o. which may provide hints for characteristics of development visible in two exemplaric states, out of which one used to be part of the soviet Union (Ukraine), the other a satellite brother country (Poland), which lie below the surface of economic behaviour and performance. The result of this quest was y and large that there indeed do exist works which deal with the selected economic-political aspects; however, most authors refer to the five dimensions of national culture presented by Hofstede, which in the authors opinion oversimplify the complex and difficultly observable domain of culture, sometimes even is entangled in contradictions like with the high masculinity/femininity index for Italy. This is why the author rather oriented by the need-belief-value-attitude continuum described by Culatta and thus developed his chapters on EU accession, adv

**Quietism, Agnosticism and Mysticism** Krishna Mani Pathak, 2022-01-01 This book presents a unique collection of papers on various philosophical aspects of the unknown and unvoiced truth and reality of the cosmic world. It offers a systematic analysis of the three philosophical theories of Quietism, Agnosticism and Mysticism and introduces readers to the fundamentals of

mystical knowledge claimed by philosophical schools of the east and the west. It discusses, debates and deliberates on philosophical issues concerning the acquisition of truth, its objectivity and its various dimensions along with the application of thoughts pertaining to Quietism, Agnosticism, and metaphysical-mystic traditions in philosophy. It examines and precisely defines the scope and limits of knowledge, the respective way of life, its expressions and morality, mystical revelation, ineffability of the ultimate, value realism, and faith and reason - with a primary focus on the classical Indian schools of Hinduism, Buddhism, Jainism, Agnosticism, the Bāuls, Greek traditions, modern western meta-philosophy, and contemporary quietist debate in religion and theology. This insightful collection should be of great interest to independent researchers, students and teachers of philosophy, theology, Mysticism and Agnosticism, cultural studies and religious studies.

*CBMs In India-Pakistan Relations* Surrender Singh, 2021-08-09 About the Book India and Pakistan, the two important countries of the South Asian Sub-continent, have had a far from cordial relationship. It was in sum a love-hate relationship in which one is compelled to unwillingly coexist with the other and retain a constant but correct relationship on account of geography and historical circumstances. This state of affairs between the two countries could be traced to the very beginning of the birth of the two nations in 1947. The problems that existed in the initial years of their independence have survived in the seventh decade with no signs yet of any enduring solution. This study deals with India-Pakistan relations from 2003 to the present time. This period has been chosen because it signifies the culmination of certain trends in the relationship between the two nations after the start of the process of Confidence Building Measures (CBMs). This book provides a theoretical understanding of the South Asian region in general and India-Pakistan relations in particular. It analyses not only India's interests and policy options towards Pakistan but also evaluates the real nature of their bilateral relations. It has discussed not only the key issues between them, such as Kashmir, Terrorism, Siachen, Sir Creek, Drug Trafficking but also provides their likely solutions to these problems. Besides this, the process of CBMs and the steps taken by both

nations are also discussed in it. Hence this book presents an overview of the contemporary nature of India-Pakistan relations after the start of the process of CBMs. The book may be beneficial for students, teachers, policymakers, diplomats, as well as, common readers engaged in understandings the current discourses on India-Pakistan relations in this changed international milieu.

*Media, Culture and Society in Malaysia* Yeoh Seng Guan, 2010-02-25 This book presents a comprehensive, full-length analysis of the uses of media and communication technologies by different social actors in Malaysia. Unlike other studies of the media in Malaysia which concentrate on political economy or freedom of the media approaches, this book focuses on the ways in which different media forms have constituted cultural practices and power relations amongst particular audiences and publics. It also examines the ways in which technologies of varying scales and range have been appropriated for various subaltern purposes and counter-hegemonic agendas. Drawing upon recent case studies on the deployment of different media – including mainstream and independent films, television programming, black metal music, community rituals, political advertising, the internet, and artistic visual installations – it provides valuable insights into the complex, vibrant ways in which these different media forms have negotiated with the dominant cultural representations of Malaysian society. The book makes an important contribution to the emergent disciplines of media studies and cultural studies in Malaysia.

### **Family, School and Nation Nivedita**

Sen,2015-07-03 This seminal work examines the concurrence of childhood rebellion and conformity in Bengali literary texts (including adult texts), a pertinent yet unexplored area, making it a first of its kind. It is a study of the voice of child protagonists across children's and adult literature in Bengali vis-à-vis the institutions of family, the education system, and the nationalist movement in the nineteenth and twentieth centuries.

