**Time, Temporality and Violence in International Relations** Anna M. Agathangelou, Kyle D. Killian, 2016-03-02 Time transforms the way we see world politics and insinuates itself into the ways we act. In this groundbreaking volume, Agathangelou and Killian bring together scholars from a range of disciplines to tackle time and temporality in international relations. The authors – critical theorists, artists, and poets – theorize and speak from the vantage point of the anticolonial, postcolonial, and decolonial event. They investigate an array of experiences and structures of violence – oppression, neocolonization, slavery, war, poverty and exploitation – focusing on the tensions produced by histories of slavery and colonization and disrupting dominant modes of how we understand present times. This edited volume takes IR in a new direction, defatalizing the ways in which we think about dominant narratives of violence, ‘peace’ and ‘liberation’, and renewing what it means to decolonize today’s world. It challenges us to confront violence and suffering and articulates another way to think the world, arguing for an understanding of the ‘present’ as a vulnerable space through which radically different temporal experiences appear. And it calls for a disruption of the everyday politics of expediency in the guise of neoliberalism and security. This volume reorients the ethical and political assumptions that affectively, imaginatively, and practically captivate us, simultaneously unsettling the familiar, but dubious, promises of a modernity that decimates political life. Re-animating an international political, the authors evoke people’s struggles and movements that are neither about redemption nor erasure, but a suspension of time for radical new beginnings.

**South Koreans in the Debt Crisis** Jesook Song, 2009-08-18 South Koreans in the Debt Crisis is a detailed examination of the logic underlying the neoliberal welfare state that South Korea created in response to the devastating Asian Debt Crisis (1997–2001). Jesook Song argues that while the government proclaimed that it would guarantee all South Koreans a minimum standard of living, it prioritized assisting those citizens perceived as embodying the neoliberal ideals of employability, flexibility, and self-sufficiency. Song demonstrates that the government was not alone in drawing distinctions between the “deserving” and the “undeserving” poor. Progressive intellectuals, activists, and organizations also participated in the neoliberal reform project. Song traces the circulation of neoliberal concepts throughout South Korean society, among government officials, the media, intellectuals, NGO members, and educated underemployed people working in public works programs. She analyzes the embrace of partnerships between NGOs and the government, the frequent invocation of a pervasive decline in family values, the resurrection of conservative gender norms and practices, and the promotion of entrepreneurship as the key to survival. Drawing on her experience during the crisis as an employee in a public works program in Seoul, Song provides an ethnographic assessment of the efforts of the state and civilians to regulate social insecurity, instability, and inequality through assistance programs. She focuses specifically on efforts to help two populations deemed worthy of state subsidies: the “IMF homeless,” people temporarily homeless but considered employable, and the “new intellectuals,” young adults who had become professionally redundant during the crisis but had the high-tech skills necessary to lead a transformed post-crisis South Korea.

**Living on Your Own** Jesook Song, 2014-04-01 An ethnography of young, single women struggling to live independently in South Korea. Living on Your Own is an ethnography of young, single women in South Korea who seek to live independently. Using extensive interviews, along with media analysis and archival research, Jesook Song traces the women’s difficulties in achieving residential autonomy. Song exposes the clash between the women’s burgeoning desire for independent lives and the ongoing incursion of traditional, conservative family ideology and marriage pressure into housing practices and financial

institutions. She pays particular attention to the Korean rent system and the reliance on lump-sum cash even for basic subsistence, which promotes tight control of young adults' lives by family and kinship networks. The young women whose voices feature prominently in this book are a prototype of global youth in crisis: caught between aspirations for the self-development and flexible lifestyle championed by globalizing media and communication technology and the reality of their position as flexible labor in a neoliberal economy.

**Law and the Health System** Lawrence Ogalthorpe Gostin, Peter D. Jacobson, 2006 This casebook is a spin-off publication from Law, Science and Medicine, Third Edition and has extensive notes and comments and presents the life-changing attributes of contemporary medical and public health advances within an interdisciplinary context. Law and the Health System combines health law and public health into one volume and exposes students to a variety of disciplines that govern the interaction among law, science, and medicine.

