### **Islamist Insurgents on the Defensive** Dave

Dilegge, 2018-02-28 This work is the fourth Small Wars Journal anthology focusing on radical Sunni Islamic terrorists and insurgent groups. It covers this professional journals writings for 2016 and is a compliment to the earlier Global Radical Islamist Insurgency anthologies that were produced as Vol. I: 20072011 (published in 2015) and Vol. II: 20122014 (published in 2016) and Jihadi Terrorism, Insurgency, and the Islamic State spanning 2015 (published in 2017). This anthology, which offers well over six hundred pages of focused analysis, follows the same general conceptual breakdown as the earlier works and is divided into two major thematic sectionsone focusing on al-Qaeda and Islamic state activities in 2016 and the other focusing on US Allied policies and counterinsurgent strategies.

Foreign Policy in Iran and Saudi Arabia Robert Mason, 2014-12-22 Saudi Arabia, with its US alliance and abundance of oil dollars, has a very different economic story to that of Iran, which despite enormous natural gas reserves, has been hit hard by economic, trade, scientific and military sanctions since its 1979 revolution. Robert Mason looks at the effect that economic considerations (such as oil, gas, sanctions, trade and investment) have on foreign policy decision-making processes and diplomatic activities. By examining the foreign policies of Saudi Arabia and Iran towards each other, and towards the wider Middle East and beyond, Mason seeks to highlight how oil policy, including oil production, pricing

and security of supply and demand, is the paramount economic factor which drives the diplomacy and rivalry of these two pivotal regional powers. By comparing the foreign policy of Saudi Arabia and Iran towards the international community and the US in particular, Mason presents the very different economic and political trajectories of these two countries. In the case of Saudi Arabia, it has long been oil which has given the country importance both within the region and on an international scale. This has made it a vital ally for the West, which culminated in the stationing of US troops on Saudi soil in the run up to the Gulf War of 1991. In contrast, Iran's 'resistance' strategy has, rather than concentrating on relationships with the West, instead looked to a number of other players, such as those in Central Asia and Latin America. Mason uses the Saudi and Iranian cases to illustrate the combination of ideological, geo-strategy and economic resources that have insulated these two regimes against internal and external pressures and resulted in their dominance in the regional system. By concentrating on the economic factors in alliance building and alliance deconstruction, Mason offers vital analysis for researchers of international relations in the Middle East and the processes involved in the formation of foreign policy.

### **Masters of the Universe, Slaves of the Market**

Stephen Bell, 2015-03-09 Stephen Bell and Andrew Hindmoor compare banking systems in the U.S. and UK to those of Canada and Australia and explain why the system imploded in the former but not the

latter. Canadian and Australian banks were able to make profits through traditional lending practices, unlike their competition-driven, risk-taking U.S. and UK counterparts.

### **La sporca guerra contro la Siria** Tim

Anderson, 2017-10-20 In Siria si cerca di eliminare un regime tramite l'intervento di mercenari e di sedicenti ribelli che si sono dimostrati essere degli spietati assassini. Questo libro rivela il modo in cui sono stati invertiti i ruoli, confermando il fatto che la verità è sempre la prima vittima di ogni guerra.

### *Environmental Geography* Leslie A.

Duram, 2018-10-01 Explores the complex relationship humans have with the environment. It is one of both responsibility—including the sustainable or unsustainable management of natural resources—and emotion, like the elation gleaned from a beautiful landscape or the devastation experienced from a natural disaster. Human-induced damage to the environment has widespread consequences for Earth and its inhabitants that have already included sea level rise, increased wildlife extinctions, heatwaves, droughts, intensified air pollution, and water shortages. This book provides comprehensive coverage of the complex interactions between people and the environment. It presents three clear, honest, and down-to-earth essays that cover the devastating impact humans have on the environment; the equally devastating impact the environment has on humans at times; and the positive impact that increasing awareness of our effect on the planet is having on the movement to create a more sustainable future. In addition, in-

depth entries on 60 key environmental geography terms, such as deforestation, ecotourism, and environmental justice, provide a deeper dive into the topic; 15 real-world case studies on topics like the Great Pacific Garbage Patch and the Great Green Wall of Africa illustrate geography in action; and 10 brief spotlights from around the world draw the reader in with relevant facts.