### Parliaments and Political Change in Asia Clemens

Jürgenmeyer,Michael H. Nelson,Patrick Ziegenhain,2005 This study of the national parliaments of India, Indonesia, the Philippines, South Korea, and Thailand is inspired by four major theoretical discourses: neo-institutionalism, parliamentarianism versus presidentialism, majoritarianism versus consensus democracy, and transition theory. The book examines the specific role of parliaments in political decision-making, regime change, democratization, and consolidation of democracy in a comparative perspective. It argues that parliaments play a greater part in the political decision-making than is often asserted and that there is no cogent causal relationship between parliamentary performance and system of

government.

*Bollypolitics* Ajay Gehlawat, 2024-03-21 This book provides an in-depth exploration of the evolving landscape of Bollywood cinema in response to recent socio-political changes in India, including a surge in sectarian violence and the ascent of Hindutva, or Hindu nationalism, under Prime Minister Narendra Modi's leadership. Through a comprehensive analysis of prominent filmmakers and actors like Sanjay Leela Bhansali, Kangana Ranaut, Akshay Kumar, and Anupam Kher, Ajay Gehlawat investigates the extent to which their recent works align with key tenets of the Hindutva movement. He scrutinizes the growing influence of the Bharatiya Janata Party (BJP) on film production, manifesting in collaborations covering diverse themes, from Modi's Clean India initiative to the nation's space exploration endeavors and grand historical epics such as *Padmaavat* (2018) and *Manikarnika* (2019) that seek to reshape Indian history in line with Hindutva ideology. Gehlawat goes on to dissect smaller budget films like *Article 15* (2019) and *Shubh Mangal Zyada Saavdhan* (2020), which tackle pressing social issues like caste-based violence and homophobia exacerbated by the surge in right-wing extremism in India. In doing so, he elucidates the profound and far-reaching impact of Hindutva ideology on Indian cinematic narratives and aesthetics, while also considering the broader implications for Indian society as a whole.

**From Popular Movements to Rebellion** Ranabir Samaddar, 2018-11-21 *From Popular Movements to Rebellion: The Naxalite Decade* argues that without

an understanding of the popular sources of the rebellion of that time, the age of the Naxalite revolt will remain beyond our understanding. Many of the chapters of the book bring out for the first time unknown peasant heroes and heroines of that era, analyses the nature of the urban revolt, and shows how the urban revolt of that time anticipated street protests and occupy movements that were to shake the world forty-fifty years later. This is a moving and poignant book. Some of the essays are deeply reflective about why the movement failed and was at the end alienated. Ranabir Samaddar says that, the Naxalite Movement has been denied a history. The book also carries six powerful short stories written during the Naxalite Decade and which are palpably true to life of the times. The book has some rare photographs and ends with newspaper clippings from the period. As a study of rebellious politics in post-Independent India, this volume with its focus on West Bengal and Bihar will stand out as an exceptional history of contemporary times. From Popular Movements to Rebellion: The Naxalite Decade will be of enormous relevance to students and scholars of history, politics, sociology and culture, and journalists and political and social activists at large. *Beyond Faith and Rationality* Ricardo Sousa  
Silvestre, Benedikt Paul Göcke, Jean-Yves  
Béziau, Purushottama Bilimoria, 2020-09-16 This  
volume deals with the relation between faith and  
reason, and brings the latest developments of

modern logic into the scene. Faith and rationality are two perennial key concepts in the history of ideas. Philosophers and theologians have struggled to bring into harmony these otherwise conflicting concepts. Despite the diversity of approaches about what rationality effectively means, logic remains the cannon of objective and rational thought. The chapters in this volume analyze several issues pertaining to the philosophy of religion and philosophical theology from the perspective of their relation to logic and the benefit they can derive from the use of modern logic tools. The book is divided into five parts: (I) Introduction, (II) Analytic Philosophy of Religion, (III) Logical Philosophy of Religion, (IV) Computational Philosophy and Religion and (V) Logic, Language and Religion. This text appeals to students and researchers in the field.

*The Changing Politics of Finance in Korea and Thailand* Xiaoke Zhang, 2003-08-29 This is the first systematic attempt to explore the causal relationship between financial market reform and financial crisis in an interdisciplinary and comparative perspective. It examines the political underpinnings of financial policy-change and provides an in-depth analysis of market liberalisation processes and their impact on the economic turmoil of 1997-98 in Korea and Thailand. The common crisis stemmed from divergent reform patterns and originated from dissimilar institutional deficiencies and political constraints. The book will be essential reading for both policy-makers and academics concerned with national governance in an era of

globalisation.
