Civil Rights History from the Ground Up Emilye Crosby, 2011 After decades of scholarship on the civil rights movement at the local level, the insights of bottom-up movement history remain essentially invisible in the accepted narrative of the movement and peripheral to debates on how to research, document, and teach about the movement. This collection of original works refocuses attention on this bottom-up history and compels a rethinking of what and who we think is central to the movement. The essays examine such locales as Sunflower County, Mississippi; Memphis, Tennessee; and Wilson, North Carolina; and engage such issues as nonviolence and self-defense, the implications of focusing on women in the movement, and struggles for freedom beyond voting rights and school desegregation. Events and incidents discussed range from the movement's heyday to the present and include the Poor People's Campaign mule train to

Washington, D.C., the popular response to the deaths of Rosa Parks and Coretta Scott King, and political cartoons addressing Barack Obama's presidential campaign. The kinds of scholarship represented here--which draw on oral history and activist insights (along with traditional sources) and which bring the specificity of time and place into dialogue with broad themes and a national context--are crucial as we continue to foster scholarly debates, evaluate newer conceptual frameworks, and replace the superficial narrative that persists in the popular imagination.

Remembering Medgar Evers Minrose Gwin, 2013-02-25 As the first NAACP field secretary for Mississippi, Medgar Wiley Evers put his life on the line to investigate racial crimes (including Emmett Till's murder) and to organize boycotts and voter registration drives. On June 12, 1963, he was shot in the back by white supremacist Byron De La Beckwith as the civil rights leader unloaded a stack of Jim Crow Must Go T-shirts in his own driveway. His was the first assassination of a high-ranking public figure in the civil rights movement. While Evers's death ushered in a decade of political assassinations and ignited a powder keg of racial unrest nationwide, his life of service and courage has largely been consigned to the periphery of U.S. and civil rights history. In her compelling study of collective memory and artistic production, *Remembering Medgar Evers*, Minrose Gwin engages the powerful body of work that has emerged in response to Evers's life and death--fiction, poetry, memoir, drama, and songs from James Baldwin, Margaret Walker, Eudora Welty, Lucille Clifton, Bob Dylan, and Willie Morris, among others. Gwin examines local news accounts about Evers, 1960s gospel and protest music as well as contemporary hip-hop, the haunting poems of Frank X Walker, and contemporary fiction such as *The Help* and Gwin's own novel, *The Queen of Palmyra*. In this study, Evers springs to life as a leader of plural singularity, who modeled for southern African Americans a new form of cultural identity that both drew from the past and broke from it; to quote Gwendolyn Brooks, He leaned across

tomorrow. Fifty years after his untimely death, Evers still casts a long shadow. In her examination of the body of work he has inspired, Gwin probes wide-ranging questions about collective memory and art as instruments of social justice. Remembered, Evers's life's legacy pivots to the future, she writes, linking us to other human rights struggles, both local and global. A Sarah Mills Hodge Fund Publication.

The Art and Science of Trauma and the Autobiographical Meg Jensen, 2019-01-04 This book examines posttraumatic autobiographical projects, elucidating the complex relationship between the 'science of trauma' (and how that idea is understood across various scientific disciplines), and the rhetorical strategies of fragmentation, dissociation, reticence and repetitive troping widely used the representation of traumatic experience. From autobiographical fictions to prison poems, from witness testimony to autography, and from testimonio to war memorials, otherwise dissimilar projects speak of past suffering through a limited and even predictable discourse in search of healing. Drawing on approaches from literary, human rights and cultural studies that highlight relations between trauma, language, meaning and self-hood, and the latest research on the science of trauma from the fields of clinical, behavioral and evolutionary psychology and neuroscience, I read such autobiographical projects not as 'symptoms' but as complex interrogative negotiations of trauma and its aftermath: commemorative and performative narratives navigating aesthetic, biological, cultural, linguistic and emotional pressure and inspiration.

Vaccine Epidemic Louise Kuo Habakus, Mary Holland, Kim Mack Rosenberg, 2011-02-09 Public health officials state that vaccines are safe and effective, but the truth is far more complicated. Vaccination is a serious medical intervention that always carries the potential to injure and cause death as well as to prevent disease. Coercive vaccination policies deprive people of free and informed consent—the hallmark of ethical medicine.