*Recent Trends in Industrial and Production Engineering* Avanish Kumar Dubey, Anish Sachdeva, Munish Mehta, 2021-07-23 This book presents the select proceedings of the International Conference on Advances in Sustainable Technologies (ICAST 2020), organized by Lovely Professional University, Punjab, India. This book caters to the industrial and production engineering aspects. It covers the industrial and production engineering areas such as sustainable manufacturing systems, decision sciences, supply chain management, Just in Time (JIT), logistics and supply chain management, rapid prototyping and reverse engineering, quality control and reliability, six sigma, smart manufacturing, time and motion study, six sigma, ergonomics, operations management, manufacturing management, metrology, manufacturing process optimization, machining and machine tools, casting, welding, and forming. This book will be useful for industry professionals and researchers working in the area of mechanical engineering, especially industrial and production engineering.

Advanced Materials from Recycled Waste Sarika Verma, Raju Khan, Medha Mili, S.A.R. Hashmi, Avanish Kumar Srivastava, 2022-08-24 Advanced Materials

from Recycled Waste examines the structural components of waste and looks at how best to transform those waste materials into advanced materials that can be utilized for high-end applications. Sections explore what is meant by Waste – looking at what are the sources, types of waste, and the management techniques and three sections dealing with specific types of waste materials, including Industrial, Agricultural and Plastics/Polymers. Classification, characterization, utilization of, physical and mechanical properties, and design and development are explored for each of these materials. Each section concludes with a review of the challenges and future prospects for their utilization. This book will be a vital resource for a broad audience interested in the reuse of waste materials, including materials scientists and materials engineers in industry involved in the recycling, reuse and reclamation of materials and industrial byproducts, and some more general environmental scientists and engineers involved in sustainable development. Focuses on various types of wastes and their sources and compounds Outlines the chemical constituents and mineralogical phases present in waste which could be exploited to design and develop advanced materials Takes a multidisciplinary approach to the management of waste Presents the bulk utilization of current waste application technologies to enable the implementation of newer strategies to produce various other materials that are useful for a broad application spectrum

The Land Question in India Anthony P.

D'Costa, Achin Chakraborty, 2017-04-06 This volume takes a fresh look at the land question in India. Instead of re-engaging in the rich transition debate in which the transformation of agriculture is seen as a necessary historical step to usher in dynamic capitalist (or socialist) development, this collection critically examines the centrality of land in contemporary development discourse in India. Consequently, the focus is on the role of the state in pushing a process of dispossession of peasants through direct expropriation for developmental purposes such as acquisition of land by (local) states for infrastructure development and to support accumulation strategies of private business through industrialization. Land in India is sought for non-agricultural purposes such as purchasing land to reduce risk and real estate development. Land is also central to tribal communities (adivasis), whose livelihoods depend on it and on a moral economy that is independent of any price-driven markets. Adivasis tend to hold on to such property, not as individual owners for profit, but for collective security and to protect a way of life. Thus land, notwithstanding its role in the accumulation process, has been, and continues to be, a turbulent arena in which classes, castes, and communities are in conflict with each other, with the state, and with capital, jockeying to determine the terms and conditions of land transactions or their prevention, through both market and non-market mechanisms. The volume goes beyond the traditional political economy of the agrarian transition question, and deals with, inter alia, distributional conflicts arising from

acquisition of land by the state for capital accumulation on the one hand and its commodification on the other. It provides new analytical insights into the land acquisition processes, their legal-institutional and ethical implications, and the multifaceted regional diversity of acquisition experiences in India.

*Bihar and Mithila* J. Albert

Rorabacher, 2016-09-13 The world has become obsessed with the Western notions of progress, development, and globalization, the latter a form of human and economic homogenization. These processes, through the aegis of the United Nations, are comparatively monitored. Those nations deemed to be 'lagging behind' are then provided with foreign aid and developmental assistance. For nearly seventy years, India has sought its place in this global endeavour; yet, even today, abject poverty and backwardness can be observed in districts in almost every state; with the highest concentration of such districts found in the state of Bihar and a cultural enclave, known as Mithila. Development in India has been elusive because it is difficult to define; and because the Western concepts of development and progress have no absolute equivalents within many non-Western settings. As a consequence, development programmes often fail because they are unable to ask the right questions, but equally important is the political economy derived from foreign aid. For politicians, there is no long-term benefit to be derived from successful development. In general, foreign aid only serves to corrupt governments and politicians and, in the

end, does very little for those who need help. The struggling states of Bihar and Mithila serve as extreme examples of India's problems. Development here has been thwarted by a hereditary landed aristocracy supported by religion, casteism, custom, social stratification, tradition, and patterns of behaviour that can be traced back millennia. In turn, all these have been masterfully manipulated by co-opted politicians, who have turned politics into a veritable art form as this volume comprehensively demonstrates.

