INTERNATIONAL DEBATE EDUCATION ASSOCIATION

🔍 **PRAIRIE BACHELOR** Lynda Beck Fenwick,2020-12-08 The People’s Party, the most successful third party in America’s history, emerged from the Populist Movement of the late 1800s. And of the People’s Party, there was perhaps no more exemplary proponent than homesteader Isaac Beckley Werner of Stafford County, Kansas. Very much a man of his community, Werner contributed columns to the County Capital and other Kansas newspapers, spoke at the county seat, regularly attended Populist lectures, and—most fortunately for posterity—from 1884 until a few years before his death in 1895, kept a journal reporting on the world around him and noting the advice of Henry Ward Beecher. With this journal as a starting point, Isaac Beckley Werner, *Prairie Bachelor*, becomes an eloquent guide to the practical, social, and political realities of rural life in late nineteenth-century Kansas. In this portrait Lynda Beck Fenwick finds the Populist thinking that would eventually take hold in numerous ways, big and small, in American life—and would make a mark the imprint of which can be seen in the nation’s political culture to this day. Expanding her search to local cemeteries, courthouses, museums, and fields where homesteaders once staked their claims, Fenwick reveals a farming community much denser than today’s, where Prohibition, women’s rights, and income inequality were shared concerns, and where enduring problems, like substance abuse, immigration, and racial bias, made an early appearance. The Populist Movement both arose from and focused upon these issues, as Werner’s journal demonstrates; and in his world of farmers, small-town businessmen, engaged women, and working people, Fenwick’s *Prairie Bachelor* shows us the provenance and lived reality of a rural populism that would forever alter the American political scene.

🔍 **RISK** General Stanley McChrystal,Anna Butrico,2021-10-05 From the bestselling author of *Team of Teams* and *My Share of the Task*, an entirely new way to understand risk and master the unknown. Retired four-star general Stan McChrystal has lived a life associated with the deadly risks of combat. From his first day at West Point, to his years in Afghanistan, to his efforts helping business leaders navigate a global pandemic, McChrystal has seen how individuals and organizations fail to mitigate risk. Why? Because they focus on the probability of something happening instead of the interface by which it can be managed. In this new book, General McChrystal offers a battle-tested system for detecting and responding to risk. Instead of defining risk as a force to predict, McChrystal and coauthor Anna Butrico show that there are in fact ten dimensions of control we can adjust at any given time. By closely monitoring these controls, we can maintain a healthy Risk Immune System that allows us to effectively anticipate, identify, analyze, and act upon the ever-present possibility that things will not go as planned. Drawing on examples ranging from military history to the business world, and offering practical exercises to improve preparedness, McChrystal illustrates how these ten factors are always in effect, and how by considering them, individuals and organizations can exert mastery over every conceivable sort of risk that they might face. We may not be able to see the future, but with McChrystal’s hard-won guidance, we can improve our resistance and build a strong defense against what we know—and what we don’t.

🔍 **STRANGLING AUNTY: PERILOUS TIMES FOR THE AUSTRALIAN BROADCASTING CORPORATION** Virginia Small,2021-09-24 Drawing on a wealth of academic research, statistics and interviews with key Australian media people including present and former Australian Broadcasting Corporation staffers, this book explores the transitions of the ABC under various types of organisational re-strategising, governance and political shifts. The book provides the reader with an authoritative narrative as to how the ABC has lost its iconic status in Australian society, and unfolds how the ABC has strayed from its respected public charter which endowed the ABC with a distinctive and important role in informing, educating and entertaining the Australian public. Successive federal government funding cuts have shrunk staffing levels and services while it has pursued a corporatist model that mimics the trappings and practices of commercial media. In that process it has become politicised and trivialised, thereby threatening its demise. The book is a unique and timely contribution at a time of dwindling interest for the funding of public assets everywhere. There is no other book in the market that addresses the decline of the organisation (the ABC) and analyses the reasons for its demise within an organisational theoretical framework. The book is written for an educated general audience, with academics and media practitioners specifically in mind, and has everyday applications for business organisations operating in the public sector by bringing together important findings of public funding, budgets, management and organisational strategies and evolution.