Americans are increasingly concerned about vaccine safety and the right to make individual, informed choices together with their healthcare practitioners. *Vaccine Epidemic* focuses on the searing debate surrounding individual and parental vaccination choice in the United States. Habakus, Holland, and Rosenberg edit and introduce a diverse array of interrelated topics concerning the explosive vaccine controversy, including the ethics of vaccination mandates, corrupting conflicts of interest in the national vaccine program, and personal narratives of parents, children, and soldiers who have suffered vaccine injury. Newly updated with additional chapters focusing on institutional scientific misconduct, mandates for healthcare workers, concerns about HPV vaccine development, and the story behind the Supreme Court's recent vaccine decision, *Vaccine Epidemic* remains the essential handbook for the vaccination choice movement and required reading for all people contemplating vaccination for themselves and their children.

Waging a Good War Thomas E. Ricks, 2022-10-04 #1 New York Times bestselling author and Pulitzer Prize winner Thomas E. Ricks offers a new take on the Civil Rights Movement, stressing its unexpected use of military strategy and its lessons for nonviolent resistance around the world. "Ricks does a tremendous job of putting the reader inside the hearts and souls of the young men and women who risked so much to change America . . . Riveting." —Charles Kaiser, *The Guardian* In *Waging a Good War*, the bestselling author Thomas E. Ricks offers a fresh perspective on America's greatest moral revolution—the civil rights movement of the 1950s and 1960s—and its legacy today. While the Movement has become synonymous with Martin Luther King, Jr.'s ethos of nonviolence, Ricks, a Pulitzer Prize-winning war reporter, draws on his deep knowledge of tactics and strategy to advance a surprising but revelatory idea: the greatest victories for Black Americans of the past century were won not by idealism alone, but by paying attention to recruiting, training, discipline, and organization—the hallmarks of any successful military campaign. An engaging

storyteller, Ricks deftly narrates the Movement's triumphs and defeats. He follows King and other key figures from Montgomery to Memphis, demonstrating that Gandhian nonviolence was a philosophy of active, not passive, resistance—involving the bold and sustained confrontation of the Movement's adversaries, both on the ground and in the court of public opinion. While bringing legends such as Fannie Lou Hamer and John Lewis into new focus, Ricks also highlights lesser-known figures who played critical roles in fashioning nonviolence into an effective tool—the activists James Lawson, James Bevel, Diane Nash, and Septima Clark foremost among them. He also offers a new understanding of the Movement's later difficulties as internal disputes and white backlash intensified. Rich with fresh interpretations of familiar events and overlooked aspects of America's civil rights struggle, *Waging a Good War* is an indispensable addition to the literature of racial justice and social change—and one that offers vital lessons for our own time.

Invisible No More Andrea J. Ritchie,2017-08-01 “A passionate, incisive critique of the many ways in which women and girls of color are systematically erased or marginalized in discussions of police violence.” —Michelle Alexander, author of *The New Jim Crow* *Invisible No More* is a timely examination of how Black women, Indigenous women, and women of color experience racial profiling, police brutality, and immigration enforcement. By placing the individual stories of Sandra Bland, Rekia Boyd, Dajerria Becton, Monica Jones, and Mya Hall in the broader context of the twin epidemics of police violence and mass incarceration, Andrea

Ritchie documents the evolution of movements centered around women's experiences of policing. Featuring a powerful forward by activist Angela Davis, *Invisible No More* is an essential exposé on police violence against WOC that demands a radical rethinking of our visions of safety—and the means we devote to achieving it.

Finanzas, modelación y riesgos Nini Johana Marín Restrepo, 2017-04-01 El Grupo de Investigación en Ingeniería Financiera —GINIF— de la Universidad de Medellín hace varios años tomó la decisión de editar periódicamente un libro de compilación de resultados de investigación tanto del grupo como de otros investigadores externos. Lo anterior con el propósito de extender la visibilidad del programa de Ingeniería Financiera y contribuir con la generación de conocimiento mediante el desarrollo de actividades de docencia e investigación. Las ediciones anteriores se han presentado de manera exitosa en ferias internacionales como la Feria Internacional del Libro de Guadalajara y se utiliza como material de consulta académica e investigativa en diferentes países latinoamericanos como Ecuador, México, Perú, entre otros, constituyéndose como un aporte a la divulgación del conocimiento resultado de investigación de los diferentes proyectos que ha adelantado el grupo de investigación GINIF. En esta ocasión se presenta el libro **Finanzas, Modelación y Riesgos**, resultado de diferentes actividades de investigación de profesionales internos y externos a la Universidad. Trabajos que se han adelantado en materia financiera y que pretenden fortalecer el conocimiento, aplicar nuevas teorías, indagar sobre problemáticas del entorno económico y financiero y proponer

soluciones que permitan a inversionistas y empresas tener esquemas y modelos para la creación de valor y le brinden un panorama más amplio para el análisis del sector financiero en general.