**Nanostructured Magnetic Materials** Sathish-Kumar Kamaraj, Arun Thirumurugan, Sebastián Díaz de la Torre, Suresh Kannan Balasingam, Shanmuga Sundar Dhanabalan, 2023-08-21 Functionalized magnetic nanomaterials are used in data storage, biomedical, environmental, and heterogeneous catalysis applications but there remain developmental challenges to overcome.

**Nanostructured Magnetic Materials:**  
Functionalization and Diverse Applications covers different synthesis methods for magnetic nanomaterials and their functionalization strategies and highlights recent progress, opportunities, and challenges to utilizing these materials in real-time applications. Reviews recent progress made in the surface functionalization of magnetic nanoparticles Discusses physico-chemical characterization and synthesis techniques Presents the effect of the external magnetic field Details biological, energy, and environmental applications as well as future directions This reference will appeal to researchers, professionals, and advanced students

in materials science and engineering and related fields.

**Redefining Genocide** Damien Short, 2016-06-15 In this highly controversial and original work, Damien Short systematically rethinks how genocide is and should be defined. Rather than focusing solely on a narrow conception of genocide as direct mass-killing, through close empirical analysis of a number of under-discussed case studies – including Palestine, Sri Lanka, Australia and Alberta, Canada – the book reveals the key role played by settler colonialism, capitalism, finite resources and the ecological crisis in driving genocidal social death on a global scale.

**Telecommunications Law and Practice in Nigeria** Otu Enyia, 2019-07-22 Telecommunications Law and Practice in Nigeria -Perspectives on Consumer Protection is intended primarily to provide an indigenous source of information on the theoretical and legal framework of the regulation of telecommunications in Nigeria with respect to how such legal framework assists in addressing the consumers problems in the field of telecommunications. The book covers the evolution of telecommunications the world over and its variant in Nigeria, a variety of issues including the early controlling organs, regulatory regimes, the deregulation era, interconnectivity and privacy law, telecommunications and intellectual property, international trade and drafting of international trade contracts, encryption technology and privacy in telecommunications. The book should be an invaluable companion on the

Nigerian telecommunications law and practice with perspectives on consumer protection.

**Indian Social Work** Bishnu Mohan Dash, Mithilesh Kumar, D. P. Singh, Siddheshwar Shukla, 2020-09-30  
This book provides multiple frameworks and paradigms for social work education which integrates indigenous theories and cultural practices. It focuses on the need to diversify and reorient social work curriculum to include indigenous traditions of service, charity and volunteerism to help social work evolve as a profession in India. The volume analyzes the history of social work education in India and how the discipline has adapted and changed in the last 80 years. It emphasizes the need for the Indianization of social work curriculum so that it can be applied to the socio-cultural contours of a diverse Indian society. The book delineates strategies and methods derived from meditation, yoga, bhakti and ancient Buddhist and Hindu philosophy to prepare social work practitioners with the knowledge, and skills, that will support and enhance their ability to work in partnership with diverse communities and indigenous people. This book is essential reading for teachers, educators, field practitioners and students of social work, sociology, religious studies, ancient philosophy, law and social entrepreneurship. It will also interest policy makers and those associated with civil society organizations.

How Realist Is India's National Security Policy?  
Kanti Bajpai, 2023-03-30 In managing national security, how Realist is India in terms of cultivating and using power and especially

military power? A conventional view of India is that it has been uncomfortable with realism or 'power politics' as a guide to policy. This volume shows that it has been more realist than is generally recognized and that it has increasingly become comfortable with power in the service of its interests. The essays in this volume Examine the different aspects and types of realism in India's national security policy Include a range of perspectives from academics as well as former military officers and diplomats Focus on India's military and foreign policy in dealing with China, Pakistan, the United States, Southeast Asia, and West Asia. This key volume will be indispensable to scholars and researchers of politics and international relations, defence and strategic studies, and South Asian studies and to government officials, journalists, and general readers interested in the external dimensions of India's national security.

**Indian Medicinal Plants** Srinath Rao,Akula Ramakrishna,2020-10-26 The demand for medicinal plants is increasing, and this leads to unscrupulous collection from the wild and adulteration of supplies. Providing high-quality planting material for sustainable use and thereby saving the genetic diversity of plants in the wild is important. In this regard, the methods of propagation of some important medicinal plants are provided along with the traditional methods of propagation. Indian Medicinal Plants: Uses and Propagation Aspects offers a unique compendium of more than 270 medicinal plant species from India with detailed taxonomic classifications based on

the Bentham and Hooker system of classification. Salient Features: Provides traditional methods of propagation and discusses the propagation of medicinal plants Presents plant properties, plant parts and chemical constituents Describes the medicinal uses of more than 270 medicinal plant species from India This book is of special interest to practitioners of alternative medicine, students of Ayurveda, researchers and industrialists associated with medical botany, pharmacologists, sociologists and medical herbalists.

