Inquiries about Shi'a Islam Sayed Moustafa Al-qazwini,2017-05-22 This book is one of the many Islamic publications distributed by Mustafa Organization throughout the world in different languages with the aim of conveying the message of Islam to the people of the world. Mustafa Organization is a registered Organization that operates and is sustained through collaborative efforts of volunteers in many countries around the world, and it welcomes your involvement and support. Its objectives are numerous, yet its main goal is to spread the truth about the Islamic faith in general and the Shi`a School of Thought in particular due to the latter being misrepresented, misunderstood and its tenets often assaulted by many ignorant folks, Muslims and non-Muslims. Organization's purpose is to facilitate the dissemination of knowledge through a global medium, the Internet, to locations where such resources are not commonly or easily accessible or are resented, resisted and fought!

The Byzantine Apocalyptic Tradition Paul J. Alexander,2023-11-10 Throughout Christian history, apocalyptic visions of the approaching end of time have provided a persistent and enigmatic theme for history and prophecy. Apocalyptic literature played a particularly important role in the medieval world, where legends of the Antichrist, Gog and Magog, and the Last Roman Emperor were widely circulated. Although scholars have long recognized that a body of Byzantine prophetic literature served as the source for these ideas, the Byzantine textual tradition, its sources, and the way in which it was transmitted to the West have neve been thoroughly understood. For more than fifteen years prior to his death in 1977, Paul J. Alexander devoted his energies to the clarification of the Byzantine apocalyptic tradition. These studies, left uncompleted at his death, trace the development of a textual tradition that passed from Syriac through Greek to Slavonic and Latin literature. Using a combination of philological and historical detection, the author establishes the time, place, and circumstances of composition for each of the major surviving texts, identifying lost works known only through descriptions. In showing how Byzantine prophecy served as a bridge between ancient eschatological works and the medieval West, Alexander demonstrates that apocalyptic literature represents a creative source for the expression of political and religious thought in the medieval world. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1985.

Sonic Politics Olaf Kaltmeier,Wilfried Raussert,2019-05-24 This volume analyses the narration of the social through music and the seismographic function of music to detect social problems and envision alternatives. Beyond state-driven attempts to link musical production to the official narrative of the nation, mass musical movements emerged during the 20th century that provided countercultural and alternative narratives of the prevailing social context. The Americas contain numerous examples of the strong connection between music and politics; Woody Guthrie’s This Land is Your Land envisioned a socialist transformation of the U.S., the Chilean Nueva Canción created a narrative and affective frame for the recognition of popular culture as a central element of the cultural politics of the Chilean way to socialism, and Reggae emerged as a response to British colonialism, drawing inspiration and guidance from the pan-Africanist visions of Marcus Garvey. Providing a significant contribution to the study of music and politics/social movements from an inter-American perspective, this book will appeal to students and scholars of U.S. and Latin American Cultural Studies, Transnational Studies, History and Political Studies, Area Studies, and Music Studies.

Exploring Services Science Mehdi Snene,Jolita Ralyte,Jean-Henry Morin,2011-08-03 This book contains the refereed proceedings of the Second International Conference on Exploring Services Science (IESS) that was held in Geneva, Switzerland, in February 2010. Based on the previous edition and the momentum in this emerging and exciting field, IESS 2011 offered academics, researchers, and practitioners from various disciplines an exploratory platform to communicate and share their results and experiences. The 17 full and 2 short papers accepted for IESS were selected from 47 submissions and cover the whole life cycle of service development (including service innovation, service design, service composition, and service sustainability) as well as the application of services in information technology, businesses, and public administration.

Fighting for Abortion Rights in Latin America Cora Fernández Anderson,2020-05-13 Although they share similar socio-economic and cultural characteristics as well as their recent political histories, Argentina, Chile and Uruguay differ radically in their abortion policies. In this book, Cora Fernández Anderson examines the role social movements play in abortion reform to show how different interaction patterns with state actors have led to three different policy outcomes: comprehensive abortion reform in Uruguay; moderate abortion reform in Chile; and no legal abortion reform in Argentina. Synthesizing a broad range of literature and drawing on in-depth field and archival research, she analyzes the strength of the campaigns for abortion reform, their relationships with leftist parties in power and the context of Church–state relations to explain this diverging trajectory in policy reform. A masterly analysis of how social movements, the power of institutions and Executive preferences have strong explanatory power, *Fighting for Abortion Rights in Latin America* is a perfect supplement for classes on gender and global politics.