*Pharmacovigilance for Herbal and Traditional Medicines* Joanne Barnes, 2022-08-11 This remarkable new book is the first text dedicated to the topic of pharmacovigilance for herbal and traditional medicines. Taking a truly global perspective, this volume draws together contributions from a diverse group of experts, writing on current knowledge and practices in pharmacovigilance for herbal and traditional medicines, and on advances and innovation in monitoring the safety of this unique and complex category of products and preparations. In part one, the book discusses the current status of pharmacovigilance for herbal and traditional medicines, including the importance of natural products chemistry to harms, and its relevance in considering how pharmacovigilance for these products could be undertaken. Several other chapters discuss methodological approaches and ongoing challenges in pharmacovigilance for herbal and traditional medicines, including issues relating to nomenclature, coding and classification, and the nuances involved in causality assessment. Part two of the book focusses on pharmacovigilance for herbal and traditional medicines around the world, with chapters from authors in several different countries representing diverse historical, ethnic, cultural, social and political contexts. These chapters provide deeper insights and perspectives into spontaneous reporting for herbal and traditional medicines in those countries, and in the context of the local use, practice and regulatory landscape for these products. Part two also provides an overview and new analysis of international case safety reports for herbal medicines held in VigiBase (the World Health Organization's global database of individual case safety reports, maintained by the Uppsala Monitoring Centre). This book is aimed at pharmacists, doctors, nurses and other health professionals, herbal-medicine practitioners and organisations, herbal medicine and pharmaceutical industry personnel, pharmacovigilance specialists, medicines' regulators, health and social science researchers and academics, pharmacovigilance and health professional students, and students of herbal and traditional medicine, throughout the world. It is an extremely valuable resource for all individuals whose work touches the intersection between herbal medicines and pharmacovigilance, and it provides both an introduction to the topic and a deeper, comprehensive, contemporary account of the topic.

**Glazed America** Paul R. Mullins, 2008-09-07 Everybody loves a good doughnut. The magic combination of soft dough, hot oil, and sugar coating--with or without sprinkles--inspires a wide range of surprisingly powerful memories and cravings. Yet we are embarrassed by our desire; the favorite food of Homer Simpson, caricatured as the dietary cornerstone of cops, a symbol of our collective descent into obesity, doughnuts are, in the words of one California consumer, a food of shame. Paul Mullins turns his attention to the simple doughnut in order to learn more about North American culture and society. Both a breakfast staple and a snack to eat any time of day or night, doughnuts cross lines of gender, class, and race like no other food item. Favorite doughnut shops that were once neighborhood institutions remain unchanged--even as their surrounding neighborhoods have morphed into strip clubs, empty lots, and abandoned housing. Blending solid scholarship with humorous insights, Mullins offers a look into doughnut production, marketing, and consumption. He confronts head-on the question of why we often paint doughnuts in moral terms, and shows how the seemingly simple food reveals deep and complex social conflicts over body image and class structure. In Mullins's skillful hands, this simple pastry provides surprisingly compelling insights into our eating habits, our identity, and modern consumer culture.

Airborne Particulate Matter R M Harrison, R E Hester, Xavier Querol, 2016-08-18 The estimated health impacts and associated economic costs resulting from airborne particulate matter are substantial. Exposure to airborne fine particles ranks highly amongst preventable causes of disease. This book reviews the sources and atmospheric processes affecting airborne particulate matter and consequent impacts upon human health. Examining the latest information on the sources of particles in the atmosphere, both through direct emissions and atmospheric formation, the book also explores the methods which are used to estimate the contributions of different sources to airborne concentrations. Featuring case studies from recent assessments in Europe, the USA, China and India, the book provides a global overview of source apportionment. The health effects are reviewed in the context of the influence of sources, chemical composition and particle size upon relative toxicity. This comprehensive book is an important reference for policymakers and consultants working with pollution and human health, as well as academics working in atmospheric chemistry.

**Vibrational Spectroscopy with Neutrons** Philip Charles Harry Mitchell, 2005 Inelastic neutron scattering (INS) is a spectroscopic technique in which neutrons are used to probe the dynamics of atoms and molecules in solids and liquids. This book is the first, since the late 1960s, to cover the principles and applications of INS as a vibrational-spectroscopic technique. It provides a hands-on account of the use of INS, concentrating on how neutron vibrational spectroscopy can be employed to obtain chemical information on a range of materials that are of interest to chemists, biologists, materials scientists, surface scientists and catalyst researchers. This is an accessible and comprehensive single-volume primary text and reference source.

