Islam and the Making of the Nation Chiara Formichi, 2012-06-30 A testament to the relevance of historical research in understanding contemporary politics, *Islam and the Making of the Nation* guides the reader through the contingencies of the past that have led to the transformation of a nationalist leader into a 'separatist rebel' and a 'martyr', while at the same time shaping the public perception of political Islam and strengthening the position of the Pancasila in contemporary Indonesia.

Each chapter has been thoroughly revised and updated so the readers are acquainted with the latest data and observations in the area, where several aspects are to be considered. The book is comprehensive and not limited to a partial discussion of hemodialysis. To accomplish this we are pleased to have been able to summarize state of the art knowledge in each chapter of the book.

Hemodialysis Access Sherene Shalhub, Anahita Dua, Susanna Shin, 2016-11-21 This comprehensive reference on the fundamentals of hemodialysis access creation and advanced management for maintenance is designed to meet the needs of all surgeons and physicians responsible for the treatment and care of patients undergoing dialysis. Hemodialysis access techniques, from the most basic to the most complex and unconventional, are then described step by step, and guidance is provided on follow-up. Detailed attention is also devoted to the challenging management of specific complications of dialysis access

surgery, including failing hemodialysis access. The book includes a wealth of informative, high-quality images and illustrations, and the authors are prominent vascular surgeons, transplant surgeons, general surgeons, nephrologists, and interventional radiologists from across the United States.

Islamism in Indonesia Bernhard Platzdasch, 2009 The fall of President Soeharto in May 1998 and the introduction of multi-party democracy by President BJ Habibie have unleashed religious parties (both Islamic and Christian) in Indonesian politics. This study shows that the Islamist agenda of the Islamist parties is overshadowed by their political pragmatism. This book is a must-read account on the rise and failure of the Islamist struggle in Indonesia's emerging democracy. Platzdasch's work is without a doubt a significant and timely contribution to a better understanding of Islamic politics in contemporary Indonesia. - Professor Azyumardi Azra, Professor of History & Director, Graduate School, Syarif Hidayatullah State Islamic University, Jakarta, Indonesia.

Rethinking G.K. Chesterton and Literary Modernism Michael Shallcross, 2017-11-27 This book comprehensively rethinks the relationship between G.K. Chesterton and a range of key literary modernists. When Chesterton and modernism have previously been considered in relation to one another, the dynamic has typically been conceived as one of mutual hostility, grounded in Chesterton's advocacy of popular culture and modernist literature's appeal to an aesthetic elite. In setting out to challenge this binary narrative, Shallcross establishes for the first time the depth and ambivalence of Chesterton's engagement with modernism, as well as the reciprocal fascination of leading modernist writers with Chesterton's fiction and thought. Shallcross argues that this dynamic was defined by various forms of parody and performance, and that these histrionic expressions of

cultural play not only suffused the era, but found particular embodiment in Chesterton's public persona. This reading not only enables a far-reaching reassessment of Chesterton's corpus, but also produces a framework through which to re-evaluate the creative and critical projects of a host of modernist writers—most sustainedly, T.S. Eliot, Wyndham Lewis, and Ezra Pound—through the prism of Chesterton's disruptive presence. The result is an innovative study of the literary performance of popular and 'high' culture in early twentieth-century Britain, which adds a valuable new perspective to continuing critical debates on the parameters of modernism.

Health Policy and the Uninsured Catherine G. McLaughlin, 2004 The United States is unique in the industrialized world in the number of people without health insurance. In 2002, nearly 44 million Americans did not have health insurance coverage. Despite long-running study of this problem, the political debate on health insurance is often based on conventional wisdom and studies that haven't been integrated into a careful theoretical framework. In *Health Policy and the Uninsured*, leading experts in health policy survey the literature on this subject, synthesizing a wide range of health insurance studies into a comprehensive overview of the uninsured. They consider the methodological hurdles involved in the research, explore the complex interaction between health insurance and labor supply, and highlight the special issues facing children, racial or ethnic minorities and immigrants, the near-elderly, and people with psychiatric or substance abuse disorders. This coordinated critique serves several purposes: First, it summarizes for policy makers what we do not know about the uninsured. Second, it provides a framework for the health policy research needed to fill the remaining gaps in our knowledge. And finally, it serves as a useful primer for economists and other policy analysts.