Gentrificación Jorge Sequera, 2020-07-03 Que la gentrificación constituye la única solución viable para los barrios abandonados es un argumento que desde algunos sectores involucrados se repite como un mantra, legitimando así uno de los principales mecanismos contemporáneos de gestión urbana neoliberal, enmascarada bajo conceptos ambiguos como regeneración, revitalización o renacimiento. Las nuevas clases medias, atraídas por fenómenos como la mezcla social, la escena alternativa o el imaginario de la cultura popular, eligen estos barrios previamente desvalorizados convirtiendo rápidamente el deterioro urbano en un producto chic. En los últimos años, la turistificación, alimentada por el crecimiento del capitalismo de plataforma que convierte viviendas en hoteles, es uno de los mayores desafíos actuales a la hora de repensar la ciudad. Complemento o antítesis de la gentrificación, este turismo depredador hace que la ciudad se convierta en un gran museo, donde el paisaje comercial tradicional de algunas zonas urbanas tiende a disneyficarse y franquiciarse, provocando profundos cambios socioculturales, desigualdad urbana y nuevas precariedades.

Manual de seguimiento y evaluación de los recursos humanos para la salud World Health Organization,2009

En muchos países, la falta de personal es uno de los principales obstáculos al reforzamiento de la prestación de servicios de atención primaria de salud y otros tipos de servicios de salud, incluidos los de índole curativa, promocional, preventiva y de rehabilitación. Muchos países carecen actualmente de capacidad técnica para el seguimiento adecuado de su personal de salud: a menudo, los datos no son fiables o son obsoletos, no se aplican definiciones comunes ni instrumentos analíticos de eficacia probada, y se carece de la preparación y la experiencia necesarias para evaluar los problemas fundamentales de las políticas. El presente Manual tiene el propósito de fortalecer esa capacidad técnica. Brinda a los gestores de la salud, los investigadores y los formuladores de políticas referencias estandarizadas y de cómodo manejo para el seguimiento y la evaluación de los recursos humanos para la salud. Reúne un marco analítico con opciones estratégicas para mejorar la información y los datos relativos a la fuerza laboral, así como las experiencias de los países para poner de relieve los planteamientos que han dado buenos resultados. El documento debe considerarse fruto de una labor continua que permitirá conocer mejor los recursos humanos para la salud y contribuirá de manera significativa al creciente arsenal de instrumentos e investigaciones aplicadas ideados para afrontar el reto de medir y mejorar los resultados de la fuerza laboral sanitaria, fortalecer los sistemas de salud y, en última instancia, mejorar la salud de la población.

Teacher Empowerment Toward Professional Development and Practices Ismail Hussein Amzat,Nena P. Valdez,2017-04-22 This book gathers a range of contributions from researchers and practitioners across borders with an emphasis on theoretical arguments and empirical data concerning teacher empowerment. It propels readers to explore powerful teaching practices that can

further advance the profession as a continuing priority in the system when appropriately utilized. Further, it strives to capture teachers' readiness to improve their professional skills and responsive practices as a form of accountability for their teaching and students' learning, two aspects that are increasingly being judged by various stakeholders. The book argues that teachers' autonomous participation and engagement in relevant decision-making activities and equitable access to continuing professional development opportunities are and should remain major priorities.

Decision Support Systems for Weed Management

Guillermo R. Chantre, José L. González-Andújar, 2020-07-31 Weed management Decision Support Systems (DSS) are increasingly important computer-based tools for modern agriculture.

Nowadays, extensive agriculture has become highly dependent on external inputs and both economic costs, as well the negative environmental impact of agricultural activities, demands knowledge-based technology for the optimization and protection of non-renewable resources. In this context, weed management strategies should aim to maximize economic profit by preserving and enhancing agricultural systems. Although previous contributions focusing on weed biology and weed management provide valuable insight on many aspects of weed species ecology and practical guides for weed control, no attempts have been made to highlight the forthcoming importance of DSS in weed management. This book is a first attempt to integrate 'concepts and practice' providing a novel guide to the state-of-art of DSS and the future prospects which hopefully would be of interest to higher-level students, academics and professionals in related areas.