**Contemporary Issues in International Law** B.C. Nirmal, Rajnish Kumar Singh, 2018-02-13 This book explores the changing nature of international law and its ability to respond to the contemporary issues related to international environment, trade and information technology. The evolution of international law has reached a stage where we are witnessing diminishing power of the state and its capacity to deal with the economic matters challenging the existing notions of territory and sovereignty. Recent trends in international law and international relations show that states no longer have exclusive control over the decision-making process at the global level. Keeping this in mind, the book brings together the perspectives of various international and national scholars. The book considers diverse issues such as, sustainable development, climate change, global warming, Rio+20, technology transfer, agro-biodiversity and genetic resource, authority for protection of environment, human right to water,

globalization, human rights, sui generis options in IP laws, impact of liberalization on higher education, regulation of international trade, intellectual property rights, collective administration of copyright, broadcast reproduction rights, implementation of copyright law, communication rights under copyright law, arbitration for IP disputes, doctrine of exhaustion of rights, trans-border reputation of trademark, information as an asset, cyber obscenity and pornography, e-governance, taxation of e-commerce, computer crime, information technology, domain names, research excellence in legal education, ideological perspective on legal education, challenges for law teachers, and clinical legal education. The topics, though diverse, are closely interrelated, with the common concern throughout being that the global environment, international trade, information technology and legal education need appropriate national normative and institutional responses as well as the global cooperation of members of the international community. Presenting reflections of a number of Asian, African and European scholars on these varied facets, the book is of great value to scholars, practitioners, teachers and students associated with contemporary international law.

*Business Ethics and Values* Colin M. Fisher, Alan Lovell, 2006 *Business Ethics and Values* introduces students to the complexities and principles of ethical issues by focusing on developing ethical awareness and the ability to argue business ethics matters. A proven resource, the second edition of this text continues to present a successful blend

of concrete issues and academic theory, suitable for undergraduate and postgraduate students with or without practical experience of the world of organisations. It gives as much importance to individual conscience at work as it does to socially responsible behaviour at the corporate level and within the global business world. Hallmark features: Broad coverage of the many issues in this subject ensures that students see the whole picture. The use of real-world case studies and simulations helps to stimulate debate and appreciate the multi-faceted aspects of ethical arguments. New to this edition: New material on the ethics of e-communication, sustainability and the ethical impact of globalisation ensures that students are learning from the most up-to-date material available. Further analysis of Anglo-American approaches to corporate governance and their ethical underpinnings. Short test and assignment questions at the end of each chapter help students to consolidate their learning. More simulation exercises and activities give students the opportunity to reflect on their attitudes to this engaging subject. A well-developed supplements package to support tutors and students includes an instructor's manual, PowerPoint slides and a companion website. Colin Fisher is Professor of Managerial Ethics and Values, Nottingham Business School, Nottingham Trent University. Alan Lovell is Professor of Organisational Accountability and Head of the Department of Accounting, Finance & Economics, Nottingham Business School, Nottingham Trent University.

*El fin del Primer Mundo* David Lizoain Bennett, 2018-01-31 La ultraderecha, los lobbies y Trump quieren que te quedes viendo series sin imaginar un futuro mejor. Mientras, todo lo que garantizaba el bienestar de la gente va desapareciendo. Sin protección social, sin igualdad, sin crecimiento económico, sin sanidad pública, sin trabajo..., ¿vamos a seguir llamándolo Primer Mundo? Como dice Sánchez-Cuenca, "Lizoain ha escrito un libro fundamental para entender los cambios acelerados que se están produciendo en los países desarrollados, el llamado 'Primer Mundo'". No se trata de una crisis económica, sino de la crisis de un modelo global, y con este panorama, ¿quién aspira a vivir tan bien como la generación anterior? Parecería imposible, pero no lo es. La prueba es que vivimos mejor que nunca, y eso es gracias a las conquistas sociales de las generaciones anteriores. Se ha hecho antes y existen muchos argumentos para rechazar el conformismo y apostar por el poder transformador de la política. Esta apuesta empieza por una política ambiciosa que supere las diferencias dentro de la izquierda para afrontar un mal mayor: el fin del Primer Mundo

**My Enemy's Enemy** Avinash Paliwal, 2017-10-15 The archetype of 'my enemy's enemy is my friend', India's political and economic presence in Afghanistan is often viewed as a Machiavellian ploy aimed against Pakistan. The first of its kind, this book interrogates that simplistic yet powerful geopolitical narrative and asks what truly drives India's Afghanistan policy.