On-Line Hemodiafiltration: The Journey and the Vision G. Krick,C. Ronco,2011-12-20 On-line HDF

represents a major technical development in the delivery of hemodialysis therapy: It combines the properties of increased diffusion available in current high-flux membranes with convective removal of between 6 and 30 liters per treatment and requires the use of ultrapure water and online filtration of replacement fluid. On-line HDF has been successfully introduced in Europe and Asia and is routinely prescribed for dialysis patients in these regions. The book at hand summarizes the history and achievements of on-line HDF in four parts: A report of the technological development in both machine and fiber/dialyzer is followed by a description of the challenges encountered in the evolution of on-line HDF, collecting the accounts of clinical key opinion leaders who had been involved in its early application. The third part presents a comprehensive review of the clinical results achieved with on-line HDF from its inception to the present times, in which it represents the clinical golden standard. The fourth and final part is dedicated to on-line HDF as a 'vision' for the future.

Islamic Nationhood and Colonial Indonesia Michael Francis Laffan, 2003-09-02 Drawing on previously unavailable archival material, this book argues that Indonesian nationalism rested on Islamic ecumenism heightened by colonial rule and the pilgrimage. The award winning author Laffan contrasts the latter experience with life in Cairo, where some Southeast Asians were drawn to both reformism and nationalism. After demonstrating the close linkage between Cairene ideology and Indonesian nationalism, Laffan shows how developments in the Middle East continued to play a role in shaping Islamic politics in colonial Indonesia.

The Philosophy of Public Health Dr Angus Dawson, 2012-10-01 Public health is a particular area of medical practice that raises a series of philosophical issues that require urgent discussion. The philosophy of public health includes metaphysical questions such as, what do we mean by 'public' in public health? How ought we to conceptualise the idea of 'populations'? Are they merely aggregations of individuals? It also includes epistemological questions such as, what methods are most appropriate for thinking about public health? How do empirical and normative issues relate to each other? Controversial ethical, political and social issues, including those relating to vaccinations, the threat of pandemics and possible restrictions to individual liberties, public health research, screening and obesity policy should also be considered. This volume includes a diverse set of papers exploring a number of the most important theoretical and practical issues that arise across the whole field of the philosophy of public health.

Civil Islam Robert W. Hefner, 2011-05-21 *Civil Islam* tells the story of Islam and democratization in Indonesia, the world's largest Muslim nation. Challenging stereotypes of Islam as antagonistic to democracy, this study of courage and reformation in the face of state terror suggests possibilities for

democracy in the Muslim world and beyond. Democratic in the early 1950s and with rich precedents for tolerance and civility, Indonesia succumbed to violence. In 1965, Muslim parties were drawn into the slaughter of half a million communists. In the aftermath of this bloodshed, a New Order regime came to power, suppressing democratic forces and instituting dictatorial controls that held for decades. Yet from this maelstrom of violence, repressed by the state and denounced by conservative Muslims, an Islamic democracy movement emerged, strengthened, and played a central role in the 1998 overthrow of the Soeharto regime. In 1999, Muslim leader Abdurrahman Wahid was elected President of a reformist, civilian government. In explaining how this achievement was possible, Robert Hefner emphasizes the importance of civil institutions and public civility, but argues that neither democracy nor civil society is possible without a civilized state. Against portrayals of Islam as inherently antipluralist and undemocratic, he shows that Indonesia's Islamic reform movement repudiated the goal of an Islamic state, mobilized religiously ecumenical support, promoted women's rights, and championed democratic ideals. This broadly interdisciplinary and timely work heightens our awareness of democracy's necessary pluralism, and places Indonesia at the center of our efforts to understand what makes democracy work.