A Tale of Two Factions Jane Hathaway,2012-02-01 Winner of the 2003 Ohio Academy of History Outstanding Publication Award This revisionist study reevaluates the origins and foundation myths of the Faqaris and Qasimis, two rival factions that divided Egyptian society during the seventeenth and eighteenth centuries, when Egypt was the largest province in the Ottoman Empire. In answer to the enduring mystery surrounding the factions' origins, Jane Hathaway places their emergence within the generalized crisis that the Ottoman Empire—like much of the rest of the world—suffered during the early modern period, while uncovering a symbiosis between Ottoman Egypt and Yemen that was critical to their formation. In addition, she scrutinizes the factions' foundation myths, deconstructing their tropes and symbols to reveal their connections to much older popular narratives. Drawing on parallels from a wide array of cultures, she demonstrates with striking originality how rituals such as storytelling and public processions, as well as identifying colors and emblems, could serve to reinforce factional identity.

Iraq in the Twenty-First Century Tareq Y. Ismael,Jacqueline S. Ismael,2015-02-20 Much has been written about the events surrounding the 2003 Anglo-American invasion of Iraq and its aftermath, especially about the intentions, principles, plans and course of action of US policy, but much less attention has been given to the consequences of US policy on Iraqi political and social development. This book provides an in-depth analysis of the impact of US policy on the social and political development of Iraq in the twenty-first century. It shows how not just the institutions of the state were destroyed in 2003, leaving the way open for sectarianism, but also the country’s cultural integrity, political coherence, and national-oriented economy. It outlines how Iraq has been economically impoverished, assessing the appalling situation which ordinary people, including women and children, have endured, not just as a result

of the 2003 war, but also as a consequence of the 1991 war and the sanctions imposed in the following years. The book argues that the social, political, and cultural ruin that accompanied the Iraq war was an absolute catastrophe; that the policies which had such adverse effects were the foreseeable consequences of deliberate policy choices; and that those responsible continue to evade being made accountable.

Iraq after the Invasion Saad N. Jawad, 2021-07-03 This book states that one calamitous result of the invasion and occupation of Iraq (2003) was the dismantling of the state and the destruction of all the structures and processes of government. The invading powers, the USA and UK, were obsessed with the removal of the regime of Saddam Hussein, which they regarded a clear danger and a serious threat to their strategies designs and in the region. To justify their atrocity, they trumped up a number of falsehoods and charges, such as the issue of WMD. Before that and over a period of 13 years, they had imposed unprecedented, fierce and relentless sanctions on the country. These sanctions not only impoverished and aggrieved the people of Iraq, but also instilled and deeply etched a sense of pessimistic impassivity among many Iraqis in that they felt no longer cared whatever the future might hold for them. The regime's totalitarian nature also helped in creating this attitude. To add insult to injury, the provisional US-installed administration passed many resolutions which have had catastrophic consequences, such as the total dissolution of the security and armed forces and the de-baathification law. The hurriedly contrived new constitution confounded the situation even further and negatively impacted the integrity of the state. Exploiting the inconclusiveness and ambiguities contained in it, the Iraqi Kurdish Region became a de facto independent entity. In time, the central government became weaker than the regions. The hardest hit in this chaotic state of affairs was national unity. The sectarian and ethnic quota-based policies followed by the occupying forces and the expatriate Iraqis who came along with them dealt successive blows to the laws and institutions of the land which further disintegrated the Iraqi state. Iraq now is in dire need of national reconciliation programme aimed at re-uniting the people and the country.

Food Safety in the 21st Century Puja Dudeja, Rajul K Gupta, Amarjeet Singh Minhas, 2016-09-28 Food Safety in the 21st Century: Public Health Perspective is an important reference for anyone currently working in the food industry or those entering the industry. It provides realistic, practical, and very usable information about key aspects of food safety, while also systematically approaching the matter of foodborne illness by addressing the intricacies of both prevention and control. This book discusses ways to assess risk and to employ epidemiological methods to improve food safety. In addition, it also describes the regulatory context that shapes food safety activities at the local, national, and international levels and looks forward to the future of food safety. Provides the latest research and developments in the field of food safety Incorporates practical, real-life examples for risk reduction Includes specific aspects of food safety and the risks associated with each sector of the food chain, from food production, to food processing and serving Describes various ways in which epidemiologic principles are applied to meet the challenges of maintaining a safe food supply in India and how to reduce disease outbreaks Presents practical examples of foodborne disease incidents and their root causes to highlight pitfalls in food safety management

The Qur'ānic Pagans and Related Matters Patricia Crone, 2016-06-10 Patricia Crone's Collected Studies in Three Volumes brings together a number of her published, unpublished, and revised articles. the present volume pursues the reconstruction of the religious environment in which Islam arose and develops an intertextual approach to studying the Qur'ānic religious milieu.