**Securing Japan** Richard J. Samuels, 2011-07-07 For the past sixty years, the U.S. government has assumed that Japan's security policies would reinforce American interests in Asia. The political and military profile of Asia is changing rapidly, however. Korea's nuclear program, China's rise, and the relative decline of U.S. power have commanded strategic review in Tokyo just as these matters have in Washington. What is the next step for Japan's security policy? Will confluence with U.S. interests—and the alliance—survive intact? Will the policy be transformed? Or will Japan become more autonomous? Richard J. Samuels demonstrates that over the last decade, a revisionist group of Japanese policymakers has consolidated power. The Koizumi government of the early 2000s took bold steps to position Japan's military to play a global security role. It left its successor, the Abe government, to further define and legitimate Japan's new grand strategy, a project well under way-and vigorously contested both at home and in the region. Securing Japan begins by tracing the history of Japan's grand strategy—from the Meiji rulers, who recognized the intimate connection between economic success and military advance, to the Konoye consensus that led to Japan's defeat in World War II and the postwar compact with the United States. Samuels shows how the ideological connections across these wars and agreements help explain today's debate. He then explores Japan's recent strategic choices, arguing that Japan will ultimately strike a balance between national strength and national autonomy, a position that will allow it to exist securely without being either too dependent on the United States or too vulnerable to

threats from China. Samuels's insights into Japanese history, society, and politics have been honed over a distinguished career and enriched by interviews with policymakers and original archival research. *Securing Japan* is a definitive assessment of Japanese security policy and its implications for the future of East Asia.

**The New Real** Jonathan E. Abel, 2023-01-31 Unlocking a vital understanding of how literary studies and media studies overlap and are bound together A synthetic history of new media reception in modern and contemporary Japan, *The New Real* positions mimesis at the heart of the media concept. Considering both mimicry and representation as the core functions of mediation and remediation, Jonathan E. Abel offers a new model for media studies while explaining the deep and ongoing imbrication of Japan in the history of new media. From stereoscopy in the late nineteenth century to emoji at the dawn of the twenty-first, Abel presents a pioneering history of new media reception in Japan across the analog and digital divide. He argues that there are two realities created by new media: one marketed to us through advertising that proclaims better, faster, and higher-resolution connections to the real; and the other experienced by users whose daily lives and behaviors are subtly transformed by the presence and penetration of the content carried through new media. Intervening in contemporary conversations about virtuality, copyright, copycat violence, and social media, each chapter unfolds with a focus on a single medium or technology, including 3D photographs, the phonograph, television, videogames, and emoji. By highlighting the tendency of the mediated to copy the world and the world to copy the mediated, *The New Real* provides a new path for analysis of media, culture, and their function in the world.

*The Politics of War Memory in Japan* Kamila Szczepanska, 2014-05-09 Since the 1990s, questions of Japanese wartime conduct, apologies for aggression, and compensation to former victims of the country's imperial policies, have been brought to the fore of national and regional politics. The state is undoubtedly the most important actor in the process of memory production and along with conservative legislators and the grass-root revisionist movement there has been a consistent trend towards denying or undermining the existing acknowledgments of responsibility for Japan's wartime past. However, to fully comprehend war memory in Japan, due attention must be paid to competing discourses that demand an alternative view, and only then can the complexity of Japanese war memory and attitudes towards the legacies of the Asia-Pacific war be understood. *The Politics of War Memory in Japan* examines the involvement of five civil society actors in the struggle over remembering and addressing the wartime past in Japan today. In studying progressive war memory activists, it quickly becomes clear that the apologia by conservative politicians cannot be treated as representative of the opinion of the majority of the Japanese public. Indeed, this book seeks to remedy the disparity between studies devoted to the official level of addressing the 'history issue' and the grass-root historical revisionist movement on the one side, and progressive activism on the other. Furthermore, it contributes to scholarly debates on the state of civil society in Japan, challenging the characterisation of Japanese civil society as a depoliticised space by demonstrating a more contentious side of civil society activism. Drawing important new empirical research, this book will be of huge interest to students and scholars of Japanese civil society, Japanese politics, Japanese history and memory in Japan.

**Innovation Nation** Carin Holroyd, Kenneth Coates, 2007-11-13 This book explores the nature of innovation in Japan. It begins with an analysis of Japan's current situation, focusing on the business environment, the economy and contemporary political conditions, and examines how the country is addressing its most pressing and substantial issues, as well as providing a compelling introduction to Japan's innovation and an assessment of the country's approach to technology, administration, education, and corporate and political change in an age of globalization and economic transformation.

BRUNN, both of the University of Kentucky, USA Worlds of Electronic Commerce attempts to capture the enormous international impact of the recent explosion in information and communication technologies. It stands alone as the first book to tackle the major economic, social, and political issues that electronic commerce raises from interdisciplinary and international perspectives. References to rapid developments in these fields are drawn from the United States, United Kingdom, Netherlands, Japan, Singapore, Australia, Russia, and the developing world. The implications of these developments on consumer behaviour, existing and new firms, regulatory agencies, and interstate economic development are also discussed. In summary, the book presents an excellent background for those wanting scholarly treatments of (a) the background of e-commerce, (b) the growing importance of Information and Communication Technologies, and (c) case studies related to specific services making use of e-commerce.
