*English Medium Instruction in Higher Education in Asia-Pacific* Ben Fenton-Smith,Pamela Humphreys,Ian Walkinshaw,2017-03-19 This volume draws together the viewpoints and research findings of leading scholars and informed local practitioner-researchers throughout Asia-Pacific about the issues and challenges of English as a medium of instruction (EMI) at higher education institutions in that region. Specifically, it addresses four key themes: Macro-level EMI policy and practice; institutional implications for pedagogy; stakeholder perceptions of EMI; and challenges of interpersonal interaction in EMI contexts. The book is among the first to critically examine the emerging global phenomenon of English as a medium of instruction, and the first title to exclusively explore Asia-Pacific tertiary contexts. It will be of particular interest to policy-makers in international education and tertiary educators seeking blueprints for practice, as well as scholars and postgraduate students of English as a lingua franca, English for academic purposes, academic language and learning, and language education in Asia-Pacific.

*Training Analysis and Feedback Aids (TAAF Aids) Study for Live Training Support* Bill R. Brown,1998 Maneuver Combat Training Center (CTC) and home station requirements for exercise control and training feedback are intensive. With the advent of battlefield digitization; tactical decision aids; smart, intelligent, and brilliant munitions; advances in non-lethal weapons, and new reconnaissance, surveillance, and target acquisition (RSTA) systems, the workload for trainers continues to spiral. Force modernization is creating new control and feedback tasks that have the potential to rob trainers of time they would otherwise spend observing, coaching, and facilitating the learning of exercise players. This study: (1) Identifies the impact of force modernization on future exercise control and training feedback functions. (2) Identifies tasks involved in after-action review (AAR) preparation, observer/controller (OC) coordination and mentoring, and take-home package construction. (3) Provides strategies to reduce OC and Training Analysis Facility (TAF) workload. (4) Identifies payoffs in task reduction achieved by each strategy. (5) Does not provide technical solutions or analysis of task criticality, complexity, duration, or frequency for trainer tasks.--DTIC.

*Global Challenges for Identity Policies* E. Whitley,G. Hosein,2016-01-18 The goals of this book are to provide a comprehensive review of identity policies as they are being implemented in various countries around the world, to consider the key arenas where identity policies are developed and to provide intellectual coherence for making sense of these various activities.

**Leadership Peruvian Style** Tim McIntosh,2012-01-05 Leadership across cultural borders is the new frontier in leadership studies. Increased globalization means leaders are dealing with a variety of cultures in and out of their own countries. Leaders must be experts in understanding what cultural dimensions mean for being effective outside their own comfort zone. Americans in particular are often ill-equipped to understand the cultural complexities for international leadership. In *Leadership Peruvian Style*, author Tim McIntosh addresses how Peruvians define and practice leadership, providing a model to assist the cross-cultural worker in understanding leadership in both the home and host cultures. McIntosh's findings are based in an empirical study conducted in 2008 that featured focus groups composed of Peruvian citizens. The study results described in *Leadership Peruvian Style* are not only important for those working in Peru and other parts of Latin America, but also give insight into how to analyze the leadership profile of a particular culture and, in turn, make adjustments in order to be more effective. Through this analysis, McIntosh, who has spent twenty-seven years in leadership in Peru, has contributed to the raising up of a new generation of effective leaders in Latin America.

**Strategies for Teaching Learners with Special Needs** Edward A. Polloway, James R. Patton, Loretta Serna, 2008 Revised to incorporate important new information about No Child Left Behind and the 2004 re-authorization of IDEA, this classic work in the field of teaching methodology for students with special needs continues to be the most comprehensive textbook available for students with mild/high incidence disabilities (i.e., learning disabilities, mild retardation/intellectual disabilities, emotional and behavioral disorders, and students experiencing learning problems in the general education classroom). The focus of the book is on effective instructional strategies for students being served in diverse educational settings, with a primary emphasis on those being taught in inclusive educational environments. For educators teaching learning disabled students.

**Professional Learning in the Knowledge Society** Karen Jensen, Leif Chr. Lahn, Monika Nerland, 2012-10-20 This book presents an entirely new approach to professional learning based on perspectives of the knowledge society and, in particular, an interpretation of Knorr Cetina's work on scientific 'epistemic cultures'. Starting with a conceptual chapter and followed by a suite of empirical studies from accountancy, education, nursing and software engineering, the book elaborates how: a) knowledge production and circulation take distinct forms in those fields; b) how the knowledge objects of practice in those fields engross and engage professionals and, in the process, people and knowledge are transformed by this engagement. By foregrounding an explicit concern for the role of knowledge in professional learning, the book goes much farther than the current fashion for describing 'practice-based learning'. It will therefore be of considerable interest to the research, policy, practitioner and student communities involved with professional education/learning or interested in innovation and knowledge development in the professions.

**Research and Development on Genetic Resources** Evanson Chege Kamau, Gerd Winter, Peter-Tobias Stoll, 2015-06-05 National implementation of the Convention on Biological Diversity (CBD) provisions has yielded enough challenges for providers and users of genetic resources and associated traditional knowledge alike. The Nagoya Protocol brings novel ideas for resolving the challenges plaguing the Access and Benefit-Sharing (ABS) process in general and non-commercial research in particular. This is one of the first books to address research cooperation and facilitated access for non-commercial biodiversity research. It uniquely offers concrete and practicable solutions based on experiences of researchers and administrative officials with ABS, and on the interpretation of the Nagoya Protocol on how free and lively taxonomic research can be ensured while at the same time observing obligations of obtaining prior informed consent and sharing of benefits. This book will be useful to students of International Environmental Law, International Biodiversity Law, Intellectual Property Law, Climate Law and Law of Indigenous Populations. With foreword from Executive Secretary CBD, Bráulio Ferreira de Souza Dias.