Anthropology, Theatre, and Development Alex Flynn, Jonas Tinius, 2015-04-21 The contributors explore diverse contexts of performance to discuss peoples' own reflections on political subjectivities, governance and development. The volume refocuses anthropological engagement with ethics, aesthetics, and politics to examine the transformative potential of political performance, both for individuals and wider collectives.

Islam, Science Fiction and Extraterrestrial Life Jörg Matthias Determann, 2020-09-17 The Muslim world is not commonly associated with science fiction. Religion and repression have often been blamed for a perceived lack of creativity, imagination and future-oriented thought. However, even the most authoritarian Muslim-majority countries have produced highly imaginative accounts on one of the frontiers of knowledge: astrobiology, or the study of life in the universe. This book argues that the Islamic tradition has been generally supportive of conceptions of extra-terrestrial life, and in this engaging account, Jörg Matthias Determann provides a survey of Arabic, Bengali, Malay, Persian, Turkish, and Urdu texts and films, to show how scientists and artists in and from Muslim-majority countries have been at the forefront of the exciting search. Determann takes us to little-known dimensions of Muslim culture and religion, such as wildly popular adaptations of Star Wars and mysterious movements centred on UFOs. Repression is shown to have helped science fiction more than hurt it, with censorship encouraging authors to disguise criticism of contemporary politics by setting plots in future times and on distant planets. The book will be insightful for anyone looking to explore the science, culture and politics of the Muslim world and asks what the discovery of extra-terrestrial life would mean for one of the greatest faiths.

Rome, Persia, and Arabia Greg Fisher, 2019-11-27 Rome, Persia, and Arabia traces the enormous impact that the Great Powers of antiquity exerted on Arabia and the Arabs, between the arrival of Roman forces in the Middle East in 63 BC and the death of the Prophet Muhammad in AD 632. Richly illustrated and covering a vast area from the fertile lands of South Arabia to the bleak deserts of Iraq and Syria, this book provides a detailed and captivating narrative of the way that the empires of antiquity affected the politics, culture, and religion of the Arabs. It examines Rome's first tentative contacts in the Syrian steppe and the controversial mission of Aelius Gallus to Yemen, and takes in the city states, kingdoms, and tribes caught up in the struggle for supremacy between Rome and Persia, including the city state of Hatra, one of the many archaeological sites in the Middle East that have suffered deliberate vandalism at the hands of the 'Islamic State'. The development of an Arab Christianity spanning the Middle East, the emergence of Arab fiefdoms at the edges of imperial power, and the crucial appearance of strong Arab leadership in the century before Islam provide a clear picture of the importance of pre-Islamic Arabia and the Arabs to understanding world and regional history. Rome, Persia, and Arabia includes discussions of heritage destruction in the Middle East, the emergence of Islam, and modern research into the anthropology of ancient tribal societies and their relationship with the states around them. This comprehensive and wide-ranging book delivers an authoritative chronicle of a crucial but little known era in world history, and is for any reader with an interest in the ancient Middle East, Arabia, and the Roman and Persian empires.

The Koran George Sale, 2010-10-20 Koran, commonly called the Alcoran of Mohammed, translated into English immediately from the original Arabic; with explanatory notes, taken from the most approved commentators. To which is prefixed a preliminary discourse. By George Sale. The first scholarly translation of the Qur'an into English. Reproduction of 1734 Edition.

Christians and Others in the Umayyad State Antoine Borrut, Fred McGraw Donner, 2016 The papers in this first volume of the new Oriental Institute series LAMINE are derived from a conference entitled Christians, Jews, and Zoroastrians in the Umayyad State, held at the University of Chicago on June 17-18, 2011. The goal of the conference was to address a simple question: Just what role did non-Muslims play in the operations of the Umayyad state? It has always been clear that the Umayyad family (r. 41-132/661-750) governed populations in the rapidly expanding empire that were overwhelmingly composed of non-Muslims - mainly Christians, Jews, and Zoroastrians - and the status of those non-Muslim communities under Umayyad rule, and more broadly in early Islam, has been discussed continuously for more than a century. The role of non-Muslims within the Umayyad state has been, however,

largely neglected. The eight papers in this volume thus focus on non-Muslims who participated actively in the workings of the Umayyad government. This new Oriental Institute series - Late Antique and Medieval Islamic Near East (LAMINE) - aims to publish a variety of scholarly works, including monographs, edited volumes, critical text editions, translations, studies of corpora of documents - in short, any work that offers a significant contribution to understanding the Near East between roughly 200 and 1000 CE.
